## MF Tractors Serial Numbers

For Italian and English tractors, the letter preceding the tractor serial number designates the year of build. The next 2 numbers indicate the week in which the tractor was built while the last 3 numbers indicate the number of tractors off the line that week.

**Example: S01234**

S = 1991  
1 = 1st week of January  
234 = 234th built that week

For French tractors, the letter preceding the tractor serial number designates the year of build. The next 3 numbers indicate the day of build while the last 3 numbers indicate the number of tractors off the line that day.

**Example: R285015**

R = 1990  
285 = Day of the year , or in this case October 12.  
15 = '15th built on that day.

Year of Manufacture for Italian, French, and English Tractors.
