ART INSTALLATIONS

Flaming Lotuses (*FL*)

3-4' wide lotuses cut out of thick sheet metal, complex multiple layers of graceful petals curving inward and upward to reduce sharp surfaces present or exposed and create amazing interleaving patterns. Anchored 6' above the ground on rebar pedestals (and staked), the middle of these flowers will light aflame using LPG. The unfolding lotus embodies the endless Ocean of Creation. The resplendent and fiery sun god Ra rises from the blue lotus, the abyss of the chaos.

Buddha (*B*)

Sapphire Portal Outline (*SP*)

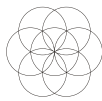

The Sapphire Portal Center is composed of 3 nested geometric shapes based on the Earth's energetic form: the dodecahedron, the icosahedron and the icosidodecahedron. The Sapphire Portal will provide an environment for personal evolution and facilitate a participation in the transformation of the Earth's energetic pattern.

Silent Journey The Labyrinth (*SJ*)

Dreamers are encouraged to walk the "silent journey" of the labyrinth, or come and watch someone else walk to the center of their soul, as extra space is provided around the circumference for observance.
