HARRISVILLE DESIGNS YARN

GEMINI FIBRES is a dealer for the Harrisville yarns. These are fine quality wool yarns suitable for use in weaving and knitting projects. Harrisville Designs specialize in spinning 100% Virgin Wool yarns and their yarns are dyed in the wool. Yarn colours are achieved by blending up to four different colours of dyed wool. The Highland and Shetland are available in 64 colours from the brights and vibrant colours to subtle heathers. At present we stock the Highland & Shetland on cones in 64 colours. In July of 2010 Harrisville discontinued several colours and added 22 new colours. A 40% discount is offered on all discontinued highland and Shetland cones remaining in stock.

We stock some colours in skeins in both the Highland and Shetland style yarns. Highland style skeins are prewashed and fulled after spinning, so they will be soft, clean and fluffy, ready to knit. Any of the other yarns are available on an order basis and delivery is 2 - 3 weeks. No minimum required.

DISCOUNT: A special discount of 20% off retail price on Harrisville yarn orders of \$300.00 or more is offered.
A 40% discount is offered on all discontinued colours remaining in stock.

Sandalwood (<i>ground Ratanjali</i>) A sought after fragrant wood for incense. Yields various shades of Bronze, soft golden apricot and peachy tones.	\$13.20/100g
MORDANTS: Keep away from children. Always wear gloves, such as dishwashing gloves, when working with any mordant.	
Alum Use at 25% of fabric weight (less if dyeing a light tone)	\$3.00/100g
Citric Acid (Food grade-this is Vitamin "C" powder)	\$6.95/oz
Copper Sulphate ("Blue Vitriol") Can be used as a pre-mordant (½ oz/lb of fabric (3%), or as an after- mordant modifier, where you leave it to soak & take it out when the colour has changed "to taste".	\$2.95/oz
Cream of Tartar	\$4.00/oz
Iron (<i>ferrous sulphate</i>) ("green vitriol") Iron after baths can take yellow or gold & turn it to a soft green. Reds to burgundies, pinks to plums, & any tannin source (weed or bark) can be used to make greys, just by adding iron. Usually used as an after-mordant modifier, where you just watch the colour & when it has changed "to taste", rinse it. If used as a pre-mordant, ½ oz/lb is the ration (3%).	\$2.95/oz
Oxalic Acid (best acid to brighten Cochineal Scarlet)	\$6.95/oz
Sodium Dichromate	\$3.95/100g
Tannic Acid (<i>beige base for cotton dyeing</i>)	\$7.50/50g
Tin Use at ½ oz/lb of fabric (3%) Save & reuse bath by adding ¾ of the amount next time (assume ¼ of what was added originally is still there). Cream of Tartar may be added to the mordant bath (10 %) to buffer the Tin, which can be somewhat acid, & to soften wool.	\$4.25/oz

WORKSHOPS

Workshops are offered in fibre related topics, taught by qualified instructors and held during the spring and fall at Gemini Fibres. Please contact us for our current class schedule and topics offered.

FORRESTER SPINNING TOOLS

We have been very fortunate to find a talented woodworker right in our own back yard. Tom Forrester is producing all of the following products exclusively for Gemini Fibres in Canada. They are exceptional quality in both the materials and the workmanship. Tom's love of the craft shows through in the end product. All tools are unique, hand-turned, no two alike, using domestic and exotic woods. Imported woods are purchased from suppliers who deal only with wood sources that are environmentally certified and well managed, sustainable forest wood producers.

Plying Template: used to keep singles separated while plying. Triangular has 3 holes/Oval has 4 holes	\$6.95
Pyrography Spindle Series: In keeping with Tom's passion for beautiful and unique spinning tools, he has designed a variety of exquisite hand spindles in which he has used a special tool to "burn" designs (pyrography) into the whorl. Each design has a minimum of 600 free-hand, burn strokes to create this effect. Due to the individual handwork required to create these designs they are made in limited quantities.
