# BLACK PANTHER

LONG LIVE THE KING.

Created in Partnership with Disney's Animals, Science and Environment

**CONTENTS:**

**Welcome to Wakanda** ————— **4**  
**Meet the Characters** ————— **5**  
**The Mantle of Black Panther** ————— **6**  
**The Strength of Nature** ————— **8**  
**Zuri's Wisdom** ————— **10**  
**Shuri's Technology Hunt** ————— **12**  
**Horns & Heroes** ————— **14**

**Acknowledgments**

Disney's Animals, Science and Environment would like to take this opportunity to thank the amazing teams that came together to develop the "Black Panther" Activity Packet. It was created with great care, collaboration and the talent and hard work of many incredible individuals. A special thank you to Dr. Mark Penning for his ongoing support in developing engaging educational materials that connect families with nature. These materials would not have happened without the diligence and dedication of Kyle Huetter who worked side by side with the filmmakers and educators to help create these compelling activities and authored the unique writing found throughout each page. A big thank you to Hannah O'Malley, Cruzz Bernales and Elyssa Finkelstein whose creative thinking and artistry developed games and crafts into a world of outdoor exploration for the superhero in all of us. Special thanks to director Ryan Coogler and producer Kevin Feige, for creating such an amazing story that inspired the incredible activities found within this packet. Lastly, thank you to Theresa Cross, Anastasia Ali-Noble and Noah Duman at The Walt Disney Studios, as well as Adam Davis and Cameron Ramsay at Marvel Studios, for their help and unwavering support of this project.

**BLACK PANTHER**  
 2.16.18

**M**arvel Studios' "Black Panther" follows T'Challa who, after the death of his father, the King of Wakanda, returns home to the isolated, technologically advanced African nation to succeed to the throne and take his rightful place as king. But when a powerful old enemy reappears, T'Challa's mettle as king—and Black Panther—is tested when he is drawn into a formidable conflict that puts the fate of Wakanda and the entire world at risk. Faced with treachery and danger, the young king must rally his allies and release the full power of Black Panther to defeat his foes and secure the safety of his people and their way of life.

"Black Panther" stars Chadwick Boseman, Michael B. Jordan, Lupita Nyong'o, Danai Gurira, Martin Freeman, Daniel Kaluuya, Letitia Wright, Winston Duke, with Angela Bassett, with Forest Whitaker, and Andy Serkis. The film is directed by Ryan Coogler and produced by Kevin Feige with Louis D'Esposito, Victoria Alonso, Nate Moore, Jeffrey Chernov and Stan Lee serving as executive producers. Ryan Coogler & Joe Robert Cole wrote the screenplay. Marvel Studios' "Black Panther" hits U.S. theaters on February 16, 2018.

## WELCOME TO THE KINGDOM OF WAKANDA!

**W**akanda is a technologically advanced nation located within the continent of Africa. For years, the country has remained isolated from outsiders, appearing rich in culture but economically underdeveloped compared to the rest of the world. But now Wakanda faces a period of transition as the nation grieves the death of its leader, King T'Chaka while welcoming his son T'Challa, the Black Panther, to the throne.

Step inside this world and explore all that Wakanda has to offer within the "Black Panther" Activity Packet. At first glance, Wakanda is full of technological marvels that the rest of the world has never seen. But, if you take a closer look, past the awe-inspiring cityscape and flying vehicles overhead, Wakanda is also full of breathtaking natural beauty and wonder. Self-discovery awaits as you explore the pages ahead. Reflect on the responsibility of the mantle of Black Panther, unearth the benefits of spending time outdoors in nature and allow your creativity to flourish as you imagine the next great animal protector of Wakanda. Explore these pages and discover Wakanda for yourself. And don't miss Marvel Studios' "Black Panther" in theaters February 16.

# MEET THE CHARACTERS

## BLACK PANTHER

As the new king of Wakanda, T'Challa is struggling to cope with the loss of his father T'Chaka, but is determined to live up to his great legacy. When Wakanda finds herself beset by two enemies intent on the nation's downfall, Black Panther must use his new suit and heightened strength, speed and senses to defend Wakanda and the rest of the world.

## SHURI

Shuri is T'Challa's younger sister and head of the Wakandan Design Group, where she designs and builds futuristic tech such as the Black Panther suit with vibranium mined from the Great Mound. She is an innovator, intelligent beyond her years, and always ready to give her big brother a hard time.

