WELCOME FROM THE PRESIDENT

Dear Friends:

This is a momentous day for graduates, families, and the entire UConn community. To our graduates, I offer my warmest and most sincere congratulations on your success and your achievements. Today's commencement exercises are the culmination of your time as a student and the fulfillment of one of our most important missions as a university.

I share the pride, excitement, and immeasurable hopes for the future that I know each of you feel today. Your education is a great credit to you, and to us; you exemplify the very best we have to offer as you prepare to enter the next chapter of your lives.

Today, a degree will be conferred upon you from one of this nation's truly great universities. UConn takes great care to ensure that our students are able to receive an education from outstanding faculty on a campus that is home to many exceptional facilities. It is also vital that each of our students experience a thriving campus where as much can be learned and enjoyed outside the classroom as in it.

Whatever your plans for the future may be, I hope that your time here has helped give you the knowledge, experience, and confidence that you will need to excel in every aspect of the life you will lead.

The goal of higher education is not confined to academic achievement alone; it is also intended to draw from within you those essential qualities that make each of us an educated, well-rounded individual – and a good citizen. That is one of the simplest, but most important titles we can merit in life and I know each of you will exemplify it, every day. You are a class – and a generation – who will go on to do extraordinary things.

Please enjoy yourselves today and celebrate the honor and distinction that you have earned. And whatever path you choose, I hope you will always carry with you the very fondest memories of your days here at the University of Connecticut. Remember: you are students today, but Huskies forever.

Congratulations and very best wishes,

COMMENCEMENT NOTES

Commencement Day at the University of Connecticut is a time of ceremony and pageantry, embracing traditions dating back to medieval times.

The University of Connecticut was founded as the Storrs Agricultural School in 1881 when the General Assembly accepted a gift of money and land from Charles and Augustus Storrs, natives of Mansfield. In 1893 when it became a land-grant college and officially opened to women, the name was changed to Storrs Agricultural College. As the mission of the institution grew, its name was changed in 1899 to Connecticut Agricultural College, and in 1933 to the Connecticut State College. At first a small but vigorous college with limited undergraduate offerings in agriculture, home economics and mechanical arts, with the development of a university program it became The University of Connecticut in 1939. The Graduate program began in 1935, and in 1949 the University awarded its first doctoral degrees. The regional campuses were established in 1946 to accommodate the influx of veteran students. Today, the University is made up of fourteen different schools and colleges. Through its administrative Divisions, Institutes, and Centers, the University is a Land Grant and Sea Grant College and a Space Grant Consortium Institution, privileged to serve the citizens of the State of Connecticut, and beyond.

Enormous expansion has taken place over the years together

with increased enrollment. Today, the University has an enrollment of over 32,182 students. At Storrs, there are over 19,241 undergraduates and more than 7,098 graduate students, representing some 108 nations.

This May, the University will award over 9,210 degrees. Of these, approximately 6,417 will be Bachelor's degrees, 1,944 Master's degrees, 92 Juris Doctor degrees, 56 Master of Laws degrees, 98 Doctor of Pharmacy degrees, 43 Doctor of Dental Medicine degrees, 85 Doctor of Medicine degrees, 3 Doctor of Musical Arts degrees, 15 Doctor of Audiology, 6 Doctor of Education degrees, 2 Doctor of Nursing Practice degrees, 27 Doctor of Physical Therapy degrees, and 348 Doctor of Philosophy degrees. Also to be awarded are 48 diplomas in Professional Education and 26 Associate's degrees in the two-year Ratcliffe Hicks School of Agriculture.

The Commencement Ceremony, because of the large number of graduates, is divided into separate exercises, by college or school. The Schools of Dental Medicine and Medicine, located in Farmington, and the School of Law, located in Hartford, hold their own exercises. The Commencement procession in each of the exercises at Gampel Pavilion in Storrs is heralded by the ceremonial trumpets, acquired especially for the University's commencement.

The Academic Procession is led by the Bearer of the Mace, followed by the faculty. The University Marshal, identified by her Baton, follows the President, together with the speaker, the Board of Trustees, vice-presidents, deans, and other University officials. The Mace is presented at the center of the stage while members of the platform party enter and take their places. Once the Mace is placed on the stand, it signals the beginning of the ceremony.

The Academic Gowns, Hoods and Regalia represent more than elegance or colorful attire. Academic caps and gowns continue a tradition which reaches far back into the early days of the oldest universities of the Middle Ages. The early European universities were founded by the church; the students, being clerics, were obliged to wear prescribed gowns and caps at all times. Caps and gowns were once common forms of clothing and were retained by the clergy when the laity adopted more modern dress. Though some universities here and abroad have other colors, the usual color for gowns in America is black. Hoods are lined with the official color of the college or university which conferred the degree. The velvet edging of the hood varies in length for bachelors, masters, and doctoral degrees. The color represents the appropriate degree. Mortar boards (caps) are usually black. The tassel for the Bachelor's and Master's degree may be of color distinctive to the degree, and the tassel for the doctoral degree may be made of gold thread. The gown and hood of the University Marshal were made specifically for University ceremonies in the official colors of national flag blue and white. The Processional Marshals wear blue velvet "beefeater" berets.

