

# LIFTS, DOCKS and ACCESSORIES

Proudly made in Michigan since 1982

[www.lakeshoreproducts.com](http://www.lakeshoreproducts.com)

these interesting facts  
about michigan:

- A person is never more than 6 miles from a natural water source
- 26,857 inland lakes
- Over 36,000 miles of streams
- Over 1,000,000 registered boats
- Longest freshwater shoreline in the world

### Ten/Two Year Limited Warranty

LSP, Inc. (Seller) warrants the aluminum structure on docks and lifts of its manufacture to be free from defects caused by material or workmanship for ten years from date of purchase. Seller will, at its option, repair or replace any such goods found on examination by Seller to be defective under normal use and service. Upon discovery of any such defect, Buyer must notify Seller in writing of defect and provide proof of purchase. Seller warrants all other materials including cast aluminum parts, mechanical components, hardware, canopy covers, cables, bunks, etc for two years. Components obtained from other manufacturers and used in Seller's products will be covered under the manufacturer's warranty and shall not be the responsibility of the Seller.

Seller's responsibility under this warranty shall be the repair or replacement of defective items. Seller is not liable for incidental or consequential damages of any kind.

Seller shall not be held responsible for repairs or modifications to its docks or lifts unless authorization has been obtained from Seller. This warranty does not cover damage caused by incorrect assembly or adjustments, overloading, improper use, neglected maintenance, alterations, or damage caused by accident, environmental factors (chemicals, tree sap, salt, etc), or acts of God (rainstorms, windstorms, tornadoes, etc).

# this is way out

The sun's up, the temperature rises and it's a beautiful day.

But when the water rises, you want your boat to be safe. The LSV1364 will lift your boat way out of the water, keeping it safe, even when you are away.

## high & dry

When the water levels rise, and other boats are floating away, your boat will be high and dry.

## LSP VERTICAL PWC LIFTS

FINALLY, A PWC LIFT DESIGNED FOR FLUCTUATING WATER LEVELS

### 25" ALUMINUM WHEEL

Easy to use, powder coated in our signature red for a durable long lasting finish. Zerk fitting makes maintenance easier.

### HEAVY DUTY WINCH

We oversize all of our winches for extra safety and easy cranking. Durable zinc plating resists rust better than a painted winch.

### STAINLESS STEEL CABLES

Resist rust and corrosion.

### LSV1364

SEE PAGES 18-19 for a complete list of models and accessories.

### FULL LENGTH CARPETED BUNKS

Gently support your boat without damaging the surface. Fully adjustable to fit your boat.

### OVERSIZED PULLEYS

Design and Nylatron® material are gentle on cable for longer life.

### FULLY ADJUSTABLE LEGS

Conform to your lake bottom. Can also be removed in shallow water.

### 61" OF LIFT HEIGHT

Enables the boat to be cranked way out of the water in case of:

- water fluctuation
- high waves
- storms

Be sure to check out our website for information about our complete line of Lifts and Dock Systems, Owner's Manuals, Parts Lists and more.

# LSP VERTICAL LIFTS

FULL FEATURED LIFT FOR BOATS UP TO 5,000 LBS

## IMPROVED WINCH DESIGN

Gear ratio has been changed to make the lift easier to crank.

## FULL LENGTH CARPETED BUNKS

Gently support your boat without damaging the surface. Fully adjustable to fit your boat.

## STAINLESS STEEL CABLES

Resist rust and corrosion better than galvanized steel.

## V CRADLE DESIGN ON 3000 & 4000 LB LIFTS

Designed in a V style to cradle your boat and can be used in very shallow water. (The LSV20100B and the LSV50120B have a straight cradle.)

## LSV30108B

SEE PAGES 18-19 for a complete list of models and accessories.

## IMPROVED WHEEL DESIGN

41" diameter wheel extends further out over the dock, making it easier to operate and reducing interference with the canopy.

