# General Terms and Conditions of Sale

## Price and Terms of Payment

Terms are net, payable 30 days from date of invoice. All pricing in U.S. currency. The Buyer shall pay all sales, consumers, or other applicable taxes. A 1-1/2% monthly (18% annual) service charge will be added to the outstanding balance of all past due invoices.

Minimum invoice \$100.00. Zurn Industries, LLC ("Zurn") reserves the right to apply a minimum order charge in order to meet the \$100.00 minimum invoice requirement. All orders are subject to credit approval by the Zurn Credit Department prior to the acceptance of an order. Orders may be refused, delivery may be withheld, or shipment stopped in transit without any liability on Zurn's part at Zurn's sole discretion based upon Buyer's credit worthiness as determined by Zurn.

## Freight

Zurn is pleased to provide an industry-leading \$3,500 combined freight rate. Please see below for specific policy details.

All sales are F.O.B. seller's location. Zurn will allow full freight allowance when any of the following conditions are met: 1) any combination of Specification Drainage, Light Commercial, Commercial Brass or Wilkins orders of \$3,500 or more; 2) Linear Drainage and Chemical Drainage orders of \$5,000 or more; 3) any Combination of Specification Drainage, Light Commercial, Commercial Brass, Wilkins, Linear Drainage and Chemical Drainage orders of \$5,000 or more; 4) Zurn One Systems orders of \$7,500 or more; 5) fixture only orders totaling \$10,000 or more. This full freight allowance applies when the shipment is within the continental United States and has a single destination of a buyer's standard address or job location. Routing of shipment shall be determined at the sole direction of Zurn. Shipping dates are estimates and time of delivery shall not be of the essence of this sale contract. Under no circumstances will the Seller have any responsibility on account of any delays in manufacture, transportation, or otherwise. Terms of Export Shipment on application.

**NOTE:** Any product dimension larger than 92" or any single item weighing more than 3,500 lbs., shall be defined as an oversized and/or overweight product and Zurn's standard FFA terms may not apply. Please contact our customer service department for guidance on potential additional shipping charges.

These charges and restrictions apply in addition to Zurn standard terms and conditions for sale unless otherwise agreed upon by the parties.

## Limited Warranty

Zurn goods sold hereunder are warranted to be free from defects in material and factory workmanship for the period of time from the date of purchase: AquaVantage® Flush Valves, AquaFlush® Flush Valves, Commercial Fixtures, Faucets, Showers, and Tubular Brass three years; Chemical Drainage, Linear Drainage, Light Commercial, Specification Drainage, Zurn Wilkins, and Flush Valve and Tubular Brass decorative finishes one year. Where permitted by law, **THE IMPLIED WARRANTY OF MERCHANTABILITY IS LIMITED TO THE ABOVE IDENTIFIED PERIOD OF TIME AND SHALL BE LIMITED SOLELY TO THE REPLACEMENT OF THE DEFECTIVE GOODS.** A damaged/broken test cock or ball valve is not considered defective. Please contact Zurn Customer Care for assistance.

Zurn will replace goods at no cost that prove defective provided Zurn is notified in writing of such defect and the goods are returned prepaid at the specified Zurn location with evidence that they have been properly maintained and used in accordance with instructions. **ZURN SHALL NOT BE RESPONSIBLE FOR ANY LABOR CHARGES OR ANY LOSS, INJURY, OR DAMAGES WHATSOEVER, INCLUDING, BUT NOT LIMITED TO, INCIDENTAL OR CONSEQUENTIAL DAMAGES.** The sole and exclusive remedy shall be limited to the replacement of the defective goods. Before installation and use, the purchaser shall determine the suitability of the product for his intended use and the purchaser assumes all risk and liability whatever in the connection therewith. All weights stated in Zurn catalogs and lists are approximate and are not guaranteed.

## Returned Goods

Standard cataloged material may be returned only with written permission of Zurn. Returned goods are subject to a 25% restocking charge of total saleable material returned, plus cost of reconditioning, if necessary, to make material sellable. Transportation charges are the responsibility of the Buyer. Credit allowance will be in the form of merchandise credit only – not cash credit. The value of the return must total at least \$100.00 to qualify for credit allowance. No credit will be allowed for parts unless originally ordered and invoiced as parts. No credit will be allowed for discontinued or made-to-order items. Items that have been specially made are not subject to return or cancellation except by special negotiation. Material must be returned within one year of invoice date for credit to be issued for Chemical Drainage, Linear Drainage, and Light Commercial. Material must be returned within two years of invoice date for credit to be issued for Commercial Fixtures, Flush Valve Products, Specification Drainage, Tubular Brass, and Zurn Wilkins. No credit is allowed for Linear Drainage products that have been cut and Specification Drainage product with auxiliary tappings. Flush Valve material over two years old will be subject to a 50% handling charge. Flush Valve material over five years old will not be accepted. Light Commercial and Specification Drainage galvanized material will be credited at value of Dura-Coated cast iron, and chrome plated at value of bronze. Zurn Wilkins damaged/broken test cocks or ball valves are not considered defective.

## Illustrations of Typical Installations

The typical installations for various products found in each product section are intended to illustrate the products and potential options for the use of these products. Under no circumstances are they to be construed as recommended installation procedures. Consult local codes and project specifications for proper installation instructions.