## NAKIA

A Wakandan spy pulled from her mission abroad by her former flame T'Challa, Nakia consistently gets involved in conflict for the good of others, adamant to use her abilities to help those in need. In the wake of King T'Chaka's death and the rise of Wakanda's new enemies, Nakia puts her skills of subterfuge and hand-to-hand combat to use in order to fight alongside Black Panther.

## OKOYE

The head of the Dora Milaje, an all-female special forces group, Okoye is a fiercely loyal protector of Wakanda who isn't afraid to question her king, but would defend him with her life. A staunch traditionalist who is as formidable with her spear as she is with her tongue, Okoye finds herself torn between her allegiance to her country and her king when T'Challa begins to challenge ancient Wakandan rules.

## ERIK KILLMONGER

Erik Stevens was an American black-ops soldier who earned the name "Killmonger" while in the field. However, after disappearing off the grid, he has reemerged with a plan that threatens to put Black Panther and all of Wakanda at risk. Using his charisma, considerable skills in combat and his surprising knowledge of Wakandan customs, Erik Killmonger is a dangerous threat to all that T'Challa holds dear.

## EVERETT ROSS

A CIA agent and former liaison with the Joint Terrorism Task Force, Everett Ross is reunited with T'Challa when they both find themselves after the same adversary; Ulysses Klaue. A skilled tactician with advanced weapons training, Ross becomes an invaluable ally to the Black Panther.

## ULYSSES KLAUE

Klaue became Wakanda's biggest enemy when he led the only successful invasion of the reclusive nation, stealing precious vibranium. The vibranium he stole was used to create Ultron, which inadvertently led to the assassination of King T'Chaka at the UN. When Klaue resurfaces after years of hiding, T'Challa makes it his main priority to track down this adversary and bring him to justice. Klaue uses his wits and a new weapon based on Wakandan sonic technology to wreak havoc on the Black Panther and the Dora Milaje.

# THE MANTLE OF BLACK PANTHER

**F**ollowing the death of his father, T'Challa has returned home to the Kingdom of Wakanda in order to succeed to the throne and take his rightful place as king. As ruler of his people, T'Challa also wears the mantle of Black Panther, a role that has been passed down for generations and bears with it the responsibility to protect Wakanda from any and all enemies who wish her downfall. Using his heightened strength, speed and senses, Black Panther is committed to defending his nation and the rest of the world from danger.

But how does one accept such responsibility? A name and suit are not guaranteed to bring the qualities of fearlessness and bravery. Experiences, both positive and negative, have shaped T'Challa's life. And influential mentors, such as his father, King T'Chaka, have passed along important lessons, such as honoring the traditions and principles of Wakanda. These moments in T'Challa's life will now guide him as he faces perhaps his greatest personal challenge, the decision of what type of king and leader he will ultimately be.

Like Black Panther, your life has also been shaped by experiences and important individuals. Reflect on your own personal story. Where did you come from? Who and what inspired you to be the person you are today? Head to the next page where you can create a visual representation of your personal story that contains elements from your past, present and future.

## LEAVES

### Who is important to you?

Leaves are vital to the tree, always working to help the tree stay healthy and grow. Who are the individuals in your life that are significant to you and help you grow to become the person you aim to be? These can be family members, friends, teachers, etc.

## BRANCHES

### What are your hopes, dreams and wishes?

Do you aspire to be a scientist or an artist? Do you want to create and grow a recycling campaign at school? Write your goals on the branches.

## TRUNK

### What skills and values are core to who you are?

The trunk represents the qualities you feel you possess. Are you passionate about the environment? Do you show kindness to other people and animals? List these attributes up the trunk of the tree.

## MAP YOUR INNER HERO

Each section of the tree has spaces for you to reflect on your life experiences. Write in each area and discover the goals and values that embody your own inner hero. Once completed, you will have a visual representation of where you came from and the goals you have chosen to pursue and accomplish. Whenever you seek inspiration, look back on your reflection to find the keys to empowerment and reminders of the individuals on whom you can rely.

## ROOTS

### Where did you come from?

The roots represent your past and can be made of meaningful people, events or items from your history. These can be parents and guardians, clubs or organizations you belong to. Even memorable objects such as a book or song can inspire the person you are today.

