AN INTRODUCTION:

We have 21 years experience building live bottom hauling solutions.

2020 marks 21 years of manufacturing live bottom trailers at Trout River Industries. Since our first build in 1999, it has been our mission to provide innovative product solutions that help our customers make more money.

Whether you're in road building, waste hauling, agriculture, or any type of bulk material transport, our innovative trailers are what you need to increase safety and productivity.

A GLIMPSE AT OUR HISTORY: 1999–2020

INNOVATIVE PRODUCT SOLUTIONS

The Trout River Promise:

We promise to manufacture trailers with quality, strength and reliability second to none.

3. INCREASED CAPACITY

Trout River is pleased to introduce the latest addition to our live bottom trailer bulk hauling solutions, the Hycube.

INCREASED PAYLOAD

The new Hycube will enable customers to haul more volume, increase their payload and make more money. Whether you're hauling mulch, woodchips, green waste, hog fuel or wood pulp, the Hycube will love it.

PROVEN TECHNOLOGY

The Hycube trailer continues to benefit from much of the proven technology that has made Trout River the live bottom leader, including the strongest conveyor on the market.