## REINFORCED MAINFRAME SPREADERS

Resists the damage caused by yearly installation and removal, and strong enough to sit directly on the bottom in shallow water.

## SOLID BRASS PULLEYS

Solid brass is expensive and worth it. Brass is the best combination of high strength and low cable abrasion. It will not corrode and lasts a lifetime. LSV20100B features brass on the front cradle only.

## NEW 36" ADJUSTABLE LEGS WITH PIVOTING PADS

Because lake bottoms are almost never perfectly flat.

The legs may be removed for shallow water applications.

get  
together

with family & friends

It's finally summer and you're ready to party. You don't want to spend a lot of time assembling and maintaining your lift.

Our vertical lift is designed to be **easy to put together, use and service.**

Capacities range from 2000 to 5000 pounds.

Visit our website for details on use in shallow or deep water.

# LSP VERTICAL PONTOON LIFTS

FULL FEATURED LIFT FOR PONTOON BOATS UP TO 5,000 LBS

## LONG V BUNKS

Help guide your boat onto the lift and gently support it without damaging the surface. Fully adjustable to fit your pontoons.

## STAINLESS STEEL CABLES

Resist rust and corrosion better than galvanized steel.

## IMPROVED WINCH DESIGN

Gear ratio has been changed to make the lift easier to crank.

## IMPROVED WHEEL DESIGN

41" diameter wheel extends further out over the dock, making it easier to operate and reducing interference with the canopy.

## LSV30120BP

SEE PAGES 18-19 for a complete list of models and accessories.

## UNDER DECK BUNKS

Also available with our Under Deck Bunks for lifting the boat by the deck. These lifts are our BPU models.

## NEW 36" ADJUSTABLE LEGS WITH PIVOTING PADS

Because lake bottoms are almost never perfectly flat. The legs may be removed for shallow water applications.

## SOLID BRASS PULLEYS

Solid brass is expensive and worth it. Brass is the best combination of high strength and low cable abrasion. It will not corrode and lasts a lifetime.

## REINFORCED MAINFRAME SPREADERS

Resist the damage caused by yearly installation and removal, and strong enough to sit directly on the bottom in shallow water.

summertime... and the living is **easy**

Summer at the lake. Time to relax and take it easy.

Our trailer type bunks make it **easy to dock your boat perfectly every time.**

By adding a canopy, you can eliminate the inconvenience of having to snap the mooring cover on.

# LSP CANTILEVER PONTOON LIFTS

THE BEST PONTOON LIFT FOR REALLY SHALLOW WATER

## NON MARKING ROLLERS

White polyester rollers gently guide your boat onto the lift without damage or marks.

## LSP21H

SEE PAGES 18-19 for a complete list of models and accessories.

## HEAVY DUTY WINCH

Heavy duty winch has greater strength and dependability than lightweight "trailer" type winches that other manufacturers use. New design allows winch to be positioned on either side of the lift.

## DOCKSIDE WHEEL DESIGN

Innovative design extends out 29" from the lift to allow easy cranking from the dock. The 32" diameter wheel is powder coated for a durable finish.

## FULL LENGTH CRADLES

Designed to evenly support the deck of your pontoon boat along the entire length. This protects your pontoon boat from deck fatigue.

Water too shallow for a pontoon lift?

Think again!

If you have shallow water and a sandy bottom this lift is ideal.

keep it  
simple

Life can be complicated.  
So keep your summer simple.

Using our Cantilever Pontoon Lift is the **simplest and least expensive way to secure your pontoon boat.**

# LSP FREESTANDING CANOPY

PROTECT AND COVER YOUR PONTOON BOAT WHEN NO LIFT IS NEEDED OR WANTED

## HEAVY VINYL COVERS

Strong 18 oz. vinyl comes standard in blue, grey or tan with a scalloped edge and white piping. Other colors available as special order.

## REINFORCED STRUCTURE

Four diagonal braces for extra strength and rigidity. These can be placed in different configurations to allow easy access to your pontoon boat.

