

Metadichol Testimonials Gathered by Cosmic Connections (International) Limited

NOTE: NANO SOMA® is the brand name for the widely patented Metadichol®, a nanoemulsion of policosanol. The following are user testimonials. Neither Cosmic Connections (International) Limited nor any other individuals or incorporated entities who are in any way involved with selling or marketing Metadichol in any form make any claims about Metadichol based on these testimonials, beyond the claims made as part of the official approval or the regulations under which those products are marketed in any given country. None of us are medical doctors. This product is not intended to diagnose, treat, cure, or prevent any disease

My name is Howard Wolin. I am currently 79 years of age. I started as a medical doctor.

The training I had was as an intern and resident. The resident was in psychiatry in Chicago at what was then an incredible psychoanalytic training center and the guy who ran it was trained by Freud. In those days that was psychoanalytic psychotherapy - we actually talked to people and helped them deal with their stuff and then I went into practice at age 30 and started working with people in and out of the hospital - adolescents, geriatric patients with all sorts of psychiatric illnesses - psychosis, depressions, and then at the age of 36 I started, while I was practicing, a psychoanalytic training program concomitant with my practice and became a psychoanalyst at the age of 40 or 41. That involved seeing patients on the couch for about five days/week. That went on until I was about 50 but in my mid-40s - and actually in my 30s - I started a healing path, which started on the outside and got deeper and deeper, with seminars and experience-based learning from colleagues who were very much smarter than me.

August 2022

At the age of 50, I started a holistic practice. I shifted out of the psychoanalytic work into holistic practice, just functional medicine, functional bloodwork, kinesiology for testing for supplements. At that point, also, I started working spiritually; first with one colleague and then in the last 20-25 years with a native American tribe who have 3 or 4 reservations here in the States and a presence in Tibet, and I did the holistic work until 2012, retired, and then I'm still doing the spiritual work and working with friends and people close to me to use the kinesiology to help heal physical stuff with supplementation.

When I test anything and likewise when I test a supplement for a patient, or when I test whether somebody should marry someone or whether they should get a job or whether they should hire someone, the baseline test is 100%. Right? 10, 20, 30, 40, 50, 60, 70, 80, 90, 100%. Or if I test a supplement, if anything tests lower than 70%, I don't want to use it. If I test a food, a coffee, anything else, I hold it against my body in a certain way that we test, and if it doesn't test well, we don't do it.

So, when I tested Metadichol in the ways that I can test it, it tested – and I have confirmed this with colleagues who were at it as long as I – it tested a trillion percent positive, which is pretty phenomenal. At times it's tested higher in different venues. I do not doubt the quality and the frequency of this is so, so high that, whatever it's doing, whether it's Raghu's explanation about the Godfather, or it's mine or anyone else's, it has an incredibly high frequency.

Here's what I'm finding – using years of kinesiology experience and Metadichol as a filter or door opener, I'm finding that it unlocks/makes visible to the body's consciousness deeply hidden chemicals – pesticides, i.e. Kepone, and heavy metals adverbaryneuronal tissue – i.e. thyroid, alveoli, bronchioles, spleen, renal tubules, liver, small intestine – it opens the door for the body-mind to recognize the toxins – and once recognized – i.e. not hidden, the body dumps/detoxes it, thus allowing mitochondria to function more effectively with full energetic expression.

But I have seen over 30 or 40 years and have done what I can to get rid of a whole host of polioviruses that were grown in chimpanzees. What I'm about to say to you is, since I've been using Metadichol, they have in the last month to 2 months, have gone from the RNA protein or the DNA protein or mutated – those are the 3 forms – into now dead viruses. And it's not just that, it's old, mutated stuff – Hemolytic B, it is smallpox, it is varicella first starting to outlive, then mutated, then dead, so it does do that.

It's not the Godfather that tells the cells to shape up their asses; the cells have an enormous consciousness. I think what it does is it shines the light on all the shit. And I'm finding it's not just viral or bacterial, it's every single toxin, including radioactive

Strontium 90, which I got a huge dose of as a kid in New York and it's including all sorts of heavy metals and it's including all sorts of pesticides. I think what it does is it shines the light, opens the door to the cell seeing them, and then the cell knows already because they're all conscious, to get rid of it and sweep it out. That's my take. I could be wrong but that's my take on it. It makes the crap visible.

Let me give you one example. I have a massive menu, but the menu has histological points, Gamma 2 which are called neurological points, and all sorts of other body points. Over many years but especially over the last few months there's been a huge amount of stuff clearing out of my liver as other places clear, and I'm working two days ago and suddenly the word sinusoid comes up. What it is, it's not even a capillary. It's tinier than a capillary and it's in the liver, it's in the adrenals, it's in the bone marrow and all sorts of sinusoids start showing up. But, importantly, all sorts of toxic crap of the same sort that I've found shows up there, and the way I do it is, when it's recognized by me, through the menu, I write it down on a paper, I hold the paper with the writing facing out, I tap the body and the body is going to start dumping it like crazy. How do I know that? I know it but I have an incredible physical therapist who, when I'm working, and she works she'll see all sorts of either toxins or infections pouring out.

But here's the other interesting piece. The body hides things so that it can seal around and protect them until it's ready to let them go. And if it lets it go in one place, it lets it go in other places. So, Strontium 90 now is coming out from all over.

But the fascinating thing about Metadichol – Raghu speaks about five sprays and I don't doubt the science of his genius, but I have variously tested anywhere from five sprays once/day when I started; now I'm at a point where I can be testing at times 50 sprays five times/day and now 75 once/day; yesterday and the day before, 65 twice/day, and I trust my testing and something is going on where the body is saying that's what I need to get rid of whatever this shit is. So, I'm putting this out there, not to dispute him but to suggest to you is that it really could be a lot different, depending on the day, the moment, and what's being dealt with. Now, this could just be my vehicle that needs, whatever it needs to do what it does.

And I said this to you when I met you; I've been at this with supplements, and this is the best thing that will fix anything in the world. All the supplements I've taken are targetspecific, and there's a company called SpectraCell that I use for the consult for over 30 years, the least amount of supplements with the most effect; you can't easily, palpably see what a supplement does. You can't say, "Oh, my God, it's like the movie "Paul" – he touches her in the eye and her eye heals instantly."

And most people, when they have this; I can see it in a way that other people really can't see it. I can see what it's doing, I can see what's happened to my energy, my runs are better, I'm calmer in many ways. I mean there's a lot of things that it does. I can see

what it does inside in terms of helping stuff, clearing stuff out. Mostly it's my intent but this is the helper.

Beyond amazing – after years of bullshit, this is something beyond real. Howard.
March 2020.

Dear all,

I've been waiting for some real, concrete, undeniable proof for myself that NANO SOMA 'works'. An emergency situation would seem to provide the most undeniable evidence. So, here's the emergency:

Two nights ago, I was up unusually late on the computer. It was about 10 p.m., when, for some reason, I brushed my fingers over the top of my head. There was no sensation there, except for the weirdest, large, protruding, smooth bump. Without thinking, I scratched at it until it came off. An extremely sharp pain ensued, which spread quickly all over the top of my scalp. And, almost equally quickly, there was a furious itching under my armpits.

Then, it dawned on me that this bump may have been one of those coastal shellback ticks – big and fat after a good feed. I had been on a long forest walk that afternoon and had even thought about ticks at one point. The last thing to do is to pick off a tick. If you do so, they release their poison instantly.

Too late. Furious itching spread to the glands of my groin, torso, neck, and then half of my bottom lip became numb and swollen – all super quickly. I wondered if I was experiencing anaphylactic shock, and if my breathing would become impaired. I grabbed the NANO SOMA bottle, which was right there on the table next to me, and gave five sprays to the top of my head and five sprays into my mouth. I also squirted a dropperful of Wild Oregano Oil onto the spot, to disinfect it, if nothing else.

Suddenly, I was experiencing so much dizziness that I had to lie down. I wanted to unlock the front door, just in case, but I couldn't get that far anymore. A bit panicked to be so isolated in this situation, I remembered Sadhguru once saying that in India, when someone gets bitten by a snake (cobra), the most important thing is not to let that person, or oneself, become unconscious.

I could see the potential of passing out beginning to happen, and I had no way to get to any caffeine. So, I stayed propped up on one elbow writing messages to my sister-in-law, which detailed what was happening, and another message to a friend who lived not so far away. I knew that after 10 p.m. they would likely have their phones turned

off, but typing on the phone was a way for me to try to stay conscious. It was quite difficult to text (and very scrambled, as I saw in the morning).

In between my messaging, I was continuing to take NANO SOMA – about four or five more shots of five sprays into my mouth.

Feeling awake enough at some point, I laid back and just watched the incredibly wild surface madness going on. My pulse seemed normal, and, after a while, I could tell that my situation wasn't getting any worse. So, I just laid there until I realised that if I was thinking about brushing my teeth before bed, things must have stabilised enough to stand up. Indeed, my dizziness was gone. It was 11 p.m. Good ol' NANO SOMA, methinks!!!

It took me a very long time to fall asleep, as I felt super alert, and I woke up before 5 a.m. I got up very happily, dressed, and walked all the way through the wonderful early morning birdsong to the ocean.

Strangely, the next evening, I had a strong itching and somewhat 'painful' sensation on the left side of my head which lasted until I went to bed and slept it off. I had more NANO SOMA, of course! And there was nothing the next day.

So, there it is – my very own testimonial to the magic of NANO SOMA. I have no idea where such a strong reaction to a tick bite might have gone without it.

A big, big thank you to Raghu!!!
With love,
Nirda, August 2022.

Good morning, Roland.

I am 75 years old and have been taking NANO SOMA for about a year now. For the first few months, I took NANO SOMA several times a day because, even if they are not life-threatening, there are many problems in my body – many of which have been resistant to everything I've previously tried.

I'll start with the official diagnoses: thrombophilia (Factor V disease – hereditary); ADS (attention deficit syndrome) in adulthood; onset of dementia; Epstein-Barr virus (protracted mononucleosis at 16); toxoplasmosis; excessive intraocular pressure on the left eye / cataract on the left eye; operated-on MSC (multiple chemical sensitivity); rosacea (first at 30 years old, now chronic); hypercholesterolemia; and leaky gut syndrome after decades of undetected food intolerances, especially of gluten, lactose

and soya. This eventually led to two intestinal operations, which of course didn't help (or, they only helped for as long as I had to fast afterwards because of them).

After giving up gluten, I also suffered from chronic collagen colitis for two full years. Even before NANO SOMA, 95% of it had improved after longer, specific cortisone doses. It only came back sporadically for a short period of time.

Using bioresonance, a Klinghardt therapist also diagnosed me with retroviruses and neuro-borrelia. These caused the craziest symptoms, which were given the most illustrious Latin names. I could live with it, but life as a whole was tedious. It felt like I was being controlled by others – especially as my body reacted to any chemical medication with sometimes severe side effects.

Through four years of very expensive Klinghardt therapy, I was able to clean up my brain quite a bit – even if only by about 40-50%. For example, with a lot of mental effort, I was able to buy one or two things at the store without a cheat sheet. Before that, I would have to read just one thing off of my shopping list several times over, even if I was already in the shop. Sometimes I would have to do it again in front of the shelf to remind myself!

So, what can I tell you about my experience with NANO SOMA? In general, I already felt more vital after the first few months of taking NANO SOMA several times a day. That alone is worth it.

Now, here are some details about the things that have improved so far – or still are, or have not at all – because I am certainly sticking to it!

1. My memory has further improved. I spray NANO SOMA (in addition to the daily five-spray dose in my mouth) into both nostrils once or twice a day, as close as possible to the blood-brain barrier. Today, I can keep two, sometimes even three things in my head when shopping – though I still keep the cheat sheet with me.
2. My ability to remember, find words, and concentrate are all noticeably better, although this can still fluctuate.
3. The decades-old nocturnal nerve pain in my right leg has improved by 50%.
4. Regarding my ADS, I have 'slowed down' a lot and can concentrate for much longer.
5. The intraocular pressure is at the upper limit of normal, so it is manageable for me.

I haven't had my cholesterol measured yet, as I don't need a doctor anymore. Next month, however, I have to go for my obligatory motor vehicle driving test. I'm looking forward to it.

Unfortunately, my disturbed digestion is still the same. My intestines seem to be defective after many, many decades of the wrong diet. I also still have some rosacea that has not yet gone away. In addition, I still experience great fatigue about 30

August 2022

minutes after eating (hence why I eat only once a day) which is accompanied by burning, swollen feet and lower legs. Although this is a little better, it is still present.

I often tell my friends that I am the only old woman who gets healthier with advancing age. I will be eternally grateful for the discovery of NANO SOMA! Or rather, that NANO SOMA has found me! I am often giving away a bottle to friends, and several of my friends are already enthusiastic NANO SOMA consumers.

Thank you for listening.

Kind regards,
Hanna Willimann Fürstensteinerstr, August 2022.

Hello Richard,

I wanted to share that I had three black spots on my teeth, which were the beginning of cavities. I use NANO SOMA regularly, and one day, I noticed that the black spots were just gone. There was nothing else that I could attribute this to other than NANO SOMA.

Sondra, August 2022.

I am so happy with NANO SOMA. I have been using it for ten months now. After the death of my parents in January, I was under a lot of stress. I was also having a lot of heart palpitations – especially when trying to fall asleep. I was worried about them, but they disappeared after a few weeks, as did the stress in my body. NANO SOMA still tastes bitter, so I know that the recovery is still going on. It is a beautiful journey...

Sonja, August 2022.

I was working as a carer when the whole COVID-19 thing kicked off. I believed it all and went along with the testing and masks, etc. I was called up early and took the AstraZeneca vaccine on January 21st, 2021. Around this time, I went into an alcoholic relapse after eight years of sobriety and started to become physically unwell.

In February, I became very wheezy and breathless and felt generally very unwell. By March, I was struggling to get up the stairs and would have to stop to catch my breath. I began being taken by the ambulance to the hospital. They would take chest X-rays and run blood tests, but no one detected the clots as they weren't giving out D-dimers

(I didn't know what a D-dimer was at the time). I was diagnosed with multiple infections. The ambulance trips to the hospital became very regular.

I was diagnosed with tachycardia in early April. On April 16th, I had a kidney failure which I was told was caused by a urinary tract infection that was so bad it attacked the kidney. I do not believe that this was the case.

On April 23rd, the blood clots were detected at City Hospital in Birmingham. They started injecting me in the stomach with blood thinners and told me to come back the next morning for a CT scan. The CT scan revealed blood clots in all zones of both lungs. I was put on Rivaroxaban.

I went to Exeter to stay with a friend. I had bruises all over my legs and felt unwell. On April 30th, I went to the GP who said they detected an infection in my urine and gave me antibiotics. For about a week, I was suffering bad heartburn, which is something I never usually had. By late afternoon, my stomach started to become very hard and large. I looked six months pregnant. I felt very dizzy and found it hard to walk.

After a while, I felt sick and started throwing up massive amounts of pure coffee-grain blood into a bucket. My friend called an ambulance that took me to Royal Devon and Exeter Hospital. Not long after I arrived, I suffered a second massive hemorrhage – this time of pure, bright red, fresh blood. I was raced into the resuscitation room and worked on throughout the night to save my life. A camera test on the following day showed no alcohol damage and a one-centimeter esophageal ulcer with a clot in the base which had ruptured. I spent a week in a critical care ward before coming home to Birmingham.

At this time, I grew close to Daniel who had been a childhood friend. He knew all about the vaccine and what was in it. I told him about my near-death experience and my blood clots. He started researching nonstop for a cure, and it was during that time that a man told him about NANO SOMA. We ordered it and I started taking it. I started getting better. I eventually stopped taking Rivaroxaban without the doctor's knowledge and we went fully organic with everything. I stopped all pharmaceutical medications, including Propranolol and Mirtazapine. We began to enjoy life and started going camping and socialising with friends.

In November 2021, to the doctor's astonishment, a D-dimer test result showed negative. The doctor said it must mean that the Rivaroxaban is doing its job. I hadn't told him I'd stopped taking that months ago.

In January 2022, a CT scan revealed that my lungs were clear and my D-dimer had remained negative.

We have come so far thanks to the miracle of NANO SOMA. I would have lost my life without it, and now I have another chance to be a mum to my two beautiful children.

We can't thank you enough, Dr Raghavan, for creating this life-saving miracle. We are trying to encourage our family to take it, as we know it gets rid of the vaccine and the vaccine damage. My mum has started to use it and my eldest daughter, as well. We will continue to tell people about how incredible it is. We will always be forever grateful to you. Thank you.

Holly, July 2022.

On Friday I had my second knee replaced. Sunday, today, the heat and pain were unbearable.

Knowing this, I preordered the Metasomer Topical Gel. Tonight, I applied it all over the leg. Like a Reiki Master removing the trauma, the Metasomer Topical Gel did it in one minute. Wow. That's it.

Charlie Zev, July 2022.

Hello Richard,

I have been taking NANO SOMA for about three years now. I would not like to be without it. I keep it on my bedside table and it's the first thing I reach for in the morning. I think it's best to have it on an empty stomach.

I would like to say that I am unvaccinated and I have recently returned from seven weeks out of Australia. I have been unaffected from any flus or colds that some people were affected by on my travels. I can't say definitely if my years of taking NANO SOMA protected me, but I do believe it helped a great deal.

Thanks, Richard, for providing it to us. I am very grateful to you for that. Blessings, Christine Chaston, July 2022.

Hello Richard and John,

I just watched the video for new users. It was a great reminder, and it has prompted me to write about my experience, which I have intended to do for ages! Life is busy!

I have been using NANO SOMA since about August 2021. Raghu talks about NANO SOMA and its spiritual connection. My very first five-spray dose...WOW...! I remember it very clearly, although it isn't easy to explain. I felt as though I instantly travelled to another realm and back again. The peace and harmony I felt in that moment were undeniable and truly

amazing! It was a quick but incredible journey of positivity and proof. I believe I was being told that this product is powerful and absolutely meant for me! A few months later, my son also started taking NANO SOMA. He called me and described a very similar experience! More confirmation (if I had needed any!).

When I first started taking NANO SOMA, it was not due to the Virus-Crazy Jab-World we are now living in. I had been on cancer immunotherapy for nearly five years and had not been expected to live more than three months (back in October 2017). I had a severe reaction to being told to get my affairs in order and decided that the medical profession did not get to make that determination for me and that I WOULD LIVE, thank you very much! (I changed many of my lifestyle choices, but to go there would require a novel, so, we won't go there!). I thought NANO SOMA would be perfect for helping my body clear the toxic waste of medication, radiation, scans, and contrasts from my body. I was declared NED (no evidence of disease) in November 2021.

Now, I am not saying that a few months of NANO SOMA created this outcome, but maybe it did? Maybe it was what tipped the balance in my striving for wellness? Regardless, I do believe that the 100% perfect blood tests and scans I have had since then are a result of this wonderful product assisting me on my healing journey! I worked really hard for my health and wellness and finding NANO SOMA was such a gift – a blessing that I felt was saying, "Hey, you don't have to do this alone anymore. Let me help you!". No, I am not crazy, but I do now see things quite differently to the "old me"!

I also want to add that when our bodies have been so out of balance for so long, instant results are not always a realistic expectation. I still have sinus issues and I still feel a bit wrung out and lethargic a lot of the time, but my body, mind, and soul were hauled back and forth through a ringer for five years (much longer if you count all the years of being a smoker, eating crap food, etc.). NANO SOMA sprays still taste bitter to me most days – even after all this time – so I know my body is still clearing, and NANO SOMA is still working with me on this journey. My split, ugly fungus toenails are healed, however!

I do believe in miracles and I believe that NANO SOMA is my miracle; but I also believe that our lessons are shown in good time – not always OUR time! I absolutely believe in this product! My only real challenge with NANO SOMA is actually dropping all of the supplements (as you suggest) that I have taken as part of my healing journey. I have not had a common cold or the flu in years, nor have I had THAT virus. So, I will continue working to drop my supplements in good time.

I thank you, and I thank Raghu. I am incredibly grateful for NANO SOMA. It is truly a GIFT! Blessings, and much gratitude to you all.

UPDATE:

My son and I are about to re-order. He likes to get 24 at a time and we will share them again. He had to be jabbed for work, and despite all the vaccinated people he mixes with (pretty much everyone, except for me!) who were coming down with the virus, he has NOT! Just another plus of our amazing NANO SOMA!

Do you remember when we spoke on the phone a while back? That chat was very inspiring to me and I was so grateful for your time. A company with a personal touch is pretty hard to find nowadays! At that time, I was giving NANO SOMA to my cat and dog but stopped as I didn't want to run out of product. When we get our next order, I want to give NANO SOMA to my cat again, as he is 21 years old and has some renal issues now. This is something I will monitor and keep you posted on. Animal testimonials are important, too.

Abbey Meier, July 2022.

I took the AstraZeneca vaccine January 21st, 2021. On April 23rd, 2021, I was diagnosed with multiple acute pulmonary embolisms. I was then put onto blood thinners, which held the clots in place but could not get rid of them. Just six days after this, I was fighting for my life in the resuscitation room following a huge internal bleed that caused me to lose nearly all of the blood in my body. Knowing that time was not on our side, my partner Daniel started desperately searching for a cure for the blood clots and a way to get this vaccine out of my body. He came across a number of incredible organic alternatives, one of them being NANO SOMA. I started using NANO SOMA on a regular basis and I started to get better.

We trusted in nature and I came off of my blood thinners. A few months later – to the astonishment of the doctors – I had a negative D-dimer result. Finally, in November, a CT scan proved that the clots had been completely eradicated from my body. I am living a normal and happy life now, and we hope that this brief story will encourage others to trust in this product. As stated on the NANO SOMA website, this product isn't used to treat any illness. It is used to activate your body's own immune system to heal itself. This was my journey. Have faith, everyone.

Daniel Knowles (sent on behalf of his partner), July 2022.

Nearly 12 hours after taking the daily dose of five sprays of NANO SOMA, I can feel the ongoing action both physically and energetically. Physically: in the right ear and as a heightened sensory acuity generally. Energetically: as a silent awareness beyond (really, around) consciousness. The molecule itself signals its presence and beingness. When insights arrive in consciousness, the Total Being acknowledges this and signals congruent alignment... Really: no concepts...

Rick Mogul, July 2022.

Hi Richard, I am using NANO SOMA for a half year and it's really a God Sent miracle worker. My hay fever is almost gone now. I can also breathe easier.

Harry, June 2022

A family member of mine recently attended a conference. After the conference, a number of people tested positive to COVID-19. My family member took some NANO SOMA and was only sick for 3 days. Others were very sick and were not taking NANO SOMA.

11 months ago, my friend picked up an awful flu and developed very bad headaches on the left half of her head. She could not lie on her head. I met her for a catch up on 24th March this year and gave her a couple of bottles of NANO SOMA. During our time together (a couple of hours), my friend had no symptoms of COVID-19, but during the night, came down with COVID-19, which was confirmed by a COVID-19 test. She had

immediately started taking the NANO SOMA. She overcame COVID-19 in a matter of days, After a couple of weeks, she also noticed that the headaches that she had suffered for 9 months had completely disappeared and have not returned. She has been able to lie on the left side of her head again without any problems. Recently, she visited a health practitioner who has a scientific frequency machine that is able to identify contaminants, bacteria, and viruses, among many other things. The machine revealed no presence of COVID-19 at all. It is such a delight to be able to have such a wonderful tool to help people.

I have suffered from back problems all of my life including kyphosis and some scoliosis. I started taking NANO SOMA near the end of February this year. Recently I had to do around 1.5 km of furrowing up and downhill on our family property.

Although this exercise was tiring as I was not used to it, I had no backache afterwards. This is a first for me. I have always had aching arms when lifting them above my head. Now I can put away clothes (the wardrobe rod is well above my head) and I don't have any problems.

Anne D., Adelaide, Australia, June 2022

I wanted to extend my gratitude for this product (NANO SOMA). I have a testimonial from one of my best friends who has forced by his employer to get two COVID vaccines:

He had an immediate reaction and was sick for several days. Recently he fell ill again with even worse symptoms. Thankfully, I had already sent him a bottle and after him following your protocol (5 sprays every 4 hours for 3 days), he fully recovered within a week and feels even better than he did previously.

I sent him my affiliate link. He's going to begin purchasing more bottles soon.

Anon, June 2022

My 9.5-year-old Labrador had warts and an ear infection which were being treated. One day we saw that his face had swollen up almost overnight.

The doctors suspected a tumor and gave up completely saying that he was too old to be operated on even if it was not cancer and was just an ear infection that had spread. They gave antibiotics but without any hope.

I gave him NANO SOMA three times a day, 5 sprays each, and also applied it all over his face. Within two days the swelling reduced and on the third day, the swelling was gone.

Doctors were shocked and pleasantly surprised at the same time about this progress within such a short span. They agreed to operate on his ear and his eye which had an overgrowth.

The operation was done successfully. We gave him NANO SOMA for almost a month after that. He looked absolutely fresh and like a child at 9.5 years!!!

August 2022

Anon, June 2022

In late July 2019, I noticed this big kind of wart thing growing on the back of my hand. The various things people do to stem the growth of warts weren't working. It grew rapidly and my hair began to fall out in gobs! A friend of mine noticed the fibers in the growth on the back of my hand. She thought it looked like Morgellons, so she looked it up on the internet and it looked exactly like what was shown there. I never had it diagnosed by a doctor. Some of them refuse to acknowledge the existence of Morgellons so technically I suppose I can't say that's what it was but it sure looked like it and behaved like it. Another friend of mine was so worried about me that she tried to take me to her doctor and told him about my hand in my absence. By the summer of 2020 that thing took up about half of the back of my hand and about half of my hair was still falling out. By then I was starting to be tired and dragged out all the time too.

I may have been one of the first people in the US to order NANO SOMA. I ordered it in January of 2021 as soon as I heard it was available. I used the starter protocol and took it twice a day for a long time after that. First, the thing on my hand stopped growing. Then chunks of it started to come off. My hand would bleed when that happened but it stayed gone. My hair stopped falling out so much. Then it stopped falling out altogether. Then it started to grow back in thick and full. My energy level improved and something else very interesting happened. I started to feel more like myself somehow. It's hard to describe that but at times I could remember how I felt when I was young. It seemed to come back to me like a long-lost friend. It's subtle but definite.

I haven't been sick for even 1 day since I started taking NANO SOMA. I still have skin issues and inflammation issues but those are decades old and since I'm planning to keep taking NANO SOMA they'll probably go away when it gets to that place. I'm 68 and it's nice to know that my age will slowly roll backward. I have no trouble believing this can happen as I've already experienced some miraculous things.

Lorie – June 2022

Hi Richard, a client of mine sent these to me and I thought you would like to see this. Pretty amazing! In this case, she used the NANO SOMA spray as she didn't yet have the Metasomer Topical Gel. When I saw her a couple of days later any evidence of the bite was completely gone.

All the best, Terri – June 2020

The effect of NANO SOMA on a tick bite after only 2 hours. The top photo is before applying the NANO SOMA and the bottom is after.

a

Dear Dr. Raghavan, I have taken NANO SOMA for 9 months and it helps me with everything. Thank you so much. I remember a similar genius scientist, who discovered the Life Crystals and their role in delivering the intelligence of light into the body. He was Dr. Georg Merkl (1920-2004). If you do not know him, his findings might be of interest to you, so I thought, why not mention him. See more at this link:

It occurred to me that he was on a similar level of understanding. See whether his knowledge might be of interest.

Regards, Klementine - June 2022

My dear Doctor Raghavan,

I want to thank you for your marvelous products and congratulations on bringing these to the world. I just finished placing another order as have so many of my friends and family.

My husband's work and extensive research with sugar cane policosanols has shown us what a miracle these perform on humans and animals. His product is a sugar cane juice containing naturally occurring policosanols and his US Patents are on the technology to preserve these in the juice. It was a journey that spanned a generation to achieve the syrup and the crystallized sugar with the policosanols. I say this to illustrate the fact that we are not newcomers.

To have met you last October and learned of your work has been so gratifying. The results of using the NANO SOMA spray and the face cream have been superb. I was determined when we met to get stem cell treatment for my knee after suffering a pivotal injury, torn meniscus, and a fracture. You asked me to apply the NANO SOMA

spray and give it three months. My knee is now fine without any other treatment. Thank you.

Every year I would go to my dermatologist to have precancerous cells removed from my face. No more. I use your cream every day.

I have been breeding horses my whole life. I used the NANO SOMA spray for a delicate area around the eye of one of my mares and you saw the results, it healed longtime scars and the hair grew back. I applied it around the eye of my most beloved mare, for she has been my riding mare and companion for the past 15 years. My vet, Dr. P. will be writing to you directly but for now, again, thank you. A lesion in her left eye that would not heal and was progressing disappeared over the course of the last month since we began to treat Gitana.

Dr. P. is a much-revered vet in Colombia and his knowledge knows no bounds; as I told you this week, he saw her on Monday and was so amazed that he asked me to get NANO SOMA spray for his own eyes.

