Trauma, 8th Edition

Ernest E. Moore, David Feliciano, Kenneth Mattox
ISBN: 9781259860676 Pub Date: May 2017

The world's leading resource on trauma surgery with an expanded full-color atlas

Supported by numerous x-rays, CT scans, plus tables throughout, *Trauma* begins with an informative look at kinematics and the mechanisms of trauma injury. Subsequent chapters provide useful background information on the epidemiology of trauma; injury prevention; the basics of trauma systems, triage, and transport; and much more. The next section meticulously reviews generalized approaches to the trauma patient, from pre-hospital care and managing shock, to emergency department thoracotomy and the management of infections. *Trauma* then delivers a clear organ-by-organ survey of treatment protocols designed to help clinicians respond to any critical care situation with confidence, no matter what body system is involved. The remaining sections of the book will help readers successfully handle specific challenges in trauma including alcohol and drug abuse, and combat-related wounds in addition to post-traumatic complications such as multiple organ failure.

**Natural Labor and Birth: An Evidence-Based Guide to the Natural Birth Plan**

Michelle Aristizabal
ISBN: 9781259862878 Pub Date: Sep 2018

The ONLY evidence-based resource covering natural childbirth practices – offering a logical middle-of-road approach to the natural birth movement

Natural Labor and Birth: An Evidence-Based Guide to the Natural Birth Plan seeks to end the friction between natural and traditional obstetrics care. It is unique in that it does not attempt to make a case for natural childbirth, it only seeks to demonstrate how natural birth can exist within the framework of typical antepartum care and hospital deliveries and respond to patient preferences. It teaches the skills necessary to assist a woman through an unmedicated childbirth that are not taught in most obstetrical residencies and nursing programs and provides a compilation of the medical evidence supporting alternative practices.

Our vision is to unlock the full potential of each learner.

Our mission is to accelerate learning through intuitive, engaging, efficient and effective experiences – grounded in research.

At McGraw-Hill Education, we're passionate about learning. It's embedded in our DNA. We know that the passion to learn is very personal. Learning something new might enable you to take a new path in life. Or to launch your career, taking you on a whole new trajectory. When you are passionate about learning, the possibilities are endless.

Where the Science of Learning Meets the Art of Teaching

Educators always will be at the heart of the learning experience. We partner with educators around the globe to develop better experiences for learners. We help drive success by harnessing content, technology and data to ignite the spark between teaching and learning. And it's working. Our solutions are proven to improve pass rates, elevate grades and deepen engagement for each individual learner while improving outcomes for all.

We are a learning science company.

Grounded in deep insights into how learning happens, we deliver tools, technologies and services that power performance and achievement. Our adaptive technology actively tailors learning to the individual, continually assessing skill and confidence levels, and providing precise direction to fill knowledge gaps and accelerate mastery. Learners now can enjoy products that adapt to their individual learning styles and unique circumstances, with digital tools and mobile access that help them make the most of study time, whenever and wherever they choose. And our analytics empower both learners and educators to make the most of every interaction. Our products, services and solutions are designed to improve learning outcomes.

Why? Because learning changes everything®.
