Meet Clint Harp
Carpenter & Furniture Maker
From HGTV's FIXER UPPER

MEET CLINT HARP

carpenter & furniture maker
from **HGTV's Fixer Upper**

Friday, April 29th • 1 pm

Saturday, April 30th • 11 am & 2 pm

Arrive early to get your seat!

Behind the scenes secrets, one family's journey getting there and how it has intertwined with Fixer Upper plus stories about working with Chip & Joanna Gaines

Clint Harp can be found regularly on HGTV's hit show Fixer Upper as the dumpster diving, reclaimed wood loving carpenter. After quitting his sales job in 2011 to pursue his dream of building furniture and owning his own company, the last thing he expected was to be nationally known carpenter featured on HGTV.

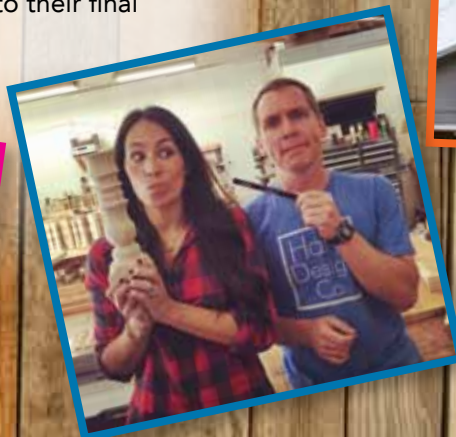

Now, together with his wife Kelly and their 3 kids, the Harps spend each day pursuing their dreams and blazing the new trail of owning their own company. Harp Design Co. provides quality furniture and home goods to customers all across the U.S. and abroad. Constantly adjusting to unexpected national exposure, the Harps work hard each day to grow as a family and a business whose core values are love, beauty, and creativity.

Clint appears as a supporting role in Fixer Upper, helping his close friends and stars Chip and Joanna Gaines as they remodel homes in Waco, Texas. The show attracted more than 19 million viewers its season, is currently airing season two and shooting the third season. Clint takes recycled and reclaimed wood, usually found pieces, and creates beautiful, one-of-kind pieces meant to bring families together, which the Gaines incorporate into their final remodel and home designs.

MEET TAREK & CHRISTINA from HGTV's **FLIP OR FLOP** AT THE HOME SHOW

Sunday, May 1st • 11 am & 3 pm

{ Arrive early to get your seat! }

Behind the scenes of HGTV's Flip or Flop, what you don't see on camera plus the best flips & worst flops

Tarek and Christina El Moussa are hosts of HGTV's Flip or Flop. Tarek received his real estate license when he was 21 years old and quickly made a name for himself in Orange County, California. At the height of the housing boom, he was selling multi-million dollar mansions like hotcakes, but when the housing bubble burst, his empire came crashing down and he had to determine another way to pursue his real estate passion. Today, Tarek is a family man and lives with his wife Christina and their baby girl, Taylor, in Yorba Linda, Calif. With a family to support, he has carved out a new niche for himself in the world of real estate: flipping distressed properties. He buys foreclosures, short sales and REOs for cash but, as Tarek would say, "No Risk, No Reward!"

Much like her husband, Christina is a real estate shark. In the show, Christina, also a real estate agent, works with Tarek to find and renovate homes – keeping it all in the family to save costs. She handles the designs of the new spaces and keeps everything on schedule. Her experience as a real estate agent helps to steer the family business into a stable direction as they strive to reclaim the American dream, while raising their daughter Taylor.

After the second season of Flip or Flop, a fan and registered nurse wrote to the El Moussas with concern for a nodule on Tarek's neck. They were shocked to discover the bump was thyroid cancer and Tarek was forced to have half of his thyroid removed and undergo radioactive iodine. With Christina's support, the treatment was a success and he is currently cancer-free.

.....
Maricopa County Home Shows is proud to bring Tarek & Christina to Arizona!
.....

Admission

Adult: \$8.00
Child 3–12: \$3.00
Child 2 and under: **FREE**

Senior Morning: Friday 10am–12pm
\$1 admission for all Seniors 60+

It's Cool to be Cool!

Arizona backyard lifestyles are always improving thanks to unique and ingenious products developed specifically for desert living.

Heliocol of Phoenix specializes in the development and application of a number of such lifestyle-enhancing products. Kelly Dancer, the local director of Heliocol, has helped with the oversight of over 30,000 such projects in and around the "Valley of the Sun." He explains Heliocol's motto for Arizona clientele is simple, "Sun, plus water, equals fun."

Heliocol's specialized products include Solar Pool Heating, Misting, Outdoor Fog Effects and the SunSplash Salt Pool System.

Outdoor Misting and Fog Effects - "It's All Cool" Desert Heat Tamed by Cool Misting and Fog Effects.

Arizona residents enjoy their outdoor areas even in the heat of summer thanks to the unique technology of Misting and Fog Effects. "A properly installed high pressure misting system can cool an outdoor area by as much as 30 degrees," explains Kelly Dancer. "The benefit of being able to use outdoor areas such as patio or pool surroundings comfortably during the full heat of summer can be very appealing."

Fog effects are another use of the high pressure misting technology. Household water is pumped through a special cluster nozzle at high

pressures (around 1000 to 1200 psi), resulting in clouds of atomized H2O molecules that become a cooling fog. This fog can be very aesthetically appealing when resting on the surface of a pool or rolling down a waterfall. The mist can also be used to create a natural humidity similar to that of the tropics, nurturing lush vegetation to flourish within the valley's abundant sunshine.

Heliocol's high pressure misting and fog systems begin at \$2,200 depending on application.

SunSplash Salt Pool System

"Soft and Pure" There's nothing like the feel of swimming in a pool that has the purity and softness SunSplash creates. Salt pool technology has been used in Australia for years. It uses a small amount of salt added to your pool's water - similar to a human teardrop, or about one tenth the salinity of the ocean. SunSplash utilizes a clear cell with plates that, when energized, react with the small amount of salt in the water to thoroughly sanitize your pool. The salinity of the water makes it more buoyant and comfortable for swimming. Other benefits include reducing scale on tile at the water line, an end to red eyes, bleaching of bathing suits and noxious odors from chloramines. SunSplash is now available to Arizona pool owners with installations starting at \$1,790. With SunSplash's strong warranty you can swim softly for many, many years without worry or Chloramine irritations.

For a no cost estimate on any of Heliocol's SunWaterFun Products: Call today 602-454-7000 or visit us at the show.

Heliocol will have all of its SunWaterFun products on display at the Home and Garden Show. Just one more reason to visit the best Home and Landscape show in the Southwest.