Warm regards, Mariana

A. - May 2022

***** My daughter was so sick!! Aches and stabbing pains all over her body!!! After 10 sprays (2 days) of NANO SOMA ~Gone!!!

I've been taking five sprays for three days. I always had a sharp pain in my left leg since my daughter was born – for 19 years. It is gone!!!

My husband just came down with something- cold, aches (maybe from my daughter). He took NANO SOMA tonight!! Thank God!!

Rose F. May 2022

Dr. Presser - I am a faithful user of NANO SOMA and am very pleased with what it has done for the improvement in my ability to think and use my brain so easily, short term memory has also been affected - my thoughts and ideas being recalled with very little effort. I am spreading the word of NANO SOMA's effectiveness and have several family members and friends also enjoying the benefits.

Sincerely, Kendall R. May 2022

We have been using NANO SOMA for six months now and have had incredible results. My father no longer has arthritis and I feel 20 years younger! Thank you for your consideration and for all that you have done to help humanity.
Jeremy Y, May 2022

I have been very ill from stress and have developed low metabolism. One of the many unpleasant symptoms has been brain fog – an uncomfortable feeling of sitting in a cheese bell and not being able to concentrate enough to put two thoughts together. Within a maximum of two minutes after I took NANO SOMA for the first time, the brain fog disappeared and has not been there since. I get medication for metabolism and an unpleasant side effect is severe pain in muscles and joints. After one or two days with NANO SOMA, the pain is largely gone. I do not know what I would have done without it.

Helena, April 2022.

I am a 17-year-old girl who often goes into town and drinks alcohol, and, like so many others, I've struggled with hangovers the next day. At one point, I heard that NANO SOMA was supposed to work on hangovers, so I chose to test it. And NANO SOMA has helped me not to have a hangover and headache the next day! All I do is take five sprays of NANO SOMA before going to bed after a city trip.

Anne Mette, April 2022.

I have for several years been plagued by rashes and blisters when consuming gluten. I can now for the first time in many years eat some gluten without getting a red rash on my fingers. I have only used the NANO SOMA spray for approximately one month and a half.

Inge Meineche, April 2022.

My dog has on several occasions struggled with what is called a 'hot spot' – an inflammatory condition in her skin that can cause large wounds and severe itching. I was visiting my sister and brother-in-law when he asked if he could try spraying NANO SOMA on the wound. Granted, I thought: 'Yeah, yeah, I guess', but after a few days, the wound was gone. So, thanks for that; it got rid of the unpleasant walk to the vet for my dog, and there was no penicillin cure or expensive bill. Definitely not the last time we will use it.

Jannie M. B. Bak, April 2022.

I tried NANO SOMA for the first time last Saturday, when my mom had a bottle in her bag and recommended that I try it for my bad headaches. I have been suffering from nasty chronic headaches for exactly 10 years today. In 2011, I was involved in an accident that, among other things, gave me a head trauma with bad late effects. Today, I suffer from four different forms of headache. I have tried all kinds of alternative treatments and all of the treatment plans from the headache clinic without success. After trying so many different things to get rid of the headaches, I tried NANO SOMA with a lack of faith and hope that it could help me, as nothing else had been able to. BUT! Today I can tell you that I have been free of headaches for almost four days! I have never had a break from my headaches, which has led to sleep problems (among other things), but the last few days I have been allowed to feel tired with the possibility of actually sleeping – and sleeping through. After the first sprays of NANO SOMA, it took about an hour before I started to feel how the pain subsided. Since then, I have taken NANO SOMA every morning. Yesterday, I had to take NANO SOMA again in the evening as I could feel the migraine creeping in, but it was never allowed to break through! 🙏 I do not understand it, but how happy and grateful I am to have been introduced to NANO SOMA!

Dyveke, April 2022.

Hi John,

We are heading down to our property. I will put the order in at the end of next week after we return, so I avoid having to go to the post office when I get back. So far: I started on the NANO SOMA on 21st February. Fluid has gone from the top of my legs. I have had years of bowel problems - I have had to take (brand name) laxatives quite often for the past couple of years. Now I don't need them. Herpes on my lips is coming out. Skin cancers are surfacing on my face - some are going, and more are coming out. I have had aching bones as I feel the healing. I have much more energy most days. I can lift heavier weights with my arms.

Kind Regards,
Anne April 2022

A short series of notes:

I received my first order on Thursday, July 1, and started using it right away. I was expecting maybe a bitter taste in my mouth as you had said others experienced but

the taste I am detecting is that of spoiled milk! How odd. I don't see any immediate difference but, then again, it's only 1 week today since I started using it.

Judy, July 2021

As you can see from my previous email, I started taking NANO SOMA on July 1, 2021.

It has been a little over 9 months since I first began and within the past few days, I've noticed the taste has changed dramatically!! I'm thrilled!!! There is barely any taste at all!! I have no idea what kind of healing has been going on in my body, but I take this dramatic change as a wonderful sign of healing!!!

Also, my husband was having some skin issues on his face. I suggested he use the skin cream that I was using (METASOMER Telomerase Natural Skin Cream). He was a little hesitant at first, but he was really impressed with the correction in his skin that happened so quickly!

Thank you for continuing to educate us in the ways of the MagicDicho!!

Judy, April 2022

I have been spraying NANO SOMA on my face and today I noticed a difference after about 3 weeks (YAY!). I am so grateful as I am feeling so much better. I've been taking NANO SOMA for 2 ½ months now; my headaches have stopped, my hormones balanced and lots of womb healing has happened. My rheumatoid arthritis is healing and the pain is only in my spine now with scoliosis, but I can feel it working through my body. I had herpes on my right foot in little blisters for 13 years. Nothing that I tried in the past worked, and this is now nearly completely healed. I also applied it directly onto my foot. I am so excited and so grateful. I can't wait for 6 months! I eat better, have fewer cravings, feel better, feel in a great mood most days and have a spring in my step! My mind is clear and business is improving as it's just easier with a great attitude.

My cat got food poisoning last week. She nearly died but I gave her NANO SOMA every 4 hours, and she has healed in 4 days and is so peaceful now; better than before. What a relief!

It is such a blessing for all of us and gives me great hope for mankind going forward. Thank you so much, Dr. Raghavan, I bless you and your team with so much love and happiness.

Cheryse – April 2022

I started the METASOMER Telomerase Natural Skin Cream about one week ago. As you can see from my photos, my face turned a bright red and was slightly swollen. I became alarmed by my reaction, so I emailed Richard to ask him what was happening. I emailed him at 6:30 AM on a Sunday and he emailed me back by 8:30 AM. In addition, he had Dr. Raghu call me to assure me that the redness was a normal

cleansing response, initially, due to bacteria on the surface of my face. He assured me if I stuck with the cream that the redness would go away within a few days to a week and that I would be happy with the results.

After about 3-4 days of redness and then flaking and peeling, my skin became smooth and looked beautiful. I cannot praise the Customer Service at MagicDichol enough!! In addition, I also have been taking the NANO SOMA spray for almost a year and I have never been healthier. I am excited about the results of the METASOMER Telomerase Natural Skin Cream.

I just would like to add that if I had not panicked and contacted Richard right away, I would have found the reaction information in the HEALING CRISIS section of the [NANO SOMA USAGE PROTOCOL](#). This proves what a professional, comprehensive company MagicDichol turns out to be.

Nancy, April 2022

Results of the healing reaction to the METASOMER Telomerase Natural Skin Cream

Nancy's face after the healing reaction had subsided

Blessings, dear Dr. Richard,

Since sharing NANO SOMA with a senior friend...

I have a senior friend who has everything: diabetes, fibromyalgia, COPD+++ . Since I massage her back almost every 2 days with essential oils and cannabinoid creams, I noticed a red spot developing under a fatty cyst that she'd had for 20+ years. I kept watching this red spot get bigger and bigger, and then saw that there was pus there. With hot compresses, sprays of NANO SOMA (she has been taking it internally for the past 5 months), and gentle pressure, the boil has matured. The cyst she's had for all these years releasing these past few days. That cyst is now flattening and can be

August 2022

pressed into it to facilitate the expulsion. I sprayed on the boil, also. She is feeling so much better. The pus still keeps coming out. Is it possible this site is acting as a vent for perhaps somewhere else in the body? Can you think of anything that could be done to facilitate its completion?

Also, a younger friend who has colitis has been taking it for 2 months. She has lost 29 lbs and sleeps better. Wish it would do that for me!! Haha.

I hope to get some gel to put on eczema.

Sean sent me 2 replacement bottles for the empty ones. Wonderful man.

Thank you for all you do.

Zosia April 2022

Ann-Cathrin, a customer in Scandinavia; Translated from Danish;

I have had pain all over my body for many years. Osteoporosis, vertebral compressions, and osteoarthritis were probably the main causes. It became almost unbearable because it took over my life completely. After taking NANO SOMA for about a month, the pain was gone!!! I thought it'd probably come back... Today I have been taking NANO SOMA for 5 months and it has not come back. It feels like a great miracle...

I can imagine that the root causes of the pain remain, but I think it will heal slowly but surely. I continue to take NANO SOMA 1 time/day and will never stop. I am so grateful for this miracle cure.

Ann-Cathrin April 2022

Great spray!

I have tried NANO SOMA for bad breath and rashes on my legs. I thought it worked well. However, it did not taste too good at first... 😊

Jens, March 23, 2022. Rated 4 out of 5.

My sister had a tragic accident on Diwali day (5 Nov 2021). She lives in Carson City, Nevada.

Her back caught fire from a lamp that was lit for Diwali. 40% of her body got thirddegree burns. She was air-lifted to the UC Davis Hospital burn center where she went through 5 skin graft surgeries during the 2 months that she was a patient. When she was discharged, there were open wounds on her buttocks and thighs which made it difficult for her to cope. The doctor said they would take at least 6 months to close.

We could not use NANO SOMA in the hospital, because her whole body was bandaged and they had strict protocols not to use anything unlisted.

When she got home, she started spraying NANO SOMA on the open wounds every 3 hours on her thighs and buttocks, and to our amazement, the wounds closed within 3 weeks. Quite a difference from the doctor's estimate of 6 months!

We are so grateful as a family as it's so difficult to cope with such trauma but being able to heal it with this miracle solution is a blessing. Thanks to Dr. Raghavan for having spent his years of research in discovering it.

In our family, not having NANO SOMA is not an option anymore.

Sushma Ribeiro, Distributor NANO SOMA, India, March 2022

Hi Richard,

I received the face cream and just wanted to let you know that I think it is divine. Personally, I love the vanilla smell and the cream is sort of like a caviar cream. Well done! Obviously, I haven't used it long enough to say what it does for my skin, but I have high hopes, and I thought you might like to hear that I LOVE the smell! I also love vanilla! LOL.

And by the way, the product was delivered efficiently and in a very short timeframe so huge thanks - great logistics!

Brooke, March 2022

Dear Sean and Richard!

I LOVE, LOVE, LOVE THIS PRODUCT!!!!

I love the smell, I love the viscosity, I love the instant effects - both the smoothing of my skin and instant relief from a couple of skin ailments (stye in my eye from using old mascara - my bad)!

I love it - I want to purchase more!

Anyway, I just LOVE this Metasomer Telomerase Natural Skin Cream!! I wish I could take a bath in it, LOL!!

Love, Blessings, and Laughter,

Stacey, March 2022

Hi! Quick update—my daughter hasn't had a seizure for 4 months. Between NANO SOMA and a Keto diet, a few supplements, and her seizure meds, she is feeling more confident and working on building her healthy bakery business to expand to farmer's markets once she updates her website to her liking!

My update: My nerves around my knee replacements (TKR + reconstructive surgery to reattach my quad and patellar tendons continue to heal after 6 months of NANO SOMA and 4 years after surgery. Each month, I can feel more of my knee and am grateful. One more thing, I haven't had any migraines as I used to do so I think it's healing something there. 🙏

C.M. USA. March 2022

Photo March 2022 – vaccination adverse reaction improving from NANO SOMA

Dear Dr. Presser,

I was so excited when I received my jar of skin cream yesterday. I love everything about it - the jar, the way it dispenses the cream, the silky smoothness of how the cream goes on my skin and absorbs almost instantaneously, and the wonderfully light fragrance of the cream.

Blessings!!

Judy V., March 2022

Is NANO SOMA safe for teens concerning their libidos? Grandpa and I (Grandma VaVa) found our libidos going wild about the 3rd week into NANO SOMA usage. Great for us! But I'm afraid to give it to our grandkids because of that. Can you alleviate my fears of giving it to our teen and young adult grandchildren? This is not a

joke! - although go ahead and laugh - at least smile about Sven and VaVa's 'health'!
Thank you!! We love you and NANO SOMA!

Grandpa Sven and Grandma VaVa. March 2022

>>>My reply to "Grandma Vava" was it just restores our hormonal balance. It doesn't create extremes if the balance is already as it needs to be.

I don't normally do email because I have advanced Rheumatoid Arthritis... I couldn't place an order for my NANO SOMA as I couldn't get into my account... It was continuing to say "wrong password..."; however, thank God Dr. Roland phoned me and sorted the problem in 2mins... My order is on its way THANK GOODNESS!! I didn't realise how much it was helping me until I didn't have any! This NANO SOMA is a Godsend to me... thank you for helping so many people with this product. I will always be eternally grateful for your work...

Thanks again. June♥ March 2022

Dr. Raghavan,

The transformation of my cat 'Joey' has shaken my world. Joey is 15 years old and has been in declining health for the last few years. He had been eating and drinking much less, walking at a slow pace, and sleeping most of the day. Ten days ago Joey appeared to have what might be considered a stroke or was in a coma.

He was in an upstairs bedroom in a frozen state, lying on his stomach with his head between his paws. He was immobile for two hours. I moved him to a couch in the middle of the night where I gave him spine massages until the morning. I decided to give him two shots of NANO SOMA and nothing changed. Noon, I gave him two more shots and by 3:00 PM, he started to move and walk. He started eating and drinking small amounts and continually improved during the day. In the next few days, he transformed into a normal older cat; walking quickly, alert, hungry, and roaming the neighborhood for the first time in a year.

Based on Joey, I have come to be a lover of the product and, along with my children and grandchildren, we thank you for bringing this ancient healing product to the world.

Blessings and Best Regards, Jerry

Here is a photo of Joey two weeks after his 'coma'.

Hello Doctor Raghavan,

I want to thank you for giving me the chance to heal my father who suffered many years from severe senile dementia. So much so that the doctors had written that the situation was stationary 2 years earlier, which is not possible for degenerative disease.

Before starting 5 NANO SOMA sprays 3 times a day, my father could not get out of bed, dress, or even eat alone. After only a year of the spray, we did a Nuclear Magnetic Resonance (NMR) spectroscopy and the brain areas that were in necrosis were largely regenerated.

He also had several cataracts in his eyes that did not allow him to see even the television if it was over a meter away. After another year with NANO SOMA, my father can read the instructions on medicines, is totally self-sufficient and every two weeks he comes to my house for lunch.

Anyone who witnessed the change has never seen a recovery like that.

My father is fine today and continues to be self-sufficient. Thank you again for inventing this product that has allowed me and all our family to avoid great suffering and expense.

Dr. Giovannis, Italy

Dear amazing Richard, Roland, and Raghu (the “Rs”),

I started taking NANO SOMA a few months ago. I was suffering from symptoms of fibromyalgia, caused by what I believe was a long (18 months) case of Epstein-Barr and cytomegalovirus that I got at university. Having just turned 60, I am focusing on my health and well-being and working to feel energetic, fit, and healthy. Over the past year, I was really struggling with fibromyalgia, problems falling asleep, staying asleep,

- 29 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

deep body pain (muscle and joints) daily headaches, awaking in the morning with a deep burning sensation in my eyes, heavy and sleepy, and would lie in bed for a few hours wishing to get more sleep but generally unable to. I'd finally get out of bed late morning, have a strong coffee, and have a few good hours of productivity, a gym inhome spin bike session or walk, before getting a bad headache or a deep feeling of exhaustion and then would go to bed late afternoon for a nap, which I would doze for maybe 30 or 40 minutes if at all, but would just lay quietly and hope my headache or migraine or fatigue would clear.

I am now on my 5th bottle of NANO SOMA. I now fall asleep within an hour of bedtime, and although I wake up every few hours, I generally get back to sleep within an hour. I awake early, between 6 and 8 AM instead of 10 AM -12 PM like I used to. I no longer awake with that deep burning in my eyes, even if I just manage 5- or 6hours sleep...and my body doesn't need hours to get moving and get out of bed each morning. I sit up, have a coffee in bed (thank you dear husband), read the latest on my phone, and then within an hour, I'm up and about. I generally mostly have enough strength and energy for a productive day, and only get back in bed in the afternoon if a migraine or bad headache sets in (not as often as before NANO SOMA). I go to the gym and rowing machine for 45 minutes, spin bike for 10-20, and some machine weights or ride my gym spin bike I have in my "home office" for 30-45 minutes, 4 or 5 days per week. I think the exercise helps with my overall feel-good factor now too.

I had a very bad flu in December with all the typical symptoms. I was so ill; I was just lying in a dark room suffering for a week. I did not think to take NANO SOMA during this time, as I just didn't want anything. But by day 8 it occurred to me it might help. My symptoms were still as bad after a full week, including the fibromyalgia getting intense as well as the giant swollen glands, bad sore throat, difficulty breathing (like fluid in my lungs) bad headache, etc. just all ongoing. I took 5 sprays 3 times across day 8, awoke day 9 breathing much more easily and decided to do 5 sprays every 3 or 4 hours that day. I still wasn't eating and just drank water, apple juice, or tea. And slept and slept some more. I awoke on day 10 so very much better it was amazing. Incrementally it was like a 3- or 4-day improvement.

Another fascinating story I'd like to share is about the first miraculous thing I witnessed with NANO SOMA. My husband got his COVID vaccination, his second one. I began noticing his face broke out in a rash, with very red angry looking bumps in patches in a few different places across his face. I suspected it was a result of the spike protein reaction to the serum, etc. I asked him if I could try the NANO SOMA on his face. (Note: He was not taking it internally very often yet. I gave him a bottle but most days he'd "forget" it was there.) So, I sprayed about 5 half pumps on those rashy-looking areas. And guess what! (Are you sitting down because you're going to be blown away...I was!!!) after that ONE application - the next morning his face was COMPLETELY cleared up! Not a sign of anything but lovely skin. It was truly miraculous to me.

A couple of months later, this came back on his face, but not as bad. I did not have any NANO SOMA in the house and was awaiting my order. When it arrived, he'd had the rash for maybe a week, or 5 days, can't remember.... but it wasn't going away. It looked identical to the one he had a few months earlier, which went away within 12 hours of 5 sprays directly on the face and air-dried, not taken internally. But it showed me that if we'd not intervened with NANO SOMA treatment last time, it probably would have lingered and gotten worse, rather than cleared up. So again, I repeated what I did with the previous rash, but this time it was morning when I sprayed it on, so I did a second application in the evening. And yet again...COMPLETELY GONE the next morning. We now still both use it as instructed by NANO SOMA on the bottle. And if I'm feeling a bit poorly will take it every few hours. But what I also do now, is use the spray externally on any skin issues.

Here are my other positive results I can report using the spray externally. I had what looked like a fungal growth spot on my shin, looking like ringworm but in a spot, not a ring. I used a small amount of spray on it, and it was greatly reduced in 4 days.

I have an issue on the bottoms of my feet with not just hard skin on my heels, but I get these very painful splits in the skin that look like I've been sliced open with the tip of a small knife. They are deep and very painful to walk on until I put on layers of brandname blister patches. I finally have come to realise that these appear after I use a specific product on my skin after a shower. I looked up the ingredients and believe it is my body responding to one of these toxic chemicals. (I stopped using this product...and I stopped getting these fissures in the heels of my feet...and one day I used a small amount and then reminded myself that I stopped using it due to the suspected reaction and sure enough the next day I got a painful split in the skin...This

has gone in the trash by now 😊 ... But my point is that not only does spraying the NANO SOMA on this painful skin injury close up the fissures and heal them in days but the rough and tough skin on my heels is also gone, replaced with baby soft skin, until I stop using the precious spray externally as I need it internally. But it does work miraculously quickly.

I also had a big toenail that split in half down the middle and finally, half the nail was pulled off while I was in bed...so it was just raw nail bed exposed...the NANO SOMA spray helped noticeably to turn this diseased nailbed that caused the initial split, to heal, and now I have a beautiful healthy big toenail.

I had an irritating start of what looked like a mole and sprayed it till it flattened out and got lighter and faded and was no longer uncomfortable.

So, my friends, those are the testimonials I can share at this point. I'm sure there have been a few more random things that this miraculous little bottle of magic healed on this old body of mine, both inside and out....

I just wanted to share.

Also, I want to give a MASSIVE, HEARTFELT hug of appreciation and gratitude to Richard and Roland. They both have personally corresponded with me and answered my queries. You and NANO SOMA are a GODSEND for humanity. Thank you both and of course, Dr. Raghu. The planet and humanity are so very blessed for your determination and hard work and persistence to get your product out, production issues sorted in not just USA, but Europe, Australia, and now the UK (thank you, thank you, thank you. 🙏)

Energies of Love and Divine Light for Nova Gaia...EARTH 2.O.

ENERGIES of pure heartfelt gratitude and soul felt appreciation for your work helping beautiful humans. I hope you understand the Joy people feel as each one suffers less and less in the physical body thanks to your effort, your work, your pure good energies, and pure positive intent to manifest healing at an affordable price and accessibility to as many people as you can.

So, from my heart to yours: Love and Light and endless gratitude

Pamela L,

Here I am on my 60th birthday

It's a long story. I've been riddled with an inflammatory issue in both my inner shins area for well over 6-7 years. Saw every specialist known to man, which always resulted

in “you have to have surgery so we can scrape the fascia back”. This issue was the reason why I gave up football because I physically could not run anymore without pain. I’ve always played high-level football and have had 3 shoulder reconstructions and a left knee reconstruction so there was no way I was going through another surgery process for my shins.

I knew deep down there was a way to fix this naturally. Might sound odd but the way I see it I got myself into this situation there must be a way to get myself out of it.

So yeah, over 2 years ago I had a massive spiritual awakening and from then I started my journey. Unlearning everything I’ve been taught. Then about a year in I came across your video.

I believe I also had fibromyalgia for years. Constant pain due to a lot of things. Football injuries. But the main one was toxic relationships that I held on to internally. One thing that has fixed that for me is the daily Wim Hoff breathing technique. But also NANO SOMA I believe has contributed to this healing as well.

I’m so appreciative of the videos you put out. So, thank you very much.

Also, my mother has very bad rheumatoid arthritis which has completely turned around. No swelling on her fingers, no pain when lifting things.

The one thing I’m very interested to see is she had stagnant leukaemia, I don’t understand it fully but apparently, it isn’t active. It comes on with stress. But she has a checkup in a few months and will be tested so will see if the NANO SOMA has helped with that issue.

Jake K, February 2022

Hi Richard!

I have had Relapsing-Remitting Multiple Sclerosis (MS) since late 2000 and have been managing it to varying degrees of success with diet and lifestyle, meditation, supplements and generally elevating consciousness and healing which I believe helps with chronic illnesses. Except for the first two years after diagnosis, I have never taken traditional medications such as immunosuppressants.

The last few years I have really been feeling the impact of MS, affecting my walking, it making it cumbersome and awkward, due to many factors - spasticity and balance largely...or so I thought. It was actually the damaged nerves in my left leg that I had forgotten about...but NANO SOMA obviously identified as needing the most healing and went to work! I had tried some things - Zeolite helped a little - naturally, any heavy metal detox helps with MS but nothing till NANO SOMA has had remotely the same impact. I realized that as the product team points out - it goes to work on what is most injured and acute first. With the function in that left leg mostly restored (it's only been since late October 2021!) the spasticity and balance are not nearly as problematic and it's probably healing that as well.

It has had such an impact I can actually jog and even sprint comfortably and my next goal is to be up and skiing next winter! I could not be more grateful or recommend this more wholeheartedly to anyone!

Joanne

January 2022

We received this message from one of our customers:

My name is Jørgen, I am 84 years old and therefore retired. I have been using NANO SOMA since September 2021.

I was inspired by some of the testimonials I read and sprayed directly on my right shoulder. My pain in my shoulder disappeared so now I use it every day. I started with 5 sprays of NANO SOMA in the morning, 5 sprays in my mouth, and a round of spray on my right shoulder, which is a painful area. I find that the 5 mouth sprays stimulate my morning mood and that my shoulder sprays alleviate the pain considerably over 3 - 6 hours, so they must be supplemented during the day. January 2022

Dear Richard,

Karoline 16 years old, is very happy, since only after 3 days - from 13 January to 17 January she has already seen much improvement in her eczema. She will keep us

updated. Below are some photos.

Kind regards, Ianke

January 2022

Hi Richard -

I just listened to Lorraine - Love her info - it ties in with galactic info now coming in re: the human species. Elena Danaan says the "seeders" are back to see how the kids are doing at this most important point in our human evolution! The inner strength Lorraine speaks of is what I felt first and still feel and was EXACTLY what I needed.

From 19 Feb 2021, I felt as if my Life Energy or Vital Force was draining away and that I was slowly dying, and that 19 November would be the day my body died. 19 July was also a significant date to me last year.

Part of me was going along with this slow death but I didn't want to leave my two sons and I really want to see what happens to us Humans here on Planet Earth or Terra, but until NANO SOMA I had no way to stop this draining of my Life Force. From the first five sprays under my tongue, I was back to being Me but more so. I now felt and still feel an inner strength and solidity to my BEING that I had not experienced before. And my words cannot adequately describe either. Lorraine's description of NANO SOMA on our DNA repairing does explain my inner physical strength though.

I began painful symptoms of cystitis on 19 July but just yesterday I read that Peeing a lot and multiple waking to Pee is part of what our human biology is doing now. Actually, Peeing and Pooing multiple times is what our bodies are doing at this time!!!

I will try NANO SOMA into my nose to benefit my pineal gland as Lorraine says. I am one of the children in the 1950's who went to the dentist every 6 months and the protocol at that time was dental amalgam!!!

Amazing that human beings have survived the onslaught isn't it!!!

Grateful Thanks to Dr. Raghu and to you Richard

Sincerely, Barbara - Jan 2022

2 weeks ago we were called for some urgent guidance for a sudden deteriorating situation of severe blood poisoning. After suggesting the immediate use of NANO SOMA, we received the following message today :

"Remember the phone call about my neighbor going into septic shock? I offered him NANO SOMA parallel to his prescribed antibiotics. The first day he was a little afraid of taking it...but then he really went into shock, and so he started using it in the morning, only 4 sprays under the tongue.

- 35 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

Before taking it, his blood pressure was so low that the drip would no longer work, and they had to squeeze the bottle. His liver and kidney expanded, and water formed on his lung. The doctors couldn't find any reason and prepared his wife that he would probably die. He started with the spray and the next morning his heartbeat had almost returned to normal.

The swelling on the liver and kidney was retracting and the water on his lungs started to disappear.

The next day his heartbeat was back to normal again and the doctors were flashed and told him that he was an "enigma"...they had given up on him. Another day later he was discharged from the hospital and is doing well in recovery at home! What an unbelievable recovery story! Since he is out of the hospital, he is now happily taking it 3 times a day.

Thank you for supplying me with your advice and wishing you a super weekend!"
Regards, Volker - Windhoek, Namibia Dec 2021

I would like to talk about my experiences with the corona vaccine, and its side effects. Currently, I am studying "social-og Sundhedsassistent", which is in the healthcare field. Because of that, I chose to get vaccinated to protect the elderly citizens I assist. I've always been healthy and rarely been sick.

On February 23rd in 2021 I got my first shot of the vaccine made by AstraZeneca. Shortly after, I experienced major dizziness and became sick with fever, shortness of breath, muscle pains, pain in the lungs, chills, and general pain – at this time I was sick for about a week and a half. Afterward, I got my second and third shots where I became sick again, though not quite as bad.

I got my third shot on November 21st, 2021. In the period between my shots, my natural immune system was weakened. As of this writing, I have been sick about 4 times over the last 3 months and have begun taking NANO SOMA, because of my weakened

immune system. NANO SOMA began working already the first day after. Now, a week after, I feel healthy and don't feel any sickness.

More updates are to come after I have taken NANO SOMA for some time.

Elvah – Dec 2021

I have noticed a huge difference in taking 5 sprays of NANO SOMA for just over two months. I no longer suffer from bad mood swings in association with perimenopause. To feel normal again and balanced within myself is the best feeling.

Warm regards and thank you!

Tania Chumbley – Dec 2021

EDDIE 14 YEARS OLD

JUNE 15, 2021 BEFORE NANO SOMA & AUGUST 29TH, AFTER 2 MO. NANO SOMA

Personal results from treating my own Covid 19 with NANO SOMA:

I am 65, 5'11", and 305 lbs. Being unvaccinated and recently diagnosed with diabetes, I tested positive for COVID-19. My doc placed me in a high-risk category of course. However, he was completely surprised on a follow-up visit 4 weeks later.

Upon testing positive for COVID, I began oral AND nasal self-treatment with NANO SOMA, giving myself a dose of 5 sprays, 6-10 times per day by mouth, and several sprays per day intranasally.

