Your Successful Residency Starts Here

Sabiston Textbook of Surgery: The Biological Basis of Modern Surgical Practice, 20th Edition

June 2016 | ISBN: 9780323299879 | \$270.00

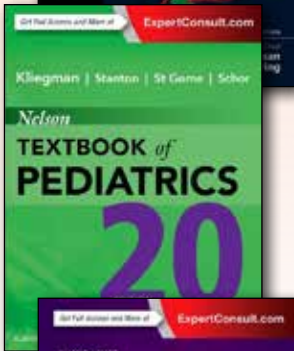

Meticulously updated throughout, this classic text concisely covers the breadth of material needed for certification and practice of general surgery.

Gray's Anatomy: The Anatomical Basis of Clinical Practice, 41st Edition

September 2015 | ISBN: 9780702052309 | \$310.00

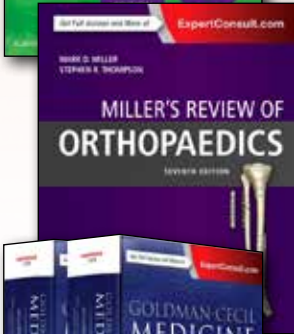

Remains the definitive, comprehensive reference on the subject, offering ready access to the information you need to ensure safe, effective practice.

Nelson Textbook of Pediatrics, 20th Edition 2 Volume Set

April 2015 | ISBN: 9781455775668 | \$230.00

This classic reference provides the essential information that practitioners and other care providers involved in pediatric health care throughout the world need to understand to effectively address the enormous range of biologic, psychological, and social problems that our children and youth may face.

Miller's Review of Orthopaedics, 7th Edition

December 2015 | ISBN: 9780323355179 | \$135.00

A must-have resource that residents and practitioners have turned to for efficient and effective exam preparation. This new edition continues to provide complete coverage of the field's most-tested topics.

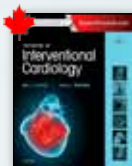

Goldman-Cecil Medicine, 25th Edition 2 Volume Set

April 2015 | ISBN: 9781455750177 | \$270.00

The world's most influential internal medicine resource. Offers definitive, unbiased guidance on the evaluation and management of every medical condition. The fastest and best place to find all of the authoritative, state-of-the-art clinical answers you need.

ELSEVIER

Includes online component.
Two Canadian contributors.

Textbook of Interventional Cardiology, 7e

Eric J. Topol, MD
Focuses on the latest treatment protocols for managing heart disorders at every level of complexity.

2016, ISBN: 9780323340380
Saunders, \$378.00
eBook download available

New edition.
Cover image not yet available.

The Washington Manual of Echocardiography, 2e

Nishath Quader, MD
The essential information you need to know to successfully perform and read echocardiograms, and identify valvular heart disease, cardiac myopathies, and congenital anomalies.

Due August 2016
ISBN: 9781496321282
Wolters Kluwer, \$108.95

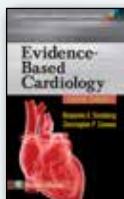

Includes online component.

Practice of Clinical Echocardiography, 4e

Catherine M. Otto, MD
Expert guidance on interpreting echocardiographic images and Doppler flow data and applying your findings to your daily clinical decision making.

2012, ISBN: 9781437727654
Saunders, \$350.00
eBook download available

Includes interactive eBook with complete content.

Evidence-Based Cardiology, 4e

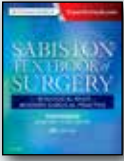

Benjamin A. Steinberg, MD
Succinctly summarizes all the clinical trials that affect the practice of cardiovascular medicine, making it easy for you to implement the most appropriate diagnostic tests and treatments for your patients.

Essentials for Residency

Tumor Board Review: Guideline and Case Reviews in Oncology, 2nd Edition

The second edition has been thoroughly revised to encompass recent scientific advances in assessment and treatment, new clinical guidelines, and new FDA-approved drugs and indications. It also contains approximately 250 multiple-choice questions and answers to assist readers in testing their knowledge, especially those preparing for the MOC exam.

