Key Control

Medeco's Approach

The security of any locking system is dependent upon two very important factors. The first is protection against attacks such as picking, drilling, bumping and forcing. The second is the ability to control duplication of existing keys. Historically, unauthorized key duplication has played a major role in compromising even the most sophisticated security systems. Anyone with even temporary access to original keys has no problem getting duplicates made for their own use if the keys and key blanks are not patent protected. Even stamping "Do Not Duplicate" on a key merely warns someone not to copy the key – it is not a promise of legal protection or enforcement. The only way to ensure that keys cannot be copied without the consent of the owner is a key system with patent protected keys.

Medeco has counteracted the key control problem by doing three things:

1. Medeco manufactures cylinders which use keys that must be made on special key cutting machines. These machines are capable of reproducing the angled cuts and critical tolerances necessary to produce a workable Medeco key, and are not found at general hardware stores.

2. Medeco sells its high quality, precision machined cylinders and locks only to security industry professionals. Every restricted Medeco key blank is custom coined and tracked by Medeco to identify it as an authorized key blank which protects against unauthorized copies.

3. Medeco invests heavily in research and development to establish strong patents and legal agreements to protect its locks and key blanks from unauthorized distribution or manufacture. In this way, Medeco can litigate to protect its rights and the security of its customers.

A Key Control Program That's Right for You

Not every user has the same key control needs. That's why Medeco has designed different key control programs and different keyways to meet a wide range of security specifications and key access requirements.

Dealer/Service Center
This program offers instant local access to additional keys with protection from unauthorized copying. Consumers simply return to the security provider from which they purchased the locks. This security professional will have a signature card on file completed by the owner of the key system at the time the system was installed.

Card Programs
Authorized individuals are issued a card with embossed control data and a space for their signature. To obtain key duplicates, card holders present the card to any participating Medeco security professional. The data and signature will be verified and a key can then be issued. A card program is ideal for residential or businesses that need keys available nationwide.

End User Program
The End User program is for large facilities that have their own locksmith on staff and that want to produce Medeco keys themselves. This program offers individualized control over key duplication procedures.

Commercial Program
The Commercial Program is designed for users who use Medeco locks primarily for protection against picking, drilling and other forms of physical attack. Keys may be obtained from any Medeco locksmith without specific authorization.

Factory Program
Additional keys are only available from the Medeco factory and only with the proper signature.

eCylinder Systems
eCylinder systems allow the end user the ability to control their own system to electronically change access to any cylinder or key onsite and obtain audit information.

Visit our website at www.medeco.com for more information on all key programs.

Submitting Your Orders to Medeco:

To help you reach greater efficiencies & to create the best ordering experience, submit your orders through our three order channels: eBusiness, Email & Fax

eBusiness Order Channel

Your Benefit: Immediately transmit clean orders to reduce entry time to speed up delivery.

EDI

EDI stands for Electronic Data Interchange. It's the easiest method to use for the transmission of orders. Orders are generated directly from your ERP system & sent directly into Medeco's order entry system. EDI allows for instant & accurate transmission.

Online Order Entry

Online Order Entry is a convenient web-based form which allows customers to easily use drop down menus & filtering options to assist with product search & selection. A perfect part number is selected every time!

Visit **http://extranet.assaabloydss.com** to access.

Email Order Channel

Your Benefit: Immediately submit your orders directly into our Digital Filing System to speed up processing time

orders@medeco.com

orders@medeco.com allows customers to submit purchase orders directly into Medeco's Digital Filing System. Once the order is submitted by email, an automatic email notification is sent to you stating the order has been received by Medeco thus ensuring the order was not lost in transmission.

Fax Order Channel

Your Benefit: Immediately submit orders directly into our Digital Filing System to speed up processing time. Typed submissions receive EDI benefits of faster processing &accuracy

Fax: 800.421.6615

Faxing orders to 800.421.6615 allows customers to submit purchase orders directly into Medeco's Digital Filing System. If a faxed order is typed versus handwritten, Medeco will be able to use an internal tool to send typed faxed orders through the EDI portal to create faster order processing & reducing entry errors.

Special Pricing (SP) and Quotations

The SP or quote number must be referenced on the order.

Any invoiced order that has the incorrect discount applied to it and did not have the SP or quote number written on the order will have a service fee of $100.00 net DEDUCTED from any sales credit issued for the difference in the discount.

Training

Factory certification is offered on a regular basis at Medeco's Salem, VA facility and at other meetings around the United States and Canada.

Medeco® offers factory certification classes with a comprehensive study of our patented Medeco³ technology used in Medeco® cylinders. Additionally, we offer certification classes for our Medeco X4®, Medeco³ Logic eCylinder and Medeco XT eCylinder product lines.

Overviews of other Medeco® technologies and product lines are available online at the Medeco-Arrow University. Here you will find installation videos, product overview videos, sales technique videos and many other tools to assist you.

To visit the online University please visit **https://medeco.exceedlms.com/**. If you do not already have an account, you will the need to register for one. Registration and online classes are complimentary.

Medeco App

Medeco has an app with *quick reference* material helpful for mechanical and eCylinder products. The Medeco app is available at no charge for iPhones and Android devices. There are resource links to videos pertaining to Medeco's eCylinder and Mechanical product lines.

Medeco Site Survey Wizard App

Collecting accurate and detailed door information is an important element in preparing quotes, developing key schedules and winning business. Identifying the proper hardware, retrofit cylinder and other door details ensures a project is completed on time and on budget. Medeco's Site Survey Wizard App will help guarantee the job is done right, the first time!

The App uses the Medeco Cylinder Cross Reference Database to reference part numbers while completing the site survey. Once the survey is complete, the user will then be able to export a summary document to a laptop or desktop for further use.

The Medeco App and Medeco Site Survey Wizard App can be downloaded via iTunes or Google Apps.

Medeco Shipping & Return Policies

The Medeco Commitment
Medeco strives to maintain consistent pricing at the lowest possible level. However, unexpected increases may cause changes in our pricing. Therefore, all published prices are subject to change without notice and are not guaranteed. All shipments will be made at prices prevailing at time of shipment. As much as we try to publish error free material, we reserve the right to correct typographical, clerical, editorial, pricing, quantity, or any other errors in this or any publications produced by Medeco Security Locks, Inc. without prior written notice or disclaimer.

Shipping Times:
Many items are available for shipment within 7 work days, and most items will be shipped in 10 days or less.

Shipping Charges:
For most U.S. customers published freight rates will apply. Contact Medeco Customer Service for more information about Medeco's shipping and handling charges.

Customers Outside the U.S.:
Due to specific taxes, import/export fees, and exchange rates, pricing and shipping will vary from U.S. list prices for customers in Canada and else-where outside of the United States.

Product Returns:
Medeco accepts product returns if the product is defective from a manufacturing flaw. If you need to make a return, fill out the enclosed RGA Form and fax it to: 800-421-6615 or email to: orders@medeco.com. The RGA Number must be visible on the outside of any package returned to Medeco.

Damaged Goods:
All orders are carefully filled, checked, and packaged. However, on rare occasions, a package may be damaged in transit. If this occurs, please make note of it on the delivery receipt before signing. To return merchandise that was damaged during the shipping or delivery process, call Medeco Customer Service.

Partial Shipments:
If all items on your order are not available at the time your order is processed, you must specify whether you want Medeco to hold the shipment until it is complete or send partial shipments as items are available. Orders received without specific shipping instructions will be filled at the discretion of Medeco.

Medeco® Warranty for Mechanical & Electromechanical Products

Medeco Security Locks Inc. ("Medeco") warrants to the original purchaser of a Medeco branded lock, lock cylinder, or electromechanical door hardware product (referred to collectively as "Product") to be free of defects in material and/or workmanship for a period of two (2) years from the date of original purchase for use. This Warranty may also apply to other specific products. For additional Warranty information or Warranty claim service contact Medeco Customer Service at (800) 839-3157 or in Canada (888) 633-3264.

In the event of a defect in material or workmanship during the Warranty period, Medeco will repair or replace (at its option) the Product under the conditions of this Warranty, this action being the sole remedy available to the purchaser under this express limited Warranty.

Limitations, Exclusions and other Rights:

a.　Medeco disclaims liability for implied warranties including but not limited to those of merchantability or fitness for any particular purpose.

b.　Medeco disclaims liability for indirect, incidental or consequential damage at any time.

c.　Medeco warrants that Maxum deadbolt products are free from defects in materials and workmanship for the life of the product. This warranty does not cover defects or damage arising from improper installation, lack of or improper maintenance, ordinary wear and tear, misuse, abuse, or accident.

d.　This Warranty gives specific legal rights and a buyer may also have other rights that may vary from state to state. Some states do not allow limitations on indirect, incidental, and consequential damages or implied warranties so that the above limitations may not fully apply.

e.　Medeco keyblanks are made from a special nickel silver alloy. Medeco warrants its keys against defects in workmanship or breakage for the life of the Product. Bitted Medeco keys must be precisely cut to exact angles and depths, and require special duplication. This Warranty shall be void and Medeco disclaims liability of any kind in the event any key other than a genuine Medeco key has been used with the Product or that the key has been cut on any machine other than a Medeco or Medeco-approved key cutting machine.

f.　Medeco shall not be held responsible for damage arising from, in its sole judgment, improper installation, failure to provide normal maintenance, extreme environmental conditions, use rates in excess of the industry standards defined for the type of product, use of incompatible parts or products not made or authorized by Medeco, or application of force not resulting from normal use.

g.　Unless otherwise specified by separate warranty, finishes are warranted for a period of two years following purchase for use. This finish Warranty shall be considered void after installation if, in the sole judgment of Medeco, the damage to the finish is the direct result of extreme climatic conditions, chemical or abrasive actions.

Medeco³ Suggested Architectural Specifications

Furnished cylinders must provide the capability of a high security, patented, pick and attack resistant design with angled key cuts, rotating tumblers, a keyway side bitting, and a slider mechanism. Cylinders shall provide the option of certified listing to Underwriters Laboratories Listed Standard--UL437--for key locks. Cylinders shall provide the option of certification under American National Standards Institute (ANSI)/Builder's Hardware Manufacturer's Association (BHMA) certification A156.30 2007 (High Security Cylinders) "Levels M1AAAM", and ANSI/BHMA A156.5 2010 "Grade 1."

The furnished key system must allow the capability to combine within the same key system, and using the same patent-protected keys, high security rated cylinders as described above, with non-high security rated cylinders providing greater economy within a single master key system. Furthermore, the furnished key system shall allow the incorporation of software controlled, electro-mechanical cylinders ("eCylinders") with the capability of utilizing the same credential and a single key system controlling both mechanical cylinders and e-Cylinders.

All cylinders with the high security option shall incorporate three locking elements, consisting of a slider mechanism, a sidebar mechanism with tumbler rotation, and pin tumbler elevation. The critical parts of the locking mechanism such as pins, shear line, sidebar, and slider mechanism shall be afforded extra protection from drilling and other forceful attack by the strategic placement of hardened steel inserts in a minimum of 7 possible locations within the cylinder. The lock tumblers shall combine a dual-axis action, with one axis utilized for pin tumbler rotation and the other axis utilized for positioning key cuts. Randomly selected tumbler pins shall incorporate a hardened steel insert for additional drill resistance.

All cylinders with the non-high security option shall incorporate two locking elements, consisting of a slider and sidebar combination, and conical tip, pin tumbler elevation.

The locking system is to be furnished in a restricted key section for which key blanks are not made available from the manufacturer's factory or any other source by uncontrolled distribution methods. The key and cylinder must have utility patent protection so as to hinder unlawful or unauthorized key duplication. Such patent protection shall be afforded in the United States of America, Canada, Mexico, and a plurality of other countries. The keys and key blanks must be capable of being furnished to allow an upgrade to a dual mechanical and electronic credential by the single exchange of a field removable key bow. The key blank thickness should be no less than .125" (one hundred, twenty-five thousandths).

The manufacturer shall have the capability of establishing a key system with a minimum of six angled cuts in six possible pin positions with the capability of two distinct positions of cut per pin chamber, if required by the parameters of the system. The manufacturer shall have the capability of producing a patent-protected keying system in either of two distinct and different keying specifications and pinning specifications. The system shall be capable of incorporating a key which is capable of more than one bitting per position to expand master keying and key changes. The key shall also incorporate the capacity to include twelve possible side bittings along the key blade located on two different planes or surfaces of the key. The system shall also have the capability to provide a single master key with over 1,000,000 (1 million) usable, non-interchangeable change keys in a single profile.

The cylinders shall be immediately rekeyable to new combinations or a new system at any time desired and shall be serviceable on location in the field. Installation of cylinders shall require no modification to U.S. manufactured commercial grade locksets.

The locking system established for this project shall be proprietary and the owner will furnish the manufacturer a list of those persons and their signatures that will be authorized and required to order additional pinned materials or duplicate keys. Orders not bearing authorized signatures shall not be filled.

All master keys and bitting lists for this project shall be sent using appropriate shipping carriers from the factory directly to the owner. Prior to shipment of keys, the owner shall verify in writing preference for shipping carrier and destination.

Medeco X4 Architectural Product Specifications

Cylinders shall be of the knob, rim, mortise, or interchangeable core type. All cylinder components (excluding tumbler pins) shall be constructed of machined extruded brass. All cylinders, cores and housings shall be available in all standard architectural finishes and shall match the cylinder housing and lock and door hardware. Further, cylinders and housings shall be plated, not scalped with the appropriate finish.

Cylinders to be of the 6 or 7 pin tumbler type, providing the maximum unique, non-interchangeable key combinations respectively. All cylinders shall incorporate two locking elements consisting of pin tumbler elevation and a slider mechanism. Further expansion of a master key system shall be available by use of additional multiplex keyways. Cylinders shall not lose any combinations due to MACs (maximum adjacent cut) loss.

