- Make a light pencil mark from the first tic mark to the second one and then another pencil mark from that one to the third one. Cut on those lines to form the V-shape.
- On the flap that you just made, use the 2 5/8" circle die from the layering circles dies to cut a circle out of the center of the flap, centering from the score line to the point of the flap.
- Attach the flap to the card base back on the left side with liquid glue.
- Punch out the white strips with the border punch and align and glue one strip at a time with the scallop edge showing on the edges of the V-Shaped flap.
- Glue mat of DSP to Basic Black CS mat and let dry.
- Punch 2" circle out of post it note to use as a marker to punch a circle out of the mat you just made (after it is completely dry to prevent glue getting on your punch).
- After dry, turn mat over and place it on top of flap, lining up the card. Then place the post it note inside the circle onto mat through the flap circle and make sure it is lined up. Remove and punch the circle out of the mat with the 2" circle punch.
- Nest the 2 7/8 " circle with the 2 3/8" circle and cut out of gold foil paper. Glue around flap circle cut out.
- Nest the scallop circle and the plain 2 3/8" circle together to punch out the border for the flap circle, out of black cardstock, then glue onto card flap around circle
- Place the white inside mat on the inside of the card and make a faint pencil mark circle lining up with the DSP mat circle and the card flap.
- Remove the inside white mat and stamp image of ladybug in center of circle on the white mat . Then stamp the Happy Birthday and the flower. Color in the ladybug and flower with the blending markers.( I used the dark black marker to go over the dots on the wings and then the wink of Stella to color over the black dots of the ladybug's wings to add some bling. I also made a small light real red dot on the lady bugs cheeks to make them pop). After images are dry, erase the pencil circle with a good eraser.
- Glue white mat inside card aligning the ladybug image with the cut- out circle.
- Glue a 3/4" x5 1/2 " strip of DSP down inside layer if desired.
- Punch out 4 of the yellow flowers from the medium Daisy punch and 6 of the green sprigs and place around the border of the front of the card. The green sprigs are too big, so you have to trim off some of the leaves to make it look nice. Note: I used 2 of the flowers for each flower and a stylus to make the metal more 3D by going from the center of the flower down each petal. When they were curved like I wanted them, I turned the flower over and used the stylus to punch down the center of the flower, making the petal curve down. I then added one of the pearls to the center of the flowers with some liquid glue.
- Then add your sentiment to the card on either the top or bottom with dimensionals.