My persistent and frequent cough throughout the day and night began to subside in about three days. My constant sharp headache did persist, however, with no relief from OTC headache treatments such as ibuprofen and my sinuses remained clogged for several more days. A feeling of deep exhaustion also persisted for several days, but I could feel a definite positive change occurring. My sense of smell and taste was still lacking.

Definite improvements on all fronts became noticeable by week three of this regimen, with my unusually sharp headache at last gone, and my energy returning to normal levels. The sense of smell/taste did take a few weeks longer to return. The striking event however was that my personal physician was quite surprised that his patient recovered quickly and without incident given the dangerous risk factors present. It is now time for me to lose a substantial amount of weight, and I will continue to use NANO SOMA on a regular basis to continue my effort to improve my overall health.

NANO SOMA has passed a hugely important use test: my own.

Regards

JM, Rochester NY, USA Dec 2021

Recovered from COVID injection adverse reaction in 30 minutes.

Thursday 12/2/2021, I received a Moderna booster at about noon. By dinner time, I was chilling, I was hot, having a bad headache, and ready to vomit. I lay down at about 7:55 PM. Just like what I have been doing for about a year, I took 5 sprays of NANO SOMA in the mouth, 1 spray in each eye, nose, & ear. I thought I was down for the night. I didn't quite fall asleep so that I felt the process of feeling lousy, more

comfortable, back to kind of normal, then suddenly feeling good, ready to get up. And I did. I looked at the clock, it was 8:22 PM. In about 30 minutes, I experienced totally opposite feelings of health. I'm even more convinced about NANO SOMA's simple yet profound ability to bring the body back to its optimal health.

Helen D. Dec 2021

I buy it for my dear friend in South Africa who runs a charity dear to my heart. She has little money, so I bought NANO SOMA for her as she had sleep apnoea (apnea) for over 10 years. After a few days, she started sleeping again.

- 38 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

I got this last week:

Sandy, only God would know how grateful I am for meeting you many years ago. I'm thanking Him every day. I'm sleeping again, after 11 years, due to the best gift ever I received.

Sandy G. - Dec 2021

Treated my mum successfully with NANO SOMA after she came home from the hospital. (COVID/pneumonia.)

Her recovery has been phenomenal, we did 5 sprays 4 times a day for 1 week, then 5 sprays 3 times a day for three days, then to maintenance.

It also cleared out the experimental COVID drugs she was injected with without her consent. Artificial antibodies!!

I watched her life force return, healing, recovery right in front of my eyes for the ten days I was with her supporting her. And she had been through the mill!!

Susan F. who has been a fantastic friend, healer, and warrior of the light to me this past 6 months, also helped me with distant energy work.

Together with NANO SOMA, my mum has had a speedy recovery and was on the mend

in no time at all...

Need to fill my cup up now...

Warmest, Catherine - Dec 2021

Hi Richard,

You suggested that I ramp up the NANO SOMA from one dose/day to the schedule of 4x/day and so on for the whole purification program. Prior to that, I'd used it 1x/day, the only thing I ever noticed besides it feeling very friendly was that an issue on my skin which had been on my back for several years cleared up completely shortly after I began using it.

The first week of the 4x/day I didn't notice much other than a slight headache one day. The following week I stopped using it after a few days because I managed to irritate a nerve in a tooth in my mouth, which happens every few years randomly. When it gets irritated the pain can be extreme, and this time was actually worse than usual. None of my usual go-to remedies made much difference, other than sipping cool water which only calmed it down for a few minutes. I was reluctant to use NANO SOMA at that point because everything except water had caused greater pain. After nine hours I

finally relented and swished some NANO SOMA in my mouth, fearfully. Within about 30 seconds I noticed the pain softening and reducing and within maybe 10 minutes was barely there. I continued to use NANO SOMA whenever the pain started to increase again, but from the start, the periods between flareups kept lengthening and the pain was gradually less. Within about 1 1/2 days it was 95% gone, and I had actually been able to sleep during the night. After three days it was gone entirely. Typically, in the past, (and this has repeated itself about every four years since 2004), the sensitivity might take as much as two weeks to recede, so this was genuinely miraculous by comparison.

I doubt that the flareup had anything to do with using more NANO SOMA the previous week because I'm sure the vulnerability came from some acidic grapefruit I ate too much of. I've never found it to be irritating in the slightest. Nerve pain is horrible, so just knowing that I now have a real answer to it should this happen again has lifted my spirits. Feeling at risk for pain even if it rarely happens is still like a shadow over your life.

I'm very grateful to you both, thank you!

With love,

H.F. - Dec 2021

Hi Dr. Raghavan,

This is Seyed Mohamed. Today on December 15th I am writing this Testimonial to you. I was affected by COVID-19 on January 14, 2021. I was not able to breathe. My oxygen level went to 80. I was in the hospital for 6 days. They sent me home with an electric oxygen machine. I was using the oxygen machine all the time. I did not use any steroid medicine.

After a lot of searching on the internet, I happened to see NANO SOMA. I bought NANO SOMA in April. I sprayed it 5 times in my mouth 4 times a day. I had a CAT scan in May after 5 weeks of NANO SOMA use. My lung doctor told me I am getting better on my own and there was no need for the oxygen machine in May.

I started NANO SOMA as a Nasal Spray in October. I had a CAT scan and breathing test on December 10. On December 14, my lung doctor told me (after looking at the scan and breathing test) that I DO NOT need ANY medicine.

My lung function is back to normal as it was before the COVID-19 attack. My oxygen level is 98-99 now.

This is a GODSEND REMEDY - NO SIDE EFFECTS.

Our thanks to Dr. Raghavan

God Bless him

- 40 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

Seyed – Dec 2021

Using it in my clinic each day and the results are incredible.

Prostate issues of 20 plus years – resolved.

Hormonal imbalances.

COVID-19 vaccine cleared.

COVID-19 virus cleared.

So much more!!

Works well on nearly all viruses and bacteria. It could put me out of business (just kidding).

Jen H. Holistic Health Practitioner – Dec 2021

Dear Doctor Raghavan,

I want to thank you for the BLESSING ✨ of NANO SOMA firstly.

Dr., some time ago on the Telegram group you requested further information about

brain and mental activity, I started a draft mail to you but am only getting to it now.

Dr., I am a 57-year-old South African female. I have gone through an inordinate amount of trauma since 2007 until now trying to survive financially, it was part of my journey, and I am finally on to a path of recovery. I was not happy with having had to come back to South Africa after living abroad for some time, but I realize now I was brought back to heal on spiritual, energetic, and physical levels. I am filled with appreciation now for being able to see the bigger picture.

I realise I was in a depression as about two weeks after taking 5 sprays once a day (I was told the wrong starting protocol) I realised I was far happier and of elevated spirit.

I was hoping for my diabetes to be dealt with but still feel this will come. The first thing that I noticed was no more eye floaters (week one). I started 5 months ago. You have asked about the brain and mental news, however, I digress. I feel that I was actually in

a depressed state and am now out of it! I feel positive and find myself uplifting others, WHAT A GIFT YOU HAVE GIVEN ME, I Thank you.

NANO SOMA treats depression.

May you be so Blessed for your work.

With Thanks and Kind Regards Karen

Dear Dr. Raghavan,

Testimonial NANO SOMA:

Starting in early August 2021: I have had energy issues due to Fibromyalgia for the past 30+ years and sustained energy has been a struggle. I became an Ayurveda Practitioner looking for healing personally for myself back in 2008. And have been maintaining quite well for the past 25+ years with Yoga Meditation, Nutritional diet, and Herbal protocols.

When NANO SOMA came to my hands very mystically, I must add as it found me, I was very humbled by its creative process and wanted to try it out. It has been 3 months since I have been on the NANO SOMA protocol and the energy levels are improved drastically which I noticed in the first month.

The first day I took early morning my meditation was deep, and I had a euphoric feeling of prana flow during my Pranayama class. Did not pay too much attention as I wanted to make sure it is not my imagination and wanted to see something good happen. So I have waited to write this testimonial. My chronic problems would take time I knew, and so waited. But the energy change is very consistent, and my bowels are performing much better. My absorption in the Gastrointestinal tract has improved.

I have used it on insect bites; mountain mosquito-like black flies which are nasty, and it could take numerous episodes of rash and itching on the site of bites. I tried NANO SOMA Spray on one of them and the redness was gone in 3 hours and itching went away within 24 hours and never returned. The scar healed in 2 days totally.

My walking on inclines has improved as we live in the Andes mountains and I have been advocating getting NANO SOMA to people who are struggling with various health issues and word is really getting around and to be part of this process is very humbling and gratifying to find such a simple solution to deep-seated conditions regardless of age, conditions, and duration.

I am witnessing its positive effects at a deeper level of psyche and recommend freely to all who are willing to be open-minded and ready for healing at the cellular DNA level.

I have now ordered the Metasomer Topical Gel for my shoulder tear which happened due to a nasty fall I took in early February of this year. I have just started using Metasomer Topical Gel on the area of the tear will follow up on healing in the next testimonial as I just started a week ago. Week two: I am applying the Metasomer Topical Gel twice a day and feel good.

I am very thankful and grateful to Dr. Raghavan for discovering this nothing short of a miracle - a "Cure All Remedy" in the simplest bioavailable forms.

Grateful to Dr. Richard Presser for taking NANO SOMA to worldwide exposure and I will do all I can to promote it in my practice. I have 20 people on it already.... In Canada, USA, and India so far.

I wish the whole staff of NANO SOMA USA especially Sean McDonald who has been kind and patient processing all my requests in the order to process them diligently getting to people who await its healing.

With the deepest Gratitude!

Renu C., Registered Ayurveda Practitioner RNP, Toronto, Canada

Chaulabamba, Azuay – Ecuador, South America.

Richard,

I'm writing with this little story of the results of my knee replacement. From October 20th, 5 days before the surgery, I sprayed 5 times almost every 4 hours until the bottle was exhausted. The surgery went well. After the surgery, I sprayed NANO SOMA two or three times a day, five sprays under the tongue as the protocol goes.

In one week, after the bandages were removed, I sprayed NANO SOMA three or four times a day on the wound. I sprayed it also around my muscle tissue in the swollen areas. PT (physical therapy) was advancing well. Two weeks after home care I went to the PT facility. The owner of the facility did not know me, but I told the therapist about NANO SOMA. He was amazed. The following Monday, he brought the owner over, (who did not know me personally) to look at the wound and they asked him how old he thought it was. He said it was a five to six-month-old wound healing and when we told him it was only 3 weeks old, he thought my results were fantastic.

After 4 weeks, I saw the surgeon and he looked at the wound and saw the progress - he didn't know what to say. I did not say to him what I did at that time - 30 days after the surgery which would take it to November 30th which is right around now. I'm able to get a 121° bend at my knee, the stitches have all healed, there's a line where the swelling is going down, and during the PT I'm walking without a cane or any aids whatsoever. Last Wednesday, when I saw the surgeon, he could not understand how I was healing so fast. I told him about NANO SOMA. He immediately went online, found it with me, and he started looking at it. I said do your homework and get back to me. I guess this may be a big plus for pre-surgery and surgeries of all kinds of cases. He's

very much interested, and he could not believe that I have advanced so far in such a short time.

Today, November 30th, at PT, they told me that I was advanced with a 6-month age of recovery. I can go up and down the stairs, I can do all these things. I get fatigued. It's still healing but they must understand the power of NANO SOMA.

I am speaking to people in New Hampshire, where I reside. People are awakening rapidly, and they see through this crap.

Please pass this to Raghu and share. Yours

truly, Charlie

Richard,

Part of the "trouble" with NANO SOMA is that I just don't have much that seems to need fixing, so the most dramatic issue — my thirty-year bout with Candida, which, thank God, cleared up in a week — has left me with little to note, other than my hair quit falling out and the several lipomas I've had for 20+ years have all but vanished. My friends and clients have been getting some stunning results, too — tinnitus vanishing, fungal infections of the feet secondary to Type II diabetes clearing up, eczema vanishing, joint pain relief, angry, defiant behavior in a child reduced significantly, taste and smell from long-haul Covid returning after a year post-Covid, etc.

Tim S. November 2021

I am a 43-year-old male based in Mumbai, India. I was diagnosed with Brain TB (Tuberculosis) and also HIV-AIDS in February 2021. I was on TB medication, and suddenly in March 2021 I suffered a paralysis attack and was admitted to KEM, a government hospital in Mumbai. My situation was very bad. My right side was very weak with no movement. Even after 8 days I still had no movement. The doctors told us recovery would be very difficult due to my TB.

One of our relatives, after seeing my condition, discussed this with their family physician. That doctor also said it would be very difficult to recover but he suggested my relatives try a product called NANO SOMA. My relatives immediately contacted Mr. Murali, a supplier of NANO SOMA, and purchased 3 bottles.

I remember that same day around 8:30 pm they had given me NANO SOMA twice over a gap of 3 hours and after that, I slept. The next day around 11:30 am, I started walking with the support of my son. The doctors were surprised and after 5 days I was

discharged from the hospital. I continued NANO SOMA and I was improving, which I could see in my body.

In September 2021 I went for a blood test. It was unbelievable. My TB and HIV all came negative. My weight, which had been 42kg had increased to 54 kg. All of my disease has now gone. I have no words to describe NANO SOMA and its Inventor, who brought NANO SOMA to this Earth for the well-being of humanity. Many thanks for saving my life. Because of NANO SOMA, I am alive.

Mukund

Mumbai Nov 21st, 2021

Dear Dr. Presser,

Thank you, thank you, thank you for this incredible information!! You have just cleared my mind of horrible thoughts creating fear in me this past week. I was in close contact, in a very small room (my laundry room) for approximately 20 minutes with an electrician who I found out later was double “vaccinated” last week.

This past week I developed a rash on my left breast around the areola. Photos I found eliminated issues that cause similar rashes, like breastfeeding and other maladies, so when I found articles on IBC (Inflammatory Breast Cancer) I became VERY concerned. Breast Cancer, specifically “in the left breast” runs in my family...

So, then my right breast started getting the same rash around the areola and both breasts started to become tender. Fearing the worst, of course, I immediately made an appointment with my doctor, but the waiting list is so long, the earliest I can see her is late next week!

The good news is, now that NANO SOMA has been in my life since May this year, I naturally started applying Metasomer Topical Gel and I started taking more NANO SOMA orally, and of course, true to its function, I have felt some relief.

Even though I was experiencing some healing externally on my breasts, I continued to try to determine what this rash could be from, other than IBC because NANO SOMA was helping my body heal so quickly... I thought how could this be IBC? Also, based on my research, most women only have IBC in ONE breast, not both, so I tried to determine what other causes this reaction could be from.

I changed laundry detergents recently to ARM & Hammer for “Sensitive Skin” thinking perhaps it was a healthier detergent. After checking reviews on this product (after the purchasing, which is senseless to do after the fact) I learned other people had skin reactions, so I looked for full disclosure on the ingredients and found that some are toxic! Although I have had high susceptibility to skin contagions since childhood, I have never had a reaction from a laundry detergent before, so I was still a bit puzzled but got rid of it just in case.

NOW that I received your email, I realize, the skin rash I am experiencing is most likely from being in close contact with my double jabbed electrician!!! I thought if I did not have “skin” contact and remained a few feet apart that the shedding wouldn’t affect me – BUT I WAS WRONG! I had NO IDEA about the skin rashes from shedding... I am so relieved but at the same time alarmed the shedding can do this!

I bet my doctor would have sent me to get a biopsy or a mammogram and put my body through unnecessary trauma. Mind over matter- I can almost see a difference in my rash simply from the relief of knowing about the shedding cause... since I started writing this to you today.

I hope you share this experience I had so other women who may experience rashes around their areola, who have been in contact with the jabbed, understand that it may not be something as devastating as the thought of having cancer.... I had NO IDEA. Thank you, thank you, thank you from the bottom of my heart, Dr. Presser, for all you do.

Kindest Regards,
Stacey G, USA. 30 October 2021.

Hi Sean,

I'd like to share something with you but I don't know how you would classify it. About two months after I started taking NANO SOMA, I started getting an image in my head of an x-ray of my pelvic bones. They were standing straighter than I have been my entire life. So, I pushed in my pelvic bones and thrust them out the way I "saw" them in the x-ray, and lo and behold, my stomach flattened out, my chest thrust out and my shoulders went down. So, I started standing like that whenever I thought about it.

My lower back has been hurting me for YEARS. And changing my posture like that caused my lower back to hurt even more ... for about three weeks. But I just knew it was something I needed to do. I have been getting weekly adjustments for my lower back for years also and they never held.

After about three weeks, the pain went away, and again lo and behold my hips started no longer needing to be adjusted because they were no longer "out" when I went to the chiropractor.

As I became accustomed to standing with my pelvis held straight and my posture straight, I am walking around pain-free now and it's a trip.

August 2022

I think the NANO SOMA somehow sent a message to my brain about my posture. I don't know how, but I just think that's what happened.

Is there a place in the "Testimonials" book for stories such as this? L November 2021

In late August 2021, I had my first vaccine (Pfizer) at a Newtown location in Sydney. That same day I felt fine. The following day, I struggled to get out of bed, with a headache and suffering aches and pains and severe chills and not able to get warm, leaving me in this condition for two days.

On the third day, I felt some recovery. I've not suffered from any other conditions and/or felt this way ever before. On hearing about NANO SOMA and its ability to trigger a healthy

response in the body, I was interested to try this product and look for a way to assist in reducing the effects of the Pfizer, jab as I was aware from discussions with others that with the second jab, I could suffer similar symptoms, if not worse.

I was guided on the use of NANO SOMA and on receiving it, I had a morning and evening dose, starting two weeks out from the second Pfizer jab. Knowing I had another jab coming caused some anxiety. I fronted for my second dose and went back to work expecting I would not be up and around on day two. Day two came and I was so surprised I was able to get up, shower, and get to the office with no symptoms or side effects from the second vaccine. I was so elated that I was not bed-bound.

On continuing to take NANO SOMA, I have also lost a little weight, too. I'd recommend this product to anyone and my experience in using this has shown me that this product could heal and cancel out the terrible side effects of the vaccine and I'm most appreciative of being introduced to it.

Many thanks

Best regards, Matthew November 2021

Late September 2021 on a Sunday, my mom was tired in the evening and went to bed earlier than normal. On Monday morning she woke up and after my dad left for an appointment, she went back to bed. Something she never did and was found to be odd by my dad.

After my dad came back and my mom was awake, he noticed that her speech was slurred. He is a trained first responder and did a field test to see if she suffered from a brain infarction. The answer was negative. He called their general practitioner and explained the situation, after which the GP asked them to come immediately to him. The GP did the same tests and called the hospital straight after to inform them about my mom while my dad was driving towards the hospital.

In the hospital, the same field test was done for brain infarction which was, thankfully, again negative. My mom subsequently got admitted and tested for everything they can test. CT scan, MRI, blood, you name it and it was done. She was hooked up with antibiotics IV as the only thing noticeable was that the part of her brain that controls speech was inflamed. Next to that, a nurse that drew blood for the samples said that her blood was “thick”. The blood thickness comment did not lead to testing for D-Dimer, unfortunately (checks for early signs of blood clots). After a couple of days of antibiotics, her speech returned to normal. After multiple more CT scans, MRI’s and other tests, she was allowed to go home 7 days after being admitted.

I put her on NANO SOMA 4-5 days after she was home. She used it 5 sprays, 4 times a day on average until she finished one bottle which was 8-9 days. After that, she continued with one time per day 5 sprays. This second bottle will last her approximately 6 weeks. After 4 weeks from being released from the hospital, she had a follow-up appointment where again CT, MRI, and blood were tested. The comment from the nurse that drew blood was that her

blood was so “nicely flowing”. In the conversation with the doctor, the question was asked if all of this could be vaccine related. At the time of admitting, between the second jab and being admitted 4 months and 1 week had passed. The doctor answered that he wasn’t saying yes or no. He found the entire situation odd. When asked about the blood thickness, he said that in retrospect he had looked at other indicators and nothing was worrying or out of the ordinary. At the same time, he also mentioned that given the part of the brain that was affected having smaller veins it could not be ruled out that “thicker” blood caused a lack of enough oxygen which caused the inflammation.

Both my parents are vaccinated. My dad has a permanent prescription of “blood thinners”. To me, it sounds like that this prescription is benefitting him. He started also with NANO SOMA and found that it tasted terrible, which led to him taking it irregularly. My mom found the taste close to neutral.

Fast forward to now; all is back to normal. No follow-up appointments since the last one. My personal interpretation is that the vaccine is the only difference in her life. I also cannot say with absolute certainty that it was the vaccine that caused this inflammation. With more and more news appearing around vaccine side effects, I however do think that the vaccine was the cause of this inflammation. I can also not say with absolute certainty that NANO SOMA

helped speed up the healing process. With all the information shared about NANO SOMA, including all the anecdotal stories, I am however of the opinion that NANO SOMA made the difference. The main part on why I think it did make the difference are the two nurses that made the comments about “thicker” and “nicely flowing” blood. November 2021

I have been using NANO SOMA since December 2019 and I have just been told my biological age is ten years below my actual age, i.e., 66 and not 76, so that is good news, eh? Hope you are both scoring equally well!

Warm regards,

Susan Fairley November 2021

Dear Dr. Hillermann,

I have now been to my cardiologist for a follow-up with my cardiac arrhythmia. He certified that everything is absolutely fine. The cardiac arrhythmias that I had at that time disappeared completely after about 10 days of treatment with the NANO SOMA that you prescribed for me. So, I am currently very happy. I spoke to the cardiologist about his experience in his practice with the vaccinations [Sic]. He said that he had seen several patients where 14 days after the BioNTech vaccination, something like this occurred.

With gratitude,

Jens K November 2021

Dear Richard,

Thank you! I'm so grateful to be spreading the word about NANO SOMA. I have a testimonial for you, too.

NANO SOMA has been such a terrific, totally life-changing discovery for me. The most immediate and noticeable benefit I've had has been around a side-effect I would get any time I was around people who'd received the mRNA vaccines. Before finding NANO SOMA, I would have unexpected spotting or bleeds like I was getting my period either the same day or the day after, like clockwork. I am in menopause, so I knew there was a direct link as it only happened after I'd been out at the shops, or if I'd been in close proximity to friends that I knew had had the vaccine. As soon as I started using NANO SOMA these worrying episodes went away.

Then when I ran out of it for about a month, it started happening again. After going to get a massage with someone new I had one of the worst bleeds ever the next day, and large blood clots had formed. I was horrified and realised the masseuse must have just been freshly vaccinated to keep her job. Thankfully, my next delivery of NANO SOMA arrived a couple of days after that, and I've been back on it for a month, and I have

- 49 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

had no further episodes. I will never go without it, now. I've also noticed an improvement in my skin and look forward to seeing what else improves over time. Thank you to Raghu, Dr. Presser, and the whole team!!

Best, Liz. November 2021.

Aloha Dr. Presser, many blessings.

Through a mutual friend, I have been on NANO SOMA for almost 4 months. Wonderful product.

I can only say how wonderful that some of my issues have shifted since July. The first 4 days I did nothing but sleep. My friends have noticed the changes i.e., walking better, having more flexibility (not out of the woods, yet) and the neuropathy in my feet and legs is lessening; more to go. Since I am a sensitive, after the 4 days of sleeping, I divided my doses to am and pm; just now I am increasing doses. It doesn't taste as horrid as in the beginning. Joy replaces sadness, stamina returning, and making healthier choices regarding food, environment, and friends.

There are no words to express the joy that I feel when information came to me when researching water. The floodgates opened.

Blessings to you and Dr. Raghu and all others who have worked to bring this miracle to humanity.

Much love and peace.

Zosia M, 73 years young. November 2021

Richard,

On TWO separate occasions (this morning included) I woke up with a horrific sore throat - body aches - and ALL the signs of a very bad head cold or virus. (No fever) The kind of BAD virus or cold that gets progressively worse & will put you in bed for a few days to a week.

I (intuitively) sterilized an empty Saline Nasal Spray bottle - poured just enough NANO SOMA into it to spray it & deliver it as far up into my sinus cavity as I could get. I then took a small glass eye/ear dropper and only put about 2 or 3 drops in it (for each ear) and dropped it directly into my ear canal.

Years ago, I remember a healer telling me at the very 1st sign of a viral cold or flu, etc., to put a few drops of Hydrogen Peroxide down in the ear canal as this is actually where the virus enters, sits, and grows to get into the nasal cavity.

So, I dropped about 2 or 3 drops of NANO SOMA into each ear - turning my head to allow the drops to get as far down the ear canal as possible. Then spraying into my mouth to swallow down my throat of course & get into my body.

What would have put me in bed for a few days to "ride it out" is over & done from a few hours to a day - then wake up like it's never happened. My only wish was that the NANO SOMA came in bigger bottles (more ounces) but am grateful for the access to what I have.

On my limited budget, I can't order multiple bottles at a time - but I make sure in my budget to keep a full bottle coming each month to always have NANO SOMA on my end table next to me.

With Immense Gratitude,
Susan T, 29 October 2021

Here is an updated English version of my experience with NANO SOMA. I started taking it 7 weeks ago. I had a very severe stress breakdown about six years ago which left me with a lot of physical struggles. On top of that, I developed hypothyroidism which comes with a long list of horrible symptoms. I have gained 40 kilos, I struggle with fluid accumulation, I can't exercise (when I try I feel sick for days after). I have zero energy and can't work, and worst of all, I have struggled with this brain fog that leaves me unable to put two thoughts together.

After taking the first dose of NANO SOMA, the brain fog disappeared within minutes and hasn't been back since. I'm still very tired but I'm starting to experience days with a more normal amount of energy.

The last two years it felt like I was gaining weight every week no matter what I did, but since I started taking NANO SOMA, my family has asked more than once if I have lost

weight 🙏, and even though I still struggle with fluids, I feel and look a little less bloated.

And that is just what I've experienced the first 7 weeks. I can't wait to see what happens in the next few months ❤️❤️❤️ Thank you! 🌸 Helena

MY 1ST NANO SOMA TESTIMONIAL

40 years ago, I was diagnosed with Glaucoma and was prescribed eye drops. During that time, my eye pressures varied in the 10-16 range. During the last 2 years, the pressures were 16, but in the last 6 months had increased to 18 on the left, and 20 on

right. I started taking NANO SOMA 9 weeks ago, 5 sprays for 2 and occasionally 3 times daily. One week ago, the Ophthalmologist measured my pressures and the results were 10 in each eye!! YIPPEE...SKIPPEE!! I am confident this is the first of many testimonials!

Thank you, Dr. Raghavan and Richard.
Leah. 6 October 2021

Hello Richard,

I continue to see improvements with NANO SOMA; as of this month, my biological age has gone down by 5 years since I started taking it in July. My chronological age is 59 and my biological age was 58 when I checked before starting NANO SOMA. This is very exciting, and I'll continue to share updates with you.

Thank you.
Joyce K-P.2 October 2021

Dear Dr Presser,
I've been on NANO SOMA for about 6 months now. I was wondering if my body stopped "aging" per se. So, I start taking it at 35 so I should look 35 for a long time now? Thank you so, so much :-)) I do notice that my hair line is growing back, and my left shoulder pain is getting a lot better :-)) Thank you so, so much.

Sincerely,
Jessica M. 3 October 2021.

Hi Dr. Raghavan,
I thank you for the invention of the Metasomer Topical Gel. I applied it to my right and left shoulder. I applied it to my hands. From 2013, I was not able to raise my two hands above my head. After applying for two weeks in the above-mentioned areas, I could lift both my arms above my head. My pain is so much reduced. My doctor told me to have surgery for my disc C3C4. I am not going to have any surgery. I am moving my neck much better. I am going to use the Metasomer Topical Gel continuously for some time, then I will take a scan and inform you.

Thank you for the Metasomer Topical Gel invention
May God Bless You
SM October 2021

Dr. Presser,

Firstly, I want to say what an honour it is to be part of the NANO SOMA journey. I have never met a product in all the years I have been taking supplements (30yrs) that offers so much promise.

I have been taking NANO SOMA for the past 5 months. I am a cancer survivor and have had so much stress in my life... I cannot even begin to tell you. But the first thing I noticed is that my mind became much clearer and less fog in my brain. I also noticed psoriasis completely cleared from both my elbows, my hair is not falling out the way it used to and I have energy that lasts all day.

I will relay your thoughtful message to my cousin Stacy. I am sure she will appreciate your words.

Thank you for taking the time to answer my questions.

Madeline

I became hypoglycaemic at 22 after my military vaccinations. After 6 weeks of NANO SOMA at 56, all gone. If I now skip a meal, I feel hungry, but no giddiness, no palpitations, no craving for sweets or cold sweats. Thank you, NANO SOMA!

Roland October 2021

Wonderful product. It keeps me from taking so many products and makes me feel amazing.

Tasha B. USA. 8 October 2021

I was diagnosed with Asthma about a year ago, with a CT Scan showing spots on my lungs. I started NANO SOMA in May and had a follow-up CT scan in July. MY LUNGS ARE CLEAR! NO MORE SPOTS!!!!!! Michelle, USA. 1 Oct., 21.

