### CHALLENGE 'ROCKING THE CATWALK'

In 2016 we heard the "Doves Cry" as we said goodbye to Prince and David Bowie. With the passage of rock and roll's royalty, we remember their inimitable talent and flamboyant performances. A large part of this stage persona was expressed through wardrobe. "Fashion" came with something

as simple as a "Raspberry Beret", "Pink Cashmere" or "Diamonds and Pearls" while constant "Changes" became the intrigue into their "Fame". Whether the elements predicted a "Purple Rain" or a bit of "Ziggy Stardust"... they came prepared! So get into that little "Red Corvette" and "Let's Dance"! Your challenge is to take inspiration from a song written and performed by either of these rock icons and create a runway ready, classic ensemble for a fashionista making her debut on the catwalk!

**See this years' design competition in full swing** as work is performed in show floor studios.

**Design Students will once again compete for the lions share in thousands of dollars worth of prizes!** **Join us on the Fashion Runway for the official Kick-off Thurs at 10:30 am. Designs strut the Runway, Saturday at 3:30 pm and the winner is announced!**

Come see the Ultimate Makers' Studio in action! Join Janome Artisans and Education team daily throughout the show for free activities and pop-up demos! Don't forget to drop off your ballot for a chance to win this fabulous prize, worth over \$10,000!!! Brought to you by **JANOME**

**INVISIBLE ZIPPER**

**Beginner to Intermediate**

Learn secrets to install an invisible zipper like a pro! You'll not only learn how to install an invisible zipper, but also how to finish the neckline facing/lining. This is different from a regular zipper and Maria shares techniques for a professional looking garment. Discover how to install a metal zipper at the back of a dress complete with a shield for added comfort. You will learn how to make the shield, install the zipper and finish the neckline. Time permitting, other methods will also be taught. **Kit \$25**  
**3 Hour Workshop | Fri 1:00 – 4:00 (Aviation A3)**

## HEM ALTERATIONS

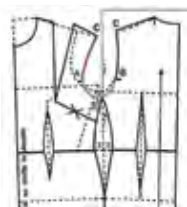

### Beginner to Intermediate

Hemming is the most common alteration necessary to properly fitting pants. In fact, most high end pants come with the hem not finished, only serged then measured in store and hemmed by the work room staff. Circle skirts are the most tricky to hem because of the bias drape that will drop more than the straight grain. But there is a trick that Maria shares to hemming it evenly all the way around with no puckers or pleats. A Euro hem is when the original hem is kept on jeans when shortening. It's a neat trick that keeps the jeans' original look making one feel like the jeans were made for just for you!

**Bring:** two pair of pants that need hemming, a rolled edge or blind stitched hem and one Euro hem to alter in class. **Kit \$10.**

**3 Hour Workshop | Sat 9:00 – 12:00**

**(Aviation A3)**

## PATTERN DRAFTING

Discover how the bodice basic block is drafted, how shaping is added, and how role measurements or numbers play in the process. See how body issues are identified, and dealt with on the paper well before any fabric is cut. As a certified Modellista pattern maker, Maria can answer any questions you may have regarding pattern drafting.

**1.5 Hour Seminar | Sat 1:00 – 2:30**

**(Aviation C1)**

## LIZ THOMPSON

### Janome & Elna CANADA

With more than 30 years of experience working in the sewing and quilting industry, Liz has a wealth of knowledge and information to share. She is passionate about all forms of sewing, especially quilting and garment sewing. Her biggest challenge is finding enough time to complete the many projects she has buzzing in her head or in her UFO stash! For the past 16 years, she has been traveling and teaching extensively across North America + in Japan. Liz is the Education Supervisor at Janome and Elna Canada regularly visiting dealers stores & attending sewing and quilt shows across Canada. She is also the Managing Editor of the very popular blog: janomelife which offers interesting and informative sewing machine information to sewers and quilters around the world.

[www.janomelife.wordpress.com](http://www.janomelife.wordpress.com)

## Machine Embroidery Refresh: From Runway to Quilt Finishing

The world of machine embroidery has evolved. From reimagined 2017 runway looks to Kate Spade's Keds(TM), it is this year's fashion must-have embellishment for home and wardrobe looks. Today's

technology makes embroidery a breeze, particularly for fast and fun custom quilt finishing and monogramming. Add in the ease of WiFi enabled apps, and you just might discover your next passion for sewing! (Discover what's new and see samples at these live stage sessions)

**Thurs 11:30 | Fri 11:30 | Sat 1:30**  
**(Fashion Runway)**

**RON COLLINS** is Canada's best known sewing personality and is adored as a designer, speaker and teacher. He is the first male Canadian Designer to have his own line of patterns with Vogue, which premiered in March, 2017. Sandra Betzina, Power Sewing icon, and Ron have produced 12 DVD's including a 5 box set series on tailoring for both men and women. Since 2009 they have filmed over 240 on-line web shows called Power Sewing which has received great reviews.