The Mace is presented at all academic ceremonies. In medieval times maces were weapons of warfare, but today a mace is "a staff borne by, or carried before, a magistrate or other dignitary as an ensign of his authority." It is the emblem and symbol of the President's authority to administer the University. This mace was first used at the Inauguration of President Homer D. Babbidge, Jr. on October 20, 1962. It was designed by Nathan Knobler, former head of the Department of Art. The University's early seal, executed in beautiful wood carving, appears on both faces. A penny dated 1881 is affixed to it, to commemorate the date of the University's founding.

The Baton, carried by the University Marshal, was specifically designed for ceremonial activities at The University of Connecticut and was first used at the Commencement in 1968. The Office of Marshal can also be traced back to the medieval period, and the Baton is a symbol of the Marshal's authority. This Baton has silver mountings and is surmounted by a representation of the University's former seal in enamel, which

itself incorporates the coat of arms of the State of Connecticut. The University Marshal, carrying the Baton, follows the Mace Bearer as she leads the academic procession into and out of the place of ceremony.

The Silver Collar/Medallion, worn by Susan Herbst, President, was first used in 1964, at the time of the University's Silver Anniversary. Each link on the collar represents one of the University's Schools or Colleges and consists of a cloisonné circle engraved with an appropriate design for the particular school and enameled with its traditional school or college colors. Hanging from the chain is a large silver medallion containing the University's early seal.

The Awarding of Degrees at the University of Connecticut is accomplished by a twofold process. First, the candidates for degrees of each respective school or college are presented by the University Marshal. The candidates proceed to the front, receive their diplomas, are congratulated by their administrative officers and return to their seats. The School or College Marshal then officially presents the candidates to the Dean who acknowledges the candidates and *declares* the appropriate degree. Second, when all candidates have been duly presented, the President of the University formally confers the appropriate degree. This is accomplished verbally at the time that she speaks the words:

"By virtue of the authority vested in me by the Trustees of The University of Connecticut, and in accordance with the procedures and regulations of the University, I confer upon you the Associate's Degree, appropriate Bachelor's Degree, Master's Degree, or degree of Doctor for which you have been presented at this One Hundred and Thirty-Ninth Commencement of The University."

The Recessional of the officials and faculty is once again led by the Mace Bearer and University Marshal. The graduates, along with the audience, are requested to remain seated until the recessional is concluded.

Out of respect and courtesy to all graduates, participants and guests are requested to remain in their seats until the ceremony is concluded.

The flowers displayed during the ceremonies are from the University's Plant Science and Landscape Architecture Department greenhouses.

ACADEMIC HONORS

University Scholar

The University Scholar designation is the highest scholastic honor at the University. The individualized undergraduate programs of these students, which in some cases include work toward a graduate degree, are supervised by faculty committees. Up to thirty students are selected as University Scholars in the junior year. Candidates for the University Scholar designation wear medals on gold and blue ribbons at the Commencement exercises.

Honors Scholar

Honors Scholars are outstanding students who complete intensive two- or four-year programs, including Honors courses of unusual breadth and depth. Honors requirements include a senior thesis in the major field. Candidates for the Honors Scholar designation wear medals on blue and white ribbons at the Commencement exercises.

Please Note: An asterisk () after a graduate's name indicates that they are a candidate for dual degrees.*

LATIN HONORS

In order to meet Commencement program printing deadlines, the Undergraduate candidates listed in the Commencement program include candidates with expected graduation dates of August 2017 through August 2018.

The University will base candidates' Latin honors (cum laude, magna cum laude, and summa cum laude), as indicated in the Commencement program, on their cumulative grade point averages (GPA) as calculated at the time of printing. Candidates' diplomas and official transcripts will reflect the actual Latin honor earned, if any, based on their complete academic record (through and including their final semester).

LAU = Cum Laude
MAG = Magna Cum Laude
SUM = Summa Cum Laude

Note: Because final semester grades are processed after Commencement activities, identification of Latin Honors in the University's Commencement Program are tentative and unofficial, pending the submission and calculation of all final grades for the graduate's final semester. There is no guarantee that the listed students will actually receive the honors once final grades are recorded.

Kimberly Bryant

Kimberly Bryant is the founder and executive director of Black Girls Code, an education nonprofit that provides young and pre-teen girls of color the opportunity to learn in-demand skills in technology and computer programming with a concentration on entrepreneurial concepts. Black Girls Code works to address the large diversity and gender gap within the tech industry and has grown into an international organization with seven chapters across the U.S. and in Johannesburg, South Africa. Ms. Bryant has set a lofty goal for the organization to train 1 million girls by 2040.

Ms. Bryant has been the recipient of numerous prestigious awards and distinctions. Most prominently, the Obama White House honored Bryant as a Champion of Change for Tech

Inclusion in 2013. She was one of 11 technology leaders who were acknowledged for expanding technology opportunities for young learners, especially minorities, women and other people from underrepresented communities. She recently completed the Pahara-Aspen Institute Fellow, which facilitates the dynamic growth of innovative leaders in the educational excellence and equity movement.