All cylinders shall use a .150" space dimension between tumbler pin chambers and shall be capable of using industry standard tumbler pins. Cylinder shall contain standard pins, a portion of which (both bottom and top pins) shall be spooled to resist pick attacks.

All non-I/C rim and mortise cylinders shall be so constructed to use threaded set screws, not staked covers or caps, to cover each individual tumbler pin chamber.

All cut keys, key blanks and cylinders (knob, rim, mortise, and interchangeable core-type) shall be so constructed to be capable of being keyed in the same system, allowing the convenience of one master key to operate all types of listed cylinders. Further, the key or key blank's tip shall be so constructed to correctly locate the bits of the key beneath the proper chamber of an interchangeable core cylinder by locating against a key stop on the rear core. Additionally, the key or key blank's shoulder shall serve as a stop to correctly locate the bits of the key beneath the proper plug chamber of rim, mortise and knob-type cylinders by locating against the front face of the cylinder.

All cut keys and key blanks shall be utility patented and controlled by a contract between the end user and the manufacturer. Key blanks for this project shall be delivered directly from the factory to the end user unless otherwise requested in writing by the end user.

All keys must be capable of being configured to allow an upgrade to a dual mechanical/electronic credential by the simple exchange of a field removable key bow.

The key shall incorporate the capacity to include eight possible side bittings along the key blade located on two different planes or surfaces of the key.

All key blanks shall be custom coined with the end user's name or other unique identification mark. All cut keys and key blanks are to be constructed from nickel silver.

All keys shall be capable of being cut by a punch machine that originates the exact cut in the key from the code sheet, instead of using patterns.

Cylinders shall be immediately rekeyable to new combinations or a new system at any time desired and shall be serviceable on location in the field. Installation of the cylinders shall require no modifications to U.S. manufactured commercial grade locksets.

The locking system established for this project shall be proprietary and the owner will furnish the manufacturer a list of those persons and their signatures that will be authorized and required to order additional pinned materials or duplicate keys. Orders not bearing authorized signatures will not be filled.

All cylinders, cores, housings, keys and key blanks shall be made in the USA.

Medeco® XT

Medeco® XT Electronic Locking Systems

Medeco® XT is a complete electronic locking system providing *Controlled Access, Accountability, Physical Security, and System Management.* More than just a way to protect your property, equipment and assets, Medeco® XT is also a business tool that can lead to a substantial return on investment.

Controlled Access – Keys are electronically programmed to open only specific locks during a designated schedule. Schedules may also contain an expiration point to completely disable the key until it is audited and reprogrammed.

Accountability – Audit information recorded in both the lock and key shows a time-and-date stamped record of every event, including authorized accesses and unauthorized attempts.

Electronic Rekeying & Scheduling – Respond quickly to security threats, lost or stolen keys, or personnel changes without the added cost of changing your locks and keys.

Easy Installation – Medeco® XT key provides all power to the cylinder, eliminating the need for any hard wiring or power supply. Simply remove the existing mechanical cylinder and install the Medeco® XT cylinder.

Physical Security – Medeco® XT products add a wide variety of intelligent features without compromising on physical security. Attack-resistant design and tamper-proof features provide strong protection against forced entry.

Key Features:

- Small, robust electronic key with stainless steel housing
- All programming done at the key
- Key holds operating and expiration schedule
- Rechargeable battery, 500-800 openings per charge
- Access: 5,000 cylinders maximum
- Audit: 5,000 events maximum
- Heavy duty stainless steel construction
- Stand-alone, network, WEB and mobile programming options

Warranty:

Medeco Security Locks warrants Medeco® XT products to be free of defects in material and/or workmanship for a period of two (2) years from date of original purchase.

Product Specifications:

Lock / Cylinder Features
- No wiring required—all power provided by the key
- Indoor / outdoor use—stainless steel shell construction
- 2000 audit events
- Unauthorized key list
- Variety of retrofit cylinder formats

medeco®

ASSA ABLOY

Medeco® XT

Rim and Mortise Cylinders

The Medeco® XT Rim & Mortise electronic cylinders are a simple and direct replacement for mechanical Rim & Mortise cylinders. Ideal for Loss & Liability management with flexible authorization and auditing capabilities. Respond quickly to security threats, lost or stolen keys, or personnel changes without the added cost of changing your locks and keys. Medeco® XT is a complete electronic locking system providing Controlled Access, Accountability, Physical Security, and System Management with no wiring requirements. Mortise & Rim cylinders are available in many poplular lengths to fit nearly any application in your office, business and retail applications.

Mortise Cylinder

Rim Cylinder

Medeco® XT Mortise Cylinders

Description	Part Number	Price
1 1/4" Mortise Cylinder	10G0500	$236.00
1 3/8" Mortise Cylinder	10G5100	$236.00

Medeco® XT Rim Cylinders

Description	Part Number	Price
Rim Cylinder, horizontal tailpiece	10G0400H	$236.00
Rim Cylinder, vertical tailpiece	10G0400V	$236.00

Key-In-Knob/Lever Cylinders

The Medeco® XT Key in Knob/Lever electronic cylinder is a direct replacement for mechanical KIK/KIL cylinders and is ideal for Loss & Liability management. The cylinder requires no wiring to the door and is powered by the Medeco® XT rechargeable key. Audit trail, user access schedules and the ability to quickly add or remove a key electronically from a system, allow for fast response to security threats, lost or stolen keys, or personnel changes without the added cost of changing your locks and keys. KIK/KIL cylinders are designed for quick retrofit of nearly all polular brands of knob and lever type cylindrical locksets making them an ideal application for office doors, storage and file rooms, or residential doors; virtually any door where cylindrical hardware is used.

Medeco® XT Arrow Cylinders

Description	Part Number	Price
Medeco® XT cylinder for all Arrow RK & MK series knobs and GL series levers. For RK & MK series, replace original spacer with Medeco CP-160321 (included)	20G200A1	$236.00

Medeco® XT Cylinders for Cal-Royal

Description	Part Number	Price
Cylinder for Cal-Royal Apollo series SL00 knob lock and LX01 lever lock	20G20049	$236.00
Cylinder for Cal-Royal CLS03 classroom function Gr. 2 lever lock	20G200V1	$236.00

Medeco® XT Cylinders for Corbin Russwin

Description	Part Number	Price
Cylinder for Corbin 800 lever lockset CL3300, CL3400, CL3500 & CL3600	20G20073	$236.00
Cylinder for Corbin Russwin CL3900 series leversets	20G200V9	$236.00

Medeco® XT Cylinders for Falcon

Description	Part Number	Price
Cylinder for Falcon B, LY, X, S & T series. Includes: CT-V03, CT-Y49, CT-Y54, CT-Y58, CTY68, CT-Y71, CT-Y72, CP-160311	20G200F1	$236.00
Cylinder for Falcon F521, F561, F581, and N series knobs	20G20051	$236.00
Cylinder for Falcon T-381 (inside)	20G20073	$236.00
Cylinder for Falcon T & RU series, T381 (exterior)	20G200V3	$236.00

Medeco® XT Cylinders for KABA-Mas-Hamilton

Description	Part Number	Price
Cylinder for Kaba E-plex 5000	20G20000	$236.00
Cylinder for Mas-Hamilton Power Lever	20G200V1	$236.00

Medeco® XT Cylinders for LSDA

Description	Part Number	Price
LSDA cylinder package fits 100, L100, LH1000, LX1000, Includes: CT-Y49, CT-Y70, CT-Y73, CTY78	20G200L1	$236.00

Medeco® XT Cylinder for Marks

Description	Part Number	Price
Cylinder for Marks 110, 170, 180, 190, 195, 295 series Vestibule, Communicating, Classroom , & Classroom Security functions (DA, DC, SB, S).	20G200V0	$236.00

Interchangeable Core Cylinders

The Medeco® XT Small Format Interchangeable (SFIC) Core is ideal for loss and liability management as a direct replacement for mechanical SFIC cylinders without any hardware modifications. An easy-to-upgrade SFIC solution, ready to install and use without wiring or power supply. Complete SFIC is easily installed or removed to existing hardware with the simple use of a programmed control key. Now you can audit keys, program a schedule and track who opens a lock and when – all while eliminating the cost of rekeying mechanical locks. Attack-resistant design and tamper-proof features provide strong protection against forced entry. Well suited for facilities with high turnover of employees, such as fast food restaurants, convenience stores, and other similar businesses, but is also suitable for apartments, office buildings, schools, and hospitals.

Medeco® XT Small Format Interchangeable Core

Small Format Interchangeable Core (SFIC) Cylinder	EA-100108	$236.00

Padlocks

The Medeco® XT electronic padlock cylinders are ideal for Loss & Liability management at off site or hard to reach locations. This robust cylinder securely operates in challenging environments with stainless steel components, and is designed for interior and exterior use. Keys are electronically programmed to open only specific locks during a designated schedule and audit information is recorded in both the lock and key. With no wiring or power supply required, these padlocks are an ideal application for your perimeter fences and gates, or access to equipment storage areas where traditional EAC is practically impossible to install.

Keys and Accessories

The Medeco® XT Key is a convenient, robust electronic key with a heavy duty stainless steel housing that fits right on your key ring. A portable key charger and rechargeable battery assures keys are always fully charged for up to 800 openings, eliminating the need for battery maintenance. Convienent key programming and flexible system management eliminates the need for removal of cylinder in order to make changes. This key holds operating and expiration schedule and flexible memory allocation lets the user decide how the memory is used; Access: up to 5,000 cylinders. Audit: up to 5,000 events. With Medeco® XT, flexible authorization, auditing of use and quick retrofit to existing hardware are all available in one convenient package.

Medeco³ Logic

Medeco³ Logic merges the features of electronics with reliable mechanical technology – all in a retrofit cylinder. Medeco³ Logic offers end users audit trail, user access schedules and the ability to quickly add or remove a key electronically from a system.

Medeco³ Logic installs with no wiring in a matter of minutes and digital keys and digital cylinders reprogram for quick changes.

Lock/Cylinder Features:

- 1,000 groups per cylinder/1,000 keys per group
- Audit cylinder up to 750 audit records
- Encrypted communications
- Available in all common cylinder formats including KIK/KIL, large format interchangeable core, padlocks and deadbolts
- Installs into standard hardware with no wiring or other modifications
- Reprogrammed with ease to use software and administration key
- Mechanically compatible with Medeco³ and Medeco³ BiLevel®
- Installs in minutes
- Weather resistant
- Available in most standard finishes

Technical Features:

- **Memory:** Non-volatile Memory Storing 750 Audit Events in the lock and 1,000 in the keycap
- **Software:** Local software client or web hosted option available
- **Power:** Power supplied by the key, no hard wiring required
- **Lockcase:** Fits standard Rim & Mortise Housing as well as other various platforms
- **Weather Resistant:** Can be used in indoor or outdoor applications
- **Physical Security:** Drill and Tamper Resistant
- **Lockout:** Lost or Stolen keys can be blacklisted so they will not function

Key Features:

- Mechanical and Electronic technology are combined for superior security with Medeco® patented key control
- Audit key up to 1,000 audit records provides information unavailable in a mechanical system
- Self-cleaning electronic contact point for a long lasting key and reliable connection
- Powered by an easily replaceable CR2025 Battery with 20,000 cycle battery life
- Available with RFID/PROX coil insert for dual use with HID compatible systems
- Rated for -20 degrees Farenheit to 122 degrees Farenheit (cylinder and key)
- Visible and audible status feedback
- Compact size in water resistant housing

Warranty:

Medeco® warrants the Medeco³ Logic products to be free of defects in material and/or workmanship for a period of two (2) years from date of original purchase

Finishes:

- Available in several finish options

Medeco³ Logic

Keys and Accessories

Medeco³ Logic electro-mechanical keys operate both Logic cylinders as well as compatible mechanical cylinders for unmatched system flexibility and security. Maintaining and ensuring your system integrity by means of key audit to obtain historic user access information, as well as the ability to schedule access to doors is an invaluable tool. Medeco³ Logic keys are also mechanically compatible with Medeco³ and Medeco³ Bilevel products with potential to integrate into an already exisiting key system. Keys are user friendly with visible and audible status feedback, are compact in size with water resistant housing and are powered by an easily replaceable CR2025 battery. Utility patented key control provides protection against unauthorized key duplication.

Medeco Logic

Medeco Logic merges the features of electronics with reliable mechanical technology – all in a retrofit cylinder. Medeco Logic offers end users audit trail, user access schedules and the ability to quickly add or remove a key electronically from a system.

Medeco Logic installs with no wiring in a matter of minutes and digital keys and digital cylinders reprogram for quick changes.

Lock/Cylinder Features:

- 1,000 groups per cylinder/1,000 keys per group
- Audit cylinder up to 750 audit records
- Encrypted communications
- Available in all common cylinder formats including KIK/KIL, large format interchangeable core, padlocks and deadbolts
- Installs into standard hardware with no wiring or other modifications
- Reprogrammed with ease to use software and administration key
- Installs in minutes
- Weather resistant
- Available in most standard finishes

Technical Features:

- **Memory:** Non-volatile Memory Storing 750 Audit Events in the cylinder and up to 1,000 in the key (depending on key type).
- **Software:** Local software client or web hosted option available
- **Power:** Power supplied by the key, no hard wiring required
- **Lockcase:** Fits standard Rim & Mortise Housing as well as other various platforms
- **Weather Resistant:** Can be used in indoor or outdoor applications
- **Physical Security:** Drill and Tamper Resistant
- **Lockout:** Lost or Stolen keys can be blacklisted so they will not function

Key Features:

- Audit key holds up to 1,000 audit records and provides information unavailable in a mechanical system
- Self-cleaning electronic contact point for a long lasting key and reliable connection
- Powered by an easily replaceable CR2025 Battery with 20,000 cycle battery life
- Available with HID Prox coil insert for dual use with HID compatible EAC systems
- Rated for -20 degrees Farenheit to 122 degrees Farenheit (cylinder and key)
- Visible status feedback
- Compact size in water resistant housing

Warranty:

Medeco® warrants the Medeco Logic products to be free of defects in material and/or workmanship for a period of two (2) years from date of original purchase

Finishes:

- Available in several finish options

Keys and Accessories

Medeco Logic keys provide electronic technology to offer superior security and accountability. Maintaining and ensuring system integrity with audit information stored on the key allows administrators to obtain historic user access information, as well as the ability to schedule and expire access to doors is an invaluable tool. Keys are user friendly with visible status feedback and are powered by an easily replaceable CR2025 battery. Available in a factory controlled key section, with optional RFID coil insert for dual use with HID compatible systems.

