9:00 AM - 10:30 AM	Cortisol Replacement Options Kim	
10:45 AM - 12:00 PM	Living with a Chronic Illness Gillett, Hadley & Werley	
12:00 PM - 1:30 PM	LUNCH	
1:30 PM - 2:45 PM	Pituitary 101 Weber	
3:00 PM - 4:15 PM	Pituitary 201 Katznelson	

Cortisol Replacement Options

Dr. Kim will discuss various medication options dealing with AI for both Cushing's patients and those who deal with AI due to Panhypopituitarism. She will include the new longer acting hydrocortisone and the adrenal pump.

Living with a Chronic Illness

Dr. Gillett and therapists, Dan & Brinkley, will help us learn to live with our chronic illnesses. When the whole world (including your own body) is out to get you, it's easy to build up walls and push everyone away. Come explore with us how to create the peace, hope, happiness and healing necessary to let supportive connections back in.

Pituitary 101

Dr. Weber will cover Pituitary 101... the basics

Pituitary 201

Dr. Katznelson who will cover Pituitary 201 that will go more into detail how our bodies use the different hormones & how it can affect the disorders of AGHD, PAN & Cushing's.

SATURDAY

	ADULT GHD/ ADULT PANHYPOPITUITARISM (AGHD/PAN)	CUSHINGS (CUSH)
9:00 AM - 10:30 AM	Fertility TBD	Cushing's 101 Katznelson

1:30 PM - 2:45 PM	Defeating Depression Getch	
3:00 PM - 4:15 PM	Discovering Joy in Family Life! Gillett	

Fertility

AGHD/PAN group will have a speaker on the topic of fertility who will cover issues with both males & females. We will leave a full 1/2 hour at the end for questions, as I am sure there will be many.

Cushing's 101

Dr. Katznelson who will discuss our journey... from early symptoms to diagnosis to surgical or medical treatment. He will discuss the confusing journey a Cushing's patient can face, touching on familial/genetic causes and cyclical disease and the role the pituitary and adrenal glands play.

Updates on Long Acting Growth Hormone

Dr. Miller will cover what is happening in the world of long acting growth hormone. While these products are not yet available, he will cover the newest revelations on the future treatment options & update us on the status of the studies.

Surviving Cushings

Dr. Middleman, who is a Cushing's Disease survivor, joins us to share her journey through diagnosis and recovery. She is the author of "How To Have Fun With A Brain Tumor" and "Psychiatric Issues with Cushing's Disease". She has counseled many Cushing's patients and remains active in the Cushing's community.

Defeating Depression

Dr. Getch will speak to us on Defeating Depression. This is a topic I am sure we can all get behind.

Discovering Joy in Family Life!

Dr. Gillett and therapists, Dan & Brinkley, sharing a motivational session with us... one to leave us with high spirits & hope for our future. This session is open to all attending the convention (including pediatric group too).

This adult program will be held in conjunction with our pediatric program. We know this is not ideal for everyone but our reason was to help keep the costs down and be able to offer this program at an affordable price for affected adults and their guests.

On Thursday during registration and exhibits it will be a ballroom full of exhibitors that pertain to both pediatric and adult patients. You will see kids in the hotel, and especially the ballroom, but the adult program will be run completely separate after that on the “quieter side of the hotel”. There will be one joint session at the end of the day on Saturday. You may also see a couple parents attending the adult segments as they may have children that are transitioning from child to adult therapy and want to learn about what to expect in the future.

Registration cost for this program will include breakfast and lunch for both Friday and Saturday. On Friday evening we thought it would be nice to have the adult group attend an off site dinner. MAGIC will make your reservation at Buca di Beppo for the amount of people that sign up, but payment of the bill will be on your own. We thought this would be a nice option because dinners at the hotel for small groups are very expensive. This way you can pay for what you eat. So if you just want an appetizer and water, you are not being charged a lot of money for a full dinner. For Saturday evening it will be a pizza party (assorted pizzas, salads, mac and cheese and dessert), but will only be the affected adults and their guests. We hope you can understand why we planned the programs together.