The University's honorary degrees are to be bestowed in "recognition of extraordinary and lasting distinction," representing the "highest intellectual and moral values." Ms. Bryant's commitment to diversity, dedication to education, and focus on innovation serve as an inspiring example which our students can strive to follow.

A pioneer in oncology nursing, Ruth McCorkle has been named the first Florence Schorske Wald Professor at the Yale School of Nursing (YSN). McCorkle is currently professor of nursing, former director of the Center for Excellence in Chronic Illness Care, and she was chair of the Doctor of Nursing Science Program from 1998-2004. She was also the program leader for Cancer Control at the Yale Comprehensive Cancer Center (YCCC) from 1998-2010, and a professor in the Department of Epidemiology and Public Health at the Yale School of Medicine. McCorkle is currently the director of Psychosocial Oncology at YCCC

She received a bachelor's degree in nursing from the University of Maryland and a master's in medical-surgical nursing from the University of Iowa. Her doctorate, in mass communications, was earned at the University of Iowa's School of Journalism. She has held teaching positions at a variety of institutions across the country, including the University of Pennsylvania, the University of Washington, and the University of Iowa.

Elected to the Institute of Medicine in 1990, McCorkle is the recipient of numerous scholarships and awards. Some of her many honors include the Book of the Year Award for Cancer Nursing from the American Journal of Nursing, a Distinguished Merit Award from the International Society of Nurses in Cancer Care, and a Distinguished Research Award from the Oncology Nursing Society. She was named the Nurse Scientist of the Year by the Council of Nurse Researchers of the American Nurses Association, one of the most coveted awards in the field of nursing. In 2009, she received the Bernard Fox Research Award for outstanding contribution to the field of psycho-oncology. Recently, she received the Jimmie Holland Leadership Award and the Trish Green Quality of Life Award and was inducted into the 2014 International Nurse Researcher Hall of Fame, Sigma Theta Tau International Honor Society of Nursing. A prolific writer, her work appears in many professional journals in the US and abroad.

Roger M. Boissonneault

Roger M. Boissonneault has had a long and distinguished career in the field of pharmaceutical science. At the time of his retirement, he was serving as the president, chief executive officer and director of Warner Chilcott PLC, Warner Chilcott-US, LLC, and Warner Chilcott Corporation.

Prior to its acquisition by the global pharmaceutical firm Actavis in 2013, Warner Chilcott was a publically-held global specialty pharmaceutical company that focused on the women's healthcare, gastroenterology, dermatology, and urology segments of the branded pharmaceuticals market, primarily in North America. At the time of its sale, and under Roger's direction, the Company had annual revenues in excess of \$2.3 billion.

Roger graduated from UConn with a BS in Biological Sciences in 1971 and went on to earn an MBA from Rutgers University.

Prior to his association with Warner Chilcott, he began his career with the pharmaceutical company Warner Lambert where he held a number of positions including Vice President of Female Healthcare, Director of Corporate Strategic Planning, Director of Obstetrics/Gynecology Marketing, Vice President of Female Healthcare, and Vice President and General Manager.

He has also served as a Director of Boron, LePore & Associates, a firm that provides integrated medical education to the healthcare industry.

Roger holds over a dozen patents for pharmaceutical drugs, nearly all of which resulted in commercial products related to oral contraceptives, antibiotics, hormone replacement, and ulcerative colitis.

His loyalty to UConn has been significant, particularly his generous contributions to CLAS and to The Fund for UConn which supports needs such as undergraduate and graduate education, research initiatives, multicultural affairs, and more.

In addition, his family's philanthropy is extensive and includes support of the Carter Center in Atlanta, Georgia, the Connecticut Food Bank, the New Jersey Food Bank, Emory University, MAP International, the American Red Cross, Doctors Without Borders and the Valerie Fund in New Jersey, an organization devoted to providing comprehensive healthcare services for children with cancer and blood disorders.

He and his wife Terri are the parents of four children and a growing number of grandchildren. They live in Branford, Connecticut.

Annette K. Viall graduated from the University of Connecticut, Bachelor of General Studies (BGS) Program, with honors, in 2011, at the age of 65. After obtaining her bachelor's degree, Annette was accepted to the University of Connecticut's prestigious graduate program in social work. She completed her Master's Degree in Social Work (MSW) in 2013.

While at the University of Connecticut, Annette was actively involved in student government, worked as a tutor in the Academic Center and immersed herself in all that the school had to offer. At the same time, Annette worked for Safe Futures, running support groups for battered women, providing individual counseling and advocacy, and responding to women and children in crisis on a 24-hour domestic violence hotline. In 2007, Annette was honored as "Volunteer of the Year" by the Southeastern Connecticut Child and Family Agency for her work with women transitioning to work through the agency's Women in New Growth Transitions (WINGS) program.

