

MARCHING BROCHURE 2012

*"HTS 800 has the most volume, the best snare response and the best sound and balance of any pipe band snare drum. As for the bass and tenor sound...WOW! Premier drums have outstanding clarity and are so easy to set up."*

**Stephen Creighton**  
**St.Laurence O'Toole Pipe Band**

*"Royal Marines musicians are regarded as the most versatile in the military musical world. The Corps of Drums receive a thorough training and pride themselves on maintaining the highest standards of drill, bugling and drumming. Their glittering presence at the front of all Royal Marines Bands on the march gives the bands an impact that is second to none."*  
[www.royalmarinesbands.co.uk](http://www.royalmarinesbands.co.uk)

*"Premier HTS and Professional Series are great sounding drums that are easy to set well. We know Premier drums are the loudest and clearest on the field; some others can produce a good bright sound, but nowhere near the same clarity, volume or projection."*

**Keith Orr**  
**Field Marshal Montgomery Pipe Band**

*"Why do I play Premier? Easy, the unmatched pipe band snare sound. And for me, it comes down to four main components: Pitch, Clarity, Snare Response and Projection. Another drum may give you a couple of those components but not all four. The Premier HTS 800 is the complete package."*

**Graham Brown**  
**Peel Regional Police Pipe Band**

*"The tuning and maintenance required of Premier HTS 800 and Professional Series is minimal and the drums are very easy to set up. I would have no hesitation in recommending Premier products to all pipe band drummers and drum corps."*

**Mick O'Neill**  
**Fife Constabulary Pipe Band**

*"The Revolution Series drums set a new benchmark in sound and build quality and will surely consolidate Premier's position as the leading designer and manufacturer of marching drums."*

**James Moore**  
**Kidsgrove Scouts Drum & Bugle Corps**

## THE GLORIOUS PAST

Across the globe marching music is a profession, a family, a history, a tradition and passion. As a marching musician you carry the memory of those that went before you and inspire those who will follow in your footsteps. Premier is very proud to be an integral part of marching activities all across the globe. Long considered the world's leader and innovator in the manufacture of marching drums Premier continues to push the boundaries of design and has inspired many to emulate the look and sound of its unique musical instruments. world-class performers and beginners alike constantly provide the challenges that keep the company reaching to new heights. Premier strives to consistently produce the world's finest instruments to the world's most demanding musicians.

Since 1922 Premier's innovations continue to be at the leading edge in design and quality, pioneering many aspects of marching drum design including:

- High-tension tuning
- Truly free-floating shells for snare, tenor and bass
- Weight-saving construction
- Fundamental tuning ability
- Parallel action snare throw-off
- Superior projection and articulation
- Kevlar drumheads

Premier began making marching drums early in its history and continues to this day to define the look and sound that others follow. During the 1980s British military corps took the Premier sound to America and sparked a revolution in drum design that many imitate. Premier has always counted the finest marching performers and educators among its endorsing artists and continues to build on this into the future.

## A BRIGHT FUTURE

With dealers in over 80 countries stocking Premier products, drummers around the world have greater access than ever to these great instruments. To locate your nearest dealer visit the official Premier website at [marching.premier-percussion.com](http://marching.premier-percussion.com).

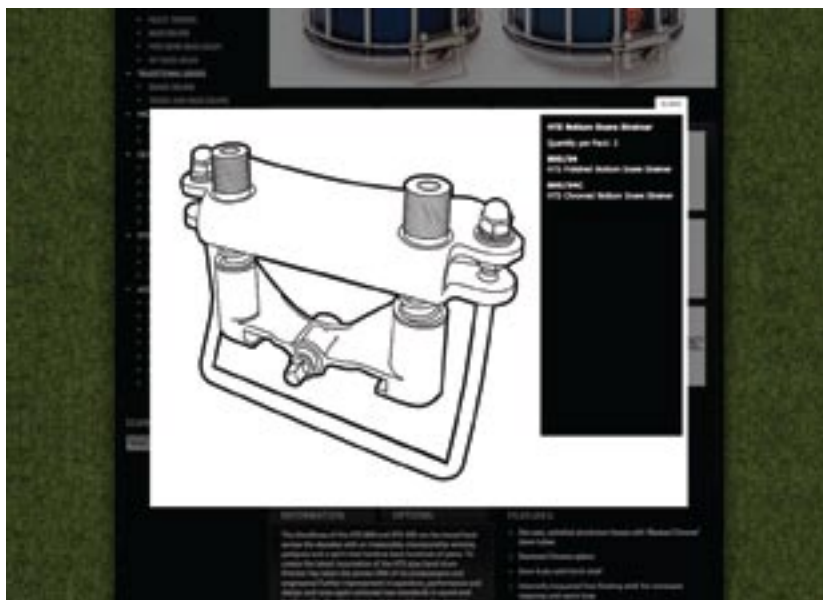

The site has been redesigned to include all of the information you could wish for on Premier – products, specifications, spare parts, artists, news and events. Register online for exclusive Premier news direct to your inbox.

