Light In and View Out

Why not maximize the views of your home with corner butt glazed windows. These windows allow you to remove almost all corners of your home to allow the light in without obstructing your view.

As with all Combo™ windows, you can choose your exterior frame color as well as the type of interior wood species, the options are endless.

COMBO

Combo™ Arch window. Custom color exterior with VG Fir Interior

Trace Wisse Design. Custom color exterior. Maple interior.

Full vinyl exterior with a full VG Fir wood interior. (No vinyl showing on interior)

Combo™ or Vinyl Clad Window

Combo™ windows are made up of a full vinyl exterior window with a full wood interior. As the interior wood of the window is behind the nailing flange, no moisture can penetrate the wood, causing it to peel, rot or the inevitable, having to replace the entire window.

Although we all like the richness of wood on the interior of our windows, with the Combo™ window, you don't have to use them throughout the home as you do with metal clad windows, in order to achieve a balanced frame look on the outside. Our Combo™ window is made with the same exterior frame as our vinyl casement window. You can then choose Combo™ windows only where you would like to have the feature windows in your home, while in the basement, bathroom and garage you may use vinyl windows as a cost effective compliment.

WOOD CLAD-VINYL

- LOW-MAINTENANCE, DURABLE VINYL REINFORCED WITH GALVANIZED STEEL
- 25 STANDARD PAINTED COLORS OR UNLIMITED CUSTOM COLORS
- UNLIMITED OPTIONS FOR HANDLES & HARDWARE

Strength & Durability

Our Euroteck series windows are used in residential and commercial applications. Reinforced with galvanized steel allowing structural support for larger picture windows or for curtain walls.

Simulated divided lites, muntin bars or true divided lites are available for a more traditional look.

Safety

The unique European design of our Euroteck Tilt and Turn series provides the diversity of dual action handles that allow windows to be ① fully open or ② restricted to a 'tilt' position for optimal safety and ventilation. This is ideal for second or subsequent floors.

Dual action handles allow for full opening egress casements with option of top ventilation.

EUROTECK VINYL

Solarium, custom window pattern

EuroTeck Tilt & Turn Windows

Whether you are working toward a sleek contemporary design or are striving to preserve historical accuracy, add interest and drama to your project by utilizing custom architectural shapes. These fixed or operable units can be used alone or be mulled to standard configurations to create a wall of light or simply a focal point.

- **DUAL ACTION HANDLE ALLOWS THE WINDOW TO TILT IN FOR VENTILATION AND SWING IN FOR EASY CLEANING AND EMERGENCY EGRESS**

- 5 STANDARD ANODIZED COLORS
- 10 DIFFERENT WOOD SPECIES AVAILABLE
- MULTITUDE OF GLASS OPTIONS WITH 6 DIFFERENT SDL SIZES

Hurd Windows

At Hurd, we are committed to green manufacturing and green building. Our environmental stewardship is firmly grounded in our continued commitment to pioneering some of the most energy efficient windows and doors available.

Hurds CoreGuard wood treatment system actually penetrates to the very core of the wood. It provides 3 active fungicides, and insecticide and water repellents to provide envelope protection against pests and rotting.

Aluminum Clad Windows

Our clad exteriors are enclosed in a durable, heavy duty extruded aluminum. It resists chipping, fading, denting and makes painting a thing of the past. Inside, you'll still enjoy the warmth and beauty of all natural wood, with some veneer as required.

All Wood Windows

For truly distinctive homes, you can't beat the timeless elegance of our all-wood windows (some veneer may be used). The exteriors may be primed or natural. The interiors are select pine, ready to be stained or painted. Although pine is our standard, almost any wood species is available.

WESTECK WINDOWS

Shapes

At Westeck, we like to make windows that are just a little different. Arches, raked windows, parallelograms, oval, round windows that open with custom SDL patterns, matching Brickmould or renovation flanges. If you or the architect can design it, our specialty department can most likely build it.

with sill cross section

Renovation Accessories

Westecks renovation department specializes in helping you choose the right window and renovation accessory for ease of installation. We offer 5 different flanges and Brickmould options, a vinyl sill, and a vinyl composite jamb liner. All of these can be painted to match the rest of your windows and doors.