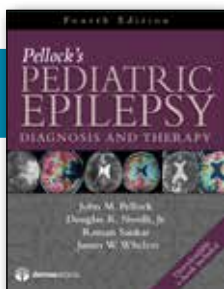

February 2015 • ISBN: 9781620700600 • \$147.50

Family Practice Guidelines, 3rd Edition

A comprehensive family practice resource for primary care clinicians, providing current national practice guidelines for a high-quality standard of care for patients across the life span in outpatient settings. It includes individual care guidelines for adult, child, pregnant, and geriatric patients, health promotion and dietary information, procedure guidelines, and comprehensive patient teaching guides.

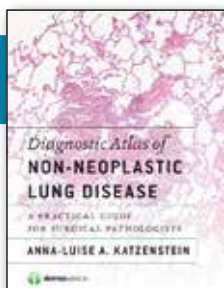

February 2014 • ISBN: 9780826197825 • \$134.50

Pellock's Pediatric Epilepsy: Diagnosis and Therapy, 3rd Edition

The gold standard for diagnosis, treatment, classification, and management of childhood epilepsies. With over 100 distinguished contributors from world-leading epilepsy programs, the long-awaited new edition maintains the breadth and scope the book is known for while significantly updating the science, practice, and therapeutic strategies that continue to move the field forward.

NEW! August 2016 • ISBN: 9781620700730 • \$368.50

Diagnostic Atlas of Non-Neoplastic Lung Disease: A Practical Guide for Surgical Pathologists

Provides the practicing pathologist with the tools necessary to synthesize diagnoses in biopsy and surgical specimens of non-neoplastic lung disease. In this heavily illustrated and concisely written book, Dr. Katzenstein, a leading authority in pulmonary pathology, has brought a pattern-based approach to formulating diagnoses in non-neoplastic lung diseases with the non-expert pulmonary pathologist in mind.

NEW! June 2016 • ISBN: 9781620700648 • \$234.50

The 5-Minute Clinical Consult 2017, 25e

Frank J. Domino, MD
Diagnosis, treatment, medications, follow-up, and associated factors for over 570 diseases and conditions, plus over 110 diagnostic and therapeutic algorithms.

Due May 2016, Wolters Kluwer:

Standard Edition (Print + 10 Day Web Trial Access)

Trusted Canadian Sources for Evidence-based Treatment Information

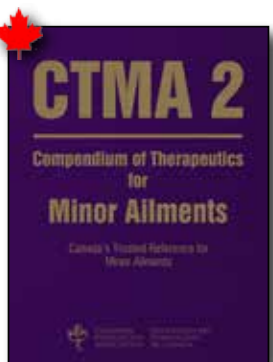

ISBN: 9781894402897
\$219.00

Compendium of Therapeutic Choices Seventh Edition (CTC 7)

CTC is a trusted Canadian source for evidence-based treatment information for all health care practitioners involved in therapeutic decision-making. Practical, bottom-line, clinical information covering more than 200 common medical conditions is referenced and organized in a concise format by therapeutic condition. Each topic includes decision trees (algorithms) and drug tables with relative cost and dosage information that support decision making in your daily practice. Chapters are written and peer-reviewed by expert Canadian physicians and pharmacists.

"The Canadian content of CTC is very important and is one of the primary reasons that I continue to buy CTC with each edition. It is not easy to find a resource for the busy primary care clinician that is focused mainly on Canadian content and which is both easily accessed and evidence based."

Dr. Joel H. Weaver, MD, CCFP, Dip Sport Med, Cert Care of the Elderly
Clinical Lecturer, University of Alberta—Department of Family Medicine
Medical Director, St. Michael's Health Centre
Zone Clinical Director Head, Seniors Health Co Lead
AHS, South Zone

Releases August 2016
ISBN: 9781894402965
\$279.00

Compendium of Therapeutics for Minor Ailments Second Edition (CTMA 2)

Completely updated and redesigned to meet the needs of your expanding scope of practice. *Compendium of Therapeutics for Minor Ailments (CTMA)* takes on a fresh approach to management and triage of minor ailments covering the full spectrum of therapy for over 140 conditions. This quick reference provides the tools you need to confidently assess and manage your patients' minor ailments.

Topics include:

- Pathophysiology
- Assessment and treatment algorithms
- Nonpharmacologic and pharmacologic therapy
- Illustrations and photos
- Drug tables, including brand names and relative costs of recommended therapies
- Outcomes monitoring
- Plain-language patient handouts

CTMA helps you empower your patients to participate in the management of minor ailments.