## GROUND

### What are your weekly tasks or responsibilities?

Do you have music lessons or practice after school? Many times, these small tasks help us build the skills we need later in life, supporting our growth like the soil around a tree. List your own weekly responsibilities on the ground surrounding the tree.

Notice how each section of the tree is interconnected to the rest. All parts play an important role in helping you achieve your goals and dreams.

# THE STRENGTH OF NATURE

One of the greatest resources to the nation of Wakanda is the rare and precious metal vibranium, a nearly indestructible natural element native to the country. The stores of vibranium located within Wakanda's borders have allowed the nation to flourish as an advanced technological society. The Wakandan Design Group, led by T'Challa's younger sister Shuri, has used vibranium to build countless futuristic technologies such as Black Panther's suit and other innovative equipment.

Although vibranium cannot be found outside of Wakanda, other elements from nature continue to aid and inspire scientists around the world to create the next generation of technology. Over the course of centuries, animals, plants and microbes have tested patterns and strategies through adaptation to life on earth. Through a method called biomimicry, scientists study these patterns to create solutions to human challenges.

Biomimicry is where biology and technology meet. It is where innovation is found by emulating designs and ideas found in nature. The flippers of a humpback whale have inspired efficiency in wind turbines, the structure of termite mounds provided the key to create natural ventilation systems and the scales of sharks have been recreated for advanced swimwear that provides athletes with greater speed while swimming. All of these products would not have been possible without the spark of inspiration that came from observing the natural world. Perhaps even Black Panther benefits from the strength of nature.

**What nature-inspired elements can you find in Black Panther's suit?**

## NATURE PATTERNS

Nature is an incredible source for inspiration and inventiveness. When exploring the outdoors, you cannot help but find complex patterns that are created by simple repetition; for example, a spiral of a snail's shell or the weave of a spider's web. Patterns in nature have sparked the imaginations of scientists to make technology more reliable and efficient than ever before. When combined with the rare and precious vibranium metal, patterns from nature may even provide the key strength of Black Panther's protective suit!

- 1 Examine the photo of Black Panther** on the left and notice any repeating patterns in his suit. Don't forget to look for shapes big and small, or even shapes within shapes!
- 2 Head outdoors** and go on a nature investigation in your own backyard. Look for patterns on plants, animals or even up in the sky. Use the space below to sketch what you found!
- 3 Draw inside the figure of Black Panther** on the right. Add some of the patterns you found in nature to help strengthen his suit.

My Nature Patterns

# ZURI'S WISDOM

The power of nature is undeniable. Nature can challenge the strongest of heroes seeking to climb the highest peak or provide peace and tranquility when focus and meditation is needed. Nature is a source for creativity, as well as one of the inspirations behind the hero Black Panther, whose abilities and visual appearance mimic the strengths and adaptations of the animal that shares his name. But nature is not just in the wilderness, it is found all around us; whether in the Kingdom of Wakanda, a nearby community park or even your own backyard. Wherever you may find it, nature can be a source of incredible benefits to those who enjoy spending time outdoors. Research has shown that time spent in nature leads to increases in academic success, happiness, physical and mental health while also instilling lifelong conservation values.

Heart-Shaped Herb

These rewards have not gone unnoticed by Black Panther or those closest to him. For generations, each warrior who has worn the mantle of Black Panther has sought out nature in order to gain enhanced abilities. By consuming the Heart-Shaped Herb, a plant native to Wakanda, T'Challa is able to obtain enhanced speed, strength and instincts. It is Zuri, the spiritual leader of Wakanda and mentor to T'Challa who tends the garden of the Heart-Shaped Herb. Without his care and watchfulness over the garden, Black Panther would not be able to achieve his full powers. Zuri plays an important role in protecting nature, and is a leader who inspires us all to take action and protect the environment so future generations may benefit from the rewards nature has to offer.

## A MESSAGE FROM ZURI

T'Challa's trusted mentor Zuri has sent a message that will bestow his knowledge and wisdom onto the Black Panther and new King of Wakanda.

Help T'Challa translate the message by using the cipher to decode the Wakandan letters.

A	B	C	D	E	F	G	H	I	J	K	L	M
⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏
N	O	P	Q	R	S	T	U	V	W	X	Y	Z
⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏	⦏

⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏

⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏

⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏ ⦏

Now try to write your name using the Wakandan letters!