Slide Doors

Lift and Slide and pocket doors are a special configuration of sliding doors. The pocket door panels are recessing in a wall pocket when the door is opened. This type of door system leaves a dramatic, full wall-to-wall opening while the Lift and Slide without the pocket, all doors stack to one side or the other.

Pocket doors usually use the Lift and Slide operating system where there are few limitations to the possible configurations. These door systems, either of wood or metal clad wood, can be any height up to 12 ft tall. They can be configured so that all panels hide away on one side, or open in the middle and hide away on both sides. Westeck custom doors can be designed with insulated pockets so that the door assembly becomes integrated with the building walls, or the pocket can be placed inside the building envelope.

FRONT

Whistler Theme by Trace Wisse Design

Your Front Entry

Your front entry door unit should make a statement about you and your home. We have a multitude of standard door styles and panels to choose from or you can design your own unique front entry.

Douglas fir is standard for our front entry units, but any species is available with a matching jamb and brickmould.

Textured Fiberglass arch Top door with custom moulding

Choices

Entry doors must be durable enough to withstand wind, rain, scorching sun, and would-be intruders, yet make a good first impression. Choosing the right style and getting the right price is critical and with all the different species of doors to choose from, at Westeck we can help you design a door that will set you apart and one you can call your very own.

Make it Custom

With hundreds of different wood species and a multitude of glass styles available, why purchase the same door as your neighbor? Just by making a small change to the style of door and glass you choose and you can create a unique front entry that is one of a kind.

Paint

Vinyl windows don't have to be white or beige anymore. Westeck's certified, in house application and Royal Bond twenty (20) year paint warranty now allows you to specify one of 27 standard colors or any custom color. Color may be applied on the "exterior only", (interior remains white or beige) or color in and out "full color" (Black, Anthracite, Universal Brown and Rideau Brown in stock)

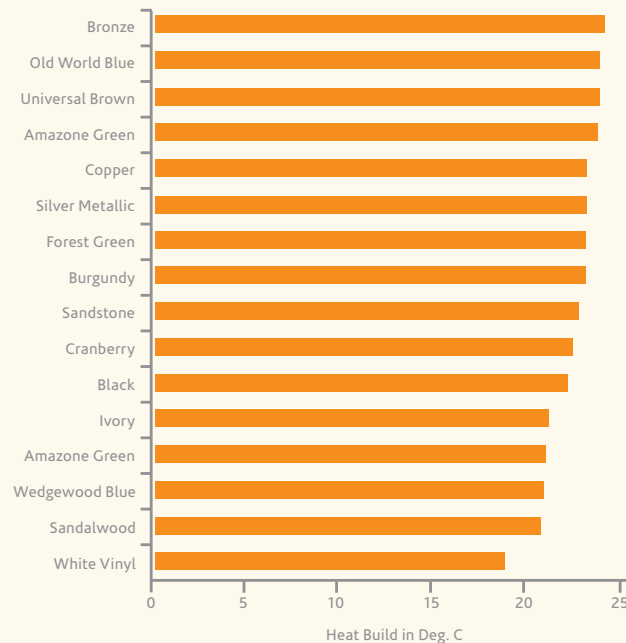

Westeck also will paint your doors to match your windows.

All black exterior with all wood interior

Royal Bond Waterborn Paint Technology has minimal heat absorption with maximum heat reflection.

MULTI-FAMILY

La Vie, Victoria, BC

Westeck's multi-family division works directly with the architect and builder to make sure their design of the building is met while insuring the structural integrity. Westeck's production plant not only produces these windows but also has their own testing facility, and as part of their procedure, randomly pull windows off the line and test them for air and water leakage as well as structural support and integrity.

Westeck Windows... Not *Just Vinyl* Windows

Westeck's state of the art automated equipment allows us to produce vinyl windows for the cost conscious market, quickly and efficiently with minimal lead times.

In addition, Westeck's manufacturing facility has the ability to produce all of its windows and doors in any of the standard 27 colors or a custom color of your choice.

A quick review of this corporate brochure will show you that Westeck is a "full service" supplier of standard and custom (clad) doors, clad windows, Euroteck windows, fold and slide – (Westeck Wall) – doors etc.

Whatever fenestration products you require, and before you purchase any products, be sure to visit one of the best door and window showrooms in BC.

Westeck's showrooms are a year round window and door trade show!