Medeco Logic Keys

Description	Part Number	Price
E2/Quartz User Key - Key Only	KY-42602X	$101.00
E3/Dynamic User Key - Key Only	KY-42603X	$101.00
C-Key	KY-4260CR	$130.00
E2/Quartz User Key with 125kHz PROX Cover	KY-426P2B	$112.00
E3/Dynamic User Key with 125kHz PROX Cover	KY-426P3B	$112.00
Logic Battery Cover w/Proximity-upgrade standard Logic keys to RFID Proximity Keys (sold in pack of 25)	94-0249	$304.00

• Quartz Key systems require Loading Authorizations On Lock via the system C-Key.

• Dynamic Key systems require Loading Authorizations On Key via a desktop or remote programming device.

Please consult with your Medeco eCylinder representative to determine which strategy is best for the desired application/installation.

Programming and Management

The Medeco Logic, with CLIQ technology, offers Web Management of Key Systems utilizing CLIQ Web Manager. This robust and versatile system allows system administrators the ability to manage Logic keys and cylinders from anywhere with internet access. With the optional Remote Wall Programming Device, keys can be updated and/or reauthorized with timely expirations for enhanced security while retrieving audit data simultaneously. Several Web Management and stand alone software options are available to meet any customer's requirements.

Aperio

Wireless possibilities for online access control

Aperio utilizes local wireless communication
between the lock and a communications hub
to connect to an online electronic access
control system. You can easily expand the
reach of existing access control systems
and secure openings that would otherwise
go unprotected.

Key Features:

- Utilizes IEEE 802.15.4 wireless communication
  between the lock and an Aperio hub that is connected
  to the electronic access control system.
- Real-time communication with the access control
  system for greater security and control
- Advanced data security with standard encryption
  techniques
- AES 128-bit encryption
- Global wireless platform that addresses a wide range
  of applications and security requirements
- Supports HID® 13.56 MHz iCLASS® (full authentication,
  all formats) credentials and 125KHz Prox

Warranty:

Medeco Security Locks warrants Aperio products to be
free of defects in material and/or workmanship for
a period of two (2) years from date of original purchase.

Product Specifications:

- Retrofit Mortise (M100)
- Cabinet lock (K100)
- Integrated Reader and Radio
- Takes a standard CR-2 battery (M100)
  or CR123A (K100)
- Provides alarms for Tamper, Low Battery and Lock
  Jamb messages
- Auto Re-lock

ASSA ABLOY

Aperio

Mortise Cylinders

The Medeco M100 Mortise Cylinder with Aperio Technology offers an easy retrofit solution for mechanical door hardware. This retrofit lock design will work with most Mortise applications. Local wireless communication between the M100 and an Aperio hub connects to the access control system, eliminating the cost and inconvenience of bringing wiring to the door. Real-time door locked status monitoring with integrated tamper, and low battery signals allow you to respond immediately to situations at the opening. Add access control to any door in the time it takes to switch out a cylinder.

Aperio Mortise Cylinder Assembly – M100 (iClass)

Description	Part Number	Price
M100 180CW Mortise		
Mortise Cylinder Assembly, iClass,180° Clockwise rotation Contains: One (1) M100 and one (1) each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent- If other, please see Medeco Catalog for more information	10-15007	$695.00
M100 180CCW Mortise		
Mortise Cylinder Assembly, iClass, 180° Counter-Clockwise rotation Contains: One (1) M100 and one (1) each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent- If other, please see Medeco Catalog for more information	10-15009	$695.00
M100 Mortise		
Mortise Cylinder Assembly, 13.56MHz iClass technology, 360° Bi-directional rotation Contains: One (1) M100 and one (1) each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	10-15016	$695.00
M100 Rim		
RIM Cylinder Assembly, 13.56MHz iClass technology, 360° Bi-directional rotation Contains: One (1) M100 and one (1) each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	10-15014	$695.00
M100 Mortise CW & Wiegand Hub One-door Kit/iClass		
Mortise Cylinder Assembly, 13.56MHz iClass technology, 180° Clockwise rotation, & Wiegand Hub – Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) M100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field. Also contains one (1)each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	10-100151-001	$945.00
M100 Mortise CCW & Wiegand Hub One-door Kit/iClass		
Mortise Cylinder Assembly, 13.56MHz iClass technology, 180° Counter-Clockwise rotation, & Wiegand Hub – Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) M100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field. Also contains one (1)each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	10-100151-002	$945.00
M100 Mortise & Wiegand Hub One-door Kit/iClass		
Mortise Cylinder Assembly, 13.56MHz iClass technology, 360° Bi-directional rotation, & Wiegand Hub – Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) M100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field. Also contains one (1)each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	EA-100151-003	$945.00

Aperio Mortise Cylinder Assembly – M100 (iClass)

Description	Part Number	Price
M100 Rim & Wiegand Hub One-door Kit/iClass		
RIM Cylinder Assembly, 13.56MHz iClass technology, 360° Bi-directional rotation, & Wiegand Hub – Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) M100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field. Also contains one (1)each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	EA-100155-003	$945.00

Aperio Mortise Cylinder Assembly – M100 (Prox)

Description	Part Number	Price
M100 Prox Mortise		
Mortise Cylinder Assembly, 125KHz Prox technology, 360° Bi-directional rotation – Contains: One (1) M100 and one (1) each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	10-15015	$695.00
M100 Prox Rim		
RIM Cylinder Assembly, 125KHz Prox technology, 360° Bi-directional rotation – Contains: One (1) M100 and one (1) each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	10-15013	$695.00
M100 Mortise & Wiegand Hub Paired One-door Kit/Prox		
Mortise Cylinder Assembly, 125KHz Prox technology, 360° Bi-directional rotation, & Wiegand Hub – Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) M100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field. Also contains one (1)each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	EA-100151-004	$945.00
M100 Rim & Wiegand Hub Paired One-door Kit/Prox		
RIM Cylinder Assembly, 125KHz Prox technology, 360° Bi-directional rotation, & Wiegand Hub – Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) M100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field. Also contains one (1)each of CAM Z01-Yale, Z02 Adams Rite, Z34 Schlage, Z00 Corbin, Z20 Sargent	EA-100155-004	$945.00
M100 Mounted Sample w/M100 (Sales Demo)		
Mortise Cylinder Assembly, 125KHz Prox technology, 360° Bi-directional rotation – Contains One (1) M100, One (1) Prox Keyfob and One (1) Aluminum Mount. M100 is mounted and programmed with one override credential (keyfob) to allow for demonstration of stand-alone functionality. Unit can also be paired with a hub (available separately) that can be connected to an EAC system for full functionality demonstration or try-me purposes.	EA-100144	$900.00

Aperio

Cabinet Locks

The Medeco K100 battery operated cabinet lock with Aperio Technology makes it easy and cost effective to bring access control to applications where audit trail and monitoring are becoming increasingly critical. It uses local wireless communication between the lock and an Aperio hub to connect to an access control system, eliminating the cost and inconvenience of bringing wiring to the cabinet. Providing 90,000 cycles of operation with a single CR123A battery, produces an extremely long life with minimal impact to the environment. Available across a range of locking hardware from ASSA ABLOY Group brands, Aperio provides the flexibility to address a variety of applications throughout your facility.

Aperio Mortise Cylinder Assembly – K100

Description	Part Number	Price
Cabinet Lock Assembly iClass & Weigand hub Kit, Black, Knob 1		
Cabinet Lock Assembly, 13.56MHz iClass technology & Wiegand Hub - Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) K100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field.	EA-100150-001	$800.00
Cabinet Lock Assembly Prox paired with Weigand 1:1 hub, Black, Knob 1		
Cabinet Lock Assembly, 125KHz Prox technology & Wiegand Hub - Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) K100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field.	EA-100150-002	$800.00
Cabinet Lock Assembly iCLASS paired with Weigand 1:1 hub, White, Knob 1		
Cabinet Lock Assembly, 13.56MHz iClass technology & Wiegand Hub - Designed for easy installation. No special training required. Units come paired together from the factory and only requires Hub be wired to EAC panel via standard Wiegand interface connection. Contains: One (1) K100 and one (1) Wiegand Hub that have been factory paired and locked in Customer Mode. Units cannot be un-paired in the field.	EA-100150-003	$800.00

Cabinet Lock Assembly (Prox)(White)	10-15010-004	$550.00

Aperio

Hubs and Integrator Tools

Aperio technology offers fully-encrypted AES 128 wireless communication between the Aperio lock and the hub. The Integrated reader, monitoring and short range wireless radio simplifies installation and eliminates the cost and inconvenience of wiring in and around the door. High security standardized communications ensure data security. Aperio supports HID® 13.56 MHz iCLASS® and 125KHz Prox contactless credentials (full authentication, all formats) and also integrates easily with existing smart card credential systems. Aperio is supported globally by a growing list of access control systems. Please contact your local ASSA ABLOY sales consultant for more information on integrating Aperio with your access control system.

Medeco³

High Security Cylinders & Locking Systems

Medeco³ High Security Cylinders feature UL437 Listed physical strength components like the triple locking technology for ultimate pick resistance and solid brass construction with strategically placed hardened inserts to thwart drilling attacks.

Passing UL437 and BHMA's rigid testing procedures reaffirms Medeco³'s ability to protect people and property. Medeco³ builds on Medeco's over 40 years of lock engineering innovation and takes security to the next level while still offering the highest level of protection against unauthorized key duplication.

Benefits:

- UL437 Listed for physical protection
- BHMA A156.30 Certified
- Patented Key Control to help prevent unauthorized duplication
- Strategically placed drill pins to thwart drilling attacks
- Triple locking technology to protect against bypass techniques

Applications:

- Medeco³ retrofit cylinders are ideal for any application requiring key control and physical security of your cylinders
- Medeco³ cylinders are available in a wide variety of formats, retrofitting most hardware on the market today

Warranty:

Medeco³ cylinders are warranted for two years against manufacturer's defects. See the Medeco® limited warranty for full details

Testing:

- 40,000 cycle endurance test
- Resistance to picking or key fitting tests

Attack Resistance Tests:

Testing to resist forcing, drilling, sawing, prying, pulling, and plug driving, While Medeco³ cylinders meet or exceed all UL437 criteria, most common or standard cylinders available today do not meet these minimum guidelines.

UL437:

Tests prescribed in Underwriters Laboratory Standard for Safety for Key Locks are primarily design to measure a locking cylinder's ability to resist physical attack.

ANSI/BHMA A156.30:

Builders Hardware Manufacturing Association (BHMA) standards are certified by the American National Standards Institute (ANSI) which works with industry leaders to provide manufacturers and consumers with product quality and performance ratings based on preset criteria and standardized testing. BHMA standard A156.30-2003, approved and adopted by ANSI, covers high security cylinders and was developed by BHMA to provide specific guidance as to which products can be considered as high security cylinders. Medeco³ cylinders have been tested to BHMA's highest certification level by an independent laboratory and achieved certification in the high security cylinders category. The cylinders meet or exceed BHMA A156.30 criteria for strength and durability, key control, and surreptitious entry resistance.

medeco®

ASSA ABLOY

Medeco BiLevel

BiLevel cylinders offer affordable key control through patent protected keys. Standard locking systems without utility patent protected keys allow anyone who gains possession of a key to easily and inexpensively make a copy. With an unauthorized duplicate key, a thief has complete access to a building, its physical and intellectual property, and the people inside. BiLevel locking systems ensure that the keys to a facility can only be duplicated by certified Medeco dealers and only with the proper authorization.

Medeco® BiLevel cylinders can tie in with other Medeco® mechanical and eCylinder products for master keying purposes.

Benefits:

- Patented Key Control to help prevent unauthorized duplication
- Can be keyed with Medeco^3 and Medeco^3 Logic products

Applications:

The Medeco BiLevel retrofit cylinders are ideal for any application patented key control where physical high security is not necessary

Warranty:

Medeco BiLevel cylinders are warranted for two years against manufacturer's defects. See the Medeco® limited warranty for full details

Cylinder Formats:

- Rim & Mortise
- Key in Knob/Lever Cylinders
- Large Format Interchangeable Cores
- 14 Series Grade 2 Deadbolt
- Padlocks

medeco®

ASSA ABLOY

Medeco X4

All facilities need patented key control to effectively secure exterior and interior openings. This strength of integrity allows security managers to have peace of mind when it comes to managing the system. Unfortunately, instituting a new key system is not always easy… or economical.

Medeco X4 is an economic and efficient solution to rekeying needs. Medeco X4 has one of the largest master key capabilites on the market, allowing facility managers to tie everything together under one key for ease, convenience and efficiency. Additionally, Medeco X4 easily retrofits into existing systems, significantly reducing installation time.

Medeco X4 is the perfect security upgrade for small format interchangeable core (SFIC) installations In addition to SFIC cylinders, Medeco X4 is also available in many other styles of retrofit cylinders that can all be keyed into a single system.