Get closer to Premier by joining thousands of other fans following the official Premier social networking sites. Just search for 'Premier – Official' on Facebook or 'premier\_drummer' on Twitter for the latest information on Premier as it happens. Interact directly with Premier and help shape the future of Premier and its instruments for years to come.

## KINETIC ENGINEERING

The bloodlines of the HTS 800 and HTS 400 can be traced back across the decades with an impeccable championship winning pedigree and a spirit that harkens back hundreds of years. To create the latest incarnation of the HTS pipe band drum Premier has taken the proven DNA of its predecessors and engineered further improvement in operation, performance and design and once again achieved new standards in sound and build quality. No other pipe band drum delivers the dynamic clarity, precise articulation, clear projection and full tone of the HTS 800 and HTS 400 that in your hands are proud additions to the family and will carry the Premier name and the names of future champions to victory for years to come.

Hand in hand with the engineering improvements to the HTS 800 comes the exciting option to offer the drum with Premier's distinctive Diamond Chrome fittings. Diamond Chrome features an unrivalled brilliant finish combined with extreme durability and since the '60s has set

the benchmark for chrome plating musical instruments. The HTS 800 in Diamond Chrome firmly asserts itself as Premier's flagship instrument and the pinnacle of pipe band snare drum design and performance.

All HTS instruments are fitted with Cybermax batter heads by Remo USA. Designed to perform at incredibly high tension, Cybermax offers exceptional strength, responsiveness, precision and stability thanks to the unique 'Duralock' technology and state-of-the-art Aramid fibre material. Cybermax feels great to play and is incredibly responsive; no matter how high the tension is set, providing superior sound distinguished by a crisp, clear attack. Because of the extraordinary properties of Cybermax it is capable of a wide range of dynamic performance from the subtlest to the loudest parts. Cybermax is designed to perform equally well indoors or outdoors, and in solo or ensemble playing.

- 
- Die-cast, polished aluminium hoops with 'Blasted Chrome' down tubes
  - Diamond Chrome option
  - 6mm 6-ply solid birch shell
  - Internally lacquered free floating shell for increased response and warm tone
  - Precision bearing edges for enhanced projection and clarity
  - Tension bolts feature unique anti-friction coating to prevent binding
  - Elegant snare mechanisms giving smooth and positive feel
  - Fit of batter and suspension hoops gives optimal range without compromising projection and volume
  - Cybermax batter head by Remo USA
  - A range of premium sparkle and lacquer finishes are available upon request

## FUNDAMENTALLY YOURS

Premier's Professional Series pipe band tenor and bass drums have become the first choice for many leading corps such as Field Marshal Montgomery, Fife Constabulary, Peel Regional Police and St Laurence O'Toole.

The truly free-floating shell allows unrestricted resonance and beautiful tone, while the turnbuckle tension system provides quick and easy pitch-perfect tuning. The unique sound and breadth of voicing provides the limitless musical arrangement that has revolutionised the sound of the modern pipe band.

- **Tenors Drums: 5.5mm, 7-ply birch shell**  
**Bass Drums: 4mm, 2-ply birch shell with 5mm support hoops**
- **Weather resistant design is ideal for outdoor performance**
- **The turnbuckle tensioning for quick and easy, pitch-perfect tuning**
- **Drumheads by Premier**
- **Silver powder-coated turnbuckles**
- **Free-floating shells allow unrestricted resonance**
- **Wooden counter hoops promote the free, open sound**
- **A range of premium sparkle and lacquer finishes are available upon request**

## DEMANDING PERFORMANCE

These two words have powerful meaning in the context of contemporary marching arts: 'Demand' means many hours of rehearsal to perfect a few moments of music and movement; it means dedication, commitment and physical endurance from player and instrument. 'Performance' means passion, communication and faultless consistency in everything you do. You demand performance from your instrument and because Premier understands these concepts we can help you reach for your goals and be the very best that you can be.

Premier pioneered the development of high-tension marching drums back in the 1980s and the new Revolution Series marching drums bring these proven concepts right up to date. Introducing a host of exclusive features that have been engineered specifically to meet the demands of modern marching percussion ensembles, the Revolution Series provides unparalleled performance and functionality together with improved durability and stylish presence on or off the field.