After obtaining her MSW, Annette took a position at Catholic Charities where she provided therapy, support, case management and advocacy for indigent persons suffering from addiction and challenged by mental health issues. She also served Connecticut's most vulnerable families as a facilitator for the state's parenting program operated through the family court system. Annette mentored graduate student interns from

various MSW programs including Springfield College, the University of Connecticut, and Southern Connecticut State University, around such issues as support groups, domestic violence and addiction.

Annette currently works in Norwich, Connecticut at DaVita Dialysis, where she counsels and advocates for patients in managing the physical, mental, emotional and financial demands of end stage kidney disease. She is a member of the Mental Health Suicide Prevention Board of Three Rivers Community College and maintains her 50-year involvement in children's and woman's organizations of the Latter-Day Saints Church.

Annette is an accomplished violinist who played in the Southeastern Connecticut Symphony and taught violin privately. She currently plays first violin in the New London Community Orchestra. In her "spare" time, Annette can be found creating beautiful flower arrangements for weddings, holidays and church events through her company Black Swan Flower Designs.

Annette has been married for 52 years to her high school sweetheart, Delbert. They reside in Gales Ferry, Connecticut. She is the mother of three "perfect" children – Sean, Sasha, and Nicholas and devoted to her amazing grandson Riley.

Ken Lalime '79

Ken Lalime is a lifelong Connecticut resident with over 35 years of experience in the health care arena. A 1979 graduate of the UConn School of Pharmacy and a current member of the Dean's Advisory Board, he is the Chief Executive Officer at the Community Health Center Association of Connecticut – a not-for-profit service organization dedicated to strengthening and supporting the clinical and administrative operations of community health centers across the state.

Prior to his current position, Ken was the Chief Executive Officer of HealthyCT – the Connecticut based health insurance co-op. There, his vision was to develop a progressive health plan that facilitated the delivery of efficient, evidence-based medical care through a consumer-focused and patient-centered health care delivery model.

In addition, he has also been a principal at KRLHealth, LLC, a firm that provides advice and assistance to public and private sector clients on issues including health policy, payment reform, risk assessment and mitigation, network development, and patient-centered approaches to population health management.

Ken also served as Executive Director of the Connecticut State Medical Society-IPA – an independent practice association with 7,000 physician members. Prior to that, he was co-owner of Cranbury Pharmacy in his hometown of Norwalk. He also served in many roles -- from hospital pharmacist to Director of

Managed Care – during a 17-year career at Norwalk Hospital.

Throughout his distinguished career, Ken's primary objective has been to help facilitate the delivery of quality, cost-effective healthcare to individuals throughout the state. From community pharmacy owner to chief executive officer of a health insurance company, to leader of a patient advocacy organization, he has championed the role of pharmacists by highlighting their professional expertise and commitment to quality healthcare for all.

In fact, during his long career, Ken has 'walked the walk' of the UConn School of Pharmacy's Performance Improvement for Safe Medication Management program – PRISM for short. This is a program that focuses on the need for a multi-disciplinary approach to the delivery of safe and effective medication use through interdisciplinary educational programs, community-based research collaborations, healthcare transformation policy and team-based care delivery. Ken has put that mission into practice.

Marie Smith, the Henry A. Palmer Endowed Professor in Community Pharmacy Practice says of Ken Lalime, "What strikes me is his continued support for pharmacists in expanded roles plus his leadership across various roles with physician organizations, health plans, and now at a community health center. He is a true role-model."

Kathleen Battle

Soprano Kathleen Battle's luminous voice has been called "...without qualification, one of the very few most beautiful in the world" (The Washington Post). In a career filled with accolades, honors and major milestones, what has perhaps distinguished her most is her almost magical ability to create an unwavering emotional bond between herself, her music and her audience. An outstanding performer across several genres - from opera to jazz to African-American spirituals - she has brought the transformational power and joy of music to audiences around the world.

Ms. Battle was born in Portsmouth, Ohio, the youngest of seven children. Ms. Battle earned a scholarship to the University of Cincinnati College-Conservatory of Music, where she majored in music education, and also earned a master's degree in Music Education. She began teaching at a Cincinnati public school but continued to study voice privately.

Ms. Battle's professional performance career began when she was chosen to perform as the soprano soloist in Brahms' *German Requiem* at the 1972 Festival dei Due Mondi in Spoleto, Italy. In 1973, the Martha Baird Rockefeller Fund for Music awarded her a grant to further her career.

Ms. Battle made her professional opera debut in 1975 as Rosina in Rossini's *The Barber of Seville* with the Michigan Opera Theatre, Detroit. She made her New York City Opera debut the following year as Susanna in Mozart's *The Marriage of Figaro*, and in 1977 made both her San Francisco Opera and Metropolitan Opera debuts.

During the 1980s, Ms. Battle received three Grammy awards for her recordings: *Kathleen Battle Sings Mozart, Salzburg Recital*, and *Ariadne auf Naxos*. In the 1990s, she won two more Grammy awards for *Kathleen Battle at Carnegie Hall* and *Handel: Semele*. Ms. Battle's performance on the PBS broadcast of the Metropolitan Opera's 1991 season opening gala won her an Emmy.

