

FIBERGLASS REPLACEMENT  
WINDOWS AND DOORS

**INFINITY**<sup>®</sup>

from **MARVIN**

REPLACEMENT WINDOWS

# What could be simpler?

## *INFINITY® FROM MARVIN*

Since the late 1930s, Marvin has been creating windows and doors of superior quality with a human touch. The company has earned a reputation for fine craftsmanship, using only quality materials to build windows and doors that are beautiful and long-lasting. Recognizing a need for non-wood replacement windows for discerning homeowners like you, Marvin presents *Infinity*, a revolutionary line of replacement products developed with the expertise of an industry leader.

Your home is where your heart is. Whether you've lived in your house for three years or thirty years, you treasure the warmth, charm and comfort of your home. When windows show their age, there's no question you want the highest quality, most durable replacement windows available. You also want the window replacement process to be fast and hassle free. Marvin Windows and Doors—the name synonymous with quality, reliability, tradition and excellence—sets the industry standard by bringing you the *Infinity from Marvin* brand of replacement windows.

The style and performance of *Infinity* windows and doors are steeped in Marvin's decades of design and engineering experience. And *Infinity* windows are made completely of Ultrex®—a pultruded fiberglass material that is superior to other window materials in virtually every category.

## *Infinity's Warranty,* A lifetime commitment to you and your home

Attractive, durable, low-maintenance and professionally installed. This combination gives us the confidence to offer you the peace of mind that comes with a Limited Lifetime Warranty. This warranty reflects *Infinity's* commitment to superior engineering and craftsmanship dedicated to you and your home. The *Infinity* Limited Lifetime Warranty is our pledge to you that we will stand behind our products for as long as you own them. For full warranty details, see [www.infinitywindows.com](http://www.infinitywindows.com).

So relax.

*"Knowing that our replacement windows were backed by Marvin definitely put our minds at ease, and our Infinity® retailer handled the entire process for us from start to finish. It was truly hassle-free."*

*– Lee & Ray D.*

**INFINITY**®  
from **MARVIN**  
REPLACEMENT WINDOWS

# What could be stronger?

ULTREX® FIBERGLASS  
IS 8X STRONGER  
THAN VINYL!

Don't worry. Ultrex can take whatever mother nature dishes out because it's pultruded fiberglass, a material used in products where strength and durability are required.

In fact, fiberglass is such a solid, long-lasting material that it's trusted for use in bridge construction.

You're doing your homework—comparing replacement window features and benefits. We think when you're done, you'll find that *Infinity®* from *Marvin* replacement windows are the only choice for the home you love. The advantages are clear—strength, durability, low maintenance, ease of operation, and classic beauty.

*Vinyl*

*Ultrex Fiberglass*

You may never think about windows again.

*Infinity* windows are made from Ultrex® fiberglass, inside and out. Marvin has nearly two decades of experience creating window and door products made with this strong fiberglass material. The reason we chose it for *Infinity* windows is simple: fiberglass is superior to other window materials in virtually every category.

Made with strong cables of glass that are saturated with specially compounded resins, Ultrex is durable, non-corrosive, has low thermal conductivity, and is low-maintenance. The superior strength of Ultrex fiberglass allows the window frame profile to be narrower than those with frames made of vinyl or wood, giving you more visible glass area. And no matter how extreme the temperatures get in your region of the country, Ultrex stays square and true.

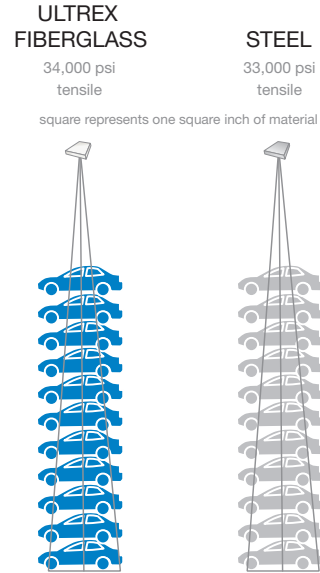

*The view through vinyl replacement windows*

*The view through Infinity replacement windows*

### Strengthen your view

Take a second look at *Infinity's* tough, narrow frame made of Ultrex fiberglass. The Ultrex advantage allows for more glass area than other replacement windows giving you more daylight and better views.

### STRONG AS STEEL

For windows, the strength of Ultrex fiberglass means less material movement for better seals and long-lasting windows. Tough, dependable, non-corrosive, non-brittle and low-maintenance, Ultrex is the last word in replacement windows.