## PANT ALTERATIONS: KNOW YOUR BODY MEASUREMENTS All Levels

Do you have a hard time or not know how to measure yourself to help with pattern alterations? We'll take 28 body

measurements... high bust, low bust, shoulder width, sleeve length, back waist length, pant and skirt length... plus more. These basic but essential measurements are crucial for a start to fitting your pattern. Ron explains how to alter for flat and low seat, full thighs, large waist, knock knees, bowed legs plus protruding derriere, full and high hip. Take home an alteration package with your pant alterations and personal measurement chart and the knowledge on how to alter your pant pattern for a perfect fit. **Kit \$20**

**3 Hour Workshop | Thurs 9:00 – 12:00**

**(Aviation A2)**

## DESIGNER FINISHES All Levels

Create 17 reference samples in this information-packed class! Practice 12 different seam finishes, seven of which are non-serged, to include Hong Kong, Bound, Flat Fell, French and Striped, along with a great way to finish off underlined pants with a Double French Seam. Learn to make 142" of continuous bias tape at 1 3/4" wide out of 16 1/2" square of fabric for some of these great seams. You'll also make a fake flat fell seam, reinforced seam, and a finished pressed open seam. And if that's not enough, make an unbelievable dart and pleat using one thread on your sewing machine, using only your bobbin thread in your sewing machine... great for shear fabrics or a designer detail. **Kit \$15**

**3 Hour Workshop | Thurs 1:00 – 4:00**  
**(Aviation A3)**

## POSH POCKETS All Levels

Get the hands-on techniques to create two of the most recognized posh pockets, welt pockets and invisible stitch patch pocket. Welt pockets are a trial for most home sewers if you simply follow pattern instruction. Ron has refined this pocket so that it can be constructed with a single welt, double welt with or without a pocket flap and no bulk. The invisible stitched patched pocket is the Rolls Royce of pockets and is rarely done in ready to wear unless it comes with a heavy price tag. There is no visible stitching on the outside of the patch pocket and is fully lined on the inside to give pocket strength with a show of first class. Join Ron for this exercise in pocket perfection. **Kit \$12**  
**3 Hour Workshop | Fri 9:00 – 12:00**  
**(Aviation A3)**

## BODICE ALTERATIONS & CHOOSING THE CORRECT SIZE FOR THE RIGHT FIT! All Levels

Learn to identify fitting problems and how to solve them as Ron shows how to correct an array of issues to include... sloping and square shoulders, large bust, high and low bust, removal of a bust dart, broad and round upper back, sway back, large upper arm and tight armholes. Ron takes the

guess work out of choosing garment size by finding the “finished garment measurements” rather than using the sizes on the back of the pattern envelope. He shares insider info on the difference in sizing charts with major pattern companies and which companies run larger and which tend to run true to measurements. He'll also explain the wearing ease you need in all garments from close fitting, fitted, semi fitted, loose fitted and very loose fitted. You'll leave with a reference package showing the alterations made in class and the confidence to choose the right size for you. **Kit \$20**

**3 Hour Workshop | Fri 1:00 – 4:00**  
**(Aviation A2)**

## MEN'S SHIRTS OR WOMEN'S BLOUSES

Ron is known for his “one of a kind” shirts. Come, see the latest construction techniques not found in pattern instructions. Ron shows how to completely remove all bulk from the center front of the collar, making it much smoother and more tailored. This technique is constructed in a completely different method than ever before. Learn how to do clean edge facings with no visible stitches and see how to tame bias cut yokes, cuff and front plackets. Ever made a double yoke shirt and were disappointed with the results of your finished garment?... Never again! Get professional results working with fusible interfacings and other stylish details.

## CHANGE IT UP!

Learn how to use a favorite pattern as an anchor piece and change it up to create variations on a theme. Change the neckline, add a style feature, fashion it up or down. In the end, you have multiple patterns, each one a bit different, and all should become staples in your wardrobe. Students will work on some basic ideas presented in class to develop a mini collection of ideas to take home and execute.

**1.5 Hour Seminar | Thurs 1:00 – 2:30**  
**(Aviation C1)**

## PATTERN SOFTWARE ... IS IT FOR YOU?

Tired of all the pattern alterations? Maybe it is time to consider letting the computer aid you in obtaining patterns that are better suited to your proportions. This class will focus on a discussion of considerations one should make when working with software; what measurements are important, trouble fit areas, the use of master patterns, pattern editing for fit and creativity, etc. Learn how just possibly, computer software can be your ally. Garment Designer for Windows/Mac will be used as the demonstration tool, but the same thought processes are necessary for other programs

**1.5 Hour Seminar | Fri 9:00 – 10:30**  
**(Aviation C1)**

## THE ASIAN AESTHETIC: CREATIVITY WITH SIMPLE SHAPES

Japanese fashion designers have reinvented simple and traditional garment shapes for years. This lecture will inspire you with their creativity, and a discussion of how to go beyond the rectangle when building unique and fashionable garments. This class is suitable for pattern development for many textile arts.