Since 2000, Ms. Battle has pursued diverse performing and recording projects. Her jazz and crossover repertoire includes the compositions of Duke Ellington, George Gershwin, Leonard Bernstein, André Previn, Rodgers and Hammerstein, and Stevie Wonder. She is also a celebrated performer of African-American music, including spirituals, folk songs, and lullabies.

Dr. Sonny Ramaswamy

On May 7, 2012, Dr. Sonny Ramaswamy was appointed by President Barack Obama to a six-year term appointment as director of the National Institute of Food and Agriculture (NIFA). The position is subject to an additional six-year term by congressional intent.

NIFA provides funding to catalyze transformative discoveries, education, and engagement to solve societal challenges.

Previously, Dr. Ramaswamy held a number of academic positions, including: dean of Oregon State's College of Agricultural Sciences; director of Purdue's Agricultural Research Programs; university distinguished professor and head of Kansas State's Entomology Department; and professor of entomology at Mississippi State.

Sonny has been a successful scientist, educator, and administrator. He has received research grants from many federal agencies, including NIFA, NSF, NIH, EPA, and USAID, as well as from state agencies, commodity groups, and industry for his research in the area of integrative reproductive biology of insects. He has published over 150 journal articles, book chapters, and a book. He is an award-winning teacher, and has

mentored a number of high school, undergraduate, graduate, and post-doctoral students. He has received a number of awards and honors, including being named *Fellow of the American Association for the Advancement of Science* and *Fellow of the Entomological Society of America*.

Dr. Ramaswamy has had excellent success in capital campaigns and fund-raising to create endowments for faculty professorships, student scholarships and fellowships, including creation of the *Leadership Academy* at Oregon State University, support of research, extension, and outreach, infrastructure improvements, construction of new facilities for research, education, and outreach, including the Kansas State University *Insect Zoo*.

Dr. Ramaswamy received his Bachelor of Science degree in agriculture and Master of Science degree in entomology from the University of Agricultural Sciences, Bangalore, India. His doctorate is in entomology from Rutgers University. He is also a graduate of Harvard University's Management Development Program.

Howard M. Klebanoff '62

Howard M. Klebanoff is known as one of Connecticut's most distinguished attorneys specializing in special education law, having represented families of children with special needs for more than 40 years before retiring from active practice in 2017. The father of two children with disabilities, Klebanoff dedicated his career to ensuring that all children gained access to appropriate programming, services, and placement, whether in a public or private setting.

After earning his juris doctor degree from UConn, Klebanoff worked as an attorney for the U.S. Department of Labor in Washington, D.C. He was later elected to the Connecticut Legislature, serving from 1969 to 1977. As House Chairman of the Education Committee of the Connecticut General Assembly, he sponsored the state's first comprehensive special education laws as well as a total revision of the way education was funded in Connecticut. After leaving elective office, Klebanoff served as Counsel to the Connecticut House of Representatives and was the first chair of the Connecticut Board of Higher Education.

For his work in the area of education law, he has been listed in *Best Lawyers in America*, *U.S. News & World Report*, *Super Lawyers*, and among *Connecticut Magazine's* top lawyers in

Connecticut. For 25 years, he has received a Martindale-Hubbell commendation, the highest peer review rating in legal ability and ethical standards. In addition to many other accolades, he has received the Hartford County Bar Association's President's Award for excellence in the practice of law and the Marquis Who's Who in America Lifetime Achievement Award, which is awarded to individuals who possess professional integrity, demonstrate outstanding achievement in their respective fields, and have made immeasurable contributions to society as a whole.

In recognition of Klebanoff's work in the area of special education, the University of Connecticut established the Howard Klebanoff Institute of Special Education in 1997 at its Neag School of Education. The Institute's mission is to improve the quality of educational and other services to children and adults with disabilities and their families by conducting research, disseminating information, and directing training activities aimed at overcoming legal, ethical, and systemic impediments to such services.

Klebanoff graduated from Yale University in 1959 and from the University Connecticut School of Law in 1962.

Crystal R. Emery

Crystal R. Emery is a dynamic producer, author, and filmmaker known for producing socially-conscious storytelling on a variety of platforms that celebrate the triumph of the human spirit. She is also the founder and CEO of URU The Right To Be, Inc., a non-profit content production company that tackles social issues via film, theater, publishing, educational media, and other arts-based initiatives. She is a member of the Producers' Guild of America, New York Women in Film and Television and she sits on the committee of 100K in 10's Increasing Women's Visibility in STEM.

After receiving her Bachelor of Arts Degree from the University of Connecticut, Crystal R. Emery began her professional career in theater and film, with an apprenticeship with renowned theater director Lloyd Richards (*The Piano Lesson*) and polished her craft under the tutelage of film industry giant Bill Duke (*A Rage in Harlem*). Emery went on to attain her Master of Arts degree in Media Studies from The New School for Public Engagement.