# What could be tougher?

## STREAKS AND CRACKS?

Over time, vinyl will show its age. Spots, streaks and cracks can appear, and once they do, there isn't much you can do to help. Ultrex® fiberglass stands up to the elements and keeps windows looking great for years.

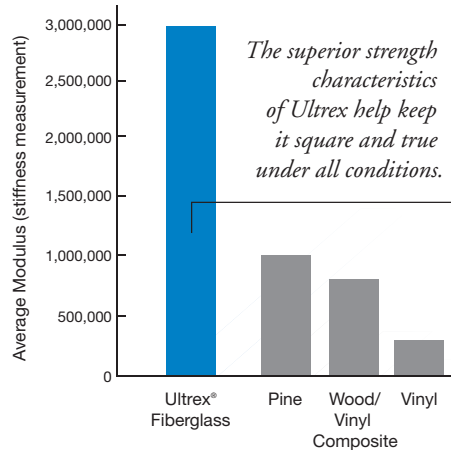

## Low maintenance

Because our windows can stand up to the elements, they continue to look beautiful and perform long after other windows have lost their luster. Once *Infinity* windows are installed, there is virtually nothing left for you to do except enjoy the view—you never need to sand, scrape or paint Ultrex® fiberglass. The result is a replacement window that will stand the test of time, giving you more time to do the things you enjoy. Only Ultrex makes this possible.

## Standing up under pressure

Scorching summer heat or freezing winter temperatures—wherever you live, whatever the climate, *Infinity* from Marvin replacement windows are outstanding performers. *Infinity* windows are rated to a performance level of DP30\*, which is a measure of the amount of pressure a window or door is designed to withstand when closed and locked. A DP30 rating\*\* requires independent testing to demonstrate strength. (standing up to 45 pounds of pressure per square foot, which is equivalent to the pressure created by 132 mph winds) and watertight (withstanding water penetration when exposed to the equivalent of 8" of rain per hour driven by 42 mph winds).

## TRUE STRENGTH

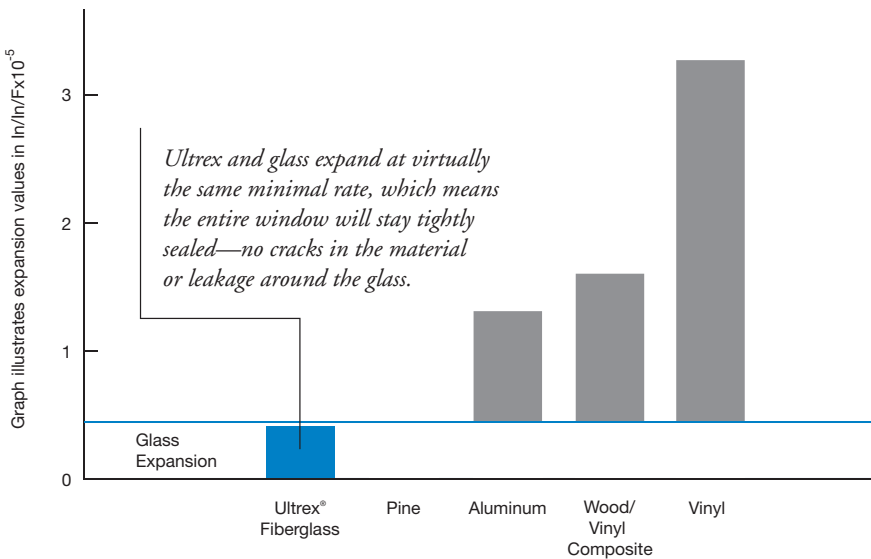

\*Based on unit size

\*\*For more information about NFRC performance rating standards, see [www.nfrc.org](http://www.nfrc.org).

LOW THERMAL EXPANSION MEANS A STRONGER SEAL

Ultrex® fiberglass stability

Ultrex is an ideal material for windows not only for its amazing strength and ability to repel the elements, but also for its low thermal expansion rate. Cold, heat and time can be tough on some window materials. Vinyl, for instance, can distort in extreme heat due to its high thermal expansion rate (see chart above). Ultrex resists distortion even at temperatures up to 350°F. Rapid temperature change doesn't faze it either. When the mercury climbed from -30°F to 70°F, a 6' stile changed less than 1/32" in length!

# What could be smarter?

*EverWood® Engineered Finish*

Can you tell  
the *difference*?