## SECURELY ANCHORED

Augers securely anchor the canopy at four or six points so it stays put.

**24AF120FS**

SEE PAGES 18-19 for a complete list of models and accessories.

## CANOPY HAMMOCK

Provides lots of room to store skis, wake boards, life vests, tubes, toys, etc. Made of durable black mesh. Extremely easy installation.

Fits under any of our canopies.

enjoy  
your pontoon boat more

Ideal for the customer who doesn't want a lift but hates the hassle of the mooring cover.

This is the fastest and easiest way to get onto the water. It also allows you to use your pontoon boat as a patio extension to your dock.

# LSP CANTILEVER LIFTS

LIGHTWEIGHT INEXPENSIVE LIFT FOR SMALL BOATS

## FULLY ADJUSTABLE CARPETED BUNKS

Cradle and protect the bottom of your boat.

## FULLY ADJUSTABLE LEGS

Come standard on all of our Personal Watercraft Lifts. Longer length legs are available for deep water.

## 25" ALUMINUM WHEEL

Easy to use, powder coated in our signature red for a durable long lasting finish.

## HEAVY DUTY WINCH

Durable zinc plating resists rust better than a painted winch.

**LSC1576**

SEE PAGES 18-19 for a complete list of models and accessories.

lightweight  
& inexpensive

Perfect for sail boats, aluminum fishing boats, small outboards and large PWC's.

Here is a lightweight, inexpensive lift that will handle up to 1500 lb. and accommodate boats up to 76" wide.

## WELDED BUSHINGS

Provide extra reinforcement at pivot points, unlike drilled holes that can wear out.

## EXCLUSIVE PULLEY BAR DESIGN

One piece design works better than independent pulleys, results in longer cable life, and shields your boat from any contact with the cable.

# LSP CANTILEVER PWC LIFTS

MODELS TO FIT ANYTHING FROM A SMALL STAND-UP TO THE 3-PERSON, 4-STROKE UNITS

## HEAVY DUTY WINCH

We oversize all of our winches for extra safety and easy cranking. Durable zinc plating resists rust better than a painted winch.

## EXCLUSIVE PULLEY BAR DESIGN

One piece design works better than independent pulleys, results in longer cable life, and shields your boat from any contact with the cable.

## FULLY ADJUSTABLE CARPETED BUNKS

Gently support the bottom of your boat.

## FULLY ADJUSTABLE LEGS

Come standard on all of our Personal Watercraft Lifts. Longer length legs are available for deep water. Legs can be removed for shallow water.

## LSC1264

SEE PAGES 18-19 for a complete list of models and accessories.

## 25" ALUMINUM WHEEL

Easy to use, powder coated in our signature red for a durable long lasting finish.

## WELDED BUSHINGS

Provide extra reinforcement at pivot points, unlike drilled holes that can wear out.

## THE NEW LSC850

For 2 cycle/2 passenger Personal Water Craft. Also great for paddle boats and small sailboats!

## LSC850D

## LSC850

PWC lifts aren't just for PWC's anymore.

With three models to choose from, LSP has a PWC Lift for a full range of small boats as well as all sizes of PWC's.

increase your

# flexibility

Work days are made up of schedules and deadlines. Summer days should be more flexible.

Our PWC lifts are not only for Personal Water Craft, but they also have the flexibility to be used with small fishing boats, sailboats, paddle boats, canoes and kayaks.

We set the standard. Our lifts feature a distinctive design that is engineered for strength and dependability.

FOUR STYLES TO CHOOSE FROM – THE CHOICE IS YOURS

110 lbs\*

### vinyl

Open vinyl grating makes this dock cooler and lighter than solid vinyl. Anodized aluminum sides and a welded aluminum under structure gives strength and durability to this modern dock.

Available in 4' x 10' only.  
White, grey or tan.

We offer a 10 year guarantee on materials and workmanship on all our aluminum products.

