What is MBBS?

An MBBS degree is the undergraduate course for aspirants who want to fulfil their dream of becoming a doctor. **MBBS full form and meaning** - Bachelor of Medicine and Bachelor of Surgery, is a professional degree in medical science. A person holding the MBBS degree becomes a certified medical practitioner. The duration of MBBS course is five years and six months including one year of rotational internship at hospitals, health centers, and health camps organized by Non-Profit Organisations (NGOs). MBBS course syllabus includes studies on anatomy, pharmacology, pathology as well as community health & medicine, paediatrics, and surgery. The syllabus, prescribed in such a way that MBBS degree holders can choose a specialization for further majoring and practicing medicine. The career specialisations for MBBS students are Nephrology, Cardiology, Gynecology, Anesthesiology, Organ Transplant, Endocrine, and General Surgery etc.

What are the career options after MBBS?

During one year of internship that MBBS degree includes, students work with hospitals and healthcare centers as consultants, physicians, medical assistants in critical care units, and much more. They work in health campaigns by the government and help the public with awareness about diseases, medicines, health and fitness through conferences.

On completion of MBBS Internship, the students can get themselves registered as doctors by Medical Council of India (MCI). They can either apply for post-graduate degree in medical science i.e. MD/MS or continue working in the health sector as qualified doctors.

While pursuing further education in medical science, an MBBS degree holder can also associate with pharmaceuticals as research associates. Moreover, the option for taking Combined Medical Services Examination is always open for an MBBS graduate. They can be employed with the central government organizations including hospitals, defense sector, railways, and with the local/state government.

What are the required skills for MBBS?

Every medical and health sciences practitioner must have required skills as under –

Ability to work in critical and dynamic environment	professional commitments and medical ethics
Desire for knowledge and learning new research	Scientific research and development skills
Sharp memory and prompt approach	Communication interpersonal skills
Counselling and caring skills	Approachable and empathetic skills
Medical writing skills	Patience and perseverance

Eligibility for MBBS Degree

- Candidates must have passed Class 10+2/higher Secondary/Pre-University qualifying examination with Science subjects i.e. Physics, Chemistry and Zoology/Botany. They also must have studied English as a main subject for their qualifying examination.
- Moreover, candidates also need to fulfil the age limit criteria i.e. they must have completed 17 years of age at the time of admissions.
- There are additional eligibility conditions as mentioned by the regulatory authorities for MBBS i.e. Medical Council of India (MCI).

Q. How can I get admission for MBBS through COMEDK? I belong to UP.

- A.** Hello Pratiksha, There seems to be some confusion or communication gap. COMEDK has medical as part of acronym, but these days a student cannot get admission to a medical college based on performance in this exam. The only exam that a prospective student of medicine needs to give is NEET. I hope yo...[more](#)