## Shortage/Damage Claims

Notification of material shortages or incorrect filling of orders must be made to Zurn within 10 days of receipt. No claims over three months old will be honored. Buyer agrees to make all complaints for damage in transit or "short count" directly to the carrier; before the contents are unloaded have the carrier agent's acknowledgment of such damage noted on the bill of lading and to present to the carrier its agent's acknowledgment of such damaged material with formal claim covering said damage.

## General

Zurn reserves the right to make changes in design or equipment of any item or product without incurring any obligation on previously sold items, and to discontinue items at any time, without notice. Possession of this Catalog or other sales literature is not to be construed as an offer to sell. All orders are subject to acceptance by Zurn. Catalog printed in U.S.A.

Zurn flush valves are designed to comply with Army Corp of Engineers and Naval guide specifications, Military Specification MIL.V.29193 and Federal Specification WWP541.

## Z1348-BFP – Wall Faucet

- Light commercial/residential exposed, non-freeze, dual hot and cold wall faucet with an external, automatic draining backflow preventer. It is ideal for applications such as residential homes, apartment complexes, gas stations, convenience stores, strip malls, churches, and other light commercial applications.
- To assure drainage, turn faucet handle to close position and detach hose from spout during freezing weather. If hose is left attached, the frost-proof hydrant cannot drain properly and trapped water may freeze and damage the hydrant.

## 3" x 4" Closet Flange and Wax Ring Replacement Seal

### • Leakless Toilet System

**Flo-Bowl Leakless Toilet System** is a revolutionary new drain system that will forever eliminate the need for a wax ring on your toilet system (Figure 1).

Until now, consumers have had to rely on wax rings. Wax rings leak for various reasons, and when they do, it can cause severe floor damage and results in costly repairs.

**Flo-Bowl Leakless Toilet System** consists of three components (Figure 1). The first component is the toilet adaptor and sealant. This first component bonds to the drain or the horn of your toilet (Figure 2). The adaptor then passes through the second component, the rubber V-Ring seal. This second component creates an air, as well as water tight seal with the adaptor (Figure 3). The rubber V-Ring seal is seated into the third component, the floor flange (Figure 4). The Flo-Bowl floor flange will adapt to both 3- and 4-inch plastic waste pipes. In the event the waste pipe is cast iron, a rubber boot will be needed for installation.

### Flo-Bowl Benefits

- Lifetime guarantee
- Made in the U.S.A.
- System guaranteed not to leak
- Easy to install
- UPC, IAPMO, and CSA approved
- Available in PVC and ABS
- Not sensitive to temperature
- Reset toilet as many times as needed
- Johnnie bolts will stand up in flange
- Ease of inventory within one package accommodates 3" [76 mm] or 4" [120 mm] pipe
- No possibility of second story floor and ceiling damage if Flo-Bowl is installed correctly

## CF2991 – ZURN FLO-BOWL™ JR.

## Wax Ring Replacement Seal

- Installs In Less Than 60 Seconds!

**Flo-Bowl Jr.** is a direct replacement of the wax ring seal on the bottom of your toilet. Flo-Bowl Jr. will eliminate forever the possibility of water damage to your bathroom floor and/or to the ceiling below if installed on a toilet in an upstairs bathroom.

Flo-Bowl Jr. is a single piece of PVC plastic with a factory 3- or 4-inch multi-ribbed rubber seal on the lower part of the horn adapter, and a non-hardening, instant adhering, rubber sealant ring on the top portion of the horn adapter (**Figure 1**). The multi-ribbed seal arrangement provides more than one point of contact on the inside of your waste drain pipe to compensate for

irregularities on the inside of the pipe. The adhesive ring is flexible; this allows it to conform to the irregularities on the bottom of the toilet. Flo-Bowl Jr. will adapt to both 3- and 4-inch waste pipes.

The combination of the horn adapter, multi-ribbed seal, and the instant non-hardening adhesive totally eliminate the possibility of water leakage, and subsequent property damage, or the escape of harmful sewer gases that form inside of your waste drain pipe.

#### Flo-Bowl Jr. Installation Instructions

1. Turn off water at shut-off valve. Flush toilet to remove all water. Unbolt the toilet from the floor and disconnect water line. **Carefully** lift the toilet off the floor and place on its side.
2. Remove all foreign matter from area around toilet horn (waste hole) as well as the floor flange. This includes wax ring, dirt, oil, etc. **Note:** Surface around toilet horn must be clean, dry, and residue free. This will ensure a good bonding.
3. Once toilet horn area has been cleaned, position the Flo-Bowl Jr. over the toilet horn and apply firm pressure to ensure a good bond (**Figure 2**).
4. Now carefully lift toilet (be sure not to bump Flo-Bowl Jr.) and reposition toilet over mounting bolts. Lower toilet so that bolts pass through mounting holes (**Figure 3**). Bolt toilet down and reconnect water line.

#### Flo-Bowl Jr. Benefits

- Lifetime guarantee
- Made in the U.S.A.
- System guaranteed not to leak
- Easy to install
- Not sensitive to temperature
- Reset toilet as many times as needed
- Works where double stacking of wax rings was necessary
- Flo-Bowl Jr. packaging for 3" [76 mm] or 4" [120 mm] applications