Benefits:

- Superior Masterkey Capabilities, up to four (4) times that of similar style cylinders
- One key flexibility for different cylinder styles compatible
- Patented key control lasting until the year 2027
- Custom key coining for added security

Applications:

The Medeco X4 retrofit cylinders are ideal for any application requiring key control and physical security of your cylinders

Warranty:

Medeco X4 cylinders are warranted for two years against manufacturer's defects. See the Medeco® limited warranty for full details

Cylinder Formats:

- Rim & Mortise
- Key in Knob/Lever Cylinders
- Small Format Interchangeable Cores
- Large Format Interchangeable Cores
- 14 Series Grade 2 Deadbolt
- Padlocks

*Product Nomenclature Changes:
Original Keymark = Medeco KM; Keymark x4 = Medeco X4; Nexgen XT = Medeco XT, Classic Logic = Medeco Logic; Vertical Logic = Medeco3 Logic; G = Medeco XT.

ASSA ABLOY

Rim & Mortise Cylinders

FEATURES	Medeco[3]	BiLevel	Medeco X4	Logic	Medeco XT
Utility patented key control provides protection from unauthorized duplication of keys	●	●	●	●	●
UL437 Listing and BHMA Certification provide validation of high security from recognized, independent testing laboratories	●				
Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size	●				
Hardened steel inserts in the cylinder face provide proven drill resistance	●				
Nickel plated pins provide exceptional wear resistance and additional hardened stainless steel pins provide drill resistance	●	●			
Solid nickel silver pins provide exceptional wear resistance			●		
Retrofits into virtually any manufacturers' locksets for cost effective improved security	●	●	●	●	●
High security and key control may be incorporated in a single system for cost effective system flexibility	●	●		●	
Keys may be integrated with Hybrid proximity head for greater system retrofit	●	●	●	●	

Medeco[3] Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco[3] cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco[3] the cylinder of choice to protect people, property and information.

Medeco[3] BiLevel Patented Key Control

Medeco[3] BiLevel cylinders may be incorporated into a master key system with Medeco[3] high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Medeco X4 Patented Key Control

Medeco X4 cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Loss & Liability Control

Many of the cylinders in this section are also available with an eCylinder Loss & Liability Control Solution. See the eCylinder Section for more details.

Rim & Mortise Cylinders

Medeco® Rim and Mortise cylinders provide patented key control and the Medeco³ version provides UL437 Physical Security in adaptable retrofit cylinder formats. Medeco® Mortise cylinders have threads on the outside of the shell and are designed to be screwed into other manufacturer's mortise lock cases. A cam on the back of the cylinder operates the lock mechanism and a set screw holds the mortise cylinder in place. Medeco® Rim cylinders are used with auxiliary rim locks such as: surface mounted deadbolts, night latches, panic devices and jimmyproof locks (also know as vertical dropbolts or interlocking deadbolts). Rim cylinders are held in place with a back plate and two mounting screws. 10 series, rim and mortise cylinders, are UL437 Listed for drill and pick resistance, and the those that incorporate the Medeco³, BiLevel, or Medeco X4 design, offer utility patented key control.

Features:

- Utility patented key control provides protection against the unauthorized duplication of keys
- A special elevating and rotating pin tumbler design, along with false slots on the bottom pins, mushroom top pins and a sidebar mechanism, work together, to provide superior pick resistance
- Angled cuts on the keys, along with fore and aft positioning, and the reciprocal slider of the Medeco³ design, provide added dimensions that dramatically increases key combinations and enables Medeco® to produce some of the largest master key systems in the industry
- Hardened steel inserts, positioned in critical areas of the cylinder, provide a high degree of drill resistance
- Solid brass construction provides high quality and long cylinder life
- Set screw pin chamber caps allow quick and easy pinning and re-keying without the need to take the cylinder apart
- Large variety of cylinder lengths and cam/tailpiece configurations provide excellent retrofit capability and reduce the need to replace the entire locking device

Applications

Flexible options designed to retrofit various manufacturers of Mortise and Rim locks

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Technical Information:

- UL437 Listing assures superior pick and drill resistance
- BHMA A156.30 Certification assures patent protected key control and physical strength
- BHMA A156.5 Grade 1 Certification assures consistent quality for heavy use applications
- Available in all standard finishes to match existing hardware

Jumbo/Mogul Mortise Cylinders

Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
6 Pin Jumbo Mortise Cylinder (1 19/64" Long, 1 3/8" Shell Dia.) Corbin Russwin® Master Ring Cylinder Replacement	10*1350 (P)	$150.50	$82.00	$119.00	
	10*1350 (S)	$141.00	$77.00	$109.50	
6 Pin 1 1/4" Mogul Cylinder for Prison Locks (1 1/4" Long, 2" Shell Dia.)	10*4001 (P)	$157.50			
	10*4001 (S)	$148.00			
6 Pin 1 1/4" Mogul Mortise Cylinder 2" Shell Dia., Limited Rotation: CK 145° CCW and CW, MK 360° CCW and CW	10*4003 (P)	$177.00			
	10*4003 (S)	$167.50			
6 Pin 1 1/4" Mogul Mortise Cylinder 2" Shell Dia., Limited Rotation: CK 145° CW, MK 360° CCW and CW	10*8001 (P)	$182.50			
	10*8001 (S)	$173.00			
6 Pin 1 1/4" Mogul Mortise Cylinder 2" Shell Dia., Limited Rotation: CK 145° CCW, MK 360° CCW and CW	10*8002 (P)	$182.50			
	10*8002 (S)	$173.00			

Limited Rotation Mortise Cylinders

Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
6 Pin 1 1/4" Mortise Cylinder with Raised Plug, Limited Rotation: CK 145° CW and 145° CCW	10*0500H (P)	$151.50			
	10*0500H (S)	$142.00			
6 Pin 1 1/4" Mortise Cylinder Hotel Function, Uses Spring Loaded Stop Pins with Notched and Un-Notched Keys to Provide Directional and Limited Rotation	10*0501 (P)	$142.00			
	10*0501 (S)	$132.50			
6 Pin 1/ 3/16" Length Mortise Cylinder Limited Rotation: CK 145° CCW, MK 360° CCW and CW	49*0078 (P)	$130.50			
	49*0078 (S)	$121.00			
6 Pin 1 3/16" Length Mortise Cylinder, Limited Rotation: CK 145° CW, MK 360° CCW and CW	49*0079 (P)	$130.50			
	49*0079 (S)	$121.00			

Specialty Mortise Cylinders

Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
5 Pin Otis® Elevator Mortise Cylinder, 1 Key Pull Position	10*0903 (P)	$127.50			
	10*0903 (S)	$118.00			
5 Pin Otis® Elevator Mortise Cylinder, 2 Key Pull Positions (not used in MK systems)	10*0909 (P)	$150.50			
	10*0909 (S)	$141.00			
1 7/32" 6 Pin Mortise Cylinder with Mini Micro Switch, 7 Amp, SPDT, 1 Key Pull (requires quick connect leads: CP-270511)	10*0200A (P)	$190.00	$103.50	$134.00	
	10*0200A (S)	$180.50	$98.50	$124.50	
1 1/8" 6 Pin Concealed Face Mortise Cylinder for Schlage® "K" Locks, Trim Style 712, 714, 202	10*0202 (P)	$0.00	$71.00	$93.00	
	10*0202 (S)	$0.00	$66.00	$83.50	
1 1/8" 6 Pin Mortise Cylinder with Extended Plug & Second Cam Washer Reversed to Close Bottom of Keyway	10*4207 (P)	$125.00	$68.25		
	10*4207 (S)	$115.50	$63.25		
1 1/8" 6 Pin Mortise Cylinder with Extended Plug	10*4207A (P)	$125.00	$68.25		
	10*4207A (S)	$115.50	$63.25		
6 Pin 1/C Mortise Cylinder with 15 Amp Micro Switch	32*0200B (P)	$283.50			
	32*0200B (S)	$274.00			
1 1/4" 6 Pin Mortise Cylinder for VingCard® Persona®	49*0214 (P)	$118.50	$64.50		
	49*0214 (S)	$109.00	$55.00

Utility patented key control provides protection from unauthorized duplication of keys	●	●	●	●	●
UL437 Listing and BHMA Certification provide validation of high security from recognized, independent testing laboratories	●				
Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size	●				
Hardened steel inserts in the cylinder face provide proven drill resistance	●				
Nickel plated pins provide exceptional wear resistance and additional hardened stainless steel pins provide drill resistance	●	●			
Solid nickel silver pins provide exceptional wear resistance			●		
Retrofits into virtually any manufacturers' locksets for cost effective improved security	●	●	●	●	●
High security and key control may be incorporated in a single system for cost effective system flexibility	●	●		●	
Keys may be integrated with Hybrid proximity head for greater system retrofit	●	●	●	●	

Medeco[3] Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco[3] cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco[3] the cylinder of choice to protect people, property and information.

Medeco[3] BiLevel Patented Key Control

Medeco[3] BiLevel cylinders may be incorporated into a master key system with Medeco[3] high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Medeco X4 Patented Key Control

Medeco X4 cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Loss & Liability Control

Many of the cylinders in this section are also available with an eCylinder Loss & Liability Control Solution. See the eCylinder Section for more details.

ASSA ABLOY

Key-in-Knob/Lever Cylinders

Medeco³ Key-in-Knob cylinders are designed to retrofit knob type cylindrical locksets, lever type cylindrical locksets, padlocks and bored type auxiliary deadlatches and deadlocks. The 20 series, Key-in-Knob cylinders are UL437 Listed for drill and pick resistance, and the those that incorporate the Medeco³ design, offer utility patented key control.

Features:

- Hardened Steel inserts positioned in critical areas of the cylinder, providing a high degree of drill resistance
- UL437 Listing provides assurance that cylinders meet universal standards for drill and pick resistance and stand up to other types of forced attack
- The package contains one cylinder and a variety of different tailpieces, providing a greater retrofit capability, while at the same time reducing the amount on inventory required
- Unique elevating and rotating tumbler pin system is virtually pick proof
- All Medeco cylinders are constructed of durable machined brass components, designed to last the life of your equipment
- Patented Medeco³ Key-in-Knob cylinders keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs

Applications:

Over 100 different cylinder designs and tailpiece configurations enable Medeco® to offer the largest retrofit capability in the industry. More retrofit cylinders means fewer replacements of the complete lockset

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Technical Information:

- UL437 Listing assures superior pick and drill resistance
- ANSI A156.30 Level A certification assures patent protected key control and physical strength
- ANSI A156.5 Grade 1 certification assures consistent quality for heavy use applications
- Available in all standard finishes to match existing hardware

Available Key Technologies:

Mechanical:
– Medeco³
– Medeco³ BiLevel
– Medeco X4*

eCylinder:
– Medeco³ Logic
– Medeco Logic
– Medeco XT

*Product Nomenclature Changes:
Original Keymark = Medeco KM; Keymark x4 = Medeco X4; Nexgen XT = Medeco XT, Classic Logic = Medeco Logic; Vertical Logic = Medeco3 Logic; G = Medeco XT.

		20*20078 (S)	$98.00	$53.50	$58.00	
	6 Pin cylinder package for LSDA® 100, L100, LH1000, LX1000 Series. Includes: CT-Y49, CTY70, CT-Y73, CT-Y78	20*200L1 (P)	$109.00	$59.50	$67.50	●
		20*200L1 (S)	$99.50	$54.50	$58.00	

Marks® Cylinders

Description		Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for Marks® 110, 170, 180, 190, 195, 295 Series DA-Vestibule, DC & SBCommunicating, S-Classroom & Classroom Security Functions	20*200V0 (P)	$107.50	$58.50	$67.50	
		20*200V0 (S)	$98.00	$53.50	$58.00	
	6 pin Cylinder for Marks 110, 170, 180, 190, 195, 295 Series in AB-Entrance, DWInstutution, F-Storeroom, & T Corridor Functions	20*200V1 (P)	$107.50	$58.50	$67.50	●
		20*200V1 (S)	$98.00	$53.50	$58.00	

Marvin® Cylinders

Description		Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	5 Pin Cylinder for Marvin® Auxiliary Locks	20*00827 (P)	$107.50	$58.50		
		20*00827 (S)	$98.00	$53.50		

Medeco Embassy® Cylinders

Description		Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for Embassy® Vestibule, Communicating, Classroom & Classroom Security Functions. For Embassy Levers sold thru 9/06 & ALL Knobs	20*200V0 (P)	$107.50	$58.50	$67.50	
		20*200V0 (S)	$98.00	$53.50	$58.00	
	6 Pin Cylinder for Embassy® in Entrance, Institution, Storeroom, Corridor Functions. For Embassy Levers sold thru 9/06 & ALL Knobs	20*200V1 (P)	$107.50	$58.50	$67.50	●
		20*200V1 (S)	$98.00	$53.50	$58.00	
	6 Pin Cylinder for Embassy Levers All Functions after 9/2006	20*20249 (P)	$107.50	$58.50	$67.50	●
		20*20249 (S)	$98.00	$53.50	$58.00	

Olympus® Cylinders

Description		Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for Olympus® 700LCM, 800LCM Non-key Retaining Cabinet Lock Includes: CT-F34-CT-F38	20*009S4 (P)	$111.50	$60.75	$67.50	●
		20*009S4 (S)	$102.00	$55.75	$58.00	
	6 Pin Cylinder for Olympus® 700LCM, 800LCM Key Retaining Cabinet lock, Includes: CT-Y49, CT-Y52, CTY53, CT-Y54	20*200S1 (P)	$109.00	$59.50	$67.50	●
		20*200S1 (S)	$99.50	$54.50	$58.00