I have a sister with Bipolar, and she was in the bathtub slashing herself up and crying

and screaming. She also does the same taking off on walks and screaming and

carrying on. I have had to get the cops so much involved. I never knew if I would see my sister again.

I decided to spray the NANO SOMA under her tongue to see what would happen. I sprayed three sprays under the tongue, and to my surprise, she calmed down. I have been doing this every day now and she has been staying stable.

Name Withheld, Sept. 21.

A bruised leg injury resolved by the application of Metasomer Topical Gel

To: Dr. PR Raghavan.

From: CM (Female -60).

Welcome to my testimonial! In June 2021, I heard about NANO SOMA. I did my research, watched videos, studied the ingredients, and decided it was natural and I was going to try it. I had zero expectations going in, although, I knew other people using the product had experienced benefits and they were unique to the person. Being a 60-year-old white female, and with the need to get in healthier shape, I decided to buy a bottle. I have nothing to lose and everything to gain I thought.

I have created a timeline of my NANO SOMA experience over the first month so you can see how it helped me. I used 5 sprays a day. The first two weeks, I took 3 sprays in the mid-morning, 2 sprays at night. After that, it was 5 sprays a day at no pre-set time. As a side note, I admit, I used PH9 water for the first two to three weeks since it's what I use after working outside in the extreme Arizona heat.

I've included my Log of Notes so that you may experience my progress as I went through them. After a month's post evaluation, NANO SOMA exceeded my expectations. I'd like to thank Dr. PR Raghavan for his support as I began this amazing journey to improved health.

Regards, CM

Log of Notes

Day 1

- In an hour, my blood pressure lowered on its own. I felt the tingle in my head. I had a histamine reaction as if something is working to heal my sinuses.
- I had a mosquito bite mark on my arm that was a little swollen and painful to touch. They normally take 10-21 days to heal. It express-healed overnight. The site is a little pink, flat, with no pain and it'll be gone in a day or two. Day 2
- My ankles have been more swollen for weeks but today they are normal. I'll see how today goes.

My blood pressure feels like it's on target.

- I slept great last night. I haven't slept that well in weeks. Thank you, NANO SOMA! ○

My energy improved midday on Day 2.

- I had the mindset to cook a meal that I haven't done in weeks due to an allergy attack and insect bite.
- I noticed my eye tear ducts were secreting as if I have bad allergies. I assumed it's cleaning out toxins.
- I am getting stronger—for example, I'm able to increase my capacity of carrying weight in my arms and improve balance when going up my steps in my home. After two knee replacements, a tendon repair, and a tendon reattachment a couple of years ago, this is a huge improvement to my life.
- My last tendon repair has been a little sensitive. It feels like nerves repairing after 2 years!
Day 4 ○ I came inside from gardening in 95F Arizona heat. I wasn't winded or even a little shaky.

I didn't need to sit to recover. It was amazing.

- I'm noticing a change around my Total Knee Replacements (TKRs). It feels tighter and the muscles are more stable when going up steps, although I didn't think after two years that could happen—self-repair. I'm amazed. My surgery scars are starting to diminish as the epidermis is repaired. That's unbelievable. I took images yesterday when I noticed it starting so I can track any changes. The scar was, for a lack of a better word, peeling off in some areas. NANO SOMA is allowing my body to heal my epidermis layer. Wow.
- My face is more moisturized. ○ My energy is increasing and I'm in the mood to clean.

○

Less brain fog - nice.

- Weight Loss: Down 0.5 to 1lb a day. For the first 24 hrs, I was down 1.5lbs. ○ I trimmed all the trees and bushes in my back yard for 45 minutes in 110F temps and after finishing, entering inside the house, within 2-3 minutes and a little sip of water, I'm back to normal. Day 5
- I woke up for the second day at 6:30 am. I normally get up hours later and am sluggish.
- My energy is 2 times the amount I had when I started 5 days ago. ○ My brain feels alert early in the day.
- I worked outside and installed trellises for my vine veggies in my garden. It's hot here in AZ, at 105F at noon. I don't have any issues and don't feel overheated. I recovered inside in 2 minutes and not two hours. Unbelievable. ○ I'm in the mood to clean anything and everything in the past 24 hours. This is amazing.
- I'm drinking 3 times the water with all the outdoor heat.
- My BMI on my scale has gone down 1.8 points and my water percent is going up. This shows progress. Talk about inspiring.
- I'm not craving sugars or carbs as much in the past 24 hours. I manage my glucose by diet.
- I've had the best night's sleep in decades.
- This one is a bonus factor. I have always been able to sense when I'm close to radiation, larger security systems, or radar waves from various environmental situations on my arms. Think of it as the feeling of those electromagnetic science spheres when your hair stood on end. What is amazing is, now my shins are feeling the energy when I'm close to a 5G tower, etc. I guess my body is

-
-
-

healing and my circulation is better. Nice. Day 6 ○ Bone Density Increase: My scale showed my bone density went up 0.1 from 6.5 to 6.6, and I tried it a second time because for 5 years since I've had this scale it's never changed from 6.5.

Weight Decreased: I lost 5.3lbs in the first 6 days. Toxins... ○ Nail Health: My fingernails are growing faster - 3 weeks' growth is now in a week. Day 7 Nerve Repair of Knees: It's 2 years after my right knee replacement that had tendon repairs and tendon reattachment, and my nerves are repairing around my right knee. I could feel its repair in the past 24hrs— that zapping pain twitch at certain times. I have always had a numbing feeling around a certain area of my knee. In the past week, it's repaired most of the nerve damage, and note that I had not seen an improvement in over a year. I couldn't lean up to anything with my knees touching it without feeling this tingling pain. As of now, that tingling pain is nearly eliminated. This impacted my everyday life in so many ways. I was informed after the TKRs, by my surgeon, I'd never get that feeling back again around my knees. Well, he needs to know about NANO SOMA! This could help so many people and improve their quality of life within weeks after their surgery!

- All my cravings for sugar & salty foods are gone. I'm eating more organic fruit such as peaches & cherries.

Muscle repair: Getting stronger. Day 8 ○ I was told years ago that I'd have a chronic sinus infection unless I had surgery. It seems as of yesterday, after 7 days on NANO SOMA, my chronic sinus infection I've had for a decade has vanished. It's amazing.

- My neck skin is younger. My body working with NANO SOMA is becoming a powerful partnership.
- I notice my stress has decreased. It's likely due to a combination of less pain and more energy.

-
-
-
- Sleep: My sleep has improved. I'm waking between 6:30-7:30 am. Before NANO SOMA, my sleep was so confused...up awake until 2 am-4 am, then attempting naps to recover. I hope this continues.
- Pain in iPhone typing right hand has lessened to almost no pain. I'm grateful for the repair.
- My teeth are whiter. Nice bonus. Day 9
I'm continuing to improve in the heat. 105F feels like 95F now that my body is cooling better. I can do my outside tasks and come inside and continue with other tasks. That's a 2-hour efficiency benefit.
My leg muscles and nerves are continuing to improve. You don't know how nice it is to walk without a bunch of numbing tingly feeling bands around the knees. It's a 50% more improvement in one week.
- My eyes stopped eliminating toxins after 3 days. It was like a bad allergy attack, then after spraying NANO SOMA in the one eye, I recovered the next morning.
- I've had pain under my left front rib in one spot for decades. I had every test done by several medical professionals and they could never figure out what it was. I met one other person who had it in the same spot and her medical team couldn't figure it out. Well, NANO SOMA helped figure it out. It's been a few days and I realized as I was typing this, I have no pain in that area. It's a miracle. ○ My energy continues to increase, and my sleep is the best it's been in 5 years.
- Thought for the Day: I wish this product grew on a plant in my garden so I could grow it and share it with those in need. Day 10 ○ I noticed inflammation throughout my body has decreased significantly including (this may seem odd) my tongue.

-
-
-
- I think my distance vision improved after 3 days of the toxins being released.
- Sinusitis—for certain, gone.

Day 11

- My eyes are changing to a multi-jewelled color. They're brighter. They were a blue gray. Now they're a blue-teal-gold in the evening. I'm going to watch this to see if there are more changes.

My right ear is doing some repair. I think with the sinus repair, it's finishing things around the ear now. Day 12 ○ I've lost my appetite for red meat products.

I had a chickenpox scar that disappeared. I've had it on my face since I was 6 weeks old when I had chickenpox.

- My TKR scars are 1/2 the width in most places now and flat. It removed a tiny piece of thread left behind. Thank you.

I'm coughing sporadically. Nothing exciting. Not an illness. (No vaccine.) It's probably clearing a few toxins in unknown places. Do it. You have my permission. ○ I didn't think I had a lung problem and after two weeks of NANO SOMA, I felt my lungs were lighter and it was easier to breathe. I'm completely off any allergy meds. This is amazing! I've been on them since I was 11 years old.

- As for night-time dreams, I'm remembering more of them now. I can start the types of dreams I want for a given night too. It may be the mental clarity that helps in this process.

Day 15 ○ I don't need caffeine but I'm craving anything with lemon/citrus.

-
-
-
- I haven't eaten red meat in several days since I'm no longer craving it. NANO SOMA must be a great nutritional traffic cop to effectively use what is in your body. ○ Nerves around the TKRs are over 90% repaired.

Day 16 ○ My muscle strength in my legs around my knees is so good, I no longer must watch my feet going up the steps so I don't fall. I honestly wasn't aware I was looking down until I stopped looking down, and then I panicked one day and realized that my body had recovered, and my brain knew that I no longer had to use the 'backup plan' of looking down to ensure I would get on the stair steps properly. I was tearful on this one once I realized what had occurred, and how my life changed at that moment. Day

26

- I got up off a low pouf the other day without hanging onto the chair. That was a first since the knee surgery. I am blessed.
- From a sitting position, I can put my elbows on my knees without experiencing a shooting pain to my knees. Day 28 ○ Eye 'floaters' are

○

○

dissolving. Now, they are tiny dots. They shrunk 95%. I'm amazed and grateful.

My 61st birthday is Oct 17th, and I am feeling good this year with more to go in the coming months. I've been working on minor home improvements with more energy. I trimmed my huge 12-14ft Bougainvillea's yesterday that are intertwined into my Acacia/Senna tree. I use the super heavy loppers to get to the top. My daughter and I moved outdoor furniture around, I cleaned the outdoor area rug and hosed it down. I swept pavers, watered all the plants, and came in and wasn't shaky or exhausted at all except I was a bit hot— normal in 90s heat in AZ. I couldn't say or do all that 2 months ago.

o

This observation is entertaining. I noticed when I'm sleeping, I awaken because my knees touch (my mind thinks, what's touching my knee? Oh, my OTHER

knee

😊 ha-ha – back to sleep...) Funny, yet real-life improvement observations in motion. Overall, I'm getting pieces of my life back that I had no idea I was missing or lacking. The past 3 years were full of challenges with three major knee surgeries and learning how to walk again. I'm turning the corner...I see it. I feel it. I'm grateful for it.

Thank you for being a part of this transformation. CM, USA, September 18, 2021.

To: Dr. PR Raghavan.

From: MS. CM, regarding my daughter.

Daughter: 33-year-old white female.

Diet: Keto.

Epilepsy – Identified at 26 years old at Mayo Clinic. The type of condition is Periventricular Heterotopia. It is a condition in which the nerve cells (neurons) do not migrate properly during the early development of the foetal brain. It is inherited from the male gene. Started NANO SOMA... First week improvements:

- ✦ Sinus cleansing – in her cheeks and her eyes were watering and her head felt light which could have been blood pressure.

- ✦ Decided to get back on the Keto diet at the end of this week when she had more energy.

Second week:

- ✦ Short-term memory – short-term memory improvement – able to recall the prior day's activities quicker.

- No seizures before her monthly cycle. No seizures during the week. Third week:

- ✦ Calmer with loud sounds and interruptions - she normally would jump because, for every one of our thought processes, she has 50 times the reaction per the neurologist. In the sound scenario, it would be 50 times greater than how we experience sounds. The nerves seem to be healing and decreasing the repetitive traffic before it connects properly within her brain. That means less traffic back and forth, less chance of a neuro issue creating the seizure condition.

- ✦ This was a tough mental week for her as I believe there was a great deal of healing. She was very tired and slept more than usual.

- 64 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29 August 2022

- ✦ One seizure, but I believe it was due to her taking ½ the normal dose of medicines that day.

Fourth week:

- ✦ Positive attitude and outlook.
- ✦ Sleeping back to normal.
- ✦ No seizure.

- ✦ More helpful around the house with more energy. Fifth week:

- ✦ Memory recall improvements were noted.
- ✦ No seizures.
- ✦ Increased responsibility and did not need reminders as often.
- ✦ More creative thinking in deciding to design her own bakery business and layout of the building and menu options.
- ✦ Improved problem-solving skills when putting a dresser together with me.
- ✦ Continued to be helpful and take ownership of her tasks without as many reminders. UPDATED OCTOBER 9TH

Sorry, this is so late, but I didn't want to forget.

My daughter made it through a month without a seizure. A major, major accomplishment. She's on her Keto-style diet, her seizure meds, plus NANO SOMA, 5 sprays a day. She started the gel on her face a week ago and she came to me all happy this morning— “Look, Mom, no lines on my forehead!” I replied with a positive compliment and then said, “Now, imagine what it's doing to the inside of your body.”

She's starting to turn the corner into believing what it can do for her. ✦

She's had an ongoing issue with her hair falling out in handfuls after it's washed. It's a side effect of the meds. I'm wondering if NANO SOMA will help over time to manage it so it lessens. Any success there? I told her I saw smaller pieces of hair on the front bangs area hairline in the side corner—which was true. I think it helped her spirits.

As for me, I've had a right eye infection (itchy and below eye skin burns and is red and

swollen from wiping the eye so often), then a left eye infection, and back to the right eye, and with two days of sprays once a day in the eyes, NANO SOMA cured it each time.

Then, I had a little upper respiratory allergy cough for a couple of days and doubled up my dose of NANO SOMA for 3 days to 8-10 sprays. My body healed quickly. My sinuses have been

cured of chronic sinusitis—no relapse. I'm saving so much money on the allergy meds—more than the cost of NANO SOMA!

CM, USA, September 18, 2021.

NANO SOMA has given me more energy and more motivation to accomplish anything I need to do. Work doesn't seem like drudgery anymore! I'm so thankful to God for this product.

Alice R. RN. USA. 8 October 2021.

Years of very strict diet regulation have eased up with the addition of this product to my

regimen. God has directed me in many directions to teach me many things about wellness. I'm grateful that He has given me a wider range of foods to eat now. Not just meat anymore, but fruits and some kinds of goat dairy with very few issues. God is certainly working through this product.

Name Withheld, USA. 8 October 2021.

I have been using NANO SOMA for about 3 months now. Lately, as crazy as it may sound, I have been noticing more instruments in the music I listen to. I hear little background chimes that I never noticed before. My hearing has always been good, but it just seems better. Also, my sinuses have never been better.

Bernie B. USA. Sept 28, 2021.

I started NANO SOMA on July 26, 2021, using the protocol provided, though because of my many health problems, I continued using 5 sprays 4 times a day until week 7 when I was running out. I took it only 2 times a day until my new order arrived on September 19.

I had gone to the eye doctor on August 16 because I was having problems with my glasses (headaches and poor vision), and I figured I needed a stronger prescription as I had for most of my life. The eye doctor was upset at the first appointment and asked if there was a change in my diabetes medication. There was.

On July 27, the MD had reduced my dosage by stopping 5 mg of Glipizide that I took

daily in addition to my 1000 mg of Metformin, probably because I had lost weight and my A1C was now 6.6.

The eye doctor suggested that I schedule an appointment when my blood sugar stabilized. Although it wasn't really "unstable" because it is always under good control,

I did so. At the second appointment on September 24, she was still a bit upset. She

said it was rare for a person to go from a 6 to a 4.

I see in comparing the two prescriptions that it wasn't quite so stark, but it was a definite improvement in both eyes. I had no exam in 2020 because of the Covid shutdowns.

Best,
Kathie K, USA, Sep 26, 2021.

Dearest Richard,
I have been taking NANO SOMA now for a while, and I am still on my first bottle. I take 5 sprays 2 x daily. I have immediately noticed a significant loss in weight. I have lost 3+ kg so far and will continue to take it.

Thanks,
Katherine O. 19 Sept, 21.

NANO SOMA is the Real Deal

My name is Matt, and I'm writing about the experiences that a friend and I have had from using NANO SOMA for only a few weeks. My problem has been intermittent bouts with tinnitus or ringing in the ears. It's particularly present when listening to music at even a medium volume level. As I used the first bottle of NANO SOMA, I became aware that I was experiencing longer periods without the ringing in my ears. I will keep using the NANO SOMA so that the tinnitus resolves and continue to use it afterward for longevity and anti-aging. I also notice an anti-anxiety effect and a feeling of being more "in the present".

August 2022

A good friend of mine had back surgery a couple of years ago. He injured himself from exercise and years of squats, so had to have very invasive surgery. Months went by after the surgery, but it never reduced his pain, and drugs didn't relieve the pain and stiffness. I suggested he try every nutraceutical there was for inflammation and pain relief. This went on for months and months, but he didn't respond to any of it.

So, a mutual friend started raving about NANO SOMA and how he had cancelled a scheduled knee surgery because the NANO SOMA repaired the knee problem. So, my friend with back pain tried the spray and after a short time, he was incredulous that he had nearly complete relief for ten days straight. I spoke with him today and he had a recurrence of the pain, but he will continue because as Dr. Raghu has explained, the healing doesn't always occur in a straight line, sometimes it's more of zig-zagging to reach your health goal.

I've been researching and using vitamins and nutraceuticals for forty-five years and I haven't come across anything like NANO SOMA in that time.

Matt, September 7, 2021

Richard,

I first was introduced to NANO SOMA by an alternative news video blogger about four months ago. I'm not sure I remember exactly who, perhaps Cliff High or Cirsten W. It was someone who gives good information in my experience. All I heard was the name and used Duck Duck Go to search for a phonetic spelling. I was given links to the various stores. On the US store, there were enough links to the introduction and testimonials that I was intrigued by to look further.

I'm familiar with a great number of alternative energy folks from Nikola Tesla's work on up. In the late sixties, I read all of Wilhelm Reich's works (you could still get them used at the time) and started studying Orgone Energy. My studies were practical. I learned to go to the beach on brilliantly clear days and throw my eyes out of focussed alignment, which observes reflected light, into a parallel alignment to observe emerging light... aka Orgone Energy. I found that was the same as Chi and Prana. But I digress.

So, I was intrigued by NANO SOMA. After reading all the testimonials I decided I had an issue worthy of experimentation. On one cheek, high on the cheekbone, I had an area of red, flaking skin. It had been with me for over twenty years. I attributed it to sun damage. Because of the testimonials of people who had skin issues resolved, that was my primary area of experimental observation. I purchased three bottles a couple of months ago and

gave my cheek a mini-spritz of NANO SOMA twice a day by massaging it in, and four sprays in the mouth. That skin issue is completely gone as well as two patches of sort of dry, peeling skin on one hand that had been an annoyance for at least five years. Gone.

As I've used the NANO SOMA for the last two months I suddenly realized, just yesterday actually, that I hadn't taken any Ibuprofen to relieve pain in a bad hip. My arthritis and bone degradation was the result of a thirty-five-foot fall off a telephone pole when I was a lineman at 19. My neck which has been stiff for years is loosening up as is a shoulder that was damaged in a separate injury long ago. In short, I'm positive about the skin problem resolution and suspect the others are being helped.

Because of the beneficial results I've experienced, I decided to 'double down' on NANO SOMA and purchased 24 bottles. My specific area of inquiry will be eyes. I have a macular pucker in one eye and a cataract forming on the other. After reading about people experiencing positive effects of NANO SOMA in the two areas of my eye issues, they will be the focus of my experimentation. I have high hopes.

Thanks for your work to save the world!

Welles G, 6 September 2021

Thank you so much for NANO SOMA. I was truly suffering from all the bug bites on my back,

neck, and arm. For the last few weeks, the itching has been so severe, I was literally up 3/4 of the night scratching and pacing the floor from being so uncomfortable. The day you saw how bad the bite was on my arm, I was at wit's end. I had become so sleepdeprived it was difficult to function. My work was sincerely affected. I was exhausted.

Then NANO SOMA to the rescue. My bug bite had swollen to the size of a fifty cents piece. The itching was non-stop. It was awful. I put NANO SOMA on the bite twice in the afternoon and then once more before bedtime. That was the first good night's sleep I

had in two weeks. When I woke in the morning, the bite was the size of a pinhead. The itching was 100% gone. I was stunned and amazed.

So, thank you, sir! When you speak with the gentleman who created this amazing product, please extend my sincerest gratitude. NANO SOMA is a miracle cure for severe, swollen, infected bug bites. The efficacy of this product is astounding and has my backing and respect.

Thank you, friend.

Kindest Regards,

Barb. September, 21

Dear Richard,

Thank you always for your updates! I look forward to catching up on the most recent news and happy testimonies. I have waited for months to share with you a testimony! For me, it has been worth the wait! I am delighted to share this wonderful bit of news!

In 2012, I received that diagnosis no one wants to hear... Stage 4, Non-Hodgkins Follicular Lymphoma. I went through the usual Western medicine treatments back then not knowing what I know now about cancer. My blood work was abnormal for years. I began taking NANO SOMA in 2019 and always felt a sense of well-being. I knew something good was happening in my body.

In June this summer, I had another dreaded PET Scan. Oh my! the results were amazing!!! NO evidence of reoccurring Lymphoma! As well, ALL my blood work had returned to NORMAL! Everyone was astonished, to say the least.

I have always sensed that NANO SOMA is a truly divine gift from God. I am now completely convinced! As a 72 yrs. old great-grandmother, I have received a new outlook on life with extra energy to spare!

My sincere, heartfelt thank YOU, Richard, for your part in spreading the GOOD NEWS and for always reminding me of what a necessary gift to LIFE this product truly is!

Blessings always, Martha
B, August 13, 2021

Hello, Richard.

I'm writing to tell you about an experience that I had a few days ago with NANO SOMA. Two days ago, I was pan-frying a steak in a hot cast-iron skillet. One time when I flipped it, the steak almost slipped out of the tongs and splattered hot oil all over me. There were two similar splatters on my hand and wrist. The spots had already begun to form blisters. I got the NANO SOMA and sprayed a little into my hand and dabbed some on the spot on my wrist (B). I didn't put any on the area where you see the blister. (A) When I woke up the next morning, there was no sign of the spot at B. Even when I touch the area with significant pressure, there's no indication of any injury whatsoever. This is an amazing product!

Thank you! Carol Q, 3 September 2021

Dear Richard,

Thank you so much for your latest and always wonderful update. I am onto my 3rd bottle. By the start of the first bottle, and after just 2 doses of 5 sprays of NANO SOMA, my bowel normalised. My problem had been an irritable bowel so that one day they were loose with lots of gas, and the next day constipation and straining, and sometimes bleeding from haemorrhoids!! So after just 2 sprays, my bowel normalized, and no more haemorrhoid!!! Extraordinary result as I am now having normal bowels every day. I have been on a probiotic for years. Also, after one bottle my friends started commenting on the phone, “you sound amazing! I can hear how strong and confident

you sound, and positive!!!”

Richard, I am 77 and have lived on my own as a widow and on the pension, and I have toughed it out since the loss of my fabulous husband of 40 years marriage from medical malpractice. I only discovered after he died that he had been on 2 statins, Crestor, and Lipitor for several years. At age 67 he had a stroke. You could not imagine a more powerful, brilliant man...and a successful entrepreneur and humanitarian, husband, father, and grandfather. I am onto my last bottle, and I am stronger, happier, and sharper in my brain. Most of all I am motivated to do things in my home, which is such a blessing through this miraculous food.

Thank you again, Richard, for your marvellous updates and God loves you and Raghu!

I shall be ordering more next week and shall never stop. In unceasing gratitude,
Dianne S. USA. 27 August 2021.

August 2022

Thinning hair reversed by NANO SOMA.

Delores, USA. 17 August 2021

The reason I'm so desperate (and seemingly impatient) for my NANO SOMA... I have a Parkinson's disease diagnosis and my symptoms are escalating... my doctor wants me to start medication... I'm hanging out for your product to give me some relief from my constant tremor and left-side paralysis...

I trust your product is what I have been waiting for! How should I take it? I ordered the 24bottle pack.

Thanks,
Glenys A, Australia. 26 August 2021

I'm a youthful 60-year-old fitness instructor! Then on being told we would get a bottle to her to get started...Omg!! I'm crying!! Tears everywhere! It's been so tough... everyone thinks I'm mad... trying to shove their pharmaceuticals on me as well as the COVID jab! I don't want either!!! I am so humbled by your generous gift! I hadn't realised how much this had affected me! I know this will work for me... xx

I know and trust my gut! I know this will work for me!!
Thanks,
Glenys, August 2021.

And when asked if she would share her response:

Absolutely!!

I'm happy to share my journey... I would like to write a book about the journey from diagnosis, the despair... then the path back to radiant health... I know this is karma.

- 72 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29 August 2022

(I even soaked up again with your reply... I'm usually the tough one... I am a fitness trainer at a little local gym with 350 members. 7 of us with Parkinson's disease diagnoses... I want to help and give hope to others with this shitty diagnosis. I'm more than happy to film my progress:)

Thanks,
Glenys, August 2021.

I hardly know where to begin, as this product has completely turned my life around. I'll be the first to admit that I was sceptical at first, thinking with a programmed mindset (compliments of belief systems and indoctrination), that nothing outside of so-called modern medicine, along with its treatments, pharmaceuticals, vitamin industry, and cutting-edge (emphasis on "cutting") technologies, could begin to help with the issues I was facing. Issues that I now realise were merely outward expressions of imbalance taking place within my body. I had begun my journey in February 2020, with breast surgery and removal of lymph nodes, followed by two additional surgeries in February 2021, along with an untold number of tests, scans, and labs, while experiencing

consistent and unwanted weight loss throughout the entire process.

During this time a friend had offered me information on your product, suggesting that I might consider giving it a try, as it might "kickstart" my body's ability to heal. (Well, it ended up helping me in ways that I never would have dreamt of!) After speaking with one of my physicians, I decided to stop all "treatments"... right down to the various vitamin and minerals I was taking. I had just received the results of a very extensive 29-page workup, was looking at yet another lymph node situation, an area on my knee which I was told needed biopsy, and bone lesions extending from my hip into my femur.

Presented with all of that, I knew at that very moment I was done being irradiated, medicated, and going through more surgeries. I decided to try NANO SOMA. I tried it on each area of concern twice daily, along with six sprays twice-daily sublingually, for two months. My body must have been totally depleted and in great need of help in getting the proper "nutrition" into my cells! I was able to enjoy a 2-pound weight gain (the first gain in over a year!), the swelling and tightness in my knee completely disappeared, the lymph tumour majorly reduced in size, my labs came back nearly perfect range, and the bone lesions showed as having no new change... no rate of growth! My oncologist (quite perplexed and surprised) has ordered a follow-up scan for September.

I'd also like to mention that I live in a region known for poor air quality, which can play havoc on anyone who suffers from yearly sinus issues... Since using NANO SOMA, I've noticed that my lungs are clearing respiratory irritants better than ever before! I realise

- 73 -

August 2022

that everyone is unique, all having different needs to be met and our bodies react differently in bringing about optimum health and balance... I am so much more than grateful for the transformation I have witnessed in my body's natural ability to heal since using NANO SOMA. To me, it truly offers the gift of restoration. Thank you seems too little a phrase for something so beneficial.

Jo N. USA. August 2021

Hi Richard,

I did the start-up protocol about a month ago, and quite honestly, I LOVE NANO SOMA so much that I take it between 2 to 4 times per day x 5 squirts. My body loves it, I love it and I feel so alert, my skin looks younger than a 40-year-old, and what can I say...I am immensely grateful.

Looking forward to getting it again. I can't thank you enough for your commitment to the VISION. Enjoy the rest of your day/evening.

Best Regards, Allie. USA 12 August 2021.

Hi Richard,

I have to say that in addition to the other things I told you about, one of the BEST things of all is the regularity of my bowels. I have had a mild form of constipation my whole life. NO MORE!!! Also, when I began the NANO SOMA, I had a small wart-like growth on my back. Totally gone now. I love my NANO SOMA!!!

Allie. USA 13 August 2021.

Hi Richard,

I hope this email finds you well. I am writing to share my experience with NANO SOMA so far. I have been on the natural and self-care wellness path for about 20 years and I use a lot of high-frequency nutraceuticals. Before I start using a product, I learn as much as I can about it to have a good understanding of how it works and how it will benefit my body and my overall health; and also want to know it is safe.

This is the first time I'm sharing my experience with a product. I decided to keep track of my experience and share my story based on the information I read, the videos I watched, and especially the incredible testimonials I read. I have a part-time wellness business and use a simple, non-invasive FDA Cleared Class II medical device that measures arterial stiffness index and biological age in my business. I was, therefore, very intrigued to learn that Raghu has been aging backward since he's been using the product. I decided to check my biological age before I started taking NANO SOMA. I'm 59 years old, and my biological age

was 58. My arterial stiffness index was 3, which is a very good index. The stiffness index range is 1-8, with 0-3 being the best range, 4-5 in the middle range, and 6-8 being the worst. I planned to check again after one month on the product.

