about us

We are proud of our artistic vision, extensive technical training, and two beautiful locations we created for your enjoyment. However, when we get the chance to talk about ourselves, we like to start with the values we share as a group and why we are here to serve you.

values

You probably agree that it is best to work with people who share similar values. If they have the potential, we can develop good people into exceptional stylists and service providers. On the other hand, it is nearly impossible to teach even the most gifted stylist how to be a good person. By focusing on strong values, DOLCE VITA has been able to bring together an amazing team of talented, caring, hardworking, people to make a difference in your life.

policies

Although we make every effort to eliminate surprises, prices are subject to change from time to time. If you're at all concerned, please confirm when booking your appointment. 24 hour cancellation notification is required on all services, 48 hours for all bridal services.

hair design

Our hair stylists at DOLCE VITA AT TYSONS GALLERIA utilize the five basic elements of good hair design when shaping your new look: proportion, balance, rhythm, emphasis, and harmony. By incorporating these basic principles we create hairstyles that look fabulously stylish and suit your features, hair type, personality and lifestyle.

facials

CLASSIC

A "balanced approach" facial for all skin types, includes a pore cleanse, gentle exfoliation + hydrating mask. Promotes a clear, smooth and bright complexion. (60 MINS) 129

DEEP HYDRATING INFUSION

For unparalleled hydration and a radiant glow, the skin is infused using Ultrasonic Waves with hyaluronic serum, antioxidants, vitamins, and minerals. Promotes a softer well-hydrated skin while erasing fine lines (60 MINS) 159

VITAMIN C BRIGHTENING

A powerful age-defying and brightening facial designed to delay the visible signs of aging and energize the skin. Formulated with marine and vegetable ingredients (vitamin c concentrate, algae biomatrix patches, and the thermal organic mud). (60 MINS) 159

ADVANCE CORRECTIVE PEEL TREATMENT

This treatment is a medically-exclusive clinical treatment for comprehensive texture refinement and discoloration improvement. This customizable treatment is a concentrated blend of alpha hydroxy acids. (60 MINS) 150

BACK "FACIAL" TREATMENT

Specifically designed for deep cleansing the back, this treatment is beneficial in cleansing those tough-to-reach spots while addressing a variety of skincare needs such as clogged pores, back acne and dry skin. The cleanse is followed by gentle exfoliation, extractions and a custom mask. Its concluded with a relaxing massage strokes application of a special moisturizer. (60 MINS) 129

facial "add on" enchantments (15 min)

THESE "ADD ON SERVICES" CANNOT BE BOOKED ALONE

microcurrent 50

Lifts and tones skin. Like muscles on our body, our facial muscles lose firmness over time contributing to signs of aging. The microcurrent has a low level electric currents that tone the muscles of the face, releases lactic build- up, and releases tension in the tendons. The result is a literal lifting and toning of the skin.

red led light 50

Brightens and smooths fine lines. This healing light penetrates down to the cellular level, stimulating collagen and elastic fibers. The light also helps to correct any sun damage leaving your skin with a radiant glow.

eye treatment 50

Immediately reduces signs of fatigue, dark circles and puffiness. Gentle exfoliation works to reduce the appearance of fine lines while a facial massage will release tension and stimulate circulation to reduce dark circles and de-puff tired eyes.

Dermaplaning 50

Dermaplaning is a physical exfoliation procedure. It's carried out with the use of a sterile, surgical scalpel to gently "shave" the skin's surface which removes dead skin cells and vellus hair, aka peach fuzz. It will trigger the cell regeneration process and helps reduce scarring due to acne and hyperpigmentation. You'll immediately witness the results on your skin with silky and healthy glow.

Microdermabrasion 65

A minimally abrasive type of exfoliation, Microdermabrasion uses a vacuum like instrument that gently sands the skin thereby removing the thicker and uneven outer layer of the epidermis. It also promotes the production of collagen, which results in a younger looking complexion. Collagen is a protein in your skin that's abundant when you're a child and declines in production as we age, resulting in looser, uneven skin. Microdermabrasion is used to treat light scarring, discoloration, sun damage and stretch marks.

Basic Peel 30

A chemical peel that improves the appearance of the skin on the face, neck or hands. It improves skin texture and radiance while diminishing fine lines and wrinkles. A Peel can help reduce acne blemishes and prevent future breakouts. Peels are also known to even out skin tone as well as lightening dark spots.

waxing

benefits of hard wax

If your priorities are quick and painless, hard wax is for you. Quick and much less painful than the traditional strip wax. Once the wax cools, it hardens and shrink-wraps the hair, slightly lifting from the skin. This allows the wax to grab onto the hair rather than the hair and skin.