Emery is a sought-after author and motivational speaker. She was hailed as "inspiring," by the *Los Angeles Times* and a "leader in science and technology" in *Good Housekeeping's* "50 over 50; Women Who are Changing the World." Her writing has appeared in numerous publications, including *Time Magazine* and *The Huffington Post*. To date, her published works include the first two volumes of the *Little Man* children's book series, *Against All Odds: Black Women in Medicine* and the forthcoming *Master Builders of the Modern World: Reimagining the Face of STEM*. Her ground breaking feature-length documentary, *Black Women in Medicine*, has now been seen by over 12 million viewers globally and screened in American Embassies around the world from Ethiopia to Germany.

In addition to her filmmaking, Emery is an accomplished playwright and producer of live cultural events which include; *This Is Where I Live, Don't Dump On Me*, a play and a series of workshops designed to inspire environmental responsibility and cultivate problem-solving skills among children and *The Sankofa Cultural Art Festival*, which brought together nationally renowned Native American, Latino and African-American artists from across the United States.

Most recently, Emery conceived, designed and launched the innovative *Changing the Face of STEM* national educational initiative in 2015 which culminated in a Congressional Forum held in Washington, DC attended by more than 300 STEM professionals, policy makers, educators, students and members of the press who all participated in an informative and inspirational day of resource sharing and strategizing. Due to the huge success of Emery's seminal Diversity in STEM summit, the National Academies of Sciences, Engineering, and Medicine will host the second annual *Changing the Face of STEM* national forum at the iconic National Academy of Sciences. In October 2018 she will be the keynote speaker for the National Security Agency in Washington, DC.

Triumphing over two chronic diseases as a quadriplegic, Emery continues to shape a successful personal and professional life. She attributes her breakthrough as a producer and writer, and growth as a human being, to her participation in the classes taught by Guru Madeleine at The New School of learning in New Rochelle, New York. Emery believes that faith and trust in a power greater than ourselves and perseverance is the road to success.

Lorne M. Golub, DMD, MSc

Lorne Golub, DMD, is a leading innovator in the development of medicines promoting oral health and treating chronic inflammatory diseases. A Distinguished Professor of Oral Biology and Pathology at Stony Brook University School of Dental Medicine, Dr. Golub ushered in a new way of thinking about and treating one of the most prevalent human diseases, periodontitis - a major cause of tooth loss in adults world-wide.

A Fellow of the National Academy of Inventors, Dr. Golub's research innovations are largely related to his discoveries and development of therapeutic medications as inhibitors of tissue-destructive enzymes called the matrix metalloproteinases (MMPs). These novel medications have shown evidence of efficacy in a variety of oral and systemic diseases including periodontitis, dermatitis, arthritis, diabetes, cancer, and cardiovascular and lung diseases.

Dr. Golub holds 55 United States patents and 104 international patents. His discoveries led to the development of Periostat (CollaGenex Pharmaceuticals, Newtown, Pa.), the first systemic agent to gain the U.S. Food and Drug Administration's market approval as a collagenase-inhibitor drug, for the treatment of progressive periodontal disease. Another drug, Oracea®, also resulted from his research, and is used to treat chronic inflammatory

skin disease. Dr. Golub's current research and patent efforts focus on newer-generation MMP-inhibitor drugs.

A native of Winnipeg, Manitoba, Canada, Dr. Golub received his DMD degree in 1963 from the University of Manitoba, Winnipeg, where he also completed his master's degree in oral biology. Dr. Golub completed his certification in periodontology at the Harvard School of Dental Medicine and has taught at the State University of New York at Stony Brook School of Dental Medicine since 1973.

Dr. Golub has published more than 300 scientific articles over his 50 years of funded research. He has received numerous national and international distinctions including the following: National Institutes of Health 10-year (NIH) MERIT award (1987); the Helsinki Medal (1991); the Distinguished Scientist award from the International Association of Dental Research (1998); an honorary doctorate (Medicine) from the University of Helsinki (2000); the Distinguished Alumnus Award from the University of Manitoba (2002); the Outstanding Inventor Award from the SUNY Research Foundation (2002); the Gold Medal for Excellence in Research from the American Dental Association (2006); Fellowship in the National Academy of Inventors, NAI (2017); 2018 recipient of the ADEAGies Foundation Gies Award for Innovation-Dental Educator.

UNIVERSITY OF CONNECTICUT
GRADUATE SCHOOL, SCHOOL OF DENTAL MEDICINE AND SCHOOL OF MEDICINE
BOARD OF DIRECTORS FACULTY RECOGNITION AWARD RECIPIENT

Douglas E. Peterson, DMD, Ph.D, FDS RCSEd

The 2018 recipient of the UConn Health Board of Directors Faculty Recognition Award is Douglas Peterson, DMD, Ph.D., FDS RCSEd.

A member of the UConn School of Dental Medicine faculty since 1989, Dr. Peterson is a professor of oral medicine and co-chair of the Head and Neck Cancer/Oral Oncology Program in UConn Health's Neag Comprehensive Cancer Center.

His primary academic responsibilities throughout his career have been directed to oral management of the medically complex patient, with emphasis on oral complications in cancer patients. He has contributed to development of interprofessional models for patient care, research, and health professional education in this context for more than 40 years. He has lectured extensively at the regional, national, and international levels throughout this time.