I followed the protocol on how to take the product - 5 sprays 1x/day for a week, 5 sprays 4x/day for the second week; 5 sprays 2x/day week 3, then on to 5 sprays 1x/daily. On day 4 on the product, I noticed that a swollen lymph node (not even sure if it's a lymph node, calcification, or scar tissue) in my right groin which was about an inch and a half in length, but not sure how deep it was in my body, had reduced in size by over 95% and is now about the size of a pea. I can't remember when it first showed up, but I know it's been there for over 10 years but didn't pay much attention to it because it didn't bother me, no pain, didn't increase in size - I just knew it was there and one of those things you 'live with'. This was so shocking to me, that taking just 5

sprays once a day would produce such results. This was not even one of the symptoms I put on my list to watch and see how NANO SOMA would help. From the little understanding of the product taking care of critical things first, I know how important it was to start clearing the issue that created this symptom.

After seeing such results in such a short time, I decided to check my biological age again after two weeks (5 sprays 4x/day); instead of one month, just to see if there was any change because that would be the real test for me as it tells what's going on inside my body. I did a repeat test of the arterial stiffness and biological age test. My biological age had gone from 58 to 55; gone down 3 years in two weeks! Incredible! My arterial stiffness had also gone down from 3 to 2, which is excellent. I did another test after one month, and my biological age had gone down another year - down to 54! My arterial stiffness index was still 2. To have my biological age go down by 4 years, 58 down to 54 is nothing short of staggering. This is so much more important because it is a good indicator of what's going on in my body. I also understand that the health challenges we are NOT aware of, are way more than the ones we are aware of. I know a lot of changes will continue to take place in my body and I will continue to be on this product. I'll continue to share updates with you. Thank you - J.A.K. USA August 8, 2021.

Spider bite was completely gone in 60 hours +/-

Hi Everyone, Here is a photo of a spider bite that I sprayed directly with NANO SOMA.

- A. While cleaning the garage I was bitten on the back of my elbow.
- B. Within about 30 minutes, the spider bite welt/blister grew to the size of a dime, turning white, surrounded by redness.
- C. Itching followed and the welt appeared to be getting larger, with the welt surrounded by red skin.
- D. Put NANO SOMA on and within seconds, itching was gone.
- E. Within 60 hours of the first NANO SOMA application (3X's), all signs of the bite were completely eliminated.

Blessings, M. Justin Elledge. USA 8 August 2021.

Hi Dr. Raghu,

This is Seyed. This METASOMERTOPICAL GEL is a miracle supplement. I used it on both of my knees 4 times a day for 4 days. The itching which I had for the last 15 years is completely gone. It is an amazing product.

Now I am taking it twice a day for my lung problem. I have scars on my lungs because I was affected by COVID. After 3 months I am going to take another cat scan and I am pretty sure it will be gone. I will keep you posted.

God reveals secrets to SIDDHARS. You are a living SIDDHAR.

Thank you again, Seyed and Ummu Mohamed. India. 7 August 2021.

Dear Dr. Richard Presser,

I started using NANO SOMA spray-on 07/07/21 and was very interested to see the results.

- 76 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29 August 2022

I reached out for NANO SOMA because, since 2012 - 2013 I have suffered from Irritated Colon Syndrome that caused tremendous pain in my lower abdomen at least 1 week before my monthly period. The pain was so intense that for the entire time I was exhausted because I would wake up multiple times during the night being in pain. Also, the pain was present during the day and people around me could see the pain on my face. (The pain went back and forth and each episode of intense pain would be for 1530 min at a time.)

When I received my first order of NANO SOMA, I was in the middle of an intense pain cycle, unable to rest at night. I had my first 5 sprays in the morning of 07/07/21 and that day and the next day was pain-free. I could not believe it. I was so used to being in pain multiple times a day and at night, and when 2 days passed with no pain, I was extremely happy.

For me it tastes soapy - really strong taste in the beginning - now it is less soapy, but still tastes soapy :) I know I have a lot of healing to do and I'm patient. I wanted to write to you right then, but I said to myself, let's wait another month and see what's happening next time before my period, just to make sure I'm not living in a dream :). So, I waited and used NANO SOMA for a month (1st week I used 5 sprays 2 times a day, and after that 5 sprays, 1 time a day.)

This month, I noticed a tremendous improvement. Some pain but not that intense and not that often. My period came on time and after so many years of suffering, finally, I was able to rest during the night and function properly during the day. I also noticed an improvement in my energy level. I'm not snoozing my alarm in the morning so many times as before (I used to snooze my alarm at least 4-5 times - 15 min in between the snoozes, because I could not wake up in the morning, no matter how early I go to bed the night before). My mind is clear now, I'm happy and energetic. My colleagues at work noticed the difference and they admire me for my positive and energetic attitude every day. It gives them energy as well :)

I talked about NANO SOMA with my family in Europe and ordered some bottles for them, and they were already on their way (due to the delay in Germany). Once the store in Germany opens, they will be ordering directly from there. I also talked with some of my friends in the US about it, and I'll continue talking about NANO SOMA benefits.

I plan to continue using NANO SOMA spray, and I'm waiting for the gel and cream in the US as well. I want to see if my parotid gland tumour will respond to the NANO SOMA spray, and as soon as the gel is available, I'll use it to massage the area where I see the lump growing again (after my surgery in 2018, the lump is coming back and I don't want to go back to the painful experience of another surgery). I believe that NANO SOMA will help teach my body to heal itself.

With great appreciation, Felicia S – Chicago, USA. 44 years young. 6 August 2021.

Aloha Richard,

Mahalo so much for your e-mails & all the wonderful testimonies! They are fabulous & I too have one. I am one person, who I hate to even say these words but not a lot works on me. I just don't FEEL much from any products I've taken for years! But I've had very achy legs and just 'restless legs' I guess, and NANO SOMA has helped me tremendously, I am so grateful! Mahalo so much!!:>) That is NOT why I am writing but did want to share that.

I have a good friend who had her hip broken when she was a teenager. She has had 4 hip replacements & during one they used cobalt, & she had a terrible reaction to the cobalt. It gave her diabetes pretty badly. She also lost a lot of her hair & teeth.

Thanks so much, Aloha, Cheryl P. USA 6 August 2021.

Many thanks, Richard.

I have been spreading the word like wildfire.

Our dog developed a growth on its nose and we sprayed it daily for a bit over a week and it just disappeared. We use it on everything (cuts, scratches, etc) as well as under our tongue.

My wife developed a wart on her finger and it has gone now after daily spraying.

Keep up the great work.

Warm regards, Adrian Fields. Buderim, Australia. 5 August 2021.

Here is my testimonial: (Sorry this is so long)

I started NANO SOMA with the 5 sprays, 4 times a day for a week because I felt I have many issues that might be improved. Then I did the 5 sprays 2x a day to finish another bottle in 2 weeks.

I have needed knee replacement for 7 years now in both knees. Lots of pain. I was still able to do gentle cardio through at least 5 of the years and it helped with inflammation. I don't believe in putting metals into my body, so I just dealt with the pain for that time instead of surgery. After roughly 5 years I decided to try stem cell injections. These were expensive. Throughout the last two years, I put \$2000 worth of stem cells in my knees every six months and did it three times (At \$1000 per knee). Each time I waited for at least 5 months to see if the knees improved. They did not. I am certainly not rich but was hoping to avoid surgery. I kept thinking that the next dose would be the one that worked since my knees were so damaged from waiting so long. \$6000 wasted. I know stem cells work for some people but for me, it didn't work at all. I do trust my alternative health practitioner, so I know she knows what she is doing. I just don't know why my body didn't respond.

After all this, I cried and cried and didn't know what to do. I was so hopeful for this procedure. I was ready to give up and have a knee replacement, but I still kept putting it off. There came a time in the last year that I could no longer do cardio due to the pain level getting worse. That raised many other problems that come without exercise. My practitioner said that my circulation had become very bad from inactivity among other things. I was now a couch potato, and I love to exercise and stay fit.

Anyway, immediately after I finished the intensive NANO SOMA treatment, I noticed that the pain has gone down substantially and mostly remained there with a few bad days occasionally. I would say from a constant pain level of 10 as high pain, I am now most regularly at 3 and a half to a 4. That's how fast my pain level went down. I am so happy! It seems to me that the NANO SOMA kick-started my knees to begin healing. I don't think it was just a coincidence that my knees feel like they are beginning to heal now that I am using NANO SOMA. It has now been 5 weeks and I feel like my knees are slowly but surely healing. This is the best they have felt in years. They are still weak from non-use for 7 years, but I know that as I continue this treatment, I will gain my strength back as well. I feel fully confident that I won't have to have surgery. I almost feel that in another 4 to 6 weeks, my pain level could very well be gone, or down to a 2 or 1. I will do an update again at that time.

Now, I have to say that I also had purchased a Bemer (pulsed electromagnetic field) machine 5 months ago and was seeing small changes with daily use. It would take the swelling and inflammation down with everyday use and I was able to do a bit more around the house. The Bemer rep had said that many people did not have to have knee surgery with continued use. She did say it would be slow. I think that my knees may very well have healed if I had kept diligently using the Bemer but the healing was painfully slow. I was indeed seeing small improvements though. So now I still use both the Bemer and NANO SOMA. Once I finished the two bottles of NANO SOMA is when I saw the healing begin to speed up.

On another subject, I have been struggling with insomnia for the last year or so. Of course, then I was tired all day long. I have been seeing some improvements in that respect also. Not perfect yet but getting there. Some better sleep and also some bursts of energy during the day.

As I said, I will do another update in a couple of months or so and let you know what improvements I see further down the road.

Thank you so much for the NANO SOMA. I feel like I am getting my life back!

Rosemary Beare. USA 3 August 2021

I began taking NANO SOMA in utter desperation 5 weeks ago. I have improved in numerous ways that have raised my quality of life in body, soul, and spirit. I credit NANO SOMA with turning around the death spiral I was on. I even went out and paid

for a gravesite. The money I was planning to spend on a burial plan I spent on my first order of NANO SOMA.

My gratitude is deep and vast to Dr. Raghu and Dr. Richard Presser. Also, Tank and UNN for being the first to tell me about this in their reports.

KT Wilson USA July 2021.

Hi Richard

My husband and I are both using NANO SOMA (10 days in). We both noticed changes immediately. Our sleeping has improved in that we are both getting deep sleep and waking up refreshed and ready to go, something that we have not had for many, many years. We both initially experienced a not-so-pleasant taste which now is improving.

I am experiencing subtle improvements such as less nervous tension, some digestive improvements, and I have a damaged toenail (I have had it for 15yrs) which seems to be growing from the matrix attached to the nail bed. I am using 5 sprays x 1 daily at night.

My Husband has had long-term health issues due to a childhood viral infection (he is now 59) which we have consulted with many Doctors, Allied health, and holistic practitioners, with little improvement. He has been using NANO SOMA for 1 week today (5 sprays x 2 daily). Improvements include- quality sleep and sleeping till morning, body inflammation is reducing, he has a nail fungal that he cannot get rid of which seems to be growing health.

I know it is still early days, but we cannot believe the improvements so far. This is exciting.

Regards and thanks, C from Australia. 22 July 2021

Dear Dr. Presser,

I'm on day 11 of the NANO SOMA and feel so blessed to have found it. I didn't think I had an experience yet of it until yesterday. I have had difficulty walking for many years because of my back issues with 3 herniated discs, sciatic flareups, etc. I avoid having to go to certain stores as I'm worn out and in so much pain by the time manage to get back to the car. Yesterday I decided to get some errands done anyway. I got to the store and latched on to a cart for extra support and away I went. I managed to get all around the store and was surprised by the time I got to the cashier, I noticed how strong and pain-free I felt! Pain-Free...I never feel PAIN-FREE!

Granted, I'm stiff as I don't get a movement except around the house. I was all smiles!!!! I teared up in the car at the revelation that it was the NANO SOMA ALREADY! I'm so grateful!!!! I didn't expect to feel this so quickly!

I have another revelation to tell as well. I have had chronic headaches and migraines a few times a week. It has been diagnosed as caused by the occipital nerve on the back

of the left side of my head that is always inflamed. Normally, around 8 pm I dose myself with about 750-1000 mg. of Aspirin to keep me from waking up in the middle of the night with a horrible headache. Last night at that time I was preparing to take the aspirin and I felt the nerve which is usually so tender and sensitive.... was shocked that it wasn't that way. I thought I'd take the chance of not taking the aspirin and just going to bed without and see how the night went. I didn't get a headache at all....even in the morning! This is a miracle for me and I haven't gotten a headache today either! That nerve was calm when I woke up and all day today! THE NANO SOMA is at work on my nerves in my back and my head!!! THIS IS A MIRACLE!!!!!!!

I watch all your interviews a couple of times because I get little nuggets that I missed the first time I listened. I have four friends who have recently ordered. I'm trying to memorize the scientific jargon to express it clearly to others.

THANK YOU, THANK YOU, THANK YOU!

And this is just the beginning!! Btw, I'm 79 years old and will be getting younger! P.S.

I don't think it has a taste at all!

Joyce Farinas. Palm Desert, Ca. 13 July 2021

Dear Richard,

I went to the Kinesiologist/Chiropractor, and she tested the same as I did, that now I only need 1/2 the amount of thyroid medication I have been taking for a long time. At this rate, blood tests cannot keep up with these changes.

She said before, when I tried to get off thyroid meds, that she thought it was not worth pursuing. I still needed it, despite what another Naturopath was trying to replace it with which didn't work.

We both tested that I no longer need about 6 expensive supplements I had been taking. Now she wants to try NANO SOMA. You are welcome to use my testimonial. Thank you so much for all.

Best, Lesta Frank. 21 July 2021.

Dear Richard,

I definitely notice a higher vibrational level, happier, less worried, less impatient, more grateful. I am more embodied. I'm doing kinesiology testing for even less thyroid medication needed since yesterday. I will get a more experienced Kinesiology person to test for this. If I'm right, blood tests cannot keep up with this! No more hemorrhoids either.

I'm astonished!!!!!! Thank you SOOOO much!!!

Lesta Frank. 17 July 2021.

Hi Richard,

I'm in USA. I've been taking NANO SOMA since yesterday. I've been on a parasite cleanse for months. This morning I passed a large group of what the Functional Medicine Doctor said were liver flukes and that this is huge! Then I was also suffering from haemorrhoids for days. It was so bad that in middle of the night last night, I got up and did all the home remedies I knew of that had been helping a little, but actually not healing the problem. I had the idea to spray the area with NANO SOMA, and after going back to sleep a few hours, it was like I never had haemorrhoids! The stuff is quite miraculous! I'm 78 and you are supposed to heal slower at best - which makes it even more truly amazing!

Thank you so much!

Blessings,

Lesta Frank 13 July 2021

Hello Dr. Presser,

Thank you for your last 2 emails and info on the NANO SOMA being back in stock... I meant to respond to you sooner and got focused in other directions. I love the product and am sparingly nursing my last bottle as there is not much left. I have some money together now to order 3 more bottles! I would like to report that an enlargement of the right lobe of my thyroid (Goitre) has shrunk significantly, and soon, I expect it will be completely gone. I always enjoy your presence on Jeffrey Daugherty's show, and I look forward to getting

the DPE 100!!! Thank you for bringing us this great product.

Sincerely, Corinne Shea, VA, USA. 21 July 2021

Hi Dr. Presser,

I have sent my brief experience after I started taking the product in my previous email. Anyway, one huge help has been that I don't need to use the inhaler which I had to use to avoid the feeling of grasping for the air. Also, before I was unable to be outside when the temperature was high because I could not breathe in the hot air, but now, I have had no issues since I started taking NANO SOMA on July 9th.

Another thing I've noticed is that I have no coughs when I do yard work or do vacuuming because any movements caused severe coughs before. Also, I can breathe deeply now. Anyway, I thank you for the product. I've been trying to tell my friends in Japan but I think they need time or might be waiting for your office to open in Japan. But I'll continue to share my experience with them.

For more information on NANO SOMA, go to www.thenanosoma.com. 29 August 2022

Have a wonderful evening. Thank you! Asato. July 20, 2021

Hello Richard,

As promised, I wanted to update you some more on NANO SOMA, as I mentioned that I was going to wait for a few more days to see what else it would do for me. Well, yesterday was day 14 since I started using NANO SOMA. The entire bottle is finished, and I am excited to give you more feedback!

Since July 2020, I was dealing with allergy issues due to dust mites. My allergies were seriously acting up, so I was not able to eat and drink as often as I should since the beginning of the year. Currently, I do not take any form of medication. The puffers/inhalers my doctor prescribed in October 2020 were not helpful after using them for a short while. My energy was low, but I got some relief from other forms of natural remedies that I took.

I also had to lie down often due to weakness in my body and pains in my joints. Then, in the early part of May 2021, a friend and mentor of mine mentioned NANO SOMA and what it did and is doing for others he recommended it to. Now, after taking NANO SOMA, my joints are less painful and more flexible. I am taking longer walks and my appetite increased. I also noticed that I did not get a lot of menstrual pains during this month's cycle. This is the very first time I experienced such tremendous relief, as I have always suffered from serious discomfort, cramps, and heavy pains during those delicate times. This is a miracle for me!!! I am very, very happy!!!

Also, one of my older sons experienced mental clarity and focus. The other one experienced cognitive improvement, alertness, mental clarity, more energy, and an increase in his appetite. My youngest son, whom I gave 2 sprays per day, experienced mental clarity as well. Isn't that awesome?

I am fully on board and have already fallen in love with NANO SOMA! God bless you and Raghu always and forever for doing such great work! I am grateful!!

Regards, Sandria Gillespie. USA 20 July 2021.

NANO SOMA results for me Day 7.

- I have had to limit my activities due to my back which I mentioned to you previously. I really couldn't walk more than half a block without sitting down. In the last 3 days, I have walked distances of 15 blocks!
- I enjoyed taking 30% less pain medicine.

- I hadn't slept more than 2 to 4 hours at a time for just about 2 years, and in the last 2 days, I have slept 7 hrs and 7.5 hrs.
- I have a far clearer mind consistently.
- I have double the energy throughout the day without a low point in mid-afternoon which was customary for me... I would grind through it. I haven't had that for 3 days now.
- My dog continues to do extremely well.

- After a time, I will have a biopsy done again to determine whether my lichen plans and lichen sclerosis will be gone.

Thanks, Anahata Graceland, USA. 17 July 2021.

Hi Richard,

Thank you so much for bringing NANO SOMA to the world. I work as an FNTP (functional nutritional therapy practitioner) and I use food and nutrients to help people return to wellness. I take good care of myself but have had difficulty nailing down the inflammatory cause of my hypothyroidism (despite removing the foods to which I'm sensitive.) I've taken NANO SOMA for a month, and now have no external markers for hypothyroidism. (Pre-tibial oedema is a good test point. None now!)

NANO SOMA seems to work for acute reactions to food sensitivities...Last night, I had Pad Thai for dinner from a local restaurant. A half-hour after dinner, my tongue was swollen and sore. "Ugh," I thought, "food sensitivity!" I sprayed five sprays of NANO SOMA to the back of my throat and five more directly on my tongue...I held it in my mouth and didn't swallow for about a minute. Very shortly thereafter, my tongue stopped aching and the swelling went away. This morning, I had no symptoms at all. Wow.

Additionally, I noticed that my dream sleep returned almost immediately when I started taking NANO SOMA! I've told so many friends and clients about this! Thank you so much for what you do.

Sincerely, Antoinette Caruso. 17 July 2021.

Thank you so much, I love NANO SOMA. My teenage son has bad acne, and with one bottle which he isn't even done with, his face has almost completely healed. He looks so good. He needs a heart valve, so I hope this helps that. He is very healthy despite this and has plenty of energy. I love how I feel all over.

Beverley Young. 10 July 2021

Shortly after starting NANO SOMA the regular problems of blocked sinuses and resulting headaches which I suffered from for years are no more. Even though I have run out for the moment, the problems haven't come back (yet). And as for my thought processes, well my days are so much more productive. Thank you. Kind regards, Kenton. 5 July 2021.

Hi everyone, I want to share my experience with NANO SOMA.

I have been taking this for a month now, and for me, it has been a painful process. I was born with what the doctors call Eczema, and have been on prescription Cortisol Cream since a child (I am 35 now). I have also been overprescribed antibiotics, and due to a lowered immune system, I have been very susceptible to viral infections.

Since taking NANO SOMA, it has brought forward viruses that I had no idea that I had, the worst of which presented on my face. This was extremely painful whilst the virus was being eradicated by the NANO SOMA. However, once it comes out it is gone forever. I just want to warn you that unless you are in great health and have been all your life, it is highly likely that you will have a transition period where there will be some pain as the damaged cells are identified and pushed to the surface to be shed.

For me this is invaluable! A cure for everything! It is worth the pain. This is a picture of my face while the virus was being shed and healing.

Jen. July 15, 2021.

I am writing to tell you about one big thing NANO SOMA has done for me. I have Diabetes 2 and 3 months ago my A-1C blood test was up to 6.4. I have had it even higher than that in the past. After taking NANO SOMA for just one month (I also did the accelerated protocol that you do if you have an affliction). The A-1C blood test I had taken 2 days ago, 3 months later than the last test was down to 6.0, which shows my body is healing from Diabetes! I have also eaten a lot more sweets during the last 3 months because I have an insane sweet tooth and having the A-1C going back down to 6.0 is amazing! Normally it would have risen higher because of the number of sweets I have eaten! (Blame the sour gummy bears, lol!) Also, my Blepharitis has pretty well disappeared (a fungal infection of the eyelids)! Ilse Barros 25 June 2021.

Dear Dr. Raghavan,

My name is Kim Cooper. I am 62 years of age and I think I have Pneumonia; extremely bad chest pains and struggle to breathe. I could only get up at 10 in the morning and it took me forever to get ready for a job in which I work a few hours a day or when they need me. I am not overweight at all, so it defiantly was not a weight problem. Many, many nights I could not go to sleep because of breathing problems and my heart rate would speed up. I was constantly on Disprins just to help with my heart rate, and I could not afford to go to the doctor. I was anxious about everything, tense, and constantly nervous as well. Everyone suspected that I had a very bad dose of COVID19, and I just got worse and worse every day.

I was invited to the NANO SOMA channel and I saw all the excellent results. I couldn't help myself, I was desperate for some kind of help, so I reached out to you. Not many companies are doing well and I knew I would never have that kind of money. So I reached out and you gifted me two bottles. I was shaking so much when I received the 1st bottle and immediately took 5 sprays under my tongue, and 5 sprays every 4 hours as on the bottle, including at night. I put my alarm on to take my sprays at night, and within 2 and a half days I could breathe, and I started coughing up a huge amount of stuff. My hair was falling out by the hand full. On the 4th day, my brush was looking much better and cleaner and my daughter nearly fainted when I showed her. The 1st and 2 days on NANO SOMA I got a very high fever. On the 1st and the 2nd day I had very bad headaches, the fever subsided by the evening, but the headaches lasted for about 2 hours, maybe 3 hours, and then they subsided. I continued to spray 5 sprays every four hours, even at night I woke up to spray religiously, and my healing began very quickly after 3 days.

Before I started on NANO SOMA, I was also extremely depressed and couldn't get out of bed, unless I absolutely had to.... My body ached everywhere. Today, I arrived at work at noon and am doing slides.... It's unbelievable. My energy level has increased. I'm still a little slow and my depression at this moment has cleared up it seems. I felt I could no longer cope with life, it was just too hard to get up every day. I felt exhausted 24/7 and struggled to

breathe. I did spend a few hours on Monday crying. It was like I had a pain in my heart.... that was Monday. But today I am doing slides, I cannot believe it myself.

I thank you from the bottom of my heart. My company will be gifting me another 2 bottles so I will get in touch with Surya in Durban as they cannot believe it themselves. They are so happy I am getting well.

If there is anything that I can do in return for this gift please let me know as I have just been given my life back and I am extremely grateful.

Kim Cooper, Cape Town, South Africa. 29 June 2021

In February of this year, I shattered my tibia and fibula bones while snow skiing. During

the first surgery, they fitted me with an external fixation device to stabilize my leg. A month later, I had a second surgery to remove the external fixation and place the immobilization metal into the bone.

Six months before my accident, I sprayed NANO SOMA internally twice per day - then postsurgery, I began topical application directly to the injury site and post-hole infections as well.

To my amazement, all infections were resolved entirely within weeks, plus the need for pain medications was significantly decreased. I experienced zero withdrawal symptoms coming off the pharmaceutical drugs, and all of my muscle flexibility and scars healed quickly. I can also attribute a substantially better mood and a hopeful outlook that I know would not have been present without NANO SOMA during this time. At my final doctor visit, he stated that I was "weeks ahead of schedule." I now enjoy mountain biking with no pain and notice only a slight loss of cardiovascular capacity, despite being sedentary for four months! My experience with NANO SOMA as an alternative medical practitioner has proven the importance and vital necessity of this product needed on the planet today.

Gratefully yours,

Glenn Streeter. 25 June 2021

Richard,

This is an update on my NANO SOMA use for the past months. I have had a Johnson and

Johnson shot adverse reaction 5 days post-injection, with a full-body rash that sent me to the ER /hospital for two days, with the only conclusion that it was the shot. I had put NANO SOMA directly onto the shot site and 5 squirts right after getting the shot. I do believe it stopped the reaction from being worse (somewhat itchy all over). I did report it to the Federal VAERS because I don't believe that the hospital would report it.

My asthma is still reduced as reported previously, although I do get some symptoms at times (I live with a smoker). Applying NANO SOMA to some skin tags cleared them up right away, although some other ones popped up that I am now treating with direct sprays.

My dog is doing well with her peripheral neuropathy and can walk longer distances now. All four legs are stronger, and she is happier and more playful. She continues to get 5 sprays a day on her food of NANO SOMA and will continue. I highly recommend this for animals for all kinds of problems. I am starting the other older (10 yo) Rottweiler on it for his arthritis.

Lynn (Buffalo, NY). June 25, 2021

Nano Puppy Miracle

After exposure to a Covid vaccinated person this lesion/ pustule appears. It got worse over the next two days with dark black blood bruising under the skin around the blister and dark red blood inside raised portion, then full body tremors began lasting about two days.

After a week of spraying, nano tremors disappeared, the lesion fully healed, and today no evidence of illness. The entire underbelly looks completely normal and behavior and motor skills are normal for 6 week old puppy.

April 2021

Dear Richard, Peace, and love be to you.

I have used Nano Soma in my eyes and ears with an eyedropper. My eyes are better with no redness and in my ears, there is no more pain. I still have hearing loss. My blood pressure is very good. I walk every day or bicycle, I keep active. Thanks to Nano Soma and Richard Presser.

Alvin Schultz June 13, 2021

I received the Metasomer skin cream. It smells divine and feels amazing. Thanks so much!!!

Blessings,

Kerry Cassidy (Project Camelot), June 2021.

Dr. Presser,

I wanted to share with you: I had a litter of puppies born 4-3-21 and one was born hypoglycaemic - blood-red paws, face, etc.

Instead of using high fructose corn syrup to bring the glucose levels up, I felt called upon to administer NANO SOMA to the newborn. I asked Spirit how much and it guided me to .075 mL- basically a teeny drop. I put it on the puppy's lips and watched in awe and reverence as, before my very eyes, the pigment began to fill in the bloodred places.

The puppy is developing normally with proper weight gain, nursing beautifully, and seems content. He looks just like his 9 siblings now, 6 days later.

Photos before and after NANO SOMA

WOUND HEALING

On January 4th, my 94-year-old mother was admitted to the hospital with a gash in her leg that went from her knee to her ankle. It was a horrendous wound and she was flown to Adelaide for major surgery and skin grafts. Once home again, the wound that had the grafts healed reasonably well for someone of her age; however, the area on

where the grafts were taken from remained slow to heal. Four months later the wound

had not healed at all. As she was in care, the wound had been kept bandaged,

was not able to see it.

so I

Not

being able to enter the facility due to the COVID restrictions had hindered me from keeping track of her progress.

On May 2nd, I brought her home from the Nursing Home and decided to check out under the bandage. This is what I discovered. I was horrified! There was pus oozing from the wound and my first thoughts were "gangrene!"

I immediately reached for the NANO SOMA and sprayed 3-4 sprays directly on the wound and rebandaged it before returning her to the Nursing Home. I had been attending daily and spraying 5 sprays of NANO SOMA in her mouth for the previous 6 days. I made a plan to speak with the Dr. urgently and work out what could be done for her wound. Today, I brought her home again and removed the bandage and could not believe my eyes.

Just 48 hours later, with nothing other than 3-4 sprays on NANO SOMA and reapplying the bandage, this is what I discovered. Truly incredible change. Bear in mind it is now four months since she had the surgery with no sign of healing.

