

## History of Alpha Delta State Member's Dues

Dues were paid to the chapter and were dispersed to the state and international organization. The dues amount was set for the chapter, state and international levels of the Society by *The Delta Kappa Gamma Society* until 1982. In 1982 state organizations and chapters were given the responsibility of setting their own state and chapter dues. A change in the amount of International dues requires action by the convention body.

From 1938 to 1954 members were charged a \$1.00 fee for scholarship funds. In 1955 Alpha Delta State charged fees of \$2.50 (\$1.00 state scholarship, \$1.00 Boyd fund, and \$ .50 *Bulletin*).

## THE 40s

During the 1940's life-changing events occurred. The first Social Security benefit checks were issued. Recovery from the depression was slow but ongoing. Aggression in Europe and Asia involved the United States in a war that lasted for one half of the decade. The Nazi Holocaust caused the death of more than six million Jews and more than 6.6 million others over thirteen years. The nuclear age was ushered in with the atomic bomb used in warfare.

The social upheaval caused changes in the educator's life. Children were often deprived of schooling and nurturing as women began working outside the home. Enrollment in schools increased causing overcrowded conditions. The GI Bill of 1944 enabled men and women to improve their status by attending school to complete high school or college.

In 1945 UNESCO was formally established in thirty-seven countries. Education was proclaimed as a human right in 1948 in Article 26 of the *Universal Declaration of Human Rights*.

Ohio's Alpha Delta State was making its voice heard in the Delta Kappa Gamma national organization by serving on national committees, establishing scholarships and growing in size. **Margaret L. White** (Alpha) served on the 1940-42 *National Initiation Committee*. She was awarded the National Achievement Award Citation for distinguished service in Delta Kappa Gamma in 1942 at the National Convention in St. Louis. Ohio hosted the 1944 Delta Kappa Gamma national convention in Cleveland. Ohio members attended the first Delta Kappa Gamma Northeast Regional Conference in Connecticut in May 1946. **A. Margaret Boyd** (Alpha Mu) served as the 1948-50 **National Vice President** and on the 1949-50 *National Fellowship for Foreign Women Teachers Committee*.

### Evolution of Alpha Delta State Newsletter

*Notes from the State President*, the first monthly pamphlet-style bulletin, was edited by the state president, Alma Zinninger Oberly, 1944-46. This was distributed to the chapter presidents. During the next biennium, *The Alpha Delta State Bulletin* was authorized in 1947 with Edna Horrocks editor during 1948-50 and Hazel Koppenhoefer during 1950-52. The newsletter was not published during 1952-53 but, in 1953-54 *The Bulletin* was again published, edited by Edyth Hadley.

Ruth Becky Irwin (Gamma) was the first officially appointed Alpha Delta State Editor. She served the organization from 1954 until 1970. The state editor is appointed/employed by the governing body of Alpha Delta State.

#### State Editors

Ruth Becky Irwin, 1954-1970  
Jeanette Stuart, 1970-1986  
Frances Graham, 1987-1997  
Judy Logan, 1997-2007  
Ann Todd, 2007-

There seem to be no official records specifying the name of the publication. In 1967 the word "Voice" was first used on the masthead. The exact title of the publication as presented on the masthead seems to change at the whim of the editor or designer of the graphics for the masthead.

## THE 50s

The end of World War II brought thousands of young servicemen back to America to pick up their lives and start new families in new homes with new jobs. Fighting ended in Korea. American industry expanded to meet peacetime needs. Americans began buying goods not available during the war, which created corporate expansion and jobs. Growth was everywhere and the baby boom was underway.

Xerox produced the photocopier machine, color televisions were marketed, *TV Guide* appeared on newsstands, Kentucky Fried Chicken was founded, *Profiles in Courage* by John F. Kennedy was published, and Bank of America introduced Bank Americard. The federal Highway Act was signed, marking the beginning of work on the interstate highway system. National Airlines between New York City and Miami began the first domestic jet-airline passenger service. Alaska and Hawaii become the forty-ninth and fiftieth states.

Watson and Crick completed scientific studies that introduced the world to genetic mapping and DNA in 1953.

Racial segregation was ruled unconstitutional in public schools by the U.S. Supreme Court in *Brown vs. Board of Education*, 1954. A year later, Rosa Parks refused to give up her seat on a public bus in Montgomery, Alabama. *The Blackboard Jungle*, the first movie on school violence, hit theaters in 1955.

Sputnik I launched by the Soviet Union in 1957 generated education reform in the United States, particularly in the area of the sciences and mathematics. Congress responded by passing the National Defense Education Act (NDEA) in 1958. Benjamin Bloom's *Taxonomy of Educational Objectives*, 1956, a landmark in teacher education, was published.