PDQ® Cylinders

Description		Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for PDQ® "SX" Series	20*20149 (P)	$107.50	$58.50		
		20*20149 (S)	$98.00	$53.50		
	6 Pin Cylinder for PDQ® "SV" Knob/Lever	20*3000 (P)	$107.50	$58.50	$67.50	
		20*3000 (S)	$98.00	$53.50	$58.00	
	6 Pin cylinder for PDQ® Lever SP & ST Series, GT, XGT & GP Series	20*200V2 (P)	$107.50	$58.50	$67.50	●
		20*200V2 (S)	$98.00	$53.50	$58.00	

Pella® Cylinders

Description		Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
	5 Pin Knob cylinder to fit popular Pella storm and patio doors	20*00827 (P)	$107.50	$58.50		
		20*00827 (S)	$98.00	$53.50		
	5 Pin profile type cylinder to fit popular Pella and Anderson storm and patio doors	49*0258 (P)	$141.50			
		49*0258 (S)	$132.00			

Sargent® Cylinders

Description		Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for Sargent® 6 Line (Except for B Knob) & 6500 Lever - For Original Design, otherwise use 20*80147	20*20170 (P)	$107.50	$58.50	$67.50	
		20*20170 (S)	$98.00	$53.50	$58.00	
	6 Pin cylinder for Sargent® 6 Line (B Knob Only) Original Cylinder Spacer must be replaced with Medeco Cylinder Spacer CP-160321 (Included) - For Original Design, otherwiseuse 20*80147	20*20173 (P)	$107.50	$58.50	$67.50	
		20*20173 (S)	$98.00	$53.50	$58.00	
	6 Pin Cylinder for Sargent® 10 Line, Levers 7L & 8L - For Original Design, otherwise use 20*80147	20*20349 (P)	$107.50	$58.50	$67.50	
		20*20349 (S)	$98.00	$53.50	$58.00	
	6 Pin Cylinder for Sargent® 7600 Integra®	20*8005 (P)	$107.50	$58.50	$67.50	
		20*8005 (S)	$98.00	$53.50	$58.00	
	6 Pin Cylinder for Sargent® 7, 8, 9 Line (Excluding levers 7L, 8L, 9L) Includes: CT-Y35- CT-Y37- CT-Y17 & CT-Y45	20*8006 (P)	$107.50	$58.50	$67.50	●
		20*8006 (S)	$98.00	$53.50	$58.00

Schlage Cylinders

Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
5 Pin Knob Cylinder for Schlage® "F" Series Plymouth & Ball Knob (Mfg prior to 2004)	20*00400 (P)	$107.50	$58.50		
	20*00400 (S)	$98.00	$53.50		
6 Pin Cylinder for Schlage® "F" Series Orbit Design Only (Manufactured Prior to 2004)	20*00700 (P)	$107.50	$58.50	$67.50	
	20*00700 (S)	$98.00	$53.50	$58.00	
5 Pin Cylinder for Schlage® "F" Series Lever (Manufactured Prior to 2004)	20*01400 (P)	$107.50	$58.50		
	20*01400 (S)	$98.00	$53.50		
5 Pin Cylinder for Schlage® "F" Series Lever (Manufactured 2004 through 2007)	20*01700 (P)	$107.50	$58.50		
	20*01700 (S)	$98.00	$53.50		
5 Pin Knob Cylinder for Schlage® "A" Series (Ply Only)	20*0700 (P)	$107.50	$58.50		
	20*0700 (S)	$98.00	$53.50		
5 Pin Knob Cylinder for Schlage® "A" Series (Except Ply)	20*0701 (P)	$107.50	$58.50		
	20*0701 (S)	$98.00	$53.50		
6 Pin Cylinder for Schlage® "A", "AL", & "D", Series Olympiad® Lever (Use CT-Y73, for "AL" thick doors)	20*20049 (P)	$107.50	$58.50	$67.50	●
	20*20049 (S)	$98.00	$53.50	$58.00	
6 Pin Cylinder for Schlage® "C, D" Series (Ply Only)	20*20051 (P)	$107.50	$58.50	$67.50	●
	20*20051 (S)	$98.00	$53.50	$58.00	
6 Pin Cylinder for Schlage® "C", & "D" Series Heavy Duty Knobs Ball, Globe & Sphere Designs Only	20*20052 (P)	$107.50	$58.50	$67.50	●
	20*20052 (S)	$98.00	$53.50	$58.00	
6 Pin Cylinder for Schlage® "A" Series (Orbit® Only)	20*20053 (P)	$107.50	$58.50	$67.50	●
	20*20053 (S)	$98.00	$53.50	$58.00	
6 Pin Knob Cylinder for Schlage® "ND" & "AL" Series Grade 1 Lever. **See note	20*20073 (P)	$107.50	$58.50	$67.50	●
	20*20073 (S)	$98.00	$53.50	$58.00	
6 Pin Knob Cylinder for Schlage® "S" Series	20*20097 (P)	$109.00	$59.50	$67.50	
	20*20097 (S)	$99.50	$54.50	$58.00	
6 Pin Knob Cylinder Assembly for Schlage® & Arrow® (Except Arrow "H" & "S" Series) Includes: CT-Y49, CT-Y52, CTY53, CT-Y70, CT-Y73, CT-Y74, CP-160321 **See note	20*200H1 (P)	$115.00	$62.75	$70.50	
	20*200H1 (S)	$105.50	$57.75	$61.00

Schlage Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
6 Pin Cylinder Package for Schlage A, AL, C, D, ND & Olympiad lever designs, includes: CT-Y49 (A, AL, & D Olympiad Lever & C & D Plymouth), CT-Y52 (C & D heavy duty knobs Ball, Globe & Sphere designs only), CT-Y53 (A series Orbit), CT-Y73 (ND series Gr. 1 lever & AL thick doors), and CT-Y74 (45-101 padlock) (Use CT-Y73 for thick doors) ** See note	20*200S1 (P)	$109.00	$59.50	$67.50	●
	20*200S1 (S)	$99.50	$54.50	$58.00	
6 Pin Cylinder for Schlage D Series Lever, Athens, Rhodes & Sparta Designs	20*20249 (P)	$107.50	$58.50	$67.50	●
	20*20249 (S)	$98.00	$53.50	$58.00	

*** The ND series with Sparta trim is not compatible with 17 bow (Biaxial large bow) keys. 12 bow (small bow) or 18 bow (largebow/ extended throat) keys must be used instead.*

Taco® Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
6 Pin Cylinder TACO® LXV Lever Lockset	20*0500 (P)	$107.50	$58.50	$67.50	
	20*0500 (S)	$98.00	$53.50	$58.00	

Yale® Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
6 Pin Cylinder for Yale® Knobs 5300, 5400, 6100, 6200	20*0500 (P)	$107.50	$58.50	$67.50	
	20*0500 (S)	$98.00	$53.50	$58.00	
6 Pin Cylinder for Yale® 5300LN, 5400LN , 4300 series knobs	20*0503 (P)	$107.50	$58.50	$67.50	●
	20*0503 (S)	$98.00	$53.50	$58.00	
6 Pin cylinder for Yale® YMCL100, YMCL200	20*20073 (P)	$107.50	$58.50	$67.50	●
	20*20073 (S)	$98.00	$53.50	$58.00	
6 Pin cylinder for Yale® 4600LN	20*80700 (P)	$107.50	$58.50	$67.50	
	20*80700 (S)	$98.00	$53.50	$58.00	

Arrow Deadbolt Cylinders

	Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	6 pin cylinder for Arrow JL Interconnected lock. (cylinder required for lever separately)	10*65140 (P)	$111.50	$60.75	$88.00	
		10*65140 (S)	$102.00	$55.75	$78.50	
	5 Pin Cylinder (6 Pin KeyMark) for Arrow D & E Series Single Cylinder Deadbolt includes CTF34 - CT-F-38	20*0801 (P)	$109.00	$59.50		
		20*0801 (S)	$99.50	$54.50		
	5 Pin Cylinder for Arrow D & E Series Double Cylinder Deadbolt	20*0802 (P)	$109.00	$59.50		
		20*0802 (S)	$99.50	$54.50		
	6 Pin Cylinder for Arrow D & E Series Single Cylinder Deadbolt	20*0901 (P)	$109.00	$59.50	$67.50	●
		20*0901 (S)	$99.50	$54.50	$58.00	
	6 Pin Cylinder for Arrow D & E Series Double Cylinder Deadbolt	20*0902 (P)	$109.00	$59.50	$67.50	●
		20*0902 (S)	$99.50	$54.50	$58.00	
	6 Pin cylinder for Arrow Revolution Deadbolt *Contact Factory before ordering*	20*0901 (P)	$109.00	$59.50	$67.50	●
		20*0901 (S)	$99.50	$54.50	$58.00	

Baldwin® Deadbolt Cylinders

	Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	5 Pin Rim Type Lazy Motion Single Cylinder handlesets and deadbolts	10*75127 (P)	$131.50	$71.75	$88.00	
		10*75127 (S)	$122.00	$66.75	$78.50	
	5 Pin Lazy Motion cylinder for Baldwin 2 point lock handleset (lower cylinder)	20*01851 (P)	$107.50	$58.50		
		20*01851 (S)	$98.00	$53.50		

Cal-Royal Deadbolt Cylinder

	Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for Cal-Royal T-300 Series Grade 2 Deadbolt, Includes: CT-F34, DT-F35, CTF36, CT-F37 & CT-F38	20*009S4 (P)	$111.50	$60.75	$67.50	●
		20*009S4 (S)	$102.00	$55.75	$58.00	

Corbin Russwin Deadbolt Cylinder

	Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for Corbin Russwin DL2100, DL3100 Deadbolt	20*51027 (P)	$107.50	$58.50	$67.50	
		20*51027 (S)	$98.00	$53.50	$58.00	

Emtek® Deadbolt Cylinders

	Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
	5 Pin Rim Lazy Motion Rim Type Cylinder to fit Emtek® Handleset & Deadbolt Outside Cylinder	10*65140 (P)	$111.50	$60.75	$88.00	
		10*65140 (S)	$102.00	$55.75	$78.50	
	5 Pin Rim Lazy Motion Rim Type Cylinder To Inside Cylinder w/ Emtek Tailpiece	10*65244 (P)	$117.50	$64.00		
		10*65244 (S)	$108.00	$59.00

Schlage® Deadbolt Cylinder

	Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
	5 Pin Lazy Motion Schlage® Outside Cylinder for "E", "H", B200, B400 Series Deadbolt (Rim Type Cylinder) includes CT-F34-CT-F38	10*651S4 (P)	$129.00	$70.25	$88.00	
		10*651S4 (S)	$119.50	$65.25	$78.50	
	5 Pin Lazy Motion Schlage® Inside Cylinder for B200/B400 Series Deadbolt Lock (Rim Type Cylinder) includes CT-F34-CTF38	10*652S4 (P)	$125.50	$68.50	$82.00	
		10*652S4 (S)	$116.00	$63.50	$72.50	
	6 Pin Lazy Motion Schlage® Outside Cylinder for "E", "H", B200, B400 Series Deadbolt Lock (Rim Type Cylinder) includes: CT-F34-CT-F38	10*661S4 (P)	$129.00	$70.25	$88.00	
		10*661S4 (S)	$119.50	$65.25	$78.50	
	6 Pin Lazy Motion Schlage® Inside Cylinder for B200 and B400 Series Deadbolt Lock (Rim Type Cylinder) includes: CT-F34-CT-F38	10*662S4 (P)	$125.50	$68.50	$82.00	
		10*662S4 (S)	$116.00	$63.50	$72.50	
	5 Pin Laz Motion Cylinder for Schlage B Series Deadbolt Lock (less tailpiece)	20*00800 (P)	$107.50	$58.50		
		20*00800 (S)	$98.00	$53.50		
	5 Pin Knob Cylinder for Schlage B, E, and F160 Series Deadbolt lock, includes CT-F34, CT-F38	20*008S4 (P)	$111.50	$60.75		
		20*008S4 (S)	$102.00	$55.75		
	6 Pin Lazy Motion Cylinder Schlage B Series (Old Style) deadbolt	20*0904 (P)	$109.00	$59.50	$67.50	●
		20*0904 (S)	$99.50	$54.50	$58.00	
	6 Pin Lazy Motion Cylinder for Schlage B Series Deadbolt (less tailpiece) except B662 after 2001	20*00900 (P)	$107.50	$58.50	$67.50	●
		20*00900 (S)	$98.00	$53.50	$58.00	
	6 Pin Lazy Motion Knob Cylinder for Schlage® "B", "E", and F160 includes: CT-F34, CTF35, CT-F36, CT-F37, CT-F38	20*009S4 (P)	$111.50	$60.75	$67.50	●
		20*009S4 (S)	$102.00	$55.75	$58.00	

Segal® Deadbolt Cylinder

Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
5 Pin Segal® Inside Cylinder before 10/99 for double cylinder dropbolt	10*0800 (P)	$109.00		$74.50	
	10*0800 (S)	$99.50		$65.00	
5 Pin Segal® Inside Cylinder after 10/99 for double cylinder dropbolt	10*0805 (P)	$109.00			
	10*0805 (S)	$99.50			

Weiser® Deadbolt Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
5 Pin Lazy Motion Outside Cylinder for Weiser® Prestige Series Deadbolt and Entryset/ Handleset	10*0602 (P)	$106.50	$58.00	$72.50	
	10*0602 (S)	$97.00	$53.00	$63.00	
6 Pin Lazy Motion Outside Cylinder for Weiser Prestige Entryset/Handleset	10*0702 (P)	$111.50	$60.75	$75.00	
	10*0702 (S)	$102.00	$55.75	$65.50	
6 Pin Cylinder for Weiser® Single Cylinder Deadbolt, including powerbolt	20*0903 (P)	$109.00	$59.50	$67.50	●
	20*0903 (S)	$99.50	$54.50	$58.00	
5 Pin Cylinder for Weiser® Single Cylinder Deadbolt	20*6005 (P)	$109.00	$59.50		
	20*6005 (S)	$99.50	$54.50		
5 Pin Cylinder for Weiser® Double Cylinder Deadbolt	20*6100 (P)	$107.50	$58.50		
	20*6100 (S)	$98.00	$53.50		
5 Pin Cylinder for Weiser® 4000, 4200 Single Cylinder Deadbolt	20*7001 (P)	$109.00	$59.50		
	20*7001 (S)	$99.50	$54.50		