I CANNOT WAIT TO SEE WHAT A DIFFERENCE THERE WILL BE IN ONE OR TWO WEEKS TIME! --- Heather Wardale April 2021

UPDATE! 13 May, 2021.

May 11th - 9 days later

May 13th - 12 days later - After four months of not even looking like healing!

Not to mention how painful it was!

As the wound is from skin grafts the scarring may stay - however what we have experienced so far with the NANO SOMA one can not be sure if the scarring will remain!

Something else of interest is that she has had two very nasty falls in the past week. Normally she would be "black and blue" with bruises from a fall. However, this time practically no bruising! Can you believe that? I almost cannot! She has one dark bruise on her shin area that is all! Heather Wardale 13 May 2021

I am Harish Kalambe, 41, living in Amrut Nagar, Ghatkopar (W), Mumbai. I am sharing my experience with COVID-19.

On 29th June 2020, I felt feverish and it lasted for 3 days but the fever was gone as well as symptoms like itching in my throat and coughing.

Then, on 2nd July 2020, I went to my family doctor, and he prescribed a few medicines - DV2K, GABRON-XL, PARACETAMOL, GRANIFORCE MD & FAMOCID. Also, the doctor told me to go for a CBC blood test. I took one dose of medicine on 3rd July 2020 and suddenly I felt a problem of breathlessness. Then it was confirmed that I was COVID19 positive. So, I moved to a separate room and called my cousin, Mr. Abhisekh, about my problem and requested he help me get admitted to a COVID-19 hospital. He told me about the NANO SOMA Immune spray for COVID-19 infected people.

On 4th July 2020, I called the NANO SOMA representative in Mumbai to supply one bottle, and within an hour I got the product and without wasting time, around 12:30 pm, I took 5 sprays in my mouth. I took NANO SOMA every 4 hours. I was having breathlessness while standing but no breathlessness when sitting and lying on the bed, but no breathlessness after the first 5 sprays of NANO SOMA. However, as soon as I stood up, the breathlessness would start immediately. This continued for two days and on the third day, it stopped. After I started NANO SOMA, I stopped all medicines. I took only one dose of prescribed medicines. Thanks to Dr. Raghu who invented NANO SOMA which is a wonderful product. On 9th July 2020, I went for a COVID-19 test and it was negative and an antibody test on 13th July 2020 was positive, showing antibody presence at a value of 12.9.

Thank you to the Discoverer of NANO SOMA, who saved my life and also money, I did not need hospital treatment.

Thanks & regards, Harish July 2020

Thank you again Dr Raghavan...I'm healing in record time. I'm seriously off my sinus meds, allergy meds, my inhaler, my blood pressure meds, my water pills for oedema and my anti-inflammatory pills. I've cut my migraine and thyroid medicine by half. I've had to cut my insulin in half because it was taking my blood sugars too low. It healed my face mask blisters, my earache, and I've lost 10 pounds, and I am now taking less pain meds.

Testimonial from Tina Wilkes, June 2021.

Dear Richard, I just finished my 4th bottle of NANO SOMA! I must say that I felt it working the very first spray! I have more energy, I feel healthy inside and out! I need to order more, but have to wait until payday! I gave a bottle to my friend and she loves it! I can tell when I don't use NANO SOMA! I don't feel as good! As soon as I get paid, I will be ordering more! NANO SOMA is a great product!

Kind Regards, Sonda Reed June 17, 2021

I received mine yesterday. My spray chamber did not work. I had a syringe because I'm an insulin-dependent diabetic since 6y/o... I'm half a century now. My sugars have been out of control forever...my A1c is 12 (normal is 6-8). I lost my leg due to slow healing.

My blood sugar was 545 (very high) last night. I used the syringe to aspirate 1ml (equals 5 sprays) of the NANO SOMA... put it under my tongue (quickest way to get into my body) and slept. This morning I checked my sugar. It was 99. (Normal range: 80-120). I feel great. I will keep track of my blood sugars to make sure I'm on right track.

I've been trusting Creator God for healing for at least half my life. This is the door God opened for me. I'm walking through it. This is my testimony so far. June Glover, May 2021

Dear Richard,

My writing to you today is a testimonial of the truly amazing results that NANO SOMA produces. I am not going to repeat what others have said about it.

I shared with you and Raghu my test data from my body scan and it shows amazing health improvements. What it cannot show is the other changes occurring to the human body.

As you are aware from a past letter to you, I suffered lifelong idiopathic scoliosis to my lumbar spine. The curve was at 40 degrees in the lumbar region. For those who don't know of the disease, it can be debilitating, putting it mildly.

One of the conditions for the cause is a muscular imbalance in either lower region of the back and buttocks. The brain cannot send signals for the muscles to grow and stabilize the cavity. In my situation, from childhood, I suffered from the get-go. I will leave out the details.

You have the full story.

Last year, I used my VPN to research childhood scoliosis and muscular disease and I found out from CDC reports released outside the US that the POLIO VIRUS was induced in the vaccine! It is not a natural disease. So, many children were vaccinated and many got sick or died as a result of the jab.

Then I pieced it all together. I suffered a mild form of POLIO - not enough to incapacitate me, but enough to cause me much suffering.

My right-side muscle systems were deformed and underdeveloped; so, as I grew older the condition accelerated.

As a result of my decision to follow my spiritual path and study REIKI and QUANTUM TOUCH, I began to understand and keep myself active as much as possible.

Last summer, after 6 months with NANO SOMA, I began to lose weight and become fitter. At 70 years young, I had knee issues and with Richard's help, those conditions were cured.

In September, I was fit enough, so we decided to sell our big home and downsize. In November, we moved into a beach house rented for the winter on the ocean in upper New England. Living on the ocean, allows me to enjoy the real world with no demands.

In January 2021, I began to notice my lower muscles on my right side are growing to normal size, and my balance is normal and I have no back pain.

I can now flex my lower muscles independently, which was impossible before. NANO SOMA is flushing out all the damage done over many years.

Mind you, I have refused any vaccination since I was 18 (I never trusted the system). So, in closing, this is starting year two on NANO SOMA and we will see what comes of things.

Richard, I will say it again. You and NANO SOMA saved my life.

Warm Regards, Charlie Zevitas February 2021

Richard,

Rarely, and I speak as someone who has passionately sought out the truth about nutrition and diet for over 45 years, do you encounter a novel yet ubiquitous element, properly prepared and packaged for the average person: NANO SOMA.

My experience with this product is so profound that words will only approach my experience.

After using for a couple of days, consuming five sprays about five times per day, I noticed that a ten-year-old injury was suddenly gone. This injury to my left thumbnail separated the nail from the bed and was unsightly to me. I noticed it every day. I had tried everything to remedy this injury and nothing worked, for ten years. I can only attribute it to stimulation of my endogenous stem cell production.

My clarity and ability to think through complicated issues as well as my focus was also enhanced past what I thought was possible and it lasts all day; no slump. Coffee will not achieve these levels of focus or clarity. And after taking it for about 2 months, my clarity has improved even more.

Another issue for me was what appeared as a dark spot on my right leg, small at first 30 or 40 years ago, it grew from about 1/8th inch in diameter to about 1.5 inches in diameter. This spot, whatever the cause, only seemed to grow regardless of what I treated it with. Now it is barely visible and almost gone after a month.

My friends who've used NANO SOMA at my insistence have also found remarkable and even unheard-of results as their bodies have suddenly switched on, from diabetes to thyroid issues resolving themselves within days.

My understanding of health and the body tells me the product is not a nutrient or doing anything. It's your body. Nano Soma is merely a messenger, like a ringing bell, alerting the almost perfect human system to turn on and off when needed. We possess all of the necessary ingredients to have remarkable health; however, life, environment, and a myriad of other items have negatively influenced our systems. NANO SOMA signals the system to turn on and that's amazing.

Profound thanks to you and Raghu for your dedication and for bringing this product to market. It's a gift for all mankind and no wonder a shrine was constructed 5,600 years ago to its origin. We've forgotten many things in history, even as our bodies have forgotten, and now NANO SOMA is our wake-up call to health and vitality.

Regards, David G__ May 2021

Good morning from this side of the world!

I am absolutely loving this product! I have more energy and focus and have only used it for 3 or 4 weeks! The results are noticeable, and I can sense my demeanour shifting the moment I spray it into my mouth! I have 3 bottles, but will be sure to replenish this when I am getting low!

Be well! Julie Boehr March 2021

Hello Richard,

I live in a small community, and I believe most in this community and even most of my friends think of me as a conspiracy theorist and do not believe anything that I believe. I wore a mask twice to see my premature granddaughter in the hospital. She was born on March 21st. She is tiny, 5 pounds 3 oz today and, doing fine. Luckily, I have a daughter who watched "Shot in the Dark" a vaccine documentary and did not vaccinate her son nor is she vaccinating this tiny one. That was my birthday present to me if she would watch it and fortunately, she did. It horrified her to see infants doing well and getting the vaccines and becoming gurgling and unresponsive babies.

Most people see me as that lady who will not conform to wearing a mask and is harming them. When people wear masks, it makes it quite easy to just pass people by as we cannot see who they are anyway. Conversations have disappeared.

So, for me to tell anyone about NANO SOMA would not be very productive. I have lost weight using it and I was 135 and now 120. I am more agile and I am soon to be 70. I can get up off the floor, now, with ease. People say I am looking younger. I have always been in pretty good health and have not been on any medication because I think it is all crap and is only harmful.

So, I will continue to use it as I believe it is helping me stay younger.

The consciousness we are inside of is a challenge for all of us that are awake to it. But it will change, and NANO SOMA will play its part, IMO.

Cheers Donna April 2021

Hi Richard,

I hope you've been well! Just to briefly share, I'm on day 11 of the protocol. I've told you in the past the terrible pain and illness I'd get from dysmenorrhea and PMS. I'd be unable to get out of bed and nothing could make the pain alleviate. I'd also feel incredibly low – something must have been off with my hormones. Anyway, today, I had the first day of my period and didn't have a single symptom. That's a paradigm shift for me. I used to spend the whole week before the event dreading it!! I didn't have to stop my work or studies, and I feel great... That has been my most miraculous result from it so far. I am so grateful... Thank you, Richard, and please send my thanks to Raghu as well.

Erin April 2021

Hi Richard,

I have allergies every year and every year I have had to take antihistamines from March to June. And this year, since March, I took only 3 pills, so far. Last year I had to take them every 24 hours.

So, something going on in my system. And the only thing I take is NANO SOMA. I think it has an

impact on my health.

Suthida April 2021

Good day,

I just wanted to share with you: I learned about NANO SOMA from Jeff Daugherty and I ordered a bottle. Then, a few days later I ordered 6 more to give to family members and a friend whose son is extremely autistic. The first day taking NANO SOMA, I noticed that I had so much energy like when I was in my early 20's, again. I have now been taking it for a month and I cannot be more pleased with this product and I tell

everyone that I can about it. It is a miracle product. I would love a chance to be an affiliate for your product.

Stephanie April 2021

On a small front, I put 2 sprays of NANO SOMA into my largish bird bath, along with the usual CO2 (plasma water from the GANS of CO2), and the water has remained utterly clear and pure for over a week, despite birds using it. It normally starts to ferment by the end of the day if it is warm weather. The bowl itself has not gathered any green slime, etc. Small, practical...but still proves the product, doesn't it?

Warm regards, Susan

Richard,

I have been taking NANO SOMA for about three months, now, and have just started my Rottweiler on it. My results have been varied but I have noticed a decrease in my asthma reactions although I do live with a smoker who smokes in the house. I still react to the smoke but have had less general coughing and need for my rescue inhaler for

most of my asthma symptoms otherwise, which is great! More recently with spring allergy season, I have noticed a greatly reduced reaction to my usual allergens,

especially the huge Magnolia tree just outside our front door! Along with using colloidal silver, I am in the process of curing a UTI over the past week, which I attribute to both the NANO SOMA and the silver without antibiotics, yeah!!

My dog has had for over the past year a progressive peripheral neuropathy, with weakness occurring in all four legs. She is only 3 years old. She has gone through extensive joint and blood testing with no definitive results. My diagnosis is neuropathy because I have seen it in adults as an Occupational Therapist for over 42 years (now retired). I put her on the NANO SOMA, 5 squirts once a day for the past 3 weeks and already she is walking up on her feet and not her "wrists" and wanting to walk

- 98 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29 August 2022

for longer distances. Her personality has brightened, and she is more herself, playful and joyful! I can't wait to see her get better! So, for those out there wondering if animals can use NANO SOMA; Yes, they can!! My cat has glaucoma, which has turned for the worse, so I am going to try it with him. Just have to figure out how to get it into him (LOL). I will keep you updated on all our progress.
Lynn April 2021

Hi! Richard, I just wanted to give you a brief update as my husband, son and I have just started using NANO SOMA. I have been in the healing field all my life and people call me for help from all over. Well!! No need now!! There is NANO SOMA. My husband, and son, use 5 sprays a day, and I, 7 sprays, just because I like the number 7 lol!

My husband and I are in our early 60's and I hope we are in pretty good shape. Anyway, my husband had some squamous cell on his back that for a year now I've been using Curaderm

cream on it (eggplant cream). It's supposed to work on basal cells and squamous cells, but it just never quite could get all of it. I used the NANO SOMA on it and it's absolutely drying up completely and going away. So happy about that!

For me, I had a bad haemorrhoid from childbirth that I used so many different methods to clear up. Well, I noticed it's barely there anymore!! I know that might be too much information for some people, but anyone that has them, which are many, will know how exciting this can be to have this go.

We all notice more energy, better sleep, our blood sugar i-s much better balanced as cravings for sweets and the energy dumps have dropped off for all 3 of us, maybe a bit of weight loss, which is great. Now my son, ADHD, low-level anxiety, leans towards seasonal affective disorder, he seems just all around balanced better, much calmer, notice end-ofday not so worn out, sleeping better, body not aching from physical work, mood better.

We are looking forward to continued healing. Very impressed so far and it's only been 2 weeks! I feel so blessed that I was led to finding NANO SOMA and I return the blessing by passing this on to others for their healing and better health.

Thank you! Julia

Hello Richard,

YES!!! I am having great results with the NANO SOMA and have been taking it now for 10 weeks.

During the first week, I had a few days of sore eyes, dizziness, earache, very tired, dragging my body around, and the NANO SOMA tasting like soap! A week later, the soap taste is

almost like water, my energy levels are very high and continue to be so, and I can do whatever/whenever I want... Such a Blessing! Also, an old arm soreness when raised above

the shoulder reappeared about week 8. I applied NANO SOMA to the skin in that area 2x for one day... it went away but came back a week later, so I put on more all around the arm and shoulder 3x/day for 3 days and it suddenly disappeared.

Also, I need less sleep. Also, my food preferences have changed. It was noticeable when I installed my DPE100 but was much more pronounced since starting the NANO SOMA. I used to eat a lot of meat while on the Paleo diet a few years ago and the last couple of years, I've wanted a little less but since the NANO SOMA, I detest meat - it makes me cringe! The same goes for all cravings, almost addictions to dairy, grains, processed foods, highly sweet things, alcohol... also for going on the internet/social media...It has all fallen away...

I feel like there is now a definite choice and I at long last feel like I AM FREE! All I want to eat now is wonderful, delectable healthy fresh fruit and vegetables and manage my time in a much more productive way. It helps to manage sleepiness while traveling and makes a good deodorant, too!

I am so thankful for NANO SOMA and all the Light Beings of the Most-High who enabled this to come to Earth at this time for the Highest Good of All.

And thank you so much, Richard, for bringing these things to our part of the world. Very much appreciated.

Love, Sunshine, Rainbows, and Hugs Theresa
Beecroft

Richard,

This product is amazing. My hair is growing and darker, my vision has changed from 20/30 to 20/20, I feel better, more energetic, my sleep is excellent. I am on my 2nd bottle. I do 3 sprays in the morning and 2 in the evening and will keep doing this till my last day on this planet. Thank you for introducing me to this product, you are a godsend. Please stay safe.

Walt Bruyn

Hi Richard,

It truly is a miracle; I am ready to order 3 more bottles next week. The results are amazing. I wish I knew about this 10 years ago. I am 73 and people say I look like I am in my late 50s/early 60s. I feel a lot better, have more energy, no COVID-19 and I sleep well. Again, thank you for recommending this product. Please stay safe.

Walt Bruyn January 2021

I sure am feeling so good with NANO SOMA, I can just about do everything but walk; thank you, Richard. I'm trying to figure how to get more. It is not a drug but it is my lifeline. I don't hurt much anymore; missing having both legs.

Barry April 2021

Dear Richard,

My mom is 85 years old; she gets terrible bruises from the smallest thing. Well, well, she was not even on NANO SOMA for a week when she knocked her hand against a chair and as usual, we were expecting a HUGE nasty bruise. It did not happen!! She got a tiny bruise and when I sprayed a little NANO SOMA on it the next day... (she was taking it orally, too), it started to go away!!!

Do you know what kind of miracle this is? It normally takes a bruise on my mom MONTHS to disappear. I can't wait until the cream comes out, too. Also, could NANO SOMA possibly firm the skin? Especially when applied topically? After this, I have high hopes.

WOW!! We are wondering what new miracles will happen next.

THANK YOU

Carla April 2021

Dr. Presser,

I'm not sure where to even begin. I began to feel things breaking down in my body almost a year ago - I won't bore anyone with the myriad of details - but I've been keenly aware that my biggest issues the last few months have been liver, gall bladder, stomach, and intestine/colon issues. More than that - I began noticing how sore and stiff I was getting out of bed in the mornings in addition to all the liver/gut issues - more than likely a lymph system that was pure sludge...

For over a year, on a scale of 1 to 10, I have lived with a pain level of 5 to 8... at times going from 8 to 10 - finding some relief from my Acupuncturist and my Chiropractor, who does more energy work than "cracking bones." But never being 100% pain-free. I couldn't make it through the day

- 101 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

without a nap from an hour to 2 hours... sometimes needing to sleep all day... brain fog - a depression that I was on a downhill slide that I wouldn't be able to come back from...

I first became aware of NANO SOMA a few months ago concerning COVID-19 - and interested in the results - but as I began to read the multitude of testimonials - and what it was helping people for - you had another person say "it was literally calling out to me" - and it did... I too have an extreme and highly developed "intuition" - my body talks to me all the time... and it seemed to be screaming for this.

I wasn't prepared to be writing to you so soon - but had to. My product arrived yesterday - and having read the protocol - I knew I would "listen to my body" - I also read on the protocol about the time that you might go through a healing crisis - having been through many of those in my life - I knew I had to be careful - I have THE most important appointment in my life coming up that will be requiring a sharp mind and a pain-free body as possible - not knowing the exact day of the appointment - but knowing it is soon - I had to go by instinct in my dosages to ensure I would not be in the middle of a healing crisis at the time I was called for this appointment...

Knowing all that was wrong with my body - I fully prepared to give NANO SOMA a good 30 to 60 days to feel any difference.

Well - I received my product yesterday at 12:30 pm - took my first dose at 12:35 pm - and "intuitively" took another dose before bed. I woke up at 1 am thirsty - got a drink and upon returning to bed - laid there for a moment and realized - upon going to bed my pain level exceeded a 15 - (I was in crisis) but at that moment at 1:00 am - I realized I was literally in NO PAIN - none - got out of bed this morning - with NO PAIN... this was 12 1/2 hours after my first dose! My energy level and mental acuity are off the charts! I do not doubt that the other major issues will begin to resolve themselves sooner than later. My Acupuncturist has always told me that she's never had a patient whose body knew what it needed, wanted, and responded to so clearly and quickly - and I got to experience that again - first hand with NANO SOMA... in LESS than 13 hours...

Thank you seems so inadequate - but thank you... rest assured I will keep you posted on my progress...

Susann Turnbull April 2021

Hi Richard,

Unfortunately, I had the first Pfizer COVID-19 injection. within minutes I felt lightheaded and 24 hours later, I broke out in itchy burning hives which lasted for seven weeks. (until I started NANO SOMA) The doctors had me on IV antihistamine 60 mg...

two other prescribed oral antihistamines with no prevail. Then a friend suggested NANO SOMA.

(Drum roll.) 48 hours later I woke up and noticed a shift. I was not burning or itching or even breaking out in hives. I am so elated.

Silvana April 2021

Hello Sir,

I am Ganesh and I work as a Sub-Engineer at MCGM, 31, living in Ghatkopar (W), Mumbai.

I wish to share my experience with COVID-19.

On the evening of Thursday, 18th June 2020, I felt a problem of breathlessness, so I talked with some of my friends about this problem. Some of them suggested to me that this kind of problem may occur due to wearing a mask for a long time, and they also suggested that I take steam with added cloves and cinnamon, and also told me to take milk with turmeric. I followed those steps, after which I felt better in the morning; the problem of breathlessness was reduced.

About that time, I began wondering – is this related to COVID-19? But I didn't have other symptoms such as a fever, cough, etc., so I thought this breathlessness problem is due to wearing a mask for a long time. Still, to avoid the risk with my colleagues, I didn't go to the office on Monday, and when I felt I didn't have much of a problem with breathlessness and didn't have any other COVID-19 symptoms, I decided to go to the office on Tuesday. But, again, in the evening of Tuesday 23rd June 2020, I felt the problem of breathlessness and the next morning I felt some body pain and minor fever after waking up. With such symptoms, I decided not to go to the office and to take complete rest (still I wasn't sure whether I have COVID-19 or not). I was living with my wife and she took care of me, giving me steam regularly, adding cloves, cinnamon and providing turmeric milk. While resting I was feeling better, but after walking and working, the breathlessness and body pain problems returned.

With this experience, I tried to take maximum rest and minimum movement. The symptoms continued until Saturday morning. In addition, my wife Ruchita, 24, experienced a breathing problem and a sore throat on Saturday morning (27th June 2020), so on the same day, we decided to have a COVID-19 test. For testing, we went to MCGM's Rajawadi Hospital, Ghatkopar, Mumbai, where they took our samples (throat swab) and after hearing of our symptoms, the doctors prescribed medicines. The next day, 28th June 2020, we received our reports, in which my wife Ruchita Shelke detected positive and I tested negative. The doctors also checked our chest xrays and said the xrays were clear and normal. Since my wife was COVID-19 positive, the doctors gave her 10 tablets of HCQ for five days (1 for morning and 1 for evening), in addition to medicines prescribed on the previous day.

On 29th June 2020, we received a phone call from another doctor, who asked where would my wife like to be admitted, but as we live in a 3-room house where Ruchita could stay in a separate room, the doctor agreed to home quarantine, and also he advised us to take medicines, which were suggested on 27th June 2020 (the course of which we had started on the afternoon of 27th June 2020) and HCQ given on 28th June 2020 (the course of which Ruchita started on the evening of 28th June 2020). Now, with rest and medicines (we completed the course of prescribed medications), my inlaws provided meals that helped us to rest and provided us with good food. From 27th June, we started regularly to take hot drinking water, gargling with hot salt water, turmeric milk, kaadha, and two times steam with cloves, cinnamon, and Nilgiris oil; we are still practicing these things. After hearing of our problems, my officers Shri Ramesh Deshmukh Sir and Shri Ramesh Kurhade Sir suggested and also provided 'NANO SOMA NUTRACEUTICAL' to us. We received this bottle on the evening of 01 July 2020 and as per the recommendation, I started to take 5 sprays 6 times a day, my wife takes 6 sprays 2 times on 1st July, 5 sprays 6 times on 2nd July, 6 sprays 7 times each on 3rd and 4th July.

In my case, after taking the 1st spray on the evening of 1st July, the problem of my blocked nose was gone after 1 or 2 hours, also my problem of breathlessness was reduced drastically from the morning of 3rd July 2020. In the case of my wife, she was feeling very weak from 28th June to 3rd July; from 4th July her weakness was reduced. She had a sore throat and a little weakness and breathlessness (breathlessness is not continuous and intensive, occurring mostly before sleeping at night and for a few times during the day) up to 20th July 2020. From that date. we have both felt very well and completely recovered from COVID-19.

Thanks to NANO SOMA and Dr. Raghavan, sir, for such a wonderful innovation.

Thanks, and regards,

Ganesh S

Hello Richard,

I called a lot of friends and told them about my ankle. They all ordered NANO SOMA.

Three ordered 12 bottles, the others ordered 5 bottles.

I originally ordered 5 bottles and then, after my extremely painful ankle became painfree, just less than an hour after 5 sprays of NANO SOMA... I ordered 12 bottles more. I don't ever want to be without.

Many blessings, Jane R - in Phoenix, Arizona February 2021

Dear Richard:

- 105 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

I have not been using the product for long. I'll just tell you small surprises. My arthritis pain on my third finger right hand is not painful anymore, just a bit stiff. My stuffed-up sinuses have improved and the pain across my forehead is gone. Also, on Sunday I stepped right out of the bath instead of having to haul myself out by using a bar attached to the bath.

Pretty good eh! I am now taking 3 sprays in the morning and 2 in the evening. This is the best I can do for now.

Blessings, Kathleen February 2021

I have had psoriasis, eczema, and seborrhoea all my life. I have improved my skin a lot over the years because of the work I do. However, there have been a couple of large spots on my scalp that have been hard to shift. I started spraying the NANO SOMA on them about 6 weeks ago, daily. The improvement is very encouraging. One spot has

almost gone and the other is reducing. I hope they will both disappear very soon. It's a shame I don't have before and after pictures, but I didn't think to take them. Of course, I will re-order when I need to but, now, I still have 2 bottles left. I also believe you can cut out many other forms of medication if you take the NANO SOMA, but this is

very particular to the individual.

Blessings, Barb February 2021

Dear Richard,

Thank you for your message. I started using NANO SOMA a week ago and although I was quite fit already, I feel more relaxed, mentally sharper, have better concentration and, have more stamina during sport. I will certainly order NANO SOMA again!

Best regards, Erik February 2021

I have already reordered once and am getting ready to do so again quite soon. NANO SOMA is amazing stuff! I had Morgellons for around 3 years, a year and a half before I figured out what it was. It broke 2 of my teeth and ravaged my hair. The other day, a friend of mine commented that my hair is starting to look more like it used to. My sleep is better, and I generally have more energy. I notice NANO SOMA becoming less bitter.

I also have a growth or tumor on my hand. It's big and people have been bugging me to

go to the doctor and have it removed. I don't think that's a good idea. I've been spraying it with NANO SOMA and it's starting to come apart. Pieces of it are coming off. I'd love to

have the cream or gel for it but spraying works, too.

Lorie January 2021

Hello,

Nisha here. For the past week, I have been suffering from food intolerance, which caused diarrhea. As a result, I was admitted to the hospital for 2 days. Following this, **I was tested for COVID-19, and it was positive.** Murli sir recommended NANO SOMA to me and

gave me instructions on how to consume it. After taking his advice and medication, I am completely recovered after just 36 hours. I will have results by Monday for both the COVID-19 and antibody tests.

Thank you, sir, and NANO SOMA. August 22, 2020

Hi Richard

The function of my Islets of Langerhans is now 97% today! (This illustrates Deb's recovery from Type I diabetes.) I'm almost there!

I have to say that while the process up until 70% was easy and quite joyful, it has since been extremely tough and there were times when momentarily I fleetingly felt like it would be easier to be an insulin-dependent diabetic.

It has required an intense reality check on this life and past lives. Life itself and my outward circumstances have construed in the direction of my healing. I am working with the people that I have karma with. I have had to make some very difficult life decisions about personal boundaries and where I draw the line especially with being treated disrespectfully by people.

I could not have achieved this so rapidly without the friendship and support of my friend and partner Greg, who is also a wizard at clearing psycho-spiritual shadow, spanning this and many past lives.

I am blessed to have NANO SOMA and the health benefits, which have improved my quality of life immensely. I am taking negligible amounts of insulin, now. Soon it will be none as my body continues to adapt to a new state of being. This process so far has been about three and a half months from a pitiful 12% function to now almost there at 97%.

Thank you, Richard

- 107 -

For more information on NANO SOMA, go to www.thenanosoma.com. 29

August 2022

I will stay in touch
So grateful to Raghu
Best Wishes - Deb Walsh May 2020

A different Deb...

Dearest Richard,

I feel so good. I got off of one of my blood pressure pills which was twice a day. I've noticed my hair issue seems to be reversing, also, which is wonderful coz I've used colouring for over 30 yrs.

I have more energy, the palpitations are pretty much gone, except now and then. And I am getting younger!

Thank you so much Richard for introducing me to NANOSOMA!!! Love, Light & Many Blessings

Deb July 2020

Dear Richard,

My husband was cleaning the soffits of our house with a bleach formula. While on a

ladder and looking up with his hat and goggles on, a drop found its way into his eye. It

was very painful. After rinsing his eye for at least 15 minutes, I had him spray some NANO SOMA into his eye. It burned like crazy! He continued spraying NANO SOMA under his tongue for 3 days. By day 5, the redness and pain went away and his vision was back. He is now a believer!

Thanks much, Richard and Raghu also for producing such a wonderful product.

Love to you both,

Nancy G. January 2021

Dear Richard,

I have been using NANO SOMA since last Fall on my ears and eyes. I had pain in my ears and it's now gone, though I still have hearing loss it is better. My eyes had lots of itching and redness. Both the itching and redness are gone. Thank you, Richard, for NANO SOMA.

