LeWing With JBL Speakers On-Ceiling Introduction

Designed exclusively for the high-end video projection market, LeWing is a unique home theater solution that pairs a fully retractable, acoustically transparent screen with a control-independent, high-performance speaker system.

Screen Material And Masking System Features

- Patented tab-tensioning system ensures smooth surface
- Acoustically transparent fabrics and black backing layer
- Fully retractable system
- Control-independent speaker/screen

Speaker Casing Features

- Control of the speaker casing deployment
- L.C.R speakers (left, center, right)

Security Control

- Security belts

Speakers Key Features

	JBL1
Frequency Range	55 Hz - 40 KHz
Power Handling	100 Watts (each)
Sensitivity (2.83V/1m)	91 dB
Nominal impedance	8 Ohms

Warranty

Screen Research's warranty covers defects in workmanship and fabrics, provided screen has been installed in a normal environment and maintained according to the written instructions.

Surface fabric(s) and frame are guaranteed for five (5) years from date of installation, not to exceed 63 months from date of invoice.

Motors, motor controllers, and assembly hardware are guaranteed for three (3) years – including parts and labor – not to exceed 39 months from date of invoice.

LeWing With JBL Speakers In-Ceiling Introduction

Designed exclusively for the high-end video projection market, LeWing is a unique home theater solution that pairs a fully retractable, acoustically transparent screen with a control-independent, high-performance speaker system.

Screen Material And Masking System Features

- Patented tab-tensioning system ensures smooth surface
- Screen center-line can be easily adjusted into the casing
- New solid material for horizontal masking
- Acoustically transparent material for vertical masking
- Control-independent speaker/screen
- Fully retractable system

Speaker Casing Features

- Speaker casing motor inside the speaker casing itself
- Anti-vibration system
- Flush-mount system on the top speaker casing
- Control of the speaker casing deployment
- "Quiet blocks" for the speaker casing end of travel
- L.C.R speakers (left, center, right)

Trap door Features

- Flush-mount system for perfect screen in-ceiling
- Trap door can be easily adjusted (height, length, diagonal)

Security Control

- Switch control system not to shut the trap door by mistake
- Control-independent Trap door motors
- Security belts

Speakers Key Features

	JBL2	JBL3	JBL4
Frequency Range	50 Hz - 22 KHz	48 Hz - 40 KHz	70 Hz - 40 KHz
Power Handling	150 Watts (each)	200 Watts (each)	300 Watts (each)

A	2096mm	2502mm
B	2230mm	2636mm
C	2380mm	2686mm

Each bracket is attached to the ceiling with four 8 mm holes. There is one left bracket and one right bracket.

LeWing is attached to the brackets by moving first up, and then towards the back. Installation requires 40 mm of clearance in front of the LeWing's final position in order to allow this movement.

LeWing is secured by two M6x25 screws and two M8x20 (supplied).