# SHURI'S TECHNOLOGY HUNT

Stepping into the Kingdom of Wakanda, one cannot help but be awe-struck at the visual splendor of a civilization that appears light-years ahead of any other nation. Wakanda is a technological utopia, a land that features flying vehicles, holographic bracelets and skyscrapers built in harmony with nature. All of these futuristic inventions are integrated seamlessly within daily Wakandan life, and would not have been created without the help of the Wakandan Design Group, led by T'Challa's younger sister Shuri. Shuri is an innovator, intelligent beyond her years, who aids her brother by creating vibranium-enhanced weapons and updates to Black Panther's suit.

Although the rest of the world may not be as advanced as Wakanda, scientists continue to discover and create technologies that will drastically improve our lives, transform industries and safeguard the planet. Some of the most cutting-edge technologies revolutionizing society are focused on sustainability. Green building materials will cut down the amount of energy and water consumed, precision farming will boost agriculture crop yields and drones with cameras, sensors and GPS have begun to aid in species conservation. Many of the emerging technologies can even be seen within your home, school or favorite park.

**Head on to the next page to help Shuri locate a few of these items near you!**

## WHAT CAN YOU FIND?

Whether at home, school or your favorite park, technology can be found all around us. Some technology is even inspired by nature and animals, like Shuri's vibranium-enhanced panther gauntlets. Head outside and explore all around you in order to help Shuri find new forms of technology. The items you find may even inspire her to create new inventions for her brother T'Challa. Once you have found a complete row, either horizontal, vertical or diagonal, you have completed the challenge!

# HORNS & HEROES

**D**espite crowning a new king, Wakanda is soon faced with multiple threats that put the nation's fate and entire world at risk. Erik Killmonger and Ulysses Klaue are both dangerous adversaries who aim to wreak havoc on Black Panther and the Dora Milaje, an all-female special forces group who serve Wakanda. But T'Challa has further allies, including W'Kabi, the head of the Border Tribe, who is Wakanda's first line of defense against outsiders. W'Kabi is a strong advocate for capturing Ulysses Klaue, and with the help of his massive rhinoceros, M20, he is a powerful opponent in battle.

M20 is utterly loyal to W'Kabi and the animal's vibranium-laced horn, quickness and battle training make him nearly unbeatable in combat. Rhinos, like M20, are some of the world's most beloved animals, but also among the most endangered. Unlike M20, rhinos in the wild do not have battle armor or vibranium-laced horns, and they face multiple threats of habitat loss and poaching. But you personally can make a difference for rhinos in the wild. By learning more about these incredible species and supporting organizations that are advancing rhino research and conservation efforts, you can help make an impact. You can even use your creativity to imagine your own rhino character that is a symbol for endangered rhinos in the wild and a reminder to others that by working together we can reverse the decline of these amazing species.

The Disney Conservation Fund has helped protect wildlife around the world, including rhino species in Africa and Asia. The fund, part of Disney Enterprise Social Responsibility, supports nonprofit organizations working with communities globally to protect wildlife. The Disney Conservation Fund was established in 1995 and to date has supported more than 330 nonprofit organizations and more than one thousand conservation projects worldwide.

Learn more about the Disney Conservation Fund at [disney.com/conservation](https://disney.com/conservation)

## DESIGN A RHINO!

Just like M20, rhinos in the wild have adaptations that provide them with strength and protection. Use the outline below to create your own animal protector of Wakanda! You can use your imagination and be as creative as you choose. Learn more about rhino species by reading the adaptations found around the outline. For inspiration, check out the photos of rhino artwork created by passionate conservation heroes!

Some species, like the Javan rhino, have just one horn that can grow up to 10 inches long!

Rhinoceros have thick, protective skin—up to 2 inches (5 cm) thick that serves as natural armor.

Sumatran rhinos are smaller than other species and have hair all over their body.

Black rhinos have a hook-like upper lip that helps with foraging and feeding on trees and bushes.

Like horses and zebras, rhinos are herbivore mammals with an odd number of "toes" on their rear feet – 3.

To learn more about rhinos and other amazing species, visit [DisneyAnimals.com](https://DisneyAnimals.com)

### Be Inspired!

Artists raise funds to protect rhinos each year through The Horns and Heroes Project. Check out some of their creative designs!