In love and light, Alvin February 2021

Absolutely thrilled. My results are mind-blowing, and I am only heading into week 3 of use. I purchased an entire year's worth of product. I understand not only the science but the spirituality behind it all. This is a blessing from another dimension. I can't wait to share. Otherwise, speechless.

Update - I continue to be impressed with my healing response following the dosing protocol provided and in another 5 days will have a month's use in my body. Feels like it's been much longer and almost can't remember what I felt like without this magic.

Gratefully, Kate. April 2021

I'm in my third week, or is it the fourth, of my first bottle. I have three new bottles to go (until I purchase again). The cancer on my face is almost all miraculously imperceptible. My mental clarity is improving and I feel healthier overall. None of this surprises me. I will be surprised if I don't feel even better in a few more weeks. I feel I

"salt" or "seed" my being through the sprays in my mouth. I don't know where I most need it, nor what it is most helping just yet. The great thing is that It knows and I believe in It (Him if you will). So, I expect to be in touch. Thanks for keeping in touch.

Blessings, Larry March 2021

I've been through a lot of stuff in my life. I'm a Retired Navy Amputee and it's just that I am starting to get a little more done. I can lift both arms above my head (I have not been able to raise my arms for about 20 years or so) and I feel more alert. It does help with what amputees call phantom pain; body functions are getting better. Overall, I feel like I am more energetic.

Works like crazy. Sold me, buddy.

Thank you very much... Barry April 2021

Dear Richard,

This is my second order for NANO SOMA. I have been noticing that my eyesight has changed for the better. I still need reading glasses, but I no longer need glasses to watch TV anymore.

I just wanted to let you know that NANO SOMA really works.

Best Regards, Dora Chu February 2021

Hi Richard,

I have just completed the start-up regime and will continue to monitor progress. I have to say that most of my joints have improved. The worst ones are my knees and I'm still struggling with them... energy levels are greatly improved. On another level, I feel more "present".

I had a bone density scan a month ago and the results were better than the one I had in 2008!!! I can only attribute this to NANO SOMA. Considering rheumatoid arthritis has been with me for over 40 years, think I am doing well. Not sure how long I have been taking it. Your records will tell. I would like to know as well (December 2019). I've been enjoying your info on the Planet situation and keeping a close eye on that constantly.

Kindest Regards

Carol James February 2021

Great news, Richard - I had my last spray this morning - I will reorder the minute I receive your email to say we are good to go. Marcus and I walked 11km (door to door) last Sunday - out to Bunnings to get a sausage sanga - big day out ha-ha!!! This Sunday I am

doing the virtual City2Surf Walk with a friend - 14km over Rocky Hill (the biggest hill in town - where the War Memorial stands). Normally, I do the Sydney "City to Bondi Beach" each year - I have done it 8 times.

I figure something must be working as a few months ago, I did not think it was even a remote possibility. I was relieved when the real one was canceled in August this year.

Many thanks
Rose October 2020

Last week, Sylvia, whilst walking our woofers along the High Street, encountered a young couple. They walked out into the road to avoid her, social distancing, and she acknowledged them... Not seeing where she was walking, she tripped on the wobbly paving at the Stables Theatre car park entrance. She fell. Her injuries were extensive. Head, eyebrow, nose, wrist (bad), knee, and ankle. Her forehead, nose, and knee were lacerated. She was lucky not to have broken her wrist. The extensive bruising was distressing, as you can imagine.

The shock was not pleasant at all!!! She managed to get home alright. Later, when she was cleaned up and settled with a cup of tea, I suggested we spray her with NANO SOMA. She was reluctant, not believing it would do any good. Three days later, cuts all healed, all bruising gone. Her knee scabbed well and now no discomfort from her bruises, either. She is sleeping well, too.

For me, my right shoulder doesn't discomfort me anymore and I am sleeping the whole night. Before, I managed only two hours before distress and awakening. Usually, my hand would be numb, too, and rheumatism in the middle finger joint would be painful. All gone. Sylvia is 78 and I am 84.

Yours Aye! Michael July 2020

Update from Michael:

Hello. Richard again

I am content with NANO SOMA. My energy level has remarkably increased. I am doing arduous work and am quite tirelessly more active and stronger, and am amazed, too. The arthritic right hand is not giving me any difficulty anymore.

Thank you
Michael August 2020

Hi Richard,

Sylvia fell and fractured her left radial on the 24th of August. Plaster off 6th October. The surgeon was amazed at her healed arm. It's still hurting but she's back to normal. This is a good report.

Michael

Hello Richard!

Thank you for your email with the new testimonials. It reminded me that I should be sore today because I went cross-country skiing two days ago and I just realized I'm not even sore! I'm thinking the NANO SOMA may have something to do with it! What a pleasant surprise! I expected to be quite sore because this is a new activity for this 65year-young body and I skied probably two or three miles. I couldn't be happier to have accomplished this type of recovery when I was certain I had overdone it.

Best Regards,

Debbie January 2021

Dear Richard,

I love the product. It has connected with me in an unusual way. From the beginning, I felt a calling to take it, and I mean it. I felt "It" was asking me to use it. This type of connection has never happened before with any other product I have used. It is as if it is communicating with me at my cellular level. I feel it is protecting me from the virus (COVID-19). My question is on pricing and the reason I am looking into the price is that I see myself using it for a long time so the price makes a difference. Right now, I am ordering the 3-bottle bundle.

Maria January 2021

With time, we expect the pricing to come down, although probably not in the next 12 months.

From: Dr. Giovanni, Bari, Italy - Oct 7th, 2020

Hi Dr. Raghavan. As you know, I continue to help a friend who is 90 years old, who HAD terminal cancer on his face. He also had Type II diabetes, high blood pressure, cirrhosis of the liver, and his blood analysis was unbalanced. *The doctors left him in his house to die...*

Baseline Jan 2020

October 2020

I began to give him 6 sprays a day of NANO SOMA (also known as Metadichol) on January

- 112 -

For more information on NANO SOMA, go to www.thenanosoma.com. 9

June 2022

29th.

The situation as of today is this:

- Blood analysis - normal - Type II diabetes has disappeared - High blood pressure eliminated.
- Liver improved a lot!

As for the facial cancer, the two photos tell the story.

Doctor Raghavan, thank you from the depths of my heart!!! You saved another life. Dr. Giovanni

6 months with NANO SOMA:

- My PSA dropped from 2+ to near zero
- Blood pressure 128 over 78
- Triglycerides were up to 300, now 160
- Cholesterol 260 no issue; low is no good Oh... lost 10lbs as well Charlie August 9, 2020

Later update:

- FYI, 6 months with NANO SOMA, I have shed 15 lbs of body fat, down to my 30s weight

Back, knees, all good. Thank you.

Charlie

- 113 -

For more information on NANO SOMA, go to www.thenanosoma.com. 9

June 2022

One more update Hello, my friend!

FYI, I have now taken NANO SOMA for 8 months. Now, I have shed 17 lbs of body fat And have more staying power than younger folks. My back and knees, which I explained to you before, have healed. Is this the result of long-term use?

Thank you for all of your help.

You are one heaven of a guy!

Much love,

Charlie September 25, 2020

Richard,

Like everyone else, I am always skeptical until proven otherwise. Maybe it's my Missouri roots. The Show-Me State! Anyway, I purchased a 3-pack a month ago and received it after the biggest blizzard melted since we've been in TN. We got a culmination of 10". It delayed delivery for about a week. I have been very healthy all my 61 years. Since we moved to Tennessee some 10-11 years ago, I've done hundreds and hundreds of hours of research on health, anatomy, detoxing bodily organs, states of mind, past lives, emotion, etc. Anything that has anything to do with health and why the "powers that were" continue to suppress natural remedies. I've personally found over 50 natural cures to cancer alone! Some of the people that brought this information forth have been shut down, arrested, or worse!

I was willing to try NANO SOMA because of the Masters of Vibration group (connected to my spiritual work - Richard) and the testimonials. I've been doing the 5 sprays under the tongue every morning for two weeks, now.

What I discovered was my right shoulder, which I use at great intensity for work - I'm in the lighting business, so my arms are above my head, changing out lamps and ballasts and rewiring fixtures daily. We also play pickleball, which is similar to tennis, but on a smaller court, and also play golf. These were causing pain in my right shoulder for

which I was using oils to get temporary relief. After only 10 days of using NANO SOMA, my shoulder pain is completely healed! Who knew?

What I found interesting as well was after about a week, the outer back portion of my left foot started having slight pains. Almost like a soreness. I believe that any toxins/acids that remained went to that area, sort of like how gout travels to the big toe. Well, after a few days of that it has now disappeared!

So, I am very excited to tell family and friends about this Magic Elixir. Thanks, Richard. I'm also glad you don't have a storefront so that the oppressors cannot shut you down.

Yes, Richard,

About 10 years ago I fell and jammed my thumbnail into the floor to break my fall. The nail separated from the nail bed and while not terribly unsightly, always stood out as I looked at my fingernail. The nail bed was exposed about 1/4 inch past the normal and never seemed to get any better. Within about 3-4 days, the nail bed regrew to its original position, now matching the other thumb. I was amazed and began checking other parts of my body and, sure enough, other things were happening as well. My skin tags, not that many but always there, began to disappear.

My alertness, while hitting the top end of the scales for a while, is now more pronounced and my clarity is off the charts.

I'm not the normal case as I enjoy amazing health with no meds at the ripe age of 67, soon 68. I eat about a 95% carnivore diet with a very low carb intake. I've lost about 45 pounds over the past 14 months. Prior, I had a low carb, high fat diet and never thought the vegetables were my nemesis; however, they were. I work about 12 hours a day and sometimes more and would be considered an outlier for sure.

I seldom exercise except for my normal routine around the house and around town, walking at a brisk pace. I do stretch regularly, morning and night, which I highly recommend, and for those interested in exercise without risk, get a large rocking chair. It moves the lymphatic fluid without too much effort. You can move to a minitrampoline later.

Also, I believe it has helped my eyes  and now I can read as I have never been able to before. I remember taking the Evelyn Woods speed reading course in 1967. Until I took the NANO SOMA, I have been unable to master speed reading as taught. Today I was able to read entire paragraphs as is intended.

The experience was surreal.

Thanks to you for your courage to come to Jeff's show and Dr. Raghu, especially, and all the team.

Regards, David March 2021

I can't remember the last time I felt this good.

My stress level is way down, I'm thinking more clearly, I'm not hungry and I only eat lightly once a day and have lost inches of belly fat. Even my back pain is going away. My energy is

increasing, no more problem with my bowel. I was passing blood if I didn't eat straight vegetarian.

And to let you know, I'm feeling stronger every day. My skin problems are also clearing up.

Thanks, Kerry March 2021

Hi Richard,

Your support is very much appreciated. I was introduced to Nano Soma through William Ekpa. After taking Nano Soma for 1 2/3 months now, my sinus condition has improved and my wheezing while sleeping and walking as well as shortness of breath

has almost disappeared. I'll keep you posted.

Best regards, Monika Conte March 2021

Chronic fatigue syndrome, possible vaccine damage.

10 years ago, I took the swine flu vaccine and suffered recurring bouts of fever and flulike symptoms, then ultimately, it all developed into chronic fatigue syndrome, where every little thing to be done during the day seemed like a mountainous task. My energy levels were incredibly low and no doctor with myriad tests could find an explanation or find a treatment that would get me back to normal.

I was at rock bottom.

Several months ago, I began to take several drops a day of NANO SOMA and to my surprise and the surprise of those close to me, things began to turn around after 4 weeks. My energy levels returned to where they were before this damage occurred and even though I have to take a rest after doing too much (I am in my late 70s), I am now able to lead a normal life, again. The difference for me is astonishing and the only thing I changed during that time was beginning to take NANO SOMA. So, even though I cannot prove it, there is, for me, at least no other explanation as to what made the difference after 10 years of suffering.

Thank you, Dr. Raghavan, for discovering such a wonderful gift to humanity.

Hazel, Ireland.

Richard, I have used my NANO SOMA for three days. I have battled inflammation for over 20 years. I was hurting so much, I double dosed it for the three days and then back down to one dose per day after today. Today I have had more energy than I can

remember, and I actually vacuumed my living room. Something I have not been able to do in more than 7-10 years. Sincerely maria-janet

In Luv - m-j

Continental Superior Court Judge

Restoring Our precious Freedoms, December 2020

I have been controlling my blood pressure with plasma water from GANS, but then I started getting shortness of breath and chest pains, which bothered me, but not enough to go and see a doctor. After the first bottle of NANO SOMA, it went away. Norma also has some issues that we hope she will have good results with.

Thank You, Norma & Bobby March 2021

Dear Richard,

Here is an example of how fast NANO SOMA can heal a wound. My husband fell on a very abrasive surface and tore his forehead open. We put butterfly bandages on it. The next day he went to the Emergency Room and they remarked that it looked pretty good, considering the circumstances, cleaned it up, took a photo (which I do not have, but my husband saw it and it looked BAD)!

Well, I gave him a bottle of NANO SOMA and this was the result one week later.

He also had an abrasion on his nose that has healed completely in that time. He was perplexed and totally amazed.

He is now a major fan, after dissing it for quite a while.

BIG thanks to you, Richard and Raghu.

Nancy & Dom G March 2021

Hi Richard,

I have really benefited from using the NANO SOMA spray since 22 December 2020, and the last bottle out of three is about to be consumed.

Even in the last week of December 2020, I already felt the difference in my energy level, it is raised to that of a younger person although I have already made 65 trips around the sun, Helios. Climbing my 66 steps condominium unit is as easy as when I started living here with my family more than 25 years ago. My target is to be at my "20-30 trips

around Helios" energy level. That is the reason why I placed my second order for NANO SOMA spray.

Regards, Mon March 2021

Hello Richard,

I am writing to share my experience with NANO SOMA. I started using it about 3 bottles or 3 months ago. Now, all my life I have had food allergies and was always looking for relief without the medicines for asthma and allergies. When COVID-19 started about a year ago, I knew things like garlic and onions would be worth their weight in gold for prevention. I always wanted to use them, but I was allergic to them, along with wheat and corn. During this holiday season, I found myself going into wheat and corn fun foods, then I tried garlic and onions and no negative effects have been observed.

I was just curious about other people's experiences with NANO SOMA and have they ever experienced this positive effect. Of course, I feel my body is stronger when I exercise and breathe, so I can vouch for that, but I was wondering about the diminished allergies towards foods and the environment after only 3 months of using NANO SOMA. I really appreciated the lower price of the product when a store was set up in the United States. I can definitely feel an overall positive effect on my entire system, and I was wondering if others are feeling the same things.

Thanks, Richard, for the good service and excellent product.

Gregory January 2021

Gregory's experience is exactly what has been experienced by others. When using NANO SOMA, the body corrects the causes of allergic reactions. It appears to trigger a reset of our bodies back to their original blueprint.

Hi Richard,

I started with 5 sprays once a day for the first 2 days. I subsequently increased it to twice daily the last 4 days.

I have noticed a drastic reduction of phlegm in my throat, and I feel like it (the phlegm) will be gone by the time I'm through with 3 bottles (we'll see).

Also, my eyesight has improved a lot. I can now read small print without needing to put on my reading glasses. Amazing!

Thank you for bringing this to the rest of the world. I shall keep you posted on the improvements in my body as the days go by. Thanks, once again.

Regards, William E. February 2021

Hi Richard,

I am glad to be able to report an amazing result after using the protocol of 4 times a day and then twice a day. As I mentioned in my previous email, after a week of 4 times a day, I had a healing response. Among other things, I had a severe outburst of Herpes blisters on my lips. When I started the second week of twice a day, I tried spraying directly on my lips, besides ingesting the 5 sprays. I only used one spray twice a day on my lips so I wouldn't finish my bottle before the week. In 3 or 4 days, my blisters had completely gone away. As is known, Herpes blisters are extremely painful, and these were even more so. They normally take about 3 weeks to go away.

I also don't experience any pain in a problematic jawbone infection after a failing bone implant that wasn't cleaned out properly. When things settle down in my country and the world, I will have it cleaned out by a biological dentist. I do intend to take NANO SOMA indefinitely, and the price reduction has been a boon for me.

I still have slight discomfort in my digestive system and occasionally my right shoulder with 2 torn tendons is slightly painful but much less than before. I also feel more

- 119 -

For more information on NANO SOMA, go to www.thenanosoma.com. 9

June 2022

energetic though the last few days didn't get enough sleep. I am emotionally calmer as well. I do meditate as well, of course.

I still have my last bottle left and will be ordering next week.

Thank you and Dr. Raghu for this.

Blessings, Shulamit February 2021

Hello Richard,

My friend, Jackie, in Scottsdale, AZ., ordered 24 bottles, it arrived; she is very happy with the product. Jackie is slowly losing her eyesight, (along with a lot of other problems). She couldn't see well enough to place her order, so her daughter in Michigan purchased for her.

Jackie's circulation is very poor, her feet are always very cold. (age 80) Guess what? In just 3 days, her feet are as warm as toast!

My friend Patricia said you helped her place her order of 3, thank you. I bought 5 originally; I quickly ordered 12 when my ankle became pain-free, in just a few minutes after the hour! I had to have more!

My friend Sharon (living just north of San Francisco) ordered 12, as soon as she got my phone call. She could hardly raise her arm, due to an auto crash in "December". Now, besides being pain-free, she has full use of her arm. Great, isn't it? We both placed our orders for 12, the same day; I think it was February 12th.

I recommended Sonia in Sedona... thank you for helping her.

I express mailed a bottle to my brother in Baltimore, 2 weeks ago. (not there yet-just

snow) I intend to send him 3 bottles if he likes the bottle I sent to him from my home in Phoenix. I'll probably do that tomorrow. Of course, he will like it!

That is all for now. Tomorrow, I will call my Vegas friends. Thank you, Richard, for

helping them.

Sent to you with love and many blessings.

JANE

Jane R Lightner February 2021

Hello Richard,

I really enjoy and appreciate the NANO SOMA.

I feel that it has made a difference in my body and I also believe the best is yet to come.

Thank you, Nadine February 2021

Hi Richard

I'm happy to report the skin cancers on my head have just about gone. One lot on my forehead has gone completely, the other larger one has a small crust and should disappear in a few more days. Still feel wobbly in the head and unsteady on my feet, so will persevere with the spray. My cat seems to have improved his wobbly walk. I think he's in sympathy with me.

Carol February 2021

Thank you so MUCH Richard for the info on spraying your body and face. You are so right!!! I don't know why I didn't think of that. I've also been doing the same on skin tags I developed due to the medication. Guess what, they are disappearing!!! OMG. And I've also used it on my forehead where I have kind of like a pimple, but they've been there for years. They are disappearing, also. And I've been doing this for almost a week. WOW!!!

Thank you, again. Take good care and a Very Happy Holiday to YOU and your family and friends.

Love, Light & Many Blessings

Deb December 2020

Dottie has had chest problems since she was a child, tightness in the chest which restricted her breathing, and a chronic cough (which was diagnosed as COPD about 10 years ago). After 3 weeks of using Nano Soma spray, the tightness in her chest has been dramatically reduced and her cough is less frequent. She also experiences arrhythmias and has leukemia (which she manages with supplements) and is looking forward to relief from those challenges as well.

We are both avid health enthusiasts and follow anti-aging strategies. We are very interested in seeing results re: our telomere length. I am 74 and Dottie is 72.

On 8/27/20 I had a tooth pulled because it had had a root canal procedure about 20 years ago which became infected. The infected cavitation was cleaned out, sterilized, and sewn up plus an implant post was inserted. So, each day when I sprayed the Nano Soma sublingually, I directed one of the sprays right on that area.

I had a follow-up visit with my dentist 6 days later and as soon as he and his assistant looked in my mouth, they both exclaimed, "Wow! It looks like you had the surgery 3-4 weeks ago! It looks great! Thank you, Nano Soma!!!"

Keep up the good work!!!

Blessings and appreciation to you and Raghu. Paul September 21, 2020

Dear Richard,

Thank you so much for your store and the alternative ways you offer for healing! I am on my 5th bottle of NANO SOMA. I had a recurrence of my Rheumatoid arthritis in February. (I had originally been healed of it years ago by taking minocycline for over a year.) This time I wasn't getting better on the minocycline after three months and so I added the NANO SOMA. I finally started to recover last month and plan to continue the NANO SOMA going forward.

Thank you.

Sincerely, Sue September 17, 2020

My name is Priyanka; I live in Mumbai, India, and I felt a need to share an experience of my life which I have gone through over the last 2 months.

My father died on 4th June 2020, and I wanted to share a bad experience about his death.

In the beginning, he suffered from a viral fever and went to a clinic. The doctor gave him medicine, after which he felt good in 2-3 days and his fever left but his physical weakness remained. He again went to the clinic but the doctor said that it was due to the fever and not to worry. The doctor never suggested he take a COVID-19 test. He was still feeling weak but had no fever and he had no taste in his mouth, but the doctor did not tell him to go for COVID-19 testing.

My dad also agreed with that assessment. His appetite had gone down but we thought that may be due to the fever. He had no fever and no cough, either, so we were thinking it was a viral flu.

Still, my dad did many other tests, including a lipid profile on 12-05-2020 and all reports were normal. His oxygen was 96 percent on 12-05-2020, so he was relaxed but still physically weak. No doctor recommended a COVID-19 test due to the absence of any fever.

After 2-3 days, one of my dad's friends, who is a neurosurgeon, messaged me to please admit your dad, due to loss of appetite. We were all scared - why did he say it like that? Apart from the weakness, my dad was fine and he used to go alone to the clinic, and he went to the hospital on his own to get admitted. but there were no beds in the hospital. Due to all the rubbish formalities of taking the COVID-19 test, we failed to have him tested. Then finally, due to a reference from a doctor, we admitted him on 18-05-2020 at Global Hospital, Parel multi-speciality Hospital. At the time of going to the hospital, he was not in a bad situation, but his oxygen was 75 percent, and he went on

his own legs to the hospital.

Then the COVID-19 test report after 2 days was negative, but still, he was in ICU due to low oxygen saturation. He was allowed to talk on the phone. We used to talk every day. He was normal but for a low oxygen level. We tried everything including a Remdesivir Injection and also many other infection removal therapies. On 31-05-2020 at 8.30 pm I was talking to dad and he was very normal and he said I am OK and I need to move to where an air-conditioned room is available. His neurosurgeon doctor also said that he was OK. On the same night, I got a call from that doctor saying that we need to do intubate him and we need to keep him on ventilation. So, for 3 days my dad was on ventilation, and we didn't talk from 1st June and on the evening of 3rd June, the doctor said that his BP was continuously going down and around 2.00 am my dad expired.

A week after my father died, my husband had symptoms and he was admitted to Nanavati hospital. At that time, one of my friends suggested to me to try NANO SOMA, and my husband took it and within 4 days his COVID-19 report was negative. A few

days after discharge, he had an antibody test and he was positive for antibodies with a value of 6.

I am very upset that I could have saved my father's life had I known about the product earlier.

Please, this is my request to everyone: Use this product and share your experience, so that other people can take advantage of it. I know it's difficult for people to easily believe this, but this is my personal bad experience from not using NANO SOMA with my father. At least I could have given it to my dad when he was suffering the slight fever and it could have prevented that low oxygen saturation level.

Thanks to all the team that delivered the product to the hospital where my husband was admitted.

Please try this product if you are a COVID-19 patient. This could save your life. Priyanka

Hi, Doc (Raghu). I have some amazing news: my father has **senile dementia**. He has administered 6 sprays every day for 6 months to date. Yesterday, he had a magnetic resonance test and it showed that compared with that of 2 years ago, his condition has remained unchanged. Senile dementia is a chronic degenerative disease and theoretically cannot be stopped. This means that with 6 months of use of NANO SOMA, my father's brain has rejuvenated by 2 years. I thank you from the bottom of my heart and may God bless you...

Giovanni August 2020

Sept

24th 2020

Female patient 51 infected with Brucellosis on her farm

Symptoms Fever every day for a few hours to 103 at night and normal in morning treated with Metadichol @ 20 mg per day. Today all parameters returned to normal

Elevated liver enzymes normalized

Brucellosis is an infectious disease caused by bacteria. People can get the disease when they are in contact with infected animals or animal products contaminated with the bacteria. Depending on the timing of treatment and severity of illness, recovery may take a few weeks to several months.

Hi Richard,

Thank you so much for the advice to get NANO SOMA. Both my husband and I have been taking it for several weeks, now. With his Chemo and Radiation, he has skin itching and he has occasional Oesophageal pain. A spray of the NANO SOMA takes the pain away from his Oesophagus and spraying on his skin and gently rubbing it in stops the itching! In addition, he takes two doses a day - one at breakfast and another at dinner time. I think it is working to expedite the removal of his cancer. As time goes on, we shall know more.

One last comment; I feel like I have a connection with the Metadichol (NANO SOMA). It seems to know where I would like it to work and it goes right there. It feels like we are a team working together! It's organic and knowing!

Lynne Pedersen

Oriental, NC May 2020

update

My husband has now completed 6 weeks of Chemo and Radiation and has approximately two months to recover before surgery. The doctors could not believe how well he had done. He had no sore esophagus, no difficulty eating, very little nausea (mostly controlled with NANO SOMA and Green Tea). His itching from the radiation was easily

- 125 -

For more information on NANO SOMA, go to www.thenanosoma.com. 9

June 2022

controlled with the spray. He takes it 3x a day and I believe it is making a huge difference. Now I think NANO SOMA can really jump into gear and help with his recovery. I just hope that it will become available before the last of our supply is gone.

Thank you for all you do! I am continually amazed at all you do!

Many Blessings,

Lynne Pedersen
Oriental, NC June 2020

Hi Richard, happy to share with you what I've noticed since starting the Nano Soma at the end of February, '20. So, it's 6 weeks now that I've been on 5 squirts a day. I have watched as it's systematically gone through my body addressing all the old issues I have acquired in 70+ years! It started with the kidneys (slight pain came up), the stomach (odd pains), all the different bones I've broken (and it's many) - the Nano Soma would go there and I would feel healing energies starting. Currently, it's addressing the broken ribs I've had, on both sides of the body and I can feel things changing there as well. It's been addressing my lung issues (bronchitis, pneumonia, pleurisy, etc.), with a bit of a cough happening, my eyes (short-sighted since 10) and I can feel them changing as well. The main thing is my skin. I've had skin conditions all life, including eczema, psoriasis, seborrhoea, etc. At one point in my 40's, I looked like the elephant man for months on end as my skin erupted so badly with something that was accidentally put on my scalp. I do notice the sunspots on my face changing a bit and it would be awesome if they reduced in size and colour (damage done when I was 11y.o.). I would say minor

inflammation in the toes is better as well. So, I'm happy to keep on watching and noticing how things are changing. I've been able to reduce the other natural products

I've been using as well. I am not on any medication at all and intend to keep it that way.

Blessings,
Barb

Good morning, Richard,

As you know, I have been using NANO SOMA daily since late 2019. As a then 67yo (now 68), I was and am fortunate to have no serious illnesses or bodily problems, but decided to use it to maintain and even improve my overall health, based on the existing information and testimonials I read.

I did, however, have the beginnings of some varicose veins appearing on my right leg, both above and below the knee. They didn't look very nice, but as they were causing me no pain, I had no plans to visit a vascular surgeon. I just forgot about them.

- 126 -

For more information on NANO SOMA, go to www.thenanosoma.com. 9

June 2022

A week ago, I was drying my leg after a shower and thought I was seeing things. Or not

seeing things, more to the point. The protruding veins had gone. I reached for my glasses to double-check. And yep. Gone. Just like magic. I now actually enjoy looking at my hairy, 68yo legs

(something I'm sure I have all to myself!!)

Thank you, Richard, and thanks to Raghu.
John Wysham

In my annual physical including EKG and echocardiogram, everything was within normal limits. I am 91 years old and I doubt that happens by itself. I credit NANO SOMA!!!

Hi Richard,

I wanted to report back and say that the NANO SOMA I ordered from Australia has been great!

I am in London, where we are still fairly out and about in the streets during this pandemic (my classes are still on!). The other day, I caught a sore throat and fever. Of course, I can't say what it was. It likely wasn't COVID-19, but it did feel like the onset of something larger than a cold (tonsillitis, flu, something of this nature). The spray worked wonderfully – it was the quickest I've ever gotten over anything. No groggy recovery period, either. My energy feels even better than before I had gotten sick.

Just thought I'd share.
Best, Erin Lanza. March 2020

Hi Richard,

This is what John has written regarding spraying Nano Soma on his skin when it itches

...

When my issue (chronic eczema - lifelong) gets out of control, it's so relieving to finally find a product that does what it claims to do and provides almost immediate relief where no other product, throughout my entire life, has been able to do. John Rawson!
:)

Jennifer Rawson Activating Change Mt. Waverley June 2020

Hello Richard,

I would like to let you know that I think that the Nano Soma is a lifesaver for me. I am well past my mid 60's and still work 12-hour days, 14 days in a row. The amazing part is it's not a problem for me at all and I experience very little fatigue. I manage far better than the younger ones doing this very demanding physical work. My skin is another area that I am happy to say is looking far improved. I am halfway through my second bottle and just love it. So thanks so much for bringing us the Nano Soma Richard.