- 6mm, 6-ply free-floating lacquered birch shell
- Diamond Chrome option
- Standardised suspension ring to accommodate proper seating of all manufacturers' drumheads
- Reduced depth design specifically engineered for indoor drumline and student applications
- Die-cast aluminium polished hoops
- 'Blasted Chrome' aluminium down tubes
- Tension bolts feature unique anti-friction coating to prevent binding
- State of the art throw-off design featuring "B.S.A." Bilateral Snare Adjustment Technology (patent pending)

## REVOLUTIONARY TIMES

### **MULTI-TENORS**

To achieve the high-tuning required by the modern ensemble, Revolution Series multi-tenors feature TDT technology that diffuses the lug tension over a greater area. Reduction in focused tension relieves stress to both lug and drum.

For a noticeable weight reduction and increased strength to the shell, the composite reinforcing rings are unique to Revolution Series multi-tenors.

### **SINGLE TENOR DRUMS**

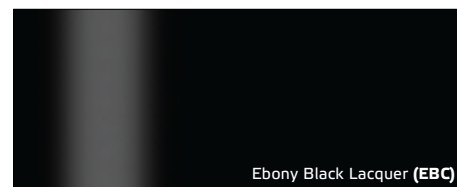

The Revolution Series single tenor drums utilise Premier's unique TDT technology. The low mass, low contact tension lug design provides minimal shell contact and greater resonance, allowing the shell to speak clearly. The innovative design diffuses focused tension over a greater area, relieves stress to both lug and shell and reduces the overall weight of the instrument.

Available in a good range of sizes, Revolution Series single tenors offer a flexible tuning range and contemporary look for your tenor section. Perfect in a wide range of applications including pipe band, marching band, or street band; the only restriction is your creativity.

- 8mm, 8-ply solid birch shell
- Tension Diffusion Technology (TDT)
- 'Blasted Chrome' lugs
- Drumheads by Remo
- A range of premium sparkle and lacquer finishes are available upon request

## RESONANT VOICE

### MARCHING BASS DRUMS

Revolution Series marching bass drums offer a unique sound, contemporary look and weight saving features without any compromise in build quality. Drum corps, marching bands and percussion ensembles around the world should settle for nothing less.

All Revolution Series marching bass drums utilise Premier's unique TDT technology: The high-tension, low-mass bracket

diffuses focused tension over a greater area, relieving stress to both bracket and shell, and reducing the overall weight of the instrument. The low-contact 'bridge' design allows the exceptionally crafted 100% birch shell to speak clearly with unmatched resonance, tone and projection.

### MARCHING BASS DRUMS

## A TRADITION OF INNOVATION

### SNARE DRUMS

Developed to exacting standards, Premier's traditional snare drums set the standard to which others aspire. For centuries the marching snare drum has been the call to arms of the celebrator of peace. All traditional snare drums feature a 5mm birch shell.

- 5mm birch shells
- Diamond Chrome fittings
- Steel hoops
- Die-cast hoop (2074 only)
- Redesigned throw-off
- World renowned parallel action snare strainer (2074 only)

### TENOR AND BASS DRUMS

A drum corps needs bass and tenor drums with rich, true tone with a musical blend that is full of character. Premier's bass and tenor drums are unrivalled in quality of sound and build.

All traditional bass drums are made with 4mm laminated shells and beech support hoops.

Traditional tenor drums feature a 5.5mm unsupported birch shell that produces a wonderful clear tone, complimenting perfectly the other voices in the drum corps.

Available in a choice of sizes, Premier bass and tenor drums are an integral part of any traditional drum corps.

## UNIQUE HERITAGE

Throughout the world of marching music, the musicianship and pageantry of the bands of Her Majesty's Forces is recognised as second to none. Premier has for decades supplied the drums and percussion instruments to these and many bands around the world that follow the tradition and repertoire of British military music.

Over many years Premier has worked closely with the armed forces to develop products that meet specific requirements in sound, appearance and performance. Military percussion instruments must meet superior expectations on parade and deliver ultimate reliability in the field. No other manufacturer can claim this lineage and faithful partnership with traditional marching music.

# STICKS, BEATERS & MACES

## PREMIER DRUMSTICKS

Since the launch of Premier's 'Label Series' sticks in 2010 we have been asked many times to produce the sticks with coloured shafts, so for 2012 are proud to introduce five new and improved professional stick models for pipe band and marching band:

- Red Label
- Black Label
- Green Label
- White Label
- Traditional Hickory

Making a good pair of sticks begins by selecting the best wood possible, so Premier uses only the finest grades of Canadian maple and American heartwood hickory. Every dowel is hand inspected to ensure the grain is straight and free from any defects

before being turned in state-of-the-art lathes by Canadian craftsmen.

Black Label, Red Label and Green Label sticks are machined in Canadian maple with a long smooth taper and oval bead. These light and quick sticks offers perfect control, rebound and balance, and are ideal for the high-pitch definition and snare response characteristic of the pipe band snare drum.

White Label and Traditional Hickory sticks are suitable for drummers who prefer a fuller sound with added punch. Manufactured from American heartwood hickory and featuring a white coloured or clear lacquered shaft, these excellent sticks offer a traditional look and feel with great response and projection.