"Doug Peterson has been an indispensable part of the success of the UConn School of Dental Medicine, as well as the greater University through his work in the oral cancer realm," says Dr. R. Lamont "Monty" MacNeil, dean of the UConn School of Dental Medicine. "He is internationally recognized and certainly most deserving of this honor from the UConn Health Board of Directors."

Dr. Peterson is author of approximately 165 peer-reviewed publications and 150 abstracts, is editor of two books, and co-editor of a monograph for the *Journal of the National Institute*. He has been

involved in translational and clinical trial research in the oncology setting throughout his career, including serving as principal investigator on two multi-center, international clinical trials involving drug development for oral mucositis in cancer patients. He also has served as principal or co-investigator on many National Institutes of Health (NIH) grants, as well as primary mentor via the NIH K Award program. Additionally, Dr. Peterson has been a reviewer of grant applications for the NIH on a frequent basis during the past 30 years, including study section chair for several panels.

"I am so very appreciative for the privilege I have here at the University of Connecticut to contribute to enhancing oral as well as overall health in medically complex patients," Peterson says. "The opportunities in interprofessional education, patient care, and research continue to be extraordinary, for which I am most grateful."

Dr. Peterson holds both a Ph.D. in pathology and a D.M.D. from the University of Pennsylvania. Before joining the UConn faculty, he spent 14 years at the University of Maryland and has served as a consultant to the NIH and an associate medical staff member at the Johns Hopkins Hospital and Oncology Center. He is a fellow in dental surgery of the Royal College of Surgeons of Edinburgh (Scotland), internationally recognized as the highest college award in dentistry.

Maria Luz-Fernandez

Dr. Maria Luz Fernandez is a Professor in the Department of Nutritional Sciences at the University of Connecticut, where she has been on the faculty since 1997. She has an international reputation for exceptional scholarship in the field of lipid metabolism and coronary heart disease, as well as an outstanding record of mentoring graduate students. To date, she has supervised 34 PhD students and 19 MS students, with an additional two currently working under her direction. She has also mentored three post-docs and several visiting scientists, and served as an associate advisor for another 15 MS and 30 Ph.D. students. 135 of the 253 manuscripts and book chapters that she has published have one of her former students as first author. Her former students hold faculty positions in the United States and abroad as well as critical and leadership roles in the pharmaceutical and food industries. In addition, she has

supervised five undergraduate honors theses and over 65 undergraduate independent studies at UConn.

Dr. Fernandez has worked with students of all races and ethnicities from 16 different countries. She was the driving force behind the establishment of an international exchange program between UConn and the University of Sonora in Mexico, and she has played a prominent role in the recruitment and retention of minority graduate students at UConn.

Dr. Fernandez has served as the Graduate Program Coordinator in Nutritional Sciences (and a member of the Graduate Faculty Council) for the last 17 years and is a current member of the Executive Committee of The Graduate School.

Jorell Meléndez-Badillo

Jorell Meléndez-Badillo earned his BA and MA in History of the Americas from the Inter American University in Puerto Rico. When he arrived at the University of Connecticut in 2013, he was already a published author. His book, *Voces libertarias: Orígenes del anarquismo en Puerto Rico* is already in its third edition, and he is co-editor of *Without Borders or Limits: An Interdisciplinary Approach to Anarchist Studies*. His path-breaking dissertation describes how a group of self-

educated workers in Puerto Rico became part of its national mythology, and he has been a vital part of the community both in the History department and in the larger Latinx community. He held a Ford Foundation Fellowship in 2016-2017 and was a fellow in the UConn Humanities Institute in 2017-2018. He will join Dartmouth College on July 1, 2018 as a Mellon Faculty Fellow and will transition to Assistant Professor of History on July 1, 2020.

RECESSIONAL

COMMENCEMENT

SCHOOL OF LAW COMMENCEMENT SPEAKER

Cornelia T. L. Pillard

Cornelia T. L. Pillard is a United States Circuit Judge of the United States Court of Appeals for the District of Columbia Circuit. Judge Pillard was appointed to the United States Court of Appeals in December 2013. She graduated from Yale College in 1983 and Harvard Law School in 1987. Following graduation, she served as a law clerk to Judge Louis H. Pollak (1987-1988), and held the Marvin M. Karpatkin fellowship at the American Civil Liberties Union (1988-1989). From 1989 to 1994, she was Assistant Counsel at the NAACP Legal Defense and Education Fund, Inc. She served as an Assistant to the Solicitor General of the United States from 1994 to 1997. In 1997, Pillard joined the tenure-track faculty at Georgetown Law.

She served from 1998 to 2000 as Deputy Assistant Attorney General in the Office of Legal Counsel. Pillard returned to Georgetown Law, received tenure, and served from 2008 to 2009 as inaugural Academic Co-Director and Professor at the Center for Transnational Legal Studies, a London-based, Georgetown-led law study program conducted in collaboration with law schools from many different countries. Pillard was an active member of the Georgetown Law Supreme Court Institute (SCI) from its founding in 2003, and became SCI Faculty Co-Director in 2011. She was a Fellow at the Woodrow Wilson International Center for Scholars during 2012-2013. Pillard remained a full professor at Georgetown Law until her appointment as U.S. Circuit Judge. Pillard, her husband, and teenage children live in Washington, D.C.