Yale Deadbolt Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
6 Pin Cylinder for Yale 3300, 3500, & 3600 Series Deadbolt Locks	20*51027 (P)	$107.50	$58.50	$67.50	
	20*51027 (S)	$98.00	$53.50	$58.00	

Abus Padlock Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
6 Pin Cylinder for Abus® Padlock Series 83KNK/45, 83KNK/50 & 83KNK/55	20*20000 (P)	$107.50	$58.50	$67.50	●
	20*20000 (S)	$98.00	$42.50	$58.00	

American Padlock Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
BiLevel KeyMark eCylinder 6 Pin Cylinder for American® 3600/3700 Padlock (Note: Use American® Driver DR-MED6)	20*20000 (P)	$107.50	$58.50	$67.50	●
	20*20000 (S)	$98.00	$42.50	$58.00	

Master Padlock Cylinders

Description	Part Number	Medeco[3]	BiLevel	Medeco X4	eCylinder
6 Pin Cylinder for Master® "29" and 6600, 6700 Pro Series (Note: Use Master® Driver 0298-627 for Pro Series)	20*20000 (P)	$107.50	$58.50	$67.50	●
	20*20000 (S)	$98.00	$42.50	$58.00

Medeco System Series Padlock Cylinders

	Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
	6 Pin cylinder for System Series KIK style padlocks	51*0600 (P)	$78.50	$42.75	$68.50	●
		51*0600 (S)	$69.00	$37.75	$59.00	

New Standard Mfg. Co. Padlock Cylinders

	Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for New Standard® Padlocks	20*20052 (P)	$107.50	$58.50	$67.50	●
		20*20052 (S)	$98.00	$53.50	$58.00	

Schlage Padlock Cylinders

	Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
	6 Pin Cylinder for Schlage® 45-101 Padlock	20*20074 (P)	$107.50	$58.50	$67.50	●
		20*20074 (S)	$98.00	$53.50	$58.00	

KIK/KIL Cylinder Components

Description	Part Number	Price
Medeco³ Slider Package. (Includes slider & spring)	94-0174-XX	$11.00
Medeco BiLevel slider package	94-0227-XX	$11.00
Flat Head Machine Screw, 5/16" -#2-56 UNC, Phillips with Nylok Patch for 20-200XX Cylinders. Sold in Bags of 100	CP-010203-050	$0.16 each
Pan Head Machine Screw, 1/4" - #2-56 UNC, Phillips with Nylok Patch for most Lazy Motion Cylinders. Sold in Bags of 100	CP-010503-040	$0.28 each
Retaining Ring, Knob Cylinder "E" Clip	CP-020020	$1.22
Retaining Ring, Knob Cylinder, Full Clip	CP-020040	$2.45
Retaining Ring, Knob Cylinder Plug Retainer, "C" Clip	CP-020100	$0.77
Lazy Motion Tailpiece Retainer for 20*090X cylinders	CP-021031	$1.47
Tailpiece Retainer ring for Arrow and Sargent clip on tailpieces	CP-021130	$2.23
Plug Retainer, Standard Knob	CP-021370	$6.02
Castle Nut Retainer for Schlage type lazy motion cylinders	CP-021651	$9.44
Compression Spring for Schlage type lazy motion cylinders	CP-030670	$1.25
Drive Disk for Schlage® -type Lazy Motion Cylinders	CP-041200	$3.20
Detent Pin for Schlage type lazy motion cylinders	CP-064490	$1.39

KIK/KIL Cylinder Plugs

Description	Part Number	Price
Plug for 20-200XX- (Medeco Original)	12-126022	$44.40
Plug for 20W200XX (Medeco Biaxial®)	12-126156	$44.40
Plug for 20T200XX (Medeco³®)	12-12633T	$44.30

KIK/KIL Tailpiece Packages

Description	Part Number	Price
Tailpiece Package for Arrow®: Listed as A1 in cylinder part number. Includes CT-Y70, CT-Y73 & CP-160321 (Spacer)	94-0034	$9.60
Tailpiece Package for Schlage®: Listed as S1 in cylinder part number. Includes CT-Y49, CT-Y52, CT-Y53, CT-Y73, CT-Y74	94-0036	$9.60
Tailpiece Package for Falcon®: Listed as F1 in cylinder part number. Includes CT-Y49, CT-Y54, CT-Y58, CT-Y68, CT-Y71, CT-Y72 & CP-160311	94-0035	$9.60
Tailpiece Package for LSDA®: Listed as L1 in cylinder part number. Includes CT-Y49, CT-Y70, CT-Y73, CT-78	94-0038	$9.60
Tailpiece Package for Schlage® "S" Series: Includes CT-Y97 & CP-021370	94-0051	$24.80
Tailpiece package for Arrow®, Schlage® & Sargent®: Listed as H1 in cylinder part number. Includes CT-Y49, CT-Y52, CT-Y53, CT-Y54, CTY70, CT-Y73, & CP-160321	94-0061	$17.60
Tailpiece Package for Sargent® & Arrow®: Includes CT-Y35, CT-Y37, CT-Y47, CT-Y55	94-0067	$2.90
Tailpiece Package for Schlage® Deadbolt Cylinders: Listed as S4 in cylinder part number. Includes CT-F34, CT-F35, CT-F36, CT-F37, CT-F38	94-0098	$9.60

Interchangeable Core

FEATURES	Medeco³	BiLevel	Medeco X4	Logic	Medeco XT
Utility patented key control provides protection from unauthorized duplication of keys	●	●	●	●	●
UL437 Listing and BHMA Certification provide validation of high security from recognized, independent testing laboratories	●				
Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size	●				
Hardened steel inserts in the cylinder face and hardened steel driver pins provide proven drill resistance	●				
Solid brass construction provides high quality and long cylinder life	●	●	●		
Nickel plated pins designed to provide exceptional wear resistance (Medeco X4 solid Nickel)	●	●	●		
Retrofits into virtually any manufacturers' locksets with a wide selection of interchangeable cams to fit various manufacturers' mortise series hardware for cost effective improved security	●	●	●	●	●
Ability to key with non-interchangeable core cylinders, including rim and mortise, knob style for Medeco BiLevel cost effective system flexibility	●	●	●		
High security and key control may be incorporated in a single system for cost effective system flexibility	●	●		●	
Keys may be integrated with Hybrid proximity head for greater system retrofit	●	●	●	●	

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

Medeco³ BiLevel Patented Key Control

Medeco³ BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Medeco X4 Patented Key Control

Medeco X4 cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Loss & Liability Control

Many of the cylinders in this section are also available with an eCylinder Loss & Liability Control Solution. See the eCylinder Section for more details.

Large Format Interchangeable Cores

Offering increased security with rapid combination changes, interchangeable core cylinders enable quick and easy cylinder changes by non-technical personnel by using a special control key to remove the cylinder (core) from the lock housing. A core with a new combination can then be inserted, which in effect rekeys the lock. All of this can be done without having to take the lock apart, which reduces the expense of calling outside service personnel to perform routine lock rekeys. These cylinder/core combinations are often used on doors of high-turnover businesses, like fast-food or manufacturing environments, where rapid rekeying is often desirable. Medeco[3]'s patented high security technology provides protection against unauthorized duplication of keys, along with hardened inserts to resist drilling and features that protect against other types of attack.

Features:

- Utility patented key control provides protection from unauthorized duplication of keys
- The Medeco[3] technology is UL437 Listing and BHMA certification provide validation of high security from recognized, independent testing laboratories
- Triple locking principle provided by Medeco[3] offers pick resistance and large numbers of combinations for master keying flexibility that accommodates systems of virtually any size
- Hardened stainless steel inserts in the cylinder face provide proven drill resistance
- Solid brass construction provides high quality and long cylinder life
- Nickel plated pins provide exceptional wear resistance and additional hardened stainless steel pins provide drill resistance
- Ability to key with non-interchangeable core cylinders, including rim & mortise and knob style for cost effective system flexibility

Warranty:

Warranted for two (2) years against manufacturer's defects. See Medeco's limited warranty for full details.

Applications:

Office buildings, Universities, Apartments, Perimeter Doors, Schools and Hospitals.

Finishes:

Available in all standard finishes to match with existing hardware.

Technical Information:

- UL437 Listing assures superior pick and drill resistance
- ANSI A156.30 Level A certification assures patent protected key control and physical strength
- ANSI A156.5 Grade 1 certification assures consistent quality for heavy use applications
- 32 Series are available in 5 and 6 Pin versions

Available Key Technologies:
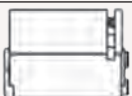

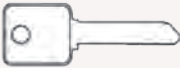

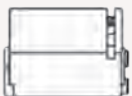

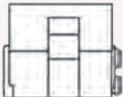

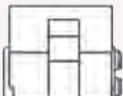

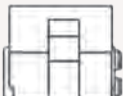

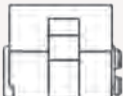

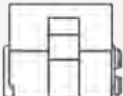

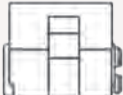

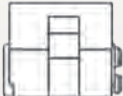

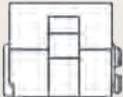

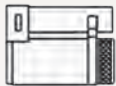

Mechanical:	**eCylinder:**
– Medeco[3]	– Medeco[3] Logic
– Medeco[3] BiLevel	– Medeco Logic
– Medeco X4

Small Format Interchangeable Core

Medeco X4 leads the market in patent protected small format interchangeable core (SFIC) cylinders, large format interchangeable core (LFIC) cylinders, conventional mortise, rim and key-in-knob cylinders designed to retrofit virtually any door. One key will operate interchangeable cores and conventional cylinders. With patents extending through 2027 and the ability to expand key systems to four times that of standard SFIC, Medeco X4 is guaranteed to be an important product to suit your needs.

Features:

- Utilizes the standard A2 pinning system in conjunction with a bitted slider locking arrangement which allows for more master keying capabilities for large master key systems. Up to 65,536 unique change keys in a 7 pin master key system on a single keyway
- Expandable, simple master keying available in SFIC and LFIC, as well as standard key-in-knob, mortise, and rim cylinders
- SFIC's are available in six or seven pin cylinders, and can replace Best style cores
- Standard Medeco cams and tailpieces can be used on Medeco X4 cylinders
- Keys can be cut using many standard code type key machines such as the Pro-Lok Blue Punch, A1 Green Machine, the ITL 9000/9700, HPC 1200 and HPC Code Max

Benefits:

- Solid brass construction for excellent durability
- Spool shaped top and bottom pins add a measure of pick resistance
- Solid nickel silver bottom pins increase wear resistance
- Individual pin chamber caps provide for ease of servicing
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.

Applications:

Provides a key control retrofit for other manufacturers SFIC products in use in a variety of facilities..

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Finishes:

Available in all standard finishes to match with existing hardware.

International Cylinders

The Medeco® reach extends to six continents. Medeco® cylinders are used to protect facilities worldwide such as high security government installations, industrial and institutional organizations, airports, hotels, power plants, palaces, museums, universities and schools, and office buildings. Medeco's international cylinders are designed to fit in locksets of major world manufacturers. In addition to international uses, many of these cylinders fit imported hardware used in North America. Medeco® offers a variety of export cylinders including European profile and modular cylinders. These products are available in both mechanical and eCylinder technologies. The Medeco® European Profile cylinder has a teardrop shape that fits into storm doors, upscale hardware and specialty applications and is available in single, half and double cylinder versions. Additional cylinders in the 23 series include: oval, round, and "snowman" designs.

Benefits:

- Utility patented key control provides protection from unauthorized duplication of keys in most countries
- Superior master keying capability to accommodate systems of virtually any size
- Triple locking principle provides pick resistance and large numbers of combinations for master keying flexibility to accommodate systems of virtually any size
- Hardened steel inserts positioned in critical areas of the cylinder, provide a high degree of drill resistance
- Solid brass construction provides high quality and long cylinder life
- Nickel plated pins provide exceptional wear resistance and additional hardened stainless steel pins provide drill resistance
- European profile Cylinders retrofit into virtually any manufactureres' locksets requiring DIN Standard cylinders
- Pending UL437 Listing assures superior pick and drill resistance
- Pin chamber set screws provide ease of rekeying and resist comb attacks
- 5 and 6 pin cylinder available

Certification:

- SKG *** Netherlands
- Swedish Standards SS3522
- EN1303 - 2005
- DIN18254

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Available Key Technologies:

Mechanical:	eCylinder:
– Medeco³	– Medeco³ Logic
– Medeco³ BiLevel	– Medeco Logic
– Medeco X4	– Medeco XT

medeco®

ASSA ABLOY

EPIC–Euro Profile Interchangeable Core

Medeco Profile cylinders can now be ordered to accept a special, slab-sided, small format interchangeable core (SFIC) cylinders to retrofit into most standard European Profile applications.

Medeco Euro profiles can be furnished with Medeco's patented X4 technology, offering unmatched key control, the widest array of retrofit cylinders and four times the master keying capability.

Benefits:

- Utility patented key control provides protection from unauthorized duplication of keys in most countries
- Superior master keying capability to accommodate systems of very large sizes
- Solid brass construction provides high quality and long cylinder life
- Solid Nickel Silver Pins and Keys
- European Profile Cylinders retrofit into virtually any manufactureres' locksets equivalent to DIN Standards

Warranty

Warranted for two years against manufacturing defects. See Medeco Limited Warranty for full details.