## PREMIER DRUMSTICKS

9115	Pipe Band Tenor Beater
9110	Bass Drum Beater

## CEREMONIAL MACES

The ceremonial Drum Majors mace is seen as a symbol of music and military discipline around the world. The position of Drum Major originated in the British Army with Corps of Drums in the 1600's. Military groups performed mostly duty calls and battle signals during that period, and a fife and drum corps, directed by the Drum Major, would use short pieces to communicate to field units. With the arrival of military concert bands and pipe bands around the 18th

century, the position of the Drum Major was adapted to those ensembles.

Traditionally, a military Drum Major would be responsible for defending the drummers and bandsmen whilst maintaining the discipline, dress standards and choreographed marching movements for all Corps of Drums members.

The Drum Majors position is earned and he or she is held in very high regard. Sometimes

upon retirement the drum major would be presented with his mace as a keepsake and commemoration of their service.

Beautifully crafted and hand finished, Premier Maces feature an impressive large head with raised facets in brilliant chrome surmounted by a crown. These attractive, finely balanced maces are available in two lengths, with either cords or chains as standard. To be the correct length a mace should fit under his or her chin by one or two inches.

Stik stands provide easy and secure free standing support for snares, multi-tenors and bass drums allowing the player to rehearse in comfort and at the correct playing height and position. The lightweight and durable construction allows for effortless transportation while The 'Stadium Hook' design allows the player to go from field to stadium by simply adjusting the stabilizer height.

Whether you are a snare, tenor or bass drum player, Premier's range of slings offers the perfect accompaniment to your instrument.

## STIK STANDS

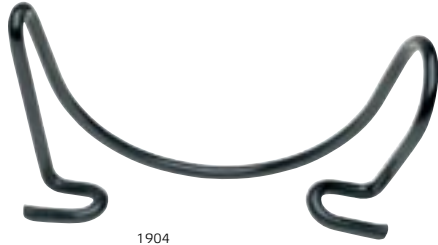

- Lightweight and durable
- 'Stadium Hook' design
- Height-adjustable

## SLINGS

- Choice of leather, plastic or webbing

LEG RESTS | PRACTICE PADS | TUNING KEYS | SOFT CASES

1904

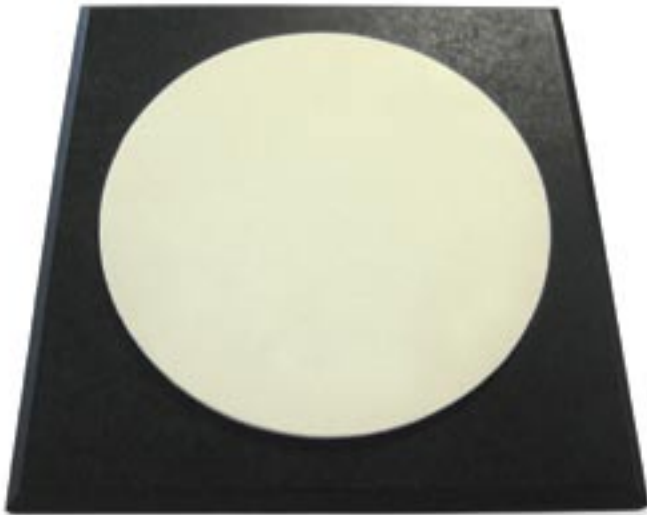

## LEG RESTS

1904 **Standard Leg Rest**

1902 **Deluxe Leg Rest**

1902

1637

## PRACTICE PAD

1637 **Marching Practice Pad**

### LEG RESTS

Premier's deluxe leg rest is fully padded and is easily fitted under two tension bolts and folds for packing into your drum case.

The standard leg rest bends to your leg shape and hooks behind the tension bolts.

■ **Strong yet lightweight design**

### MARCHING PRACTICE PAD

Premier's marching practice pad can be used anywhere, anytime to practice your rudiments. Designed to help drummers of all levels to maximize their potential without the need for a drum, the pad provides a realistic feel and perfect response when played, and keeps unwanted external noise to an absolute minimum.

### TUNING KEYS

Premier offers two tuning keys for your instrument; high-tension or traditional drum.

■ **Ergonomically designed**

## TUNING KEYS

0613 **Drum Tuning Key**

0618 **High-Tension Tuning Key**

## PREMIER SOFT CASES

Designed in conjunction with Protection Racket, the world's leading manufacturer of drum cases, Premier's soft cases are designed for optimal protection and feature unbreakable zips, strong webbing reinforcement, and superior dual density foam construction giving incredible strength and rigidity whilst keeping weight to a minimum. A waterproof backing, comfortable carry handles and a silicone Premier logo finishes these must-have cases perfectly.