THE GRADUATE SCHOOL

The parenthetical indication of a conferral date following a degree recipient's name signifies confirmed completion of degree requirements. If no conferral date is indicated, completion of degree requirements could not be confirmed at press time. Conferral of a degree is contingent upon verification by the Graduate School that a student has completed all requirements.

ARMED SERVICES COMMISSION

Each year, the President of the United States, through the Secretary of Defense, grants commissions to Connecticut students in the Regular Service and in the Reserve Components.

Air Force Reserve Officer Training Corps

The following have received a commission as Second Lieutenants through the Air Force ROTC program at the University of Connecticut.

HUNTER KANALE BECKFORD
*Central Connecticut State University
Cyber Security Officer*

DANIEL MACRAE BULLOCK
*University of Connecticut
Intelligence Officer*

BRIAN ROBERT BURSIEWICZ
*University of Connecticut
Pilot Candidate*

DANIEL JOSEPH D'AGATA
*University of Connecticut
Pilot Candidate*

RYAN GILLEN DWYER
*University of Connecticut
Pilot Candidate*

**RYAN SEAN HENDERSON
*University of Connecticut
Pilot Candidate*

ADEEB UL ISLAM
*University of Connecticut
Acquisitions Management Officer*

RYAN ANTHONY MCVEIGH
*University of Connecticut
Cyber Security Officer*

SUZY HOPE JOAN QUINN
*University of Connecticut
Nursing Officer*

Army Reserve Officer Training Corps

Second Lieutenants, Active Duty, National Guard, U.S. Army Reserve

**HAYDEN TYLER ANDRE
*University of New Haven
Infantry*

AARON GERALD BARKIN
*University of Connecticut
Adjutant General's Corps*

CHANTEL MARIE DUMAS
*University of New Haven
Military Police Corps*

XAVIER NATHANIEL EHRESMAN
*University of New Haven
Infantry*

SYLVIA MARIE FERNANDES
*University of New Haven
Military Intelligence*

ASHLEY NICOLE FESHLER
*University of New Haven
Aviation Corps*

BENJAMIN RYAN GLUCK
*University of Connecticut
Chemical Corps*

TREVOR ALDO JARVIS
*University of New Haven
Field Artillery*

*KEVIN TAESOOON KWON
***University of Connecticut
Infantry*

*LUCAS DANIEL MARCOUILLER
*University of Connecticut
Field Artillery*

*CHRISTOPHER STEVEN MCLEAN
***University of Connecticut
Infantry*

**AMANDA KELSEY NASH
*University of New Haven
Ordnance Corps*

JULIAN MALCOLM NUGENT
*University of Connecticut
Quartermaster Corps*

PATRICIA AGNIESZKA PANEK
*University of New Haven
Transportation Corps*

DYLAN THOMAS ROACH
*University of Connecticut
Quartermaster Corps*

*OWEN WALTER ROCKWELL
*University of Connecticut
Field Artillery*

PETER JOSEPH SCORZELLI
*University of New Haven
Corps of Engineers*

*ZACHARY GORDON TABAK
***University of Connecticut
Field Artillery*

CYNTHIA NICOLE VASQUEZ
*University of New Haven
Military Intelligence*

SERGEI VIKTOR VITONE
*University of New Haven
Infantry*

DAZJAVIA ZAIRE WILLIAMS
*Southern Connecticut State University
Medical Service Corps*

NATHANIEL CURTIS WINCHESTER
*University of New Haven
Military Police Corps*

**Distinguished Military Student
**Distinguished Military Graduate*

The official seal of the University of Connecticut depicts the ancient and mighty oak. Beautiful and sacred, the venerable oak symbolizes wisdom, longevity and hospitality. To Aristotle, the oak represented human potential.

The oak holds a special place in Connecticut's history. In a time long before statehood, the Connecticut colony's self-governing status was guaranteed by a charter issued by King Charles II of England. When, in 1687, his successor King James II attempted to reinstate the monarchy's authority, the Crown's emissary's efforts were foiled as the Royal Charter was secretly spirited to a temporary hiding place—a majestic oak in Hartford, forever after known as the Charter Oak. The oak became a symbol of freedom worldwide.

The oak has unique meaning for the University as well. In 1884, the commencement exercises of the second graduating

class of the Storrs Agricultural School were held in an oak grove on the Storrs campus. This grove, long a favorite gathering place for a variety of open-air meetings, served as the spiritual home to the growing community of scholars.

The University of Connecticut's graphic interpretation of the oak is a stylized synthesis of two acorns and three oak leaves, representing maturation, intellect and moral strength. The seal is the symbol of a large and diverse institution; it is used by all of the University's schools, colleges, regional campuses, professional schools and UConn Health. It communicates the broader mission of the University as a center for the pursuit, the creation, and the sharing of knowledge. The University of Connecticut, like the mighty oak, is rooted in a proud past and reaches toward a limitless future.