Docks are available in 3' x 8', 3' x 10', 4' x 8' and 4' x 10'. 45° corner pieces are available for Cool Dock and Boardwalk styles.

Weight capacity: 800 lbs per 10' section / 1000 lbs per 8' section.

175 lbs\*

### boardwalk pine

The rustic appeal of wood with the advantages of an aluminum structure: lighter weight, longer lasting, and reduced warping. Treated Premium Southern Yellow Pine will look good for years to come.

130 lbs\*

### boardwalk cedar

The Cedar Boardwalk has all the same features as the Pine Boardwalk, with the added benefit of greatly reduced weight.

\* approximate dry weight of 4' x 10' section

### cool dock

90 lbs 4' x 10' section  
60 lbs 3' x 8' section

cool  
your heels ... and your toes, too!

Hot weather's fine. Hot feet... not so much.

Constructed of anodized welded aluminum, the Cool Dock stays cooler than plastic or wood.

It is extremely light weight, easy to install and built to last a lifetime.

Anodized aluminum will keep its clean look and is virtually maintenance free.

Will not turn black, rust, warp, or crack.

### Kids Love It!

Not only is it cool, but the treads are close together so your little ones won't catch their toes between the treads.

## DOCK CONFIGURATIONS

Docks can be arranged in almost any configuration that you can imagine. LSP has a full range of special components available to make layouts easier to design and build. Talk to your dealer about the design that is right for you.

<p><b>STRAIGHT</b></p>	<p><b>TYPICAL T</b></p>	<p><b>TYPICAL L</b></p>	<p><b>TYPICAL U</b></p>	<p><b>PLATFORM</b></p>
<p>2 Docks 2 Support Assemblies (Hidden or Standard)</p>	<p>3 Docks 3 Support Assemblies 1 T &amp; L Adapter</p>	<p>3 Docks 3 Support Assemblies 1 90° Crossarm w/posts or 1 leg hidden support</p>	<p>5 Docks 5 Support Assemblies 2 90° Crossarm w/posts or 1 leg hidden support</p>	<p>5 Docks 2 Support Assemblies 2 Trusses w/posts 1 Dock to Platform Connector</p>

### OTHER CONFIGURATIONS

## SUPPORT OPTIONS

Three styles of supports allow you to design almost any configuration.

STANDARD SUPPORTS

- Will support any dock configuration.
- Augers offer the most rigid support and can be used in any bottom condition.
- The posts can be used for mooring lines or accessories such as flag poles.
- Best for deep water or muddy bottom.

TRUSSES

- Will support multi-dock patios.
- Easy to install, lightweight.
- Available in 6', 8', 9', 12', 16'.

HIDDEN SUPPORTS

- Will support any dock configuration.
- Available in 3' and 4' widths.
- Uses our standard dock posts and castings for legs.
- Fastest installation.
- Clean look - no posts sticking up.
- Best for firm bottoms less than 6' deep.

Diagonal Brace Fore & Aft

End Cap

Sea Wall Adapter

T Leg Hidden Support

T & L Adapter

Dock to Platform Connector

Post Ratchet

Post Bumpers

Diagonal Brace Side to Side

Crossarm Clamp

Stringer Bracket

Auger

Mud Auger

Small Bottom Plate

Large Bottom Plate

Post Socket

Tee Connector

## POST HEIGHTS

We recommend you place your dock 18" above the surface of the water.

For Standard Supports remember to include all 4 measurements depicted below to select the proper post length. The Hidden Supports are designed so that the water depth is the only measurement needed to order the correct support.

## BOTTOM CONDITIONS

Different types of lake bottoms require different types of support.

Use the diagram below to decide which Bottom Plate or Auger is right for you. In hard sand or gravel you can use either a Hidden Support or Standard Support Assembly with any type of auger or bottom plate. In mud or silt the use of Standard Support Assemblies may be necessary to allow for deep and secure augering of the posts.