Blessings to you
From CC June 2020

Hello, Richard,
As I said, the NANO SOMA has arrived. I have used the spray twice now before retiring for the night. I never sleep well; two hours at the most since I had a fearful accident to my right pelvis, hip joint, femur, and right arm/shoulder. I had a prothesis and a "concreted" pelvis. Three bolts. Severe infection post-op: sepsis. Supra spinatus severed but repaired, rotator cuff op: 14th Sept 2014.

I have a cup of tea and watch TV all night. My right shoulder, too, hurts all the time

and my arm gets numb; hence, I am awakened. My hand is dead to feel but I recover it with exercise and movement. For the past two nights, I have slept for nine hours!!! No pain or discomfort whatsoever. Sylvia is amazed at seeing me "sleeping like a log". Watch this space: I will report again.

Update:

Three days ago, I twisted whilst mixing concrete and my right-side waist muscle was stretched. It was painful. Today all the discomfort has left. Back to normal, more concreting.

Kind regards,
Michael June 2020

Thank you, Richard, for turning me onto this. I've been using it and it completely cleared my pneumonia this winter, which I believe was the COVID-19 before anyone

heard about it. I actually had a lingering sore in my nose all winter and I sprayed this on it and it healed up right away. I can't say enough about Nano Soma...

Blessings to you and your work

Laurie D. Wheeler

Hi Richard

I ordered the NANO SOMA before Christmas, received it, and began using it to heal my diabetes. I have been able to cut back on my insulin doses and my blood sugar has been registering in the normal range for the last two weeks. I am very pleased with these results and am quite hopeful as a result.

Blessings, Susan

Later:

Good morning, Richard

I have been consistently using the NANO SOMA spray. My blood sugar is definitely under better control. I still use my medicine but have been able to lower my insulin

dose and my blood pressure is lower as well. I rubbed my arm the other day and my skin actually felt smoother and tauter. I look forward to greater improvement and trust

my Drs will be pleased as well. I appreciate greatly your help. I now have my mother on it as well.

Thank you and Blessings, Susan

I used NANO SOMA for about 5 months continuously, and I was just amazed by its effects on my entire system. My blood sugar came to almost normal, my polycythemia (no other known

cure) was abolished totally with cell counts back to normal range. I felt more energetic, with enhanced vitality and vigour. All my recommendations for this unique and outstanding product. Good luck and all the best.

Dr. Ravi Dutt Mishra June 2020

Morning Richard:

I am also sharing with you that I KNOW it is the Nano Soma that is assisting me right now because I was slammed yesterday with an a.i. virus that wants to stop me. Last

- 129 -

For more information on NANO SOMA, go to www.thenanosoma.com. 9

June 2022

year I had quite a dance with these viruses that really knocked me around.... But I know that with the Nano Soma...I have so much more recovery immediately in place from the get-go.

I have tested this up in several ways to know this is Truth.

Heart blessings, Libby

My name is Giovanni. Because of the movement of 5 intervertebral discs then repositioned after two months, I suffered severe pain due to the inflammation of all the nerves connected to them.

I have tried several anti-inflammatory and pain relievers, even in high doses, despite having never taken medicines in my life, all to try to reduce the pain and at least try to be able to walk. Despite all the attempts made, the pain reduction was minimal. I then began to take 5 Metadichol sprays a day. Honestly, I did it for a serious problem of degenerative

coxarthrosis that I have now for more than 20 years, but I was amazed how in about ten days of taking Metadichol, I started walking again since I had almost no inflammation and pain.

I remember thanking God for taking those pains out of my body because they were so strong that I often stopped thinking. I also remember thinking that God can use many ways to help us and use exceptional men who invent exceptional substances like them

...

All this is the truth...

A big hug to all

Giovanni

Good morning, Richard,

I have been using Nano Soma for about 3 months and I am feeling quite well for an old bloke - 76 next August. My knees don't have the pain they used to. I had open-heart surgery 17 months ago, all was well there.

I have convinced my wife Vivienne to start taking Nano Soma. She started on 25th April. She was diagnosed with Vascular Dementia, early stage. After I googled dementia, printed it out, and printed the information you sent on Nano Soma, she decided to start taking it. We will see if it slows it down or stops it.

Thank you, Richard, for everything you do, I have followed you for many years.

Love & Light - Bill Sternbeck

Good morning, Richard --

I'm Colleen Steele; I sat on the sofa amid the Bio-geometry(?) folks last night during your presentation. I am writing to express my gratitude for you and your presentation and the products you represent. I came into the presentation last night with my sacroiliac joint in an uproar -- a condition of 7 years -- as I held the lumbar belt, the pain went away!

I had also ordered NANO SOMA. I've used it since its arrival Thursday of last week. Every day I have asked my body if it wants/needs any of the supplements I had been taking (via kinesiology). The answer with just a couple of exceptions has been NO.

I suspect it is ALL and MORE than what it is known to be! I cannot thank you, Bettye, and the Universe enough for being a representative of such great products and coming into my life. I look forward to following you and including your recommendations in my healing journey. How does it get any better than this?

A few days later: During those 7 seven days, I've also taken NANO SOMA; I've continued to ask my body (using Kinesiology) what supplements it wants from my storehouse of many. With only a couple of exceptions, the body has declined most of the supplements regularly. I believe it is this, the NANO SOMA, that is firming my skin from head to toe -- and I assume many other wonderful things are going on -- but the skin is the visible reflection of health!

Gratefully yours, Colleen

Last year was the most stressful year I have suffered in my life with my health. I'm otherwise a healthy woman in my 60's with no prior health issues other than the occasional cold. In July 2019, I began having symptoms of acid reflux, sinusitis, nausea, severe abdominal & lower back pain, urination frequency, rapid weight loss, and extreme tiredness with no energy to walk or sit. After being prescribed antibiotics at urgent care for the sinus problem, the other symptoms persisted.

In August 2019, I was admitted to the ER for 10 days and diagnosed with a rare autoimmune vasculitis called Granulomatosis with polyangiitis with kidney involvement. The disease caused swelling and irritation of blood vessels in the kidneys, nose, sinuses, throat, and lungs. Chest x-rays and lab tests also revealed multiple nodules in the lungs. The standard treatment is 2-10 years of infusions, which began in the hospital with antibiotics, high doses of IV steroids, and the IV chemo infusion of Rituxan. I continued this treatment as an outpatient for the following month.

During my time in the hospital, I was using 25 sprays of NANO SOMA, 3-5 times/day under my tongue, on my discoloured tongue, and into my nostrils. After being released from the hospital, I continued this secret weapon - NANO SOMA, every day. My original tongue colour came back and I gained so much energy, which I desperately needed! Within one month I had made a full recovery. My doctors consider my case to be “atypical dramatic improvement.” In January 2020, I was officially in remission after the chest xrays showed complete resolution.

After my first dose, I noticed a vast difference in my mental and physical energy, which started to build up! This product proved effective in strengthening my immune system against the adverse side effects of steroids and infusions.

I am happy that my health has done a turnaround with this amazing product. I am still using NANO SOMA consistently, 10-15 sprays 3-4 times daily, without fail. I’m definitely a believer in this great product. And the wonder is that NANO SOMA starts to work on your body almost immediately!

With proper nutrition and NANO SOMA, I regained my healthy weight, feel energetic and active, and can practise my daily routine activities.

From my own experience, I consider NANO SOMA to be an irreplaceable ingredient in my everyday life because it has exhibited positive effects in building my immune system and has given me a whole new life and the ability to stay healthy all year round!

I am grateful to the inventor who has brought this wonderful, effective, natural product NANO SOMA to enable us to experience positive health outcomes and successful results. I will continue to use the spray every day to live a healthy, worryfree life!

Hooray to NANO SOMA!

March 2020

Using twice/day for correction of distortions after a retina tear and detachment repair in my right eye, and left eye for fatigue. Vision in both eyes has improved. Slowly the distortions in the right eye are decreasing.

I’m still not able to drive or read with the right eye; however, I’m closer to that ability than in the last 2 years after 2 months of use.

Thanks for the information.

Bill

I’m using NANO SOMA in my ears for ringing. I’ve used it for 4 days, lying on my side for 15 minutes and in 4 days the ringing has stopped.

Dear Richard

I started taking the Nano Soma spray at the end of December. I had a bone graft in my jaw on 6th January. My dental surgeon examined it after three days and thought it seemed more like a week's healing had taken place. There was a little bruising but not a lot. I'm sure Nano Soma helped.

I have just been for a diabetic review and my blood results were all in the normal range for sugar, blood pressure, and all the other things they test for. I had not taken diabetes medication for 6 weeks so I credit Nano Soma for the results. My daughter is

taking Nano Soma and my son is also.

Kind regards
Pam MacLennan

This company is so much what we need right now. This spray is in every car and every bedroom because we cannot stand being without it. We use it to keep our immune systems healthy while this crazy pandemic is happening, and I spray it in my nose when I feel allergy/sinus irritation and on wounds. My son had a gash on his head and

after we irrigated it, I sprayed this on it first and then added the antibiotic ointment. It is crazy easy to use, tastes fairly benign, and is super-duper safe. Even with my son's autoimmune condition. When he had his first flare-up, he wanted to use the spray constantly. Some immune herbs stimulate autoimmune conditions in a bad way, but not this one. I am a user for life.

Andrea May 2020

Hi Richard,

Appreciating the rapid & remarkable recoveries.

As a rule, the dosage remains at one a day unless under the weather - in which case it

goes to 5 individual sprays over the day.

This seems to be across the board except for people who are particularly compromised - where they begin at two sprays a day, moving to 5 if in an acute illness.

Definitely doing a lot better with my autoimmune as well as acute infection. The lift in mood as the body exists in less struggle is a state I never thought I'd ever enter again.

June 2022

It is most helpful toward keeping my spiritual focus, which of course is essential right now.

Leah

My husband had rashes, eczema on his back for years, especially itchy in the winter. I heard about this product from a trusted friend and bought it for him for Christmas. He was not very willing to use it for a while. After reading the reviews and searching for information online, he started to use it once a day. IT GOT BETTER! He is no longer feeling so itchy. There is one dark spot about 1-inch diameter, which is getting lighter in front of my very eyes. Pink skin grows back from underneath the dark circle. Seeing

this change, brings me joy, hope, and gratitude. I would recommend this product to anyone.

Helen

In only two days I got rid of rashes on my forehead. I have experienced rashes with greasy skin for years and now it is all gone. Amazing!! I use the skin spray, also, internally and my body is starting to react positively.

Štef

I developed a rash on my elbows and was given a prescription by my doctor to hopefully clear it up. I diligently applied the prescribed cream for a week and it had no effect whatsoever. I decided to try some of the NANO SOMA that I had on hand and I started seeing results after the first day of applying it. My rash that I had suffered with for almost a month now, was gone within a week of applying it. This product works for so many different skin problems, I will make sure my house is always stocked with some NANO SOMA.

Rachel

This man began to use NANO SOMA to protect himself from COVID-19. Photos are before and after using NANO SOMA

Toe soon after he got started.

Toe after some 3 weeks of use.

Amazing product - used it on cold sores and worked on removing a small mouth ulcer that the doctors said could only be removed by surgery. I absolutely love this product.

Jacquelyn

My mother (70) is a diagnosed T2DM/HTN/Diabetic retinopathy CVA/Psy illness patient. She was admitted to Kims Hospitals (HYD) with c/o generalised weakness for 3 days prior. She was admitted with a urinary tract infection (TLC -29,820 cells/mm³) cue is plenty of pus cells, which spread to her lungs, along with a/w myalgia/arthritis & SOB.

Within 15 days of hospitalization, she improved symptomatically & was discharged with stable vitals. After her discharge, my colleague suggested Nano Soma.

Below are the before & after results using Nano Soma, along with medicines.

BEFORE:

Blood urea: 27.8mg/dl.

Haemoglobin: 7.7gm.

WBC: 10,663M/cumm.

Sugar: Unstable b/w 370 - 440. B.P:

B/w 118/45 - 210/116.

AFTER:

Blood urea: 8.0mg/dl

Haemoglobin: 9.8gm

WBC: 5100m/cumm.

Sugar: stable 95 - 170 BP:

120/85 - 165/90.

The best part is she improved her mobility within 10 days. I'm very happy & satisfied using Nano Soma. Thank you, Dr. Raghavan.

Two weeks ago, at a dental check-up, my dentist recommended the removal of remnants of a ground-down wisdom tooth which, if not extracted soon, would require dental surgery to extract. I agreed.

Post-extraction, I was given prescriptions for antibiotics, painkillers, and a lot of instructions of proper care during the period following extraction.

On coming home, with full confidence in my prior experiences with NANO SOMA, I sprayed NANO SOMA directly into the hole where the root was. The following morning, the wound had healed completely!! No pain, not even the memory thereof! Two weeks later - I am writing to you to share. incredible!

Again, Thank you.

Sincerely,

Kayo

The following is a powerful testimonial by a TB specialist doctor on [TB treatment in India](#).

[This is an official letter](#) from a Mumbai hospital confirming the treatment of 30 COVID19positive patients with NANO SOMA.

Hi Richard,

I have found after 3 months my right shoulder rotator cuff pain and inflammation have gone! At 53 yrs. of age, that's very welcome, as it's been painful for 10 yrs. I have had significant health issues, mostly cleared 2-3 years ago, before NANO SOMA. I was bitten by ticks, 90 bites (well actually "bed bugs" a close relative) in Africa, and subsequently had Lyme's disease for 5 years, which went undiagnosed until 2015. I had largely recovered strength and energy levels. However, very slow to come right, but significantly improved with NANO SOMA these last few months are the joint pain and stiffness. The shoulder and lower back and sacrum. The lower back is improving each week. Just 6 months ago, I was not able to work physically with anything heavier than a few kilos

- 136 -

For more information on NANO SOMA, go to www.thenanosoma.com. 9

June 2022

and was not able to work in a stooping, leaning forward position for more than an hour or two a day. This mobility and strength have returned now to about 90%.
Fantastically fast with just 5 sprays under the tongue, in the morning before breakfast.

Also attributed to NANO SOMA, significant gut issues of inflammation triggered by a severe bout of Gastroenteritis from the same trip to Africa. I went there for work (1999-2013) so many times with no problems - Africa is a great place for many reasons, I might add. I have, over the last 10 years, not been able to drink a glass of wine or eat anything sweet without pain and discomfort. I tried diets like gluten-free for 3 years - did not affect it. Chronic gut inflammation! Now it has gone altogether!

I went skiing in September, where for 7 years I had not the strength to pack the car to go skiing. I was skiing the hardest runs more times a day than I have ever, even when I was in my 20's. Though I can't attribute this to the NANO SOMA as I went skiing in January up in the Northern Hemisphere and had the same very high energy levels, this was before I got the NANO SOMA.

Thank you very much to Richard for bringing this product to the market and promoting it so well!

Best regards,
Gairn McLennan November 2020

Thank you for NANO SOMA; it is doing wonders for me now and my stepdaughter and beautiful Life partner. Same results: weight loss, appetite reduction, and more stamina. For myself after 10 months, it goes far beyond that.

Thank you for the healing of my knees and back. I just completed a major undertaking that would not have been possible without your help.
I moved mountains in 90 days. (Another story not yet to discuss.)

As the Greeks say - Agape mou Charlie

Message from a NANO SOMA user in India

My daughter had weak eyesight since birth but was not detected until she was 14 years old. By then she had a cylindrical number of -2.5. By 18 it was -8.5. I always felt bad about it and was apprehensive about having her eyes operated on.

In November 2019, I was introduced to NANO SOMA when Dr. Raghavan launched this product in India. I was impressed and interested in this product because he said it is completely natural and safe. Also, I saw a friend of mine who was suffering from severe mouth ulcers for 3 years, tried many homeopathic and ayurvedic remedies with no respite, be cured by NANO SOMA. Also, the ease of consumption impressed me. So, I started giving it to my daughter at that time.

Yesterday, we went for an eye test. Her number is now - 6.5 and -7. Also, her cylindrical number has reduced. The doctor was surprised that, at 31, the number can change.

NANO SOMA has also helped in curing her hair loss and dandruff. She is much calmer and more peaceful and happier. Thank you to Dr. Raghavan, who gave us the best years of his life to give us this wonderful gift. I am sure many people will benefit from NANO SOMA and be able to live a normal life.

Dear Sir,

I am Malvin Williams from Mumbai, India. Myself and my wife Mrs. Sheela Williams were **afflicted with Novel Coronavirus (Covid-19)** on 13th November 2020. Fortunately, during that period, maybe a week before, we had just started using NANO SOMA once/day for my diabetes and thyroid for Sheela. So, once we were afflicted, I went to our doctor, who gave us lots of medicines for almost 2 weeks.

That's when I called Mr. Murli who immediately recommended us to use NANO SOMA with a 4 hourly interval daily and stop the medicines prescribed by the doctor. I had fever and weakness and Sheela was having some slight cold and weakness. All these symptoms vanished within 4 days for me and within 2 days for Sheela.

Both of us started working from home on the 5th day. We were clear of the virus on the 6th Day. Also, both of us tested positive for SARS-COV2 antibodies on November 26th. The best part was not only recovering but we have no side effects, even after 19 days, whereas in my circle of friends, almost all have some sort of breathing problem or pain in some part of the body.

I will highly recommend this to all those who are reading this article.

Thanks, and regards, Malvin RR Williams

Mark Computers Pvt. Ltd. Mumbai, India. 1 December 2020

MAGIC MEDICINE

I would like to share my experience with something I call the "magic medicine" - yes! I'm talking about "NANO SOMA".

*Disclaimer: This is not with the idea to promote anything; nobody has asked me to do it. This is my personal experience with this product, and I want the world to stop taking medicines unnecessarily and switch to a better lifestyle. I have two reasons as to why I'm writing this to you all.

1. I was suffering from something called recurring herpes where once in 2-3 months, I used to develop puss-like bubbles around my forehead, underarm, and thigh areas. The dermatologists said it's something I'll have to deal with my whole life and there's no cure for it. Once I started taking NANO SOMA, things changed! I initially started this medicine just like how I started my other medicines. I honestly had little to no hope of this medicine working, either, because that's how tired I was of trying medicines, and my mother wanted me to give this one last shot.

Today, I'm so grateful for the person who has come up with this MAGICAL MEDICINE, because from that day, the puss bubbles slowly started disappearing. So, whenever I used to experience the outburst of these bubbles, I used to take 5 sprays and also spray the medicine on the wound. It has disappeared for me and this is something that I absolutely cannot believe.

2. CURE FOR COVID-19!!!

YES! It prevented me from getting COVID-19. My mother tested positive and I was in complete contact with her as there was no help in the house and I had to be with her 24/7. I just kept taking 5 sprays of NANO SOMA every day. In my mind, I thought I would 100% get it because I was with an active COVID-19 patient all the time. It was so hard for me to believe that I had to get myself tested thrice and I tested negative each time. So, guys, 5 sprays made a huge difference in our lifestyles. I stopped taking all other medications after I started NANO SOMA and it is perfectly taking care of my overall health.

Spurthi R 26 November 2020

NANO SOMA Testimonial from Ramesh Deshmukh Date: 10 October 2020

Thank you very much, Dr. Raghavan, for inventing a great product like NANO SOMA. It saved and protected my entire family from COVID-19, recently. I'm the one who was the spreader of the COVID-19 infection to my family, around 6/7 Sept 2020, but I only showed symptoms such as no smell or taste and tremendous weakness on 10th Sept.

Immediately, all 4 of us went into self-isolation and started doses of NANO SOMA - 5 sprays under the tongue every 4 hrs. On Sept 10th, my wife became infected, and later my daughter and son. To be honest, we haven't taken a single pill since we were infected, except a few doses of paracetamol taken by my wife and daughter to control temperature, and we continued to use NANO SOMA. My symptoms cleared first, after 7 days, but my wife was experiencing some sort of irritation in her chest. So, as a matter of safety, she was admitted to Masina Hospital on the night of 21st Sept, with a stipulation that Masina hospital will not inject Remdesivir or Tocilizumab without our prior permission and, most importantly, she will not stop her doses of NANO SOMA, which she was taking regularly and spraying in her nose. Meantime, my daughter was having continuous dry coughing and she sprayed her nose with NANO SOMA at regular intervals. My son was also taking NANO SOMA regularly.

I had an antibody test for COVID-19 on 21st Sept. My antibody score was 16.00. Later, my son also had an antibody test, which was also positive. My wife and daughter also tested positive for antibodies.

In short, NANO SOMA protected me and my family from the COVID-19 attack. Now, if everyone in the world asked for NANO SOMA, the world would be free from COVID-19.

Regards,

Ramesh Bhutekar Deshmukh, Vice president, Municipal Engineer's Association

Mumbai., India

In the third week of September, I woke up one morning with an aching body. I thought it was a normal flu, so I rested with no medicines, except 5 sprays of NANO SOMA twice a day. By day 3, I was absolutely fine, but on the very same day, I experienced a loss of smell and taste. That led me to have a PCR test, and **I tested positive for COVID-19**. Another senior member of our family (senior citizen) also tested positive. I started taking the NANO SOMA Spray every 4 hours and in 3 days I got my sense of smell and taste back. I had my antibody test a few days later that showed a value of 5.6. There was also a stark improvement in my Vitamin D levels after the regular consumption of NANO SOMA.

I was advised by many to take antibiotics and the typical course that allopathy doctors suggest for COVID-19, but I decided to stick with NANO SOMA and it worked wonders for both the senior citizen member of our family and me.

I will ever be grateful to Dr. Raghavan for creating this life-enhancing and lifechanging product called NANO SOMA. This has come as a blessing for my entire family and me. My parents are regularly consuming NANO SOMA, and within 3 months, their diabetes is under control despite reducing their total number of diabetes pills.

Thank you very much, Dr. Raghavan. Premal
Shah 27 October 2020

Note :

Janice is a personal trainer and nutritionist based in Bangalore India, Sushma is a NANO SOMA Distributor in Mumbai India.

I don't know where to begin my testimonial regarding the miracles I've experienced from using NANO SOMA!! There are so many... that I've lost track!! So, let me start from the beginning: Perimenopause - This was the primary reason I started using NANO SOMA in December 2019, after you first told me about it. Before starting it, I was experiencing 25 days/month heavy bleeding menstruation. After visiting the gynecologist repeatedly and after she put me on a 3-month hormone treatment as the last try to help regulate my cycle (Diane - 30). I then started to feel like something was going terribly wrong in my body and the side effects were unacceptable. Also, after the 3-month cycle, the bleeding cycle was back. Being someone who doesn't take allopathy drugs (except Thyronorm for Hypothyroidism) this bleeding made me hate my body.

I then underwent a complete medical check-up and with near-to-excellent reports and a confirmation of perimenopause being the only reason, I had begun to lose hope of normal life after this. And I was only 39 years old!! When you mentioned the potential power of NANO SOMA and reading its scientific research, I decided to try it as my last resort. And almost like magic - I stopped bleeding excessively and returned to my normal 28- day cycle in just 1 month. What's better still - it stayed that way since then (11 months now).

Hypothyroidism - When I shared my reports with you and Dr. Raghavan and I was told that NANO SOMA will fix this, too; you also helped me taper my doses with the assurance that TSH functions will normalise. And I can happily say that I was able to taper down and completely get off Thyronorm within 2 months of beginning NANO SOMA! I haven't once experienced any weakness or light-headedness or hunger fluctuations as a result, either.

Rare and strange lesion - Incidentally, I developed a strange-looking, small (but growing) growth in an odd place on my body within weeks of starting the course - to which Dr. Raghavan mentioned that sometimes a problem must peak and the infection

gets out before it is completely cured. I waited patiently and also sprayed topically, as recommended for a few months. It took a long time, while the growth was stopped, the lesion finally disappeared after 8 long months. And I am super thrilled!!!

FOR MY SON - My son was six when we started NANO SOMA, and in his 6 years, the only illness he repeatedly suffered from was allergies. Nebulizers and at times with steroids were a routine at our house for him. Since we started NANO SOMA (December 2019) we've used it just once and now the nebulizer has been packed away permanently!!!

DURING COVID-19 - I haven't stopped normal interactions and travel when required. In fact, at the very onset of the Pandemic, amidst the strict Lockdown, I had no option but to keep visiting the hospital to source morphine for my bed-ridden mother, who was in her deathbed (last stage cancer). However, I wasn't worried to visit hospitals because I had NANO SOMA. I've travelled via flights and taxis with my son on a holiday earlier this month and we both fell very sick within 2 days of reaching our destination but I had NANO SOMA

and both of our severe cold and headaches went away in just 2 days (upped the doses) and we had a wonderful 15-day work-cation!!

SAVED COVID-19 PATIENTS - My dear and beloved friend was COVID-19 positive and hospitalized with a severe lung infection and breathing trouble. Going on my word, he said yes to NANO SOMA (along with Plasma Therapy) and calls it a 'miracle solution'!!! The imminent risk of diabetes from Plasma Therapy was mentioned to him by the doctors, but with NANO SOMA he feels confident that he's safe.

Thank you so much, Sushma, for introducing NANO SOMA to me and my loved ones and I cannot thank Dr. Raghavan enough for what he has done and continues to do for humanity. I hope and pray that the mafia pharma and drug industry can be overcome by these solutions.

Forever grateful, Janice Pearl 29 October 2020

I am V. Suresh from Chennai. I received information about NANO SOMA being useful for COVID-19 infected symptomatic people; that with 5 days NANO SOMA turns COVID-19 positive patients to negative. That miracle happened in my life. I had severe symptoms of cough, loss of smell and taste for a week around October 19. I used 5 sprays/day for 2-3 days. I felt much better but **tested COVID-19 positive** with a CT scan. I was admitted to the hospital

Metadichol and Covid -19 patient experience:

I am Nisha aged 33-year living in Thane (suburb of Mumbai) India. On 12th August 2020 i had Fever, Stomach pain, Dysentery, Vomiting . Next day on 13th I went to my physician and he suspected food poisoning so he gave me antacids for two days but my symptoms did persisted. . On Aug 15th The Doctor suggested trying with with extra dose. But after one more day my symptoms were getting worse.

Then on 17th I again went to the doctor and he immediately suggested that I get admitted in the hospital. The hospital doctor told suspected these symptoms were due to Covid-19. They did Swab testing for Covid-19 and on 18th report came out as positive. The hospital doctor told me to go to Covid-19 center but I told the doctor i prefer home quarantine.

After reaching home I called my company boss and told her that I was Covid-19 positive. She immediately told me about Nano Soma an Immune Spray which is very effective on Covid-19. On 19th August I got the Nano Soma around 4 p.m in the evening and Immediately started taking this 5 sprays (5 mg) every 6 hours and within 24 hours my all symptoms went gone. On 23rd August 2020 four days later my Antibody test was positive with a value of 25.9 Today, I am so happy that because of Nano Soma I fully cured.of Covid-19. Thanks to my boss and may god bless the Inventor of Nano Soma.

for 6 days. I used NANO SOMA, 5 sprays every 4 hours. Now, the COVID19 RT-PCR test is confirmed negative. Thanks to NANO SOMA.

Our hospital doctor teams were happy. I'm now free from COVID-19 all because Mr. Kumar introduced me to NANO SOMA at the right time. Happy NANO SOMA!!
Report dated October 15, 2020, and shared with Dr. Palayakotai Raghavan

The second test was for the SARS-COV-2 virus and for SARS-COV-2 antibodies. Antibodies are normally present, according to International protocols, after 21-26 days. After 4 days of using NANO SOMA, Nisha was clear of the virus and SARS-COV-2 antibodies were present in her body and, as she says above, all of her symptoms were gone after 24 hours.

There are also some 60 pages of separately gathered testimonials [at this link](#).

My Maltese named Oliver (12 years old, weight ca. 10 lbs, photo attached) was diagnosed with Schiff-Sherrington disease which is similar to ALS (amyotrophic lateral sclerosis, is a progressive neurodegenerative disease that affects nerve cells in the brain and the spinal cord) in humans. In February of 2020, Oliver became actually paralyzed in his back legs. We took him to the vet and we were given a grim outlook about his future. The vet prescribed Oliver a steroid and sent him home hoping for the best, but we were convinced that we were going to have to put him down by the end of that week since he was no longer able to walk even with the steroid treatment..

Seeing that the steroid was offering no visible improvement after several days, we were preparing to have Oliver euthanized. At that point Dr. Joseph Marasco, my father-in-law who is a biochemist and a vigorous proponent of Metadichol, suggested that I give him a dose of Metadichol daily. We started giving liquid Metadichol spray (about 1 ml) to Oliver once per day and within a week, he was walking again, not well, but walking nonetheless.

Oliver is going on almost 10 months of the same daily dose of Metadichol and he is walking better than he did two years ago, well before his diagnosis! We have seen an amazing turnaround with our little pup! Our sincere appreciation goes out to Dr. Raghavan for this life-saving product.

Stefanie Marasco