**1.5 Hour Seminar | Fri 1:00 – 2:30**  
**(Aviation C1)**

**JO GATENBY** is designer and owner of **X's & Oh's** with her designs featured on the cover of Stoney Creek Cross-Stitch, The Cross Stitcher and Embroidery Canada and is a feature contributor to A Needle Pulling Thread magazine. ## KNOCK-OFFS AND ADAPTATIONS

The process of 'knocking off' and/or adapting a garment is really not that difficult. Susan will show you how to analyze photos, pictures and even actual garments to determine how one creates them, either by modifying existing patterns, or by creating your own with pattern design software. Learn how to analyze your fit preferences, determine the design details and translate these to a paper pattern. You will be amazed at how easy the process can be. Demonstration will be with paper patterns and Garment Designer software. For non-computer and computer people.

**1.5 Hour Seminar | Sat 3:00 – 4:30 (Aviation C1)**

## DAF SUMMERS Farmablefibres

Daf caught the crafting bug early, learning to sew by hand from her grandmother and learning to knit and crochet from her aunt. In her teens Daf discovered the Society for Creative Anachronism (a medieval recreation group), and learned to card fibres and spin them into yarns and weave them into beautiful pieces of trim, later shifting to costuming and sewing. Fast forward to 2012 and she rediscovered knitting, spinning and weaving all over again, this time with the internet.

## TAPESTRY WEAVING ON A LOUET LISA LOOM Beginner

Discover the art of loom weaving in this start to (mostly) finished project introductory class. Daf starts with a discussion on loom weaving and leads right into hands-on

practice. Choose from available coloured patterns, string up the loom, tape on the design and you're almost ready to give it a try. A brief discussion on weaving techniques and stitches and you'll wrap the bobbins. Pick up a first row, set in colours and bobbins, beat... pick up alternate row, set in colours and bobbins, beat... repeat and you're weaving! A wrap up of finishing techniques and how to tie-up loose threads with options for the end loops is followed by a show and tell of finished samples! Take home supplies to finish the project (looms and yarns). **Kit \$40** (Includes small Louet Lisa Loom, shuttle, pickup stick, Farmables hand dyed yarn & extra cardboard bobbins).

**1 Hour Workshop | Thurs 3:00 – 4:00  
Fri 3:30 – 4:30 | Sat 3:30 – 4:30

## ASYMETRICAL THEORY: PIECING ON THE EDGE

With a variety of samples Valerie illustrates how asymmetry and free-form shapes add interest to any project. The challenge is to work effectively with these shapes and unconventional forms to produce a piece that is in the end, balanced, interesting and pleasing to the eye. Learn simple design methods, concepts and tricks including the use of colour and texture to successfully integrate these forms.

### RULES & REGULATIONS

Read carefully. We regard your registration and ticket order as agreement to the following terms.

1. Exhibits and classes are all at the International Centre (Entrance 5), 6900 Airport Rd., Mississauga, ON Canada.
2. To register for classes: Register online at [www.creativfestival.ca](http://www.creativfestival.ca). You may also register by phone, fax, or mail. Please send one form for each person. Include 2nd choices to avoid processing delays and disappointment from sold out classes.
3. Registrations are processed and confirmed on a first come basis.

### RULES & REGULATIONS (CONTINUED)

4. Sewing machines are provided by Janome. Arrive 15 minutes early for machine familiarization. Classes designated 'All Level' require basic sewing machine skills.
5. Bring to all hands-on workshops basic supplies listed at the beginning of each section, at the end of the class description and on your supply list.
6. Supply lists, homework details and order forms (if applicable) will be emailed/mailed with your registration.
7. Kit fees include taxes, costs for supplies and sometimes preparation time. Pay the instructor in Canadian dollars before the class starts. Exact change is appreciated. If no fee is indicated, supplies have been donated.
8. Bring your Registration form to class for admission.
9. Registration will be confirmed by email.
10. Tuesday, October 24, 2017 - Last day to purchase classes at the advance rate, conference passes or group tickets.
11. The Festival reserves the right to provide a substitute instructor if necessary.
12. Photos often depict the technique rather than the actual project. Colourways and findings may vary.
13. Classes on the show floor require an admission ticket to attend.
14. Children under 12 (not registered), babies and toddlers are not allowed in conference workshops and seminars.
15. No cameras or recording devices are permitted in classrooms or the exhibit hall.
16. No food or beverages, other than bottled water, allowed in the classrooms.
17. In consideration of others, please turn off cell phones in classrooms.
18. All class selections, registrations and ticket sales are final. No exchanges or refunds. We are not responsible for lost, forgotten or unused tickets.
19. All prices are in Canadian Dollars.