*EverWood Interior*

*Natural Wood Interior*

## THE BEAUTY OF WOOD

The look, the warmth, the color

Introducing EverWood, our revolutionary interior wood grain finish that looks, feels, paints and stains like wood, yet is completely low maintenance for years of lasting beauty. Its natural appearance beautifully complements any interior woodwork in your home. Now you can enjoy all the benefits of wood in a superior, low-maintenance replacement window by *Infinity from Marvin*.

## ULTRA-DURABLE PERFORMANCE

Solid window, strong finish, low maintenance

Long-lasting EverWood® is made from an inorganic material, and it won't absorb moisture or decay over time. There's virtually no warping, discoloration, material degradation, expansion, or contraction, just remarkably reliable performance and lasting beauty year after year. EverWood is only available on our strong, durable Ultrex® fiberglass replacement windows. Together, EverWood and Ultrex offer unmatched strength, beauty and reliability.

### Stains like wood

EverWood, the remarkable engineered wood grain finish by *Infinity*® from *Marvin*, is easy to stain in just a few, simple steps. It takes stain like wood, and thanks to its extreme durability, you'll enjoy the rich, natural look of wood for years to come.

*Mahogany Stain on  
Natural Wood*

*Mahogany Stain  
on EverWood*

EverWood is now available on Casement and Awning screens. Have the look of wood-framed screens stained to match your interior trim, without the maintenance of wood!

## STAIN TO MATCH

Your home, your style, your décor

From maple to mahogany, EverWood lets you match nearly any wood color with ease. EverWood samples, provided with every window, make it easy to test for the right stain match. Now you can perfectly complement your home's existing woodwork with the warmth and beauty of EverWood.

# What could be better?

## ABOUT ENERGY STAR\*\*

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping us all save money and protect the environment through energy efficient products and practices.

Installing ENERGY STAR qualified windows lowers energy bills and saves you money. With more efficient windows, you also use less energy, which reduces greenhouse gas emissions from power plants. All *Infinity* windows and doors meet or exceed ENERGY STAR requirements in every climate region of the US, so you can be confident that you'll improve your home's energy efficiency. Feel your carbon footprint shrinking?

## Energy efficiency

Ultrrex® fiberglass is far less thermally conductive than aluminum (500x less!) and insulates much like wood and PVC. This means that Ultrrex provides an insulated barrier against extreme weather temperatures, keeping your home comfortable, and helping to reduce heating and cooling costs. As proof, *Infinity* products have one of the highest performance ratings from the National Fenestration Rating Council (NFRC), the organization that defines energy performance ratings for the window and door industry.

## Glazing Options

We know how important energy efficiency is, and our standard LoE<sup>2</sup> glazings are a simple means of maximizing your home's thermal efficiency. LoE<sup>2</sup> reflects heat back to its source so summer heat is reflected outdoors and winter indoor heating is retained. At the same time, 84% of the sun's UV rays are screened to reduce fading and damage to upholstery and carpets. Argon gas and a warm edge spacer are also standard features.\* It all adds up to enhanced performance and long-term savings for you.

Our optional LoE<sup>3</sup>-366 glass provides increased performance, especially in high sun exposure locations. This top-performance glass is formulated to reject solar heat while letting light in. With LoE<sup>3</sup>-366 glass, light and visibility are maximized, 95% of the sun's damaging UV rays are blocked, and most importantly, you and your home stay cool and comfortable year round.

## Built Green

In addition to building products that are long lasting and highly energy efficient, our construction materials are kind to the planet as well. Ultrrex fiberglass is made of partially recycled material, and the main ingredient of Ultrrex fiberglass is silica sand, an abundant natural resource. The glass in our products contains 15% - 33% recycled content. Additionally, Ultrrex requires 39% less energy to produce than vinyl and uses no water in the process.

\*Exceptions are made for high elevation applications.

\*\*For more information on ENERGY STAR, visit [www.energystar.gov](http://www.energystar.gov)

## Better features and options

With *Infinity*® from Marvin, there is no such thing as a minor detail. We pay close attention to every aspect of our windows. So choose an option that complements the personality of your home. We'll take care of the details.

### Grilles-Between-the-Glass

*Infinity* windows are available with the grille bars between the panes of glass. Grille bars facing the exterior match the window exterior color, and grille bars facing the interior are available in Stone White, Sierra, Satin Taupe and Bronze. Grilles-Between-the-Glass combine easy glass cleaning with the stunning detail of a grille pattern. It's the best of both worlds.

