

List of courses in the spring semester 2020-2021

This list has been compiled for exchange students' use. Incoming exchange students will be given access to courses from any department, both at bachelor and master level, provided that they have the necessary prerequisites and do not have time-table clashes.

If you decided to participate in the in-person exchange programme at Luiss you must attend some lessons on campus, although most lectures and tutorials will primarily be conducted online. Further information about this will be provided on the Luiss app and on the Luiss schedule.

Over 50% of classes held on campus, new scheduling options and new spaces open to all, seven days a week for the entire student body and staff to take advantage.

In fact, incoming undergraduates and single cycle students will be able to count on 70% of lessons on campus, while second-year students will be guaranteed 50% of lessons in classrooms. Nonetheless, all classes will be live-streamed, for those abroad or choosing to join remotely, synched for maximizing classroom interaction, as if they were right on campus.

Classes have been rescheduled to optimize common areas and diminish crowding, to assure enhanced security and an elevated student experience. All classrooms will be outfitted with new interactive tech and tools for team collaboration, including digital white boards equipped with 4K webcams and a matrix of 12 microphones to allow for proper voice amplification to reach those seated even in back of the classroom. Students will be able to reserve the studios and digital stations to work on group projects with just a click on the Luiss platform.