Medeco X4 Technical Information

- 6 and 7 Pin cylinders available
- Solid nickel silver pins
- Many cylinder formats available
- Profiles available in multiple sizes, finishes and functions
- Where interchangeable core is not required, Euro's are also available in modular components and assembled standard lengths.

Maxum Deadbolts

FEATURES	Medeco³	BiLevel	Medeco X4	Logic
UL Listed for use on fire doors having a rating up to three hours	●	●	●	●
ANSI/BHMA 156.36 Grade 1 Certification for auxiliary locks and associated products	●			
ANSI/BHMA A156.30 Level A Certification on the cylinder assures patent protected key control and physical strength	●			
Can be incorporated into existing master key systems	●	●	●	
Security features to protect against drill, wrench, ice pick, kick-in, hammer, bumping and prying attacks	●	●		
Solid brass construction provides high quality and long cylinder life	●	●	●	
Deadbolt is designed to accommodate both mortise and drive-in face applications for greater flexibility and ease of installation.	●	●	●	
Large thumbturn provides ease of use for physically challenged individuals	●	●	●	
Keys may be integrated with Hybrid proximity head for greater system retrofit.	●	●	●	
Double cylinder captive thumbturn safety option available	●	●		

Medeco³ Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco³ cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco³ the cylinder of choice to protect people, property and information.

Medeco³ BiLevel Patented Key Control

Medeco³ BiLevel cylinders may be incorporated into a master key system with Medeco³ high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Medeco X4 Patented Key Control

Medeco X4 cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Loss & Liability Control

Many of the cylinders in this section are also available with an eCylinder Loss & Liability Control Solution. See the eCylinder Section for more details.

Medeco Maxum® Deadbolts

Deadbolts are about strength. Just hold a Medeco® ANSI Grade 1 Maxum® deadbolt in your hand, and you know this is one tough hunk of protection. As tough as a Maxum® deadbolt is on the outside, it's that smart on the inside. It can be ordered with the triple-locking security of a Medeco³cylinder. Recommended for residential and business use, it's available as a single- or double-cylinder or with a unique "captive thumbturn." The captive thumbturn converts the inside cylinder to a thumbturn for safe exit when the facility is occupied. A quick conversion when the facility is not occupied returns it to double cylinder mode and guards against unauthorized entry or exit. Maxum® deadbolts offer maximum protection with solid-brass construction, along with anti-drilling and anti-prying features.

Benefits:

- Unique "captive thumbturn"
- Bolt is designed for easy conversion accommodating either mortise and drive-in applications
- Solid-brass construction with steel inserts for added protection
- ANSI/BHMA A156.36 Grade 1 and UL437 Listed cylinders for high security
- Fits doors 1 3/8" to 2 1/2" thick
- Standard 2 1/8" crossbore and 1" edge bore (ANSI A115.13 prep)

Warranty:

Lifetime warranty against defects in material and workmanship.

Finishes:

Available in all standard finishes to match existing hardware.

Applications:

It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use and installation are required. Ideal applications include:

- Office buildings
- Hospitals
- Schools
- Restaurants
- Apartments
- Retail outlets

Technical Information:

SFIC cylinder options include Medeco X4 and Nexgen XT

Available Key Technologies:

Mechanical:
– Medeco³
– Medeco³ BiLevel
– Medeco X4

eCylinder:
– Medeco³ Logic
– Medeco Logic

How to Order:

1

11 T C601
base part #

Refer to pages 125-138 for descriptions and technical specifications to find the corresponding base part number.

2

– 05 –
finish

Refer to the inside back cover of this catalog for finish options. Include the corresponding two digit finish number.

Upcharge for split finish.

3

LT –
keyway

Insert keyway if known or contact CS for help.

4

S –
pinning

S = Sub-assembled (Uncombined)

No additional information needed

P = Pinned (Combined)

Keyed alike (KA)
Keyed different (KD)

2 keys per cylinder

Captive Deadbolt
1 change key and
1 thumbturn key

M = Master Keyed

Provide specific pinning or contact Customer Service for support

Must specify quantity for keys.

Medeco Maxum®
Residential Deadbolt

Deadbolts are about strength. Just hold a Medeco® ANSI Grade 1 Maxum® deadbolt in your hand, and you know this is one tough hunk of protection. As tough as a Maxum® deadbolt is on the outside, it's that smart on the inside. It features the triple-locking security of a Medeco³ cylinder. Designed with a residential aesthetic, the Maxum® Residential Deadbolt is available as a single- or double-cylinder or with a unique "captive thumbturn." The captive thumbturn converts the inside cylinder to a thumbturn for safe exit when the facility is occupied. A quick conversion when the facility is not occupied returns it to double cylinder mode and guards against unauthorized entry or exit. Maxum® deadbolts offer maximum protection with solid-brass construction, along with anti-drilling and anti-prying features.
Benefits:

- Unique "captive thumbturn" available
- Bolt is designed for easy conversion accommodating either mortise and drive-in applications
- Solid-brass construction with steel inserts for added protection
- ANSI/BHMA A156.30 and UL437 Listed cylinders for high security
- Fits doors 1 3/8" to 2 1/2" thick
- Standard 2 1/8" crossbore and 1" edge bore (ANSI A115.13 prep)

Warranty:

Lifetime warranty against defects in material and workmanship

Finishes:

Available in all standard finishes to match existing hardware

Applications:

It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use and installation are required. Ideal applications include:

- Apartments
- Retail outlets
- Residences
- Multi-family Units

Technical Information:

SFIC cylinder options include Medeco X4 and Nexgen XT

Available Key Technologies:

14 Series Deadbolts

The Medeco® 14 Series is a Grade 2 commercial deadbolt that provides an outstanding combination of cylinder options, performance and value. It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use and installation are required. Ideal applications include: office buildings, hospitals, schools, restaurants, apartments and retail outlets. The Medeco® 14 Series can be used in conjunction with either Medeco[3], BiLevel, or Medeco X4 Key Control cylinders as well as Medeco® eCylinders. When offered alongside the Medeco® Maxum deadbolt, it provides end users a choice to select from these options of smart deadbolt solutions.

Benefits:

- One inch throw bolt with hardened steel free spinning steel pin insert resists sawing
- Bolt mechanism designed to adjust for both 2 3/8 inch or 2 3/4 inch backset, with 2 3/4 inch fixed backset also available, which provides greater flexibility and ease of installation
- Free turning outer ring on collar resist wrenching attacks
- Utility patented key control, (for cylinders that incorporate the Medeco[3] design), provides protection against the unauthorized duplication of keys
- Medeco[3] cylinders include special elevating and rotating pin tumbler design, along with false slots on the bottom pins, mushroom top pins and a sidebar mechanism, work together, to provide superior pick resistance
- Medeco[3] cylinders also include angled cuts on the keys, along with fore and aft positioning, in the Medeco[3] design, provide added dimensions that dramatically increases key combinations and enables Medeco® to produce some of the largest master key systems in the industry
- Medeco[3] cylinders include hardened steel inserts, positioned in critical areas of the cylinder, provide a high degree of drill resistance
- Medeco[3] cylinders UL437 listing provides assurance that cylinders meet universal standards for drill and pick resistance and resistance against other types of forced attack

Applications:

It is the ideal choice for a wide variety of commercial and heavy duty residential applications where consistent quality, ease of use andinstallation are required. Ideal applications include:
- Office buildings
- Hospitals
- Schools
- Restaurants
- Apartments
- Retail outlets

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Technical Information:

- SFIC cylinder options include Medeco X4 and Nexgen XT

UL437 Listing & BHMA Certification on cylinder for high security	●				
Easily integrated into master key systems for key security and convenience	●	●	●		
Patented key control to protect against unauthorized duplication	●	●	●		
Non-key retaining (NKR) and key retaining (KR) models available.	●	●	●	●	●

Medeco[3] Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco[3] cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco[3] the cylinder of choice to protect people, property and information.

Medeco[3] BiLevel Patented Key Control

Medeco[3] BiLevel cylinders may be incorporated into a master key system with Medeco[3] high security, offering protection against all types of attack where needed, and patented key control cylinders for areas requiring less protection. BiLevel cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Medeco X4 Patented Key Control

Medeco X4 cylinders offer patented control against unauthorized duplication of keys without the additional security features protecting against force or surreptitious attack.

Loss & Liability Control

Many of the cylinders in this section are also available with an eCylinder Loss & Liability Control Solution. See the eCylinder Section for more details.

How to Order:

1

54-51500
base part #

Refer to pages 142-153 for descriptions and technical specifications to find the corresponding base part number.

2

– 05 –
finish

Refer to the inside back cover of this catalog for finish options. Include the corresponding two digit finish number.

Upcharge for split finish.

3

LT –
keyway

Insert keyway if known or contact CS for help.

4

S –
pinning

S = Sub-assembled (Uncombinated)	**P = Pinned (Combined)**	**M = Master Keyed**
No additional information needed	Keyed alike (KA) Keyed different (KD) 2 keys per cylinder **Captive Deadbolt** 1 change key and 1 thumbturn key	Provide specific pinning or contact Customer Service for support Must specify quantity for keys.

System Series Padlocks

The Medeco® System Series padlock offers a high security solution for a multitude of applications and are available in two distinctive body styles, an indoor/outdoor weather resistant design or with a shrouded shackle. Both models utilize a boron alloy steel shackle which provides protection to resist cutting and increased tensile strength to resist pulling attacks. The boron alloy steel also ensures that the shackle has an exceptional degree of ductility and is not brittle. The cylinder itself uses hardened, stainless steel inserts to provide the ultimate defense against drilling, pulling and other forms of vandal attack. Patented key programs prevent the unauthorized duplication of keys and maintain system integrity. Medeco's new premium high security padlocks can be keyed alike, keyed differently, or masterkeyed with existing door hardware systems. The Medeco[3] unique design provides triple locking action, making the locks virtually pick proof. All Medeco[3] keys and locks are protected under patent, trademark, and copyright laws. Medeco[3] keys may only be duplicated by Medeco® or by a Medeco® authorized sales outlet, and only at your request.

Benefits:

- The shrouded shackle design provides extra shackle protection against cutting attacks.
- Hardened stainless steel inserts inside the cylinder provide the ultimate defense against drilling and other forms of physical attack.
- Unique elevating and rotating tumbler pin system is virtually pick proof.
- All Medeco® cylinders are constructed of durable machined brass components, designed to last the life of your equipment.
- Patented Medeco[3] keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request.
- Boron alloy steel shackle which protects against cutting and pulling attacks.
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.
- Available in a variety of different shackle lengths.

Applications:

The Medeco® new premium high security padlocks can be used in a variety of different indoor or outdoor applications where high security and key control are a primary concern.

Technical Features:

- Available with either a 5/16 inch or a 7/16 inch shackle diameter.
- The Medeco® new premium high security padlocks are available as key retaining or non-key retaining.
- Extended shackles available for Indoor/Outdoor padlocks only.

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Finishes:

The padlock comes in a standard black body cover and the cylinders are furnished in the satin brass finish.

Standard Shackle for 54-72 Shrouded Padlock, 3/4" Shackle Clearance x 7/16" Diameter	CP-144140	$9.70	CP-144200	$13.70

Hockey Puck Padlocks

Medeco® offers a variety of High Security Padlocks that are designed to accept both mechanical and eCylinders. The Medeco® Hockey Puck style padlocks come with hardened, solid steel bodies, a shackle-less design for the highest level of protection against bolt cutter attacks, and patent protected key control. Every padlock cylinder is UL 437 Listed and can be keyed into any existing 10 series product. The Medeco³ unique design provides triple locking action, making the locks virtually pick proof. All Medeco³ keys and locks are protected under patent, trademark, and copyright laws. Medeco³ keys may only be duplicated by Medeco® or by a Medeco® authorized sales outlet, and only at your request.

Benefits:

- Hardened solid steel, black chrome plated body.
- Hardened stainless steel inserts inside the cylinder provide the ultimate defense against drilling and other forms of physical attack.
- Unique elevating and rotating tumbler pin system is virtually pick proof.
- All Medeco® cylinders are constructed of durable machined brass components, designed to last the life of your equipment.
- Patented Medeco³ keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request.
- Hockey Puck style padlocks are completely serviceable, and can be re-keyed in case of lost or stolen keys.
- Hockey Puck style padlocks can be keyed in with other 10 series products.
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.
- Shackle-less design for the highest level of protection against bolt cutter attacks.

Applications:

Hockey Puck style padlocks can be used in a variety of different applications including vending, storage and transportation.

Technical Features:

- Hardened steel body.
- 5 pin, key-in-knob cylinder.
- Requires a key to relock.

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Available Key Technologies:

Mechanical:	eCylinder:
– Medeco³	– Medeco XT
– Medeco³ BiLevel*	
– Medeco X4*	

52-9 Series Hockey Puck Padlock

Description	Part Number	Medeco³	BiLevel	Medeco X4	eCylinder
Hockey Puck Padlock, With 5 Pin High Security or 6 Pin Medeco X4 Cylinder	52*93000 (P)	$128.30	$92.55	$118.30	
	52*93000 (S)	$118.80	$87.55	$108.80	
Hockey Puck Padlock, Non-Key Retaining, Less Cylinder	52*930L0	$49.80			

Hockey Puck uses unique cylinders and can be keyed to a door hardware key. Not available with LFIC or SFIC.