*Grilles-Between-the-Glass*

### Simulated-Divided-Lites

Choose Simulated-Divided-Lites for an authentic divided glass look. Simulated-Divided-Lite bars are permanently adhered to the outside surfaces of the glass with a spacer bar between the panes of glass. Exterior Simulated-Divided-Lite bars are made of the same tough *Ultrex*® fiberglass used on all *Infinity* exteriors. Interior bars are available in Stone White, Sierra or stainable *EverWood*® to match your existing woodwork.

*Simulated-Divided-Lites*

### Divided Lite Patterns

Various divided lite patterns are available to replicate the look of your original windows or to add architectural interest.

*Standard  
Rectangular*

*Rectangular  
1-High*

*Cottage  
1-High*

*Standard

*Prairie – 9 Lite*

*Prairie – 6 Lite*

*Prairie – 6 Lite*

*Prairie – 4 Lite*

Additional divided lite patterns are available.

## More choices

### Exterior color options

The exterior of *Infinity* windows come standard in Stone White, with Sierra, Cashmere, Pebble Gray, Bahama Brown and Bronze available as options. The Ultrex fiberglass exterior finish is virtually impermeable and helps protect your windows from the effects of wind, weather, and time.

#### PAINT TO MATCH

You can paint *Infinity*® products to match exterior colors without affecting the protective performance of Ultrex® fiberglass.

*Stone White*

*Sierra*

*Cashmere*

*Pebble Gray*

*Bahama Brown*

*Bronze*

#### GLAZING OPTIONS

Standard LoE<sup>2</sup> and optional LoE<sup>3</sup>-366 glass are also offered tempered, obscure and tempered obscure.

*Obscure glass for added privacy*

### Interior color options

The interior of *Infinity* windows come standard in Stone White with Sierra or EverWood® as options. EverWood, our unique engineered wood grain finish provides the rich appearance of wood, yet is low-maintenance for years of lasting beauty. Durable EverWood can be easily stained to match the color of your home's existing woodwork.

*Stone White*

*Sierra*

*EverWood*

# Better ideas

## Hardware Finishes

Customize the look of *Infinity* windows with a variety of hardware finish options. *Infinity* windows come standard with the following hardware colors; White interiors with White hardware, Sierra interiors with Sierra hardware and EverWood® interiors with Satin Taupe hardware. Or, you can also choose from Brass, Satin Nickel or Oil Rubbed Bronze as additional options.

## Screen Options

With just one glance through our Hi Transparency screen, you'll be amazed at what you see – and what you won't. You will see a clearer, brighter view without the distortion and haziness that are often experienced with traditional screens. The tighter, finer mesh of the Hi Transparency screen provides a clearer view to the outdoors so you can experience nature the way it was intended – from the bright greens of spring to fall's most vibrant colors.

*Hi Transparency Screen*

*Standard Screen*

Corner keys keep window units square through delivery, installation, and years in a home. You won't find unsightly, messy welded corners—we inject adhesive sealant in the sash corners for joints that are solid, square, and weathertight.

## FINISHING TOUCHES

Brick Mould Casing is available to add a traditional look to the exterior.

# What could be easier?

## LIMITED LIFETIME WARRANTY

When you purchase *Infinity*® from Marvin products, you can rest assured. The *Infinity* Limited Lifetime Warranty is our pledge to you that we will stand behind our products for as long as you own them. For full warranty details on our limited lifetime warranty, see [www.infinitywindows.com](http://www.infinitywindows.com).

When you purchase *Infinity*® from Marvin replacement windows, you get an experience that is simple and hassle-free. Your existing windows will be professionally measured and replacement windows custom-sized to your home's individual specifications.

## A no-hassle experience

Imagine going to work in the morning and returning in the evening to beautiful new windows in your home and absolutely no mess inside or out. *Infinity* from Marvin partners with experienced, local installing retailers who are window experts and know what you need and expect.

You'll find authorized *Infinity* from Marvin installing retailers knowledgeable, professional, easy to work with and concerned with your satisfaction. They know our products and will help you choose the right windows and options to meet your needs. Once you contact an installing retailer, here's what you can expect:

- A thorough showroom or in-home presentation
- Professional measuring of your existing windows
- A complete project quote
- Convenient installation scheduling
- Professional installation from window experts
- Removal of your old windows and clean-up of the area
- The protection of our *Infinity* limited Lifetime Warranty

Perhaps best of all, with *Infinity* from Marvin, you only need one stop to make new windows in your home a reality.

## Two *convenient* replacement methods

Depending on the age and style of your home, *Infinity*® from *Marvin* offers two window replacement methods. Both methods are designed for maximum efficiency and minimum disruption to your household.

