Alcohol & Other Drug Abuse Treatment Services

October 2013

Maine Alcohol & Other Drug Abuse Treatment Services

This directory provides a list of alcohol and other drug abuse treatment services available in the State of Maine. Detailed information on these agencies and their services, as well as the most recent changes and updates to the information provided here, is available from the online directory at <http://www.maineosa.org/help/directory.htm>.

If you do not have access to the web, the Information and Resource Center can print the information you need.

A separate directory of self-help and support group meetings is also available.

Treatment Agencies: Please notify the Office of Substance Abuse and Mental Health Services of any changes to your listing. An **online change form** is available at www.maineosa.org/directory. Helping us provide accurate and timely information will promote continued quality service for people throughout the State of Maine.

Maine Alcohol and Other Drug Abuse Services Directory

Find Treatment Agencies, Prevention Programs and more on the SAMHS web site!

This online searchable directory is the most **up-to-date** listing of substance abuse treatment agencies and programs.

www.maineosa.org/help/directory.htm

Click on “**Online Searchable Directory**” then choose either:

Provider Name Search

Look up a single agency by entering its name.

(If only a portion of the name is known, enter what is known.)

Program or Service Search

Search by type of program (Select: DEEP, Prevention, Co-Occurring Disorder, or Treatment.)

Enter desired criteria

Note: To see a list of all agencies, do not select any criteria. Simply click on “Go”

Questions? Contact:

Milestone Extended Care	Old Orchard Beach	Men	Sliding fee	207-934-5231

Appendix A

Types of Treatment Services:

Co-Occurring (Integrated) Treatment:

Many individuals who have been diagnosed with a substance abuse disorder also have co-occurring mental health conditions and/or diagnoses. Agencies that provide co-occurring or integrated treatment provide treatment that addresses both issues at the same time and following the same track, not treating them as separate diagnoses.

DSAT (Differential Substance Abuse Treatment):

DSAT is a treatment program designed to reduce substance abuse and related criminal behavior within the Maine offender population. This treatment is an evidenced based practice that addresses the different needs of men and women in substance abuse treatment, but also the individual level of substance use severity. This model can be used in institutional and/or community outpatient services.

Detoxification “Detox”: ASAM Level III 7-D

A "detox" may be a hospital based or outpatient program that helps stabilize people who are experiencing withdrawal from alcohol or other drugs. These programs provide evaluation, observation, medical monitoring, and addiction treatment in a short term inpatient setting.

Detoxification Management:

This service includes a call center and coordination of services provided by Aroostook Mental Health Center (AMHC) for individuals looking for a “detox” program in the northern Maine region. This service includes a central access point where individuals call and AMHC helps to access a “detox” bed in various hospitals in the Region III area (Aroostook, Hancock, Penobscot, Piscataquis, and Washington Counties.)

Emergency Shelter:

This service provides food, lodging, and clothing for individuals who abuse alcohol and other drugs, with the purpose of helping people enter alcohol and drug treatment. Shelter services are provided at least 12 hours per day, with some shelter services providing 24 hour care. Services include referrals for detoxification, arrangements for needed health care services, transportation, and help with coordinating care.

Extended Care: ASAM Level III.3

Extended Care provides a residential treatment program for more than 180 days to individuals with extensive substance abuse or co-occurring substance abuse and mental health conditions. This service includes a structured environment where substance abuse treatment is provided along with life skills training, relapse prevention, and the development of a social network that supports recovery.

Halfway House: ASAM Level III.1

Halfway house is a residential program that provides less intense treatment services as compared to residential or extended care services to support recovery from substance abuse. It is designed to improve the individual's ability to structure and organize daily living and recovery. Services include assessment, group/individual/family counseling, life skills, employment preparation, transportation between programs and coordination of services.

Intensive Outpatient Services (ASAM Level II.I)

These services are located at an agency office and provide intensive and structured substance abuse treatment, three to four days a week. The programs usually last three or four weeks and may be conducted during the daytime or in the evening.

Outpatient Services (ASAM Level I)

These services are located at an agency office and provide individual, group, and family sessions, usually for an hour or ninety minutes once a week.

Medication Assisted Treatment for Addiction:

Opioid Treatment Program (OTP) - Under medical supervision for maintenance or detoxification, OTP clinics administer opioid agonist medication (such as Methadone), monitor dosages, and provide counseling to people with a dependence on heroin or prescription opioid medications.

Other: Some other forms of Medication Assisted Treatment used for detoxification and/or long term treatment are medications including, but not limited to, Suboxone, Buprenorphine, Subutex, Vivitrol, and Antabuse which are prescribed medications by a physician in an inpatient or outpatient setting.

Residential Rehabilitation: ASAM Level III.5

Residential rehabilitation services are designed to treat persons who have significant social and psychological problems. The goals of treatment are to promote abstinence from substance use and enhance participant's lifestyles, attitudes, and values. For placement in this level of service an individual would have multiple challenges, which may include substance related disorders, criminal activity, mental health problems, and impaired functioning. There are different levels of intensity of services provided based on individual need and some specialized residential rehabilitation programs exist to treat just adolescents, and some programs exist that provide treatment just for women.

APPENDIX B

Maine Telecommunications Relay Service (MERS)

All callers can reach the Relay Service by dialing 711 (V/TTY).

For faster service dial direct:

CapTel Calls (to reach a CapTel user): 1-877-243-2823

Speech to Speech Calls: 1-888-890-9256

Spanish to Spanish Calls: 1-888-890-9255

The Maine Relay Service of the Maine Center on Deafness is available 24 hours a day, every day, to provide a communications link between those who use a standard voice telephone and those who use specialized telephone equipment or assistance because they are D/deaf, Hard-of-Hearing, or have a speech or physical disability that prevents use of a standard telephone. There is no extra charge for the relay service.
