

MILESTONE

H E L P I N G
P A T I E N T S

Milestone's waves of innovation

Form the operating room to rapid tissue processing

Unique evidence-based “chain of custody” of the pre-

TissueSAFE

High vacuum biospecimen transfer system.

- Remove formalin from surgery suites
- Deliver “fresh” tissues to lab
- Monitoring of tissue temperature during transfer

T-Cart

Transfer of biospecimens at a preset temperature (2-4 °C).

- Full documentation through RFID technology

MacroPATH D

Macro digital imaging system for the grossing room.

- Annotate images (automatic sizing, block locations, text, etc.)
- MP3 voice recording
- Compatible with LIS systems

ProCUT & ProCUT XL CutMATE

Forceps and devices for grossing at preset thickness.

- Precise slicing of whole prostate, breast and other large specimens

analytical step

Ultra-rapid

CheckLITE

Laser-based specimen thickness measuring device.

- Instant visual feedback
- Improved processing results through standardization of tissue thickness

FixMATE

Fully automated fixation system.

- Standardization and documentation of fixation protocols
- Suitable for all types of racks

KOS

Rapid manual microwave tissue processor.

Up to 3mm, 45 cassettes.

PLUS

- Decalcification
- Special Stains
- Time/Temperature
- Fixation
- Gross Hardening

Histos 3/5

Semiautomatic microwave tissue processor.

Up to 3 or 5mm, 110 cassettes.

PLUS

- Decalcification
- Special Stains
- Time/Temperature
- Fixation
- Gross Hardening

Advanced microwave processing for “same-day diagnosis”

LOGOS J

“Personal” hybrid tissue processor

- Fully automated. Up to 3mm
- Rapid, simultaneous dual retort
- Modular rack up to 42 cassettes
- 2-3 standard reagents only
- Automated bone marrow processing

LOGOS

All-in-one hybrid tissue processor

- Fully automated conventional
- Rapid, fully automated single retort
- Rapid, simultaneous dual retort
- Up to 5mm, 140/210 cassettes
- 2-3 standard reagents only

Pathos DELTA

World’s first hybrid tissue processor.

- Fully automated
- Up to 7mm, 300 cassettes
- 2-3 standard reagents only
- Protocols for thicker tissues available

Macro digital imaging for forensic, anatomic and grossing applications

MacroVIEW DM

Mobile macro digital imaging system.

- Quickly capture images, voice notes, and video clips
- All data stored in one case folder
- Battery operated

MacroPATH D

Macro digital imaging system for the grossing room.

- Annotate images (automatic sizing, block locations, text, etc.)
- MP3 voice recording
- Compatible with LIS systems

Innovative "green" solutions

HistosMATE

Automatic cleaning device.

- 5 - 8 minute cleaning cycle for cassette racks, base molds and accessories
- No xylene

FineFIX

Molecular fixative.

- No formalin

JFC

Excellent solution for processing high fat tissues.

- No xylene

ProWAVE

One step solution for dehydration/clearing.

- No xylene
- With or without color indicator

Milestone is committed to reducing patient anxiety and stress by providing pathologists and histologists with innovative technologies to enable same-day diagnostic results.