### Insert replacement

This replacement method is used when your existing window frames are in good condition, but the sash need replacement. Our frame-in-frame insert design is installed into your existing window frame with no disruption to existing trim, interior walls or exterior siding. This method is fast, efficient and economical, and there is no finishing required on your part.

### Full-frame replacement

This installation method is appropriate when your entire window has deteriorated and needs replacement or if you are looking for a totally new window size, style, or appearance. With full-frame replacement, the entire window (sash, frame, and casing) is removed and replaced.

Whatever your replacement needs, *Infinity* from *Marvin* has the solution.

# Double Hung

With a matching picture unit available, the *Infinity*® Double Hung provides a high performance replacement solution for every view in your home.

## *The smart replacement choice*

You've heard it said, "Don't work harder. Work smarter." With old double hung windows, you can work up a sweat just opening them and keeping them open. The *Infinity*® Double Hung is the smart answer to a traditional favorite. You'll be amazed at its smooth, effortless operation. Quality hardware and advanced design result in a double hung that makes cleaning so easy, you may actually have volunteers. Make the smart window choice and your "window worries" will become a thing of the past.

## Easy tilt operation

Our Double Hung window is amazingly simple to operate, and both lower and upper sash tilt with ease, without removing your screens. Our unique tilt release button lets you tilt the lower sash using only one hand, so cleaning is easier than ever.

*Unlock and raise the sash slightly.*

*Press the tilt release button and slide the lock lever over the button.*

*Tilt the sash into the room for easy cleaning without screen removal.*

*Cottage Style Double Hung*

*Oriel Style Double Hung*

Sash of different proportions in one unit, commonly called Cottage Style and Oriel Style, are also available, with all the tilting and performance features of a regular *Infinity* Double Hung.

# Rest assured.

*"The fiberglass construction is why I chose Infinity®. They're just so much stronger than vinyl and I don't worry about maintenance. That's what a replacement window is supposed to be."  
— John E.*

# Casement and Awning

*A versatile, user-friendly replacement option*

One word describes *Infinity*® from Marvin Casements and Awnings—easy. They are easy to choose, easy to operate and easy to love. The Casement (left or right hinged) and Awning (top hinged) combine beauty and virtually effortless operation. The standard Easy Wash® hinge is just that—a design that lets you easily clean the window both inside and out. The optional Clear View® hinge provides for an optimal viewing area. Both Casements and Awnings feature folding handles that tuck conveniently out of the way of most window treatments and provide a clean, finished look.

Casement

*An unobtrusive single lock lever simultaneously activates both locks.*

*The handle turns effortlessly and folds down neatly out of the way.*

*Infinity* Casements and Awnings incorporate effortless operation and functionality with a multi-point locking system.

Available in a variety of multiple assembly options

*The Easy Wash® hinge creates an opening for easy cleaning from the interior of your home.\**

*The Clear View® hinge option keeps the sash tight to the frame allowing for maximum visibility.\**

EverWood®, the interior wood grain finish from *Infinity*, is now available on Casement and Awning screens. Have the look of wood-framed screens that are stained to match your interior trim without the maintenance of wood!

\*Easy wash® and Clear View® hinges are not available on Awning (top hinged) windows. Clear view hinge availability is based on window width.

Easy does it.

*Combining fluid operation with a variety of configurations, Infinity® from Marvin Casement and Awning windows are an easy choice for your home.*

# Glider

## *A smooth operating space-saver*

This versatile *Infinity*® Glider is the ideal answer when you're looking for simple operation, energy efficiency and reliable performance.

If your gliders don't "glide" anymore or you have a space where a swinging sash would be in the way, the *Infinity*® Glider is the perfect solution. These durable, energy-efficient windows operate smoothly and seal tightly against air and water infiltration. Made with tough, dependable *Ultrex*® fiberglass inside and out, our Gliders are virtually maintenance-free. You'll also appreciate the superior performance and energy efficiency provided by standard *LoE*<sup>2</sup> with argon insulating glass. Cleaning the glass is simple with tilt latches that allow you to remove the operable sash for easy access.

*The operating sash slides effortlessly and can be removed and reinstalled for easy cleaning.*

Available in various operations

*Choose left-operating or right-operating sash.*

*Triple-sash units are available with operating sash on both ends.*

Lighten up.

*"I was excited that the fiberglass exterior was so low maintenance, and with the EverWood® stainable interior they look absolutely beautiful. I know I made the right decision with Infinity® Replacement Windows."*  
— Nancy A.