ASSA ABLOY

G8R Padlocks

Medeco® offers a variety of High Security Padlocks that are designed to accept both mechanical and eCylinders. With its tough, weather resistant construction, this is the padlock of choice for extreme environments such as trailers, cargo containers, and gates. The Medeco® G8R body is constructed of solid stainless steel. You can choose from either a stainless steel shackle for maximum corrosion resistance, or hardened steel to withstand severe physical attack. Each padlock includes a weather seal cap attached by a cable. The Medeco® G8R will accept either an eCylinder or mechanical t-handle cylinder. The mechanical cylinders provide the benefit of patented key control and pick resistance. The eCylinder adds sophisticated audit and control features transforming the G8R into a portable access control system for extreme environments.
Features:

- Sealed construction protects cylinders from water and road grime.
- Stainless steel body resists attack and corrosion.
- Shackles can be specified in stainless or hardened steel to fit your application.
- Padlock can house a Medeco® mechanical cylinder for key control and pick resistance, or an eCylinder for loss and liability control.

Applications:

- The G8R Series was designed for locking installations requiring weather resistance and strong physical security. Applications include:
  - Cargo containers
  - Trailer doors
  - Gates
  - Vending machines

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Technical Information:

- 300 series, cast stainless steel body.
- Padlock is sold less cylinder. Compatible with Medeco® mechanical and NEXGEN electronic t-handle cylinders.
- Padlocks are shipped with a weather seal cap attached by a steel cable. A finish plate is included for applications that do not require the weather seal cap.

Available Key Technologies:

Mechanical:	**eCylinder:**
– Medeco[3]	– Medeco XT
	– Medeco Logic
	– Medeco Nexgen

G8R Series Padlock

Description	Part Number	Price
G8R Weather-tight Padlock, 5/16" Stainless Steel Shackle, less pop-out cylinder	52-110040	$107.20
G8R Weather-tight Padlock, 5/16" Hardened Steel Shackle, less pop-out cylinder	52-111040	$107.20
G8R Weather-tight Padlock, 7/16" Stainless Steel Shackle, less pop-out cylinder	52-120040	$107.20
G8R Weather-tight Padlock, 7/16" Hardened Steel Shackle, less pop-out cylinder	52-121040	$107.20

G8R padlocks are sold less cylinder and use a cam lock style key with pop-out plug.
Keys are charged separately for this style cylinder.

Cam, Cabinet & Switch Locks

FEATURES	Medeco[3]	Logic	Medeco XT
Easily integrated into existing cam lock master key systems	●	●	●
Easy installation	●	●	●
Completely serviceable and may be rekeyed in the event of a lost or stolen key	●	●	●
UL437 Listing on cylinder for high security	●		
Cam locks available in all standard lengths, flats, and rotations	●	●	●
Switch locks available in single or double switch models and momentary and maintained positions with silver or gold contacts (for low amperage applications) designed to accept quick connect leads	●	●	●

Medeco[3] Premium High Security

For effective mechanical protection against most forms of attack as well as protection against unauthorized duplicate keys, Medeco[3] cylinders are recommended. Security features including hardened steel components, pins that must be elevated, rotated, and interact with both a sidebar and a slider, and additional pick resistant features make Medeco[3] the cylinder of choice to protect people, property and information.

Loss & Liability Control

Many of the cylinders in this section are also available with an eCylinder Loss & Liability Control Solution. See the eCylinder Section for more details.

Cam Locks

Medeco® high security cam locks are recognized throughout the world as the standard for protection in a 3/4 inch diameter lock. Medeco® Cam Locks utilize hardened, stainless steel inserts throughout the cylinder to provide the ultimate defense against drilling, pulling, and other forms of vandal attacks. Patented key control programs prevent the unauthorized duplication of keys and maintain system integrity. Keyed alike, keyed different, or master keyed, Medeco® offers a complete line of cam locks in a wide variety of sizes and functions to meet your specific needs.

Benefits:

- All Medeco® cylinders are constructed of durable machined brass components.
- Hardened stainless steel inserts inside the cylinder provide the ultimate defense against drilling and other forms of physical attack.
- Unique elevating and rotating tumbler pin system is virtually pick proof.
- Patented Medeco[3] keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request.
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.
- Available in various lengths and rotations.

Technical Information:

- Four or five pin models available depending on size
- Available in three standard sizes, 11/16 inch, 7/8 inch and 1 1/8 inch
- Two flat models available, key retaining only
- Clockwise or counterclockwise rotation, 90 or 180 degrees
- Keyed alike, keyed different or master keyed

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Finishes:

- 26 satin chrome finish standard
- Other finishes available, depending on volume

Certification:

- UL437 Listed

Applications:

Medeco® Cam Locks can be used in any standard 3/4 inch diameter application and a multitude of markets including:

- Safe
- Communication
- Alarm
- Access control
- Banking

- Utility
- Data Encryption
- Cabinet
- Transit
- Lockers

Removable Core Cam Locks

Medeco® Cam Locks are available with a removable core feature allowing cores to be changed out in seconds, to provide an entirely new keying combination. For applications that may require instantaneous re-keying due to lost or stolen keys, or where periodic re-keying is done as a matter of good business practice, Medeco® Removable Core Cam Locks save valuable time and money. Removable Core Cam Locks offer the same high security features of a Medeco® Cam Lock with the convenience of a removable core.

Benefits:

- Removable cores can be changed out in seconds to provide a new, secure keying combination.
- All Medeco® cylinders are constructed of durable machined brass components.
- Hardened stainless steel inserts inside the cylinder provide the ultimate defense against drilling and other forms of physical attack.
- Unique elevating and rotating tumbler pin system is virtually pick proof.
- Patented Medeco[3] keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request.
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.
- Available in various lengths and rotations.

Technical Information:

- Four or five pin models available depending on size
- Available in three standard sizes, 11/16 inch, 7/8 inch and 1 1/8 inch
- Two flat models available, key retaining only
- Clockwise or counterclockwise rotation, 90 or 180 degrees
- Keyed alike, keyed different or master keyed

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details

Finishes:

- 26 satin chrome finish standard
- Other finishes available, depending on volume

Applications:

- Medeco® Removable Core Cam Locks can be used in any standard 3/4 inch diameter application and a multitude of markets including:

  - Safe
  - Communication
  - Alarm
  - Access control
  - Banking
  - Utility
  - Data Encryption
  - Cabinet
  - Transit
  - Lockers

Cabinet Locks

Medeco® Cabinet Locks are specifically designed for drawer or cabinet door applications where a conventional utility cam lock may not be suitable. Cabinet Locks utilize heavy-duty bolts and multi-point attachment to the mounting surface in order to withstand the heavy use and higher physical security some applications may require. All Medeco® Cabinet Locks feature solid brass and steel construction, available in either fixed or removable core. Patented key programs prevent the unauthorized duplication of keys and maintain system integrity. Keyed alike, keyed different, or master keyed, the Medeco® Cabinet Lock is the perfect solution for your showcase security needs.

Benefits:

- Medeco® high security cabinet locks are constructed of durable machined brass and solid steel components.
- Available in either fixed or removable core depending on your specific requirements.
- Available in either deadbolt or spring latch models.
- Unique elevating and rotating tumbler pin system is virtually pick proof.
- Patented Medeco[3] keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request.
- Medeco® Cabinet Locks can be keyed in with other 60 Series products.
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.

Technical Information:

- Five pin models available in either deadbolt or spring latch versions.
- 7/8 inch diameter, surface mount, fixed or removable core available.
- One and two flat models available, key retaining or not.
- Deadbolt fixed core available in non-key retaining.
- Keyed alike, keyed different, or master keyed.

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Finishes:

- 26 satin chrome finish standard.
- Other finishes available, depending on volume.

Applications:

- Medeco® Cabinet Locks are specifically designed for use in metal or wooden drawer and cabinet door applications including:
  - Medical and narcotics
  - Chests and cabinets
  - Showcases
  - Cash carts
  - Drawers

Showcase Locks

The Medeco® Showcase Lock is specifically designed for installation on sliding cabinet door applications that require extra protection beyond what ordinary showcase locks provide. Complete with a solid steel locking bar and anti-spread housing, the Medeco® Showcase Lock is ideal for securing showcases and cabinets where two sliding surfaces are to be locked. No other lock can be compared with Medeco's proven track record of security and long term reliability. Patented key programs prevent the unauthorized duplication of keys and maintain system integrity. Keyed alike, keyed different, or master keyed, the Medeco® showcase lock is the perfect solution for your showcase security needs.

Benefits:

- Solid machined brass plug, high density zinc die cast housing, and nickel plated steel locking bar
- Unique elevating and rotating tumbler pin system is virtually pick proof
- Patented Medeco[3] keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request
- Medeco® Showcase Locks are completely serviceable, and can be re-keyed in case of lost or stolen keys

Technical Information:

- Four pin key retaining cylinder is standard
- Self-locking latch, 90 degrees counterclockwise rotation to unlock
- Keyed alike, keyed different, or master keying available

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Finishes:

- 26 satin chrome finish standard.
- Other finishes available, depending on volume.

Applications:

Medeco® Showcase Locks are specifically designed to secure showcase or cabinets where two sliding doors need to be secured, including:

- Jewelry and electronics showcases
- Drug and Medical cabinets
- Furniture
- Laboratory
- Office Credenzas

Plunger Locks

Medeco® Plunger Locks are specifically designed for use in wooden or metal sliding doors. Complete with a spring loaded pop out cylider, the Medeco® Plunger Lock is ideal for security merchandise showcases, metal cabinets, and laboratory and office furniture. Plunger Locks equire no key when locking the device; simply push in on the cylinder to relock. Patented key programs prevent the unauthorized duplication of keys and maintain system integegrity. Keyed alike, keyed different, or master keyed, the Medeco® Plunger Lock is the perfect solution for your security needs.

Benefits:

- Medeco® Plunger Locks are constructed of durable machined brass and solid steel components
- Unique elevating and rotating tumbler pin system is virtually pick proof
- Patented Medeco[3] keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request
- Medeco® Plunger Locks are completely serviceable, and can be re-keyed in case of lost or stolen keys
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs

Technical Information:

- Four and five pin models available
- Non-key retaining cylinders
- 45 degree clockwise rotation to unlock
- Keyed alike, keyed different or master keyed

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Finishes:

- 26 satin chrome finish standard.
- Other finishes available, depending on volume.

Applications:

- Medeco® Plunger Locks are specifically designed for use in metal or wooden sliding door applications including:
  - Jewelry and other merchandise showcases
  - Metal cabinets
  - Laboratory furniture
  - Office furniture

Available Key Technologies:

Micro Switch Locks

Medeco's 3/4" diameter, high security switch locks offer a wide range of electrical functions with the physical security and patented key control of a Medeco cylinder. Available in either single or double switch models, Medeco switch locks are ideally suited for applications requiring controlled access to electrically activated systems, including alarms, ATMs, time delay safes, encryption devices, heavy power equipment, control panels and electrically accessed doors and gates. The Medeco® 3/4 inch diameter, high security Switch Lock offer a wide range of electrical functions with the physical security and patented key control of a Medeco® cylinder. The Medeco[3] unique design provides triple locking action, making the locks virtually pick proof. All Medeco[3] keys and locks are protected under patent, trademark and copyright laws. Medeco® keys may only be duplicated by Medeco® or by an authorized Medeco® dealer, and only at your request.

Benefits:

- All Medeco® cylinders are constructed of durable machined brass components, designed to last the life of your equipment.
- Available in single or double switch models, momentary and maintained positions.
- Silver or gold contacts (for low amperage applications) designed to accept quick connect leads.
- Hardened stainless steel inserts inside the cylinder provide the ultimate defense against drilling and other forms of physical attack.
- Unique elevating and rotating tumbler pin system is virtually pick proof.
- Patented Medeco[3] keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request.
- Medeco® Switch Locks are completely serviceable, and can be re-keyed in case of lost or stolen keys.
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.

Certification:

- UL 437 Listed
- Switch - UL Registered, CSA Certified

Applications:

- Medeco® High Security Switch Locks can be used in any standard 3/4 inch diameter switch lock application and a multitude of markets including:

- Heavy Power Machinery
- Time Delay Safes
- Material Handline Equipment
- Construction Vehicles
- Electrically Accessed Gates
- Cash Control Systems
- Encryption Devices
- Alarms
- Control Panels
- ATMs

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Technical Information:

- Five pin, 3/4 inch double "D" mounting standard.
- Available in either single or double switch models with either silver or gold contacts.
- Rated at 7 amps resistive at 125/250 VAC.
- Contacts designed to accept quick connect leads (AMP connector number 60598-3)

Finishes:

- 26 satin chrome finish standard.
- Other finishes available, depending on volume.

Rotary Switch Locks

The Medeco® Rotary Switch Lock is designed for use with most brands of rotary switches, providing maximum versatility in systems requiring multiple switch functions. Switch Locks are available with a variety of key withdrawals at either 45 degrees or 30 degree increments. Positive stops are available to eliminate over-torquing of switch stops. Switch locks use a five pin cylinder to maximize keyed different and master keying capabilities. Medeco® design and engineering resources are available to assist customers with special functional requirements. The Medeco^3 unique design provides triple locking action, making the locks virtually pick proof. All Medeco^3 keys and lcoks are protected under patent, trademark and copyright laws. Medeco^3 keys may only be duplicated by Medeco® or by an authorized Medeco® dealer, and only at your request.

Benefits:

- All Medeco cylinders are constructed of durable machined brass components, designed to last the life of your equipment.
- Hardened stainless steel inserts inside the cylinder provide the ultimate defense against drilling and other forms of physical attack.
- Unique elevating and rotating tumbler pin system is virtually pick proof.
- Patented Medeco^3 keys may only be duplicated by Medeco® or an authorized Medeco® service outlet, and only at your request.
- Medeco® Switch Locks are completely serviceable, and can be re-keyed in case of lost or stolen keys.
- Locks can be keyed alike, keyed different, or master keyed depending on your specific needs.

Warranty:

Warranted for two (2) years against manufacturer's defects. See the Medeco® limited warranty for full details.

Technical Information:

- Five pin, 3/4 inch double "D" mounting standard.
