

COASTAL SOLUTIONS

COASTAL LIVING

UNIQUE BEAUTY

Sunlit seashores, beaches within biking distance and living spaces that effortlessly connect with the natural world. These are just some of the many benefits that come with living along the Coast.

It's no secret that coastal beach towns offer some of the country's highest quality of life. Their environments offer warmth, beauty and picture-perfect lifestyles that enable us to feel happy and healthy. Using bold patio doors and large window walls, coastal homes seamlessly blend indoor and outdoor spaces to create living spaces that inspire and uplift.

UNIQUE CHALLENGES

Coastal regions are also susceptible to a unique set of natural challenges—from increased humidity to wind, rain and threatening hurricanes. So, in order to live here, you have to plan ahead. You need windows and doors that are hurricane resistant and meet the strict local building codes. Since extreme weather can challenge your home and family's overall safety, you have to make sure your home will stand up to the test.

There is one partner who can help you face these threats without sacrificing beauty, vision or connectivity: Marvin®.

THE MARVIN DIFFERENCE

When extreme weather hits, the strength of your window and door materials can greatly impact your home's performance. That's why Marvin® windows and doors are intentionally designed with strength and function in mind.

Available in a variety of colors and customizable design options, Marvin products offer design flexibility without sacrificing strength, durability and performance. So you can enjoy your coastal views, while still feeling comfortable and secure.

NATURAL AESTHETICS

When it comes to designing your coastal home, the main goal should be showcasing as much of the natural environment as possible without compromising safety. Airy, open floor plans will allow you to take advantage of natural light and find sanctuary within your home. Plus, expansive windows and doors will blur the boundaries of indoor and outdoor spaces.

VARIOUS STYLES

COLONIAL

- Features symmetrical, rectangular buildings, with large central or exterior gable-end chimneys

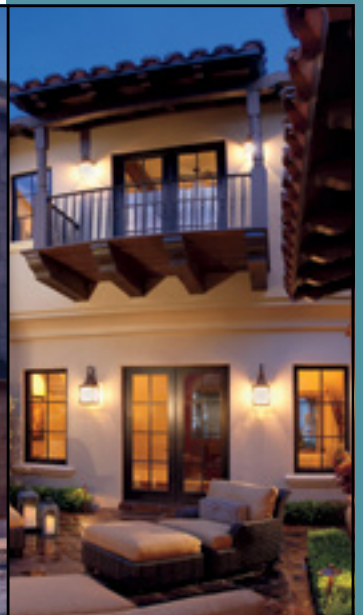

COTTAGE

- Smaller homes with simple architectural features often highlighted by inviting porches, pathways and gardens

CONTEMPORARY

- Favors organic shapes and indoor-outdoor living, clean lines and big glass

TRANSITIONAL

- Mixes more than one style & enables homeowners to combine both traditional and contemporary elements

POPULAR TRENDS

BLACK FINISHES

Black finish adds a brush of refined excitement to any home. It's both current with today's design trends and informed by classic styles.

CLEAN LINES & BIG GLASS

Narrower frames, bigger glass and simple hardware can transform traditional-looking windows into statement pieces.

NATURE-CONNECTED NOOKS

Areas that harness the power of light will become more commonplace as we continue to better support our physical, social and emotional well-being.

PRIMARY COLORS

In bold contrast to the muted tones and white walls prevalent in years past, we are starting to see a return to a bright and basic primary color palette.

BETTER MATERIALS

In order to feel totally secure in your home on the coast, even amidst extreme weather conditions, you want to select the toughest, most durable window and door options available. Following in our tradition of innovation, Marvin® is proud to offer the strongest, most reliable materials for coastal projects.

ULTREX® FIBERGLASS

If strength and longevity are important to you, then Ultrex® fiberglass may be the right material. It's extremely reliable, strong as steel and performs well for many years after installation. In fact, just one square inch of Ultrex can support up to 34,000 pounds and is 8x stronger than vinyl. You can find a wide variety of Ultrex fiberglass products in our Elevate and Essential collections. [Learn More](#)

STRONGER CLADDING

Our revolutionary extruded aluminum cladding meets the highest requirements. Plus, it comes standard on all of our clad-wood windows and doors, across each product component—casing, frame, sash and divided lites. The result is an unmatched level of toughness and durability that roll-form and vinyl-clad windows just can't match.

IZ3 CERTIFIED WINDOWS

Meticulously designed to improve home safety in coastal regions, Marvin IZ3 Certified windows and doors can protect your home even during extreme weather events. They may be beautiful, but they also preserve the home's structure when flying debris, heavy rain and hurricane winds arrive. Plus, they are energy efficient and meet or exceed industry standards. DID YOU KNOW... Our specialty options include glass for unique coastal needs, such as [Sea Turtle Conservation Codes](#).

LOW MAINTENANCE, HIGH VALUE

Once installed, Marvin® windows and doors require little attention beyond annual maintenance and cleaning. Simply checking on the weatherstrips, tightening loose screws and rinsing off any sand, dirt or dust from the hinges should keep your windows and doors operating smoothly. If more serious issues do arise though, Marvin has you covered. All products include a number of warranty policies to help give you peace of mind.

PRODUCT SPOTLIGHT: Marvin Signature Ultimate Casement Windows

These state-of-the-art windows feature concealed multipoint locks and durable hardware that ensures easy opening and smooth operation. Plus, they include our patented exclusive wash mode feature, which allows access to both sides of glass from indoors to make window cleaning easier than ever.

WARRANTY

All Marvin windows and doors are covered by a limited warranty against chalking or fading that may result from manufacturing errors. This protection extends 20 years from the products' purchase date, so you should never have to worry about factory errors. Plus, Marvin's "coastal" hardware finishes, have an additional warranty against abnormal corrosion or hardware deterioration. [Learn More](#)

ENERGY EFFICIENCY

All Marvin products are designed to be as energy-efficient as possible, so you can enjoy your coastal environment, while also doing your part to sustain it. Choose from thousands of dual-pane and triple-pane products—and couple them with the glazing and gas options that help you achieve optimal energy efficiency. Marvin has over 150,000 ENERGY STAR® qualified options that help lower heating and cooling costs for your home. [Learn More](#)
