DEF STORAGE & DISPENSING SOLUTIONS

MINI-BULK SYSTEMS

Get The World's Best: Blue1USA's DEF MINI-BULK systems, with reliable service and long-term value.

For your 500-3,400 gallon storage needs, there's no easier or better solution. We custom-engineer every system with cutting-edge technology to meet your unique requirements. Every Blue1USA MINI-BULK system is pre-wired for quick and cost-effective installation, and has an aesthetically pleasing white exterior that never rusts or corrodes.

Blue1USA's MINI-BULK systems are available for every application, for both cold (insulated) and warm weather sites (non-insulated).

Easier permitting comes standard with your Blue1USA MINI-BULK system, as it conforms to the highest electrical specifications (per UL-508A and CSA C22.2, no. 14-10). Get the peace of mind that comes from protecting your DEF fluid from potential contamination with Blue1USA's strict material manufacturing standards (per ISO 22241-3,4 and PEI RP-1100).

CERTIFIED TO UL-508A & CSA C22.2
ELECTRICAL STANDARDS

BLUE1USA'S MINI-BULK SYSTEMS PROVIDE:

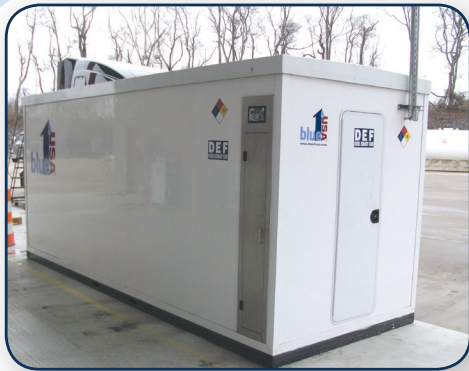

- ◆ **INEXPENSIVE UNLOADING** Forklift slots for inexpensive unloading off delivery truck.
- ◆ **SECONDARY CONTAINMENT** Protect your property with an audible overfill alarm and secondary storage containment.
- ◆ **EASY ACCESS.** Lockable, hinged roof with pneumatic hinges easily opens for maintenance, inspections, and future upgrades.
- ◆ **LEAK-PROOF DESIGN** Blue1USA's Stainless steel fill-port with dry-break coupler eliminates drips and spills during product delivery.
- ◆ **YEARS OF RELIABLE SERVICE** Our robust design with submersible DEF pump provides reliable service year after year.
- ◆ **VISUAL INVENTORY** LED product level display provides an easy visual reference
- ◆ **IMPROVED DRIVER SAFETY** The industry's most compact footprint improves vehicle clearance, minimizing the potential for collisions.

AVAILABLE CUSTOM-CRAFTED SOLUTIONS:

- ◆ 500 - 3,400 Gallon Storage Capacity
- ◆ Heater & Thermostat
- ◆ Exhaust Fan with Timer
- ◆ Stainless Steel Overfill Prevention Valve
- ◆ Low Level Warning Indicator Light
- ◆ Control Room Light
- ◆ Bolt-Down Anchoring Package
- ◆ Adjustable Leveling Frame

MINI-BULK MODELS

COMMERCIAL MINI-BULK SYSTEMS

Perfect for private fleets and card-lock locations. Built-in dispensing systems include 20 ft hose, automatic shutoff nozzle and swivel/breakaway. Compatible with all major card reader systems. Weight & measures upgrade available. Narrow footprint available in many sizes for convenient fuel island installation.

REMOTE MINI-BULK SYSTEMS

Larger sizes provide flexible location options for piping to adjacent fuel lanes. Robust submersible pump supports multiple dispensers. POS compatible for integration with Gilbarco/Gasboy, Wayne, Bennett and other private label dispensers.

RETAIL MINI-BULK SYSTEMS

Many sizes available with narrow footprint for convenient installation at the fuel island. Customized deck extension for integration with all retail dispenser models. Cost effective leveling frames eliminates the need for expensive concrete pad.

BLUE1BOX

Blue1USA is proud to introduce our 1,000-gallon economy model DEF storage and dispensing system.

The Blue1Box is the perfect solution for the commercial fleet owner who wants to purchase DEF in bulk. This economical DEF storage and dispensing mini-bulk provides an attractive combination of quality and price.

The Blue1Box is engineered to the highest quality standards and includes many of the same proven, quality features as our MINI-BULK systems. Every Blue1Box meets both ISO22241 and PEI RP 100 standards for the storage and dispensing of DEF. These cost-effective systems will fit into any equipment budget.

CERTIFIED TO UL-508A & CSA C22.2
ELECTRICAL STANDARDS

WHY THE BLUE1BOX?

- ◆ **LOWER COSTS.** Available for cold climates (insulated) or warm weather sites (non-insulated)
- ◆ **FUEL ISLAND COMPATIBILITY** The Blue1Box's narrow, compact footprint (46" x 95") allows the unit to be installed on most fuel islands or other productive fueling areas with space
- ◆ **QUICK & EASY INSTALLATION** Every unit includes pre-wired turn-key components, stainless steel piping & dry-break adapter, magnetic nozzle with auto shutoff, swivel/breakaway, inventory level gauge and audible overfill alarm.

BLUE1BOX

PRODUCT DATA SPECIFICATIONS

Two Blue1Box models are available to fit any budget. The **Standard** model includes a 15ft. hose and hose hanger. The **Premium** model includes a 25ft. hose, retractable hose reel and pulse output.

FEATURE DESCRIPTION	STANDARD	PREMIUM
Non-Insulated HDPE exterior	X	X
1,000 Gallon capacity	X	X
Narrow 45" width	X	X
Secondary containment	X	X
Lockable, hinged dispense door & roof	X	X

BLUE1ECON SYSTEM

ECONOMICAL, ISLAND READY DEF STORAGE & DISPENSING SYSTEM

This pre-wired, turn-key system includes all components necessary to safely and conveniently dispense DEF on your fuel island. It is perfect for warm weather sites or fleet maintenance shop locations. The narrow, compact footprints are the smallest in the industry thus providing you with the most flexible and inexpensive installation available. Our proprietary single-wall poly tanks are all UV protected. Every sealed system meets ISO 22241-3, 4 and PEI RP1100 industry standards.

- Available in narrow 500, 750 and 1,000 gallon sizes
- Dispensing assembly includes a 15' hose, mis-fill prevention nozzle with automatic shutoff, swivel/breakaway and LED display with 100:1 pulse output
- Remote model available that can be piped to B1U or other DEF dispenser
- Compatible with all fuel management & card reader systems
- Factory installed components include: submersible pump, stainless steel piping with leak-proof press fittings, pressure vacuum vent and 2" dry-break fill coupler
- Bolt down frame protects system from strong winds and storms

DIMENSIONS:	500G	(35"W X 93"L X 77" H)
	750G	(39"W X 101"L X 91" H)
	1,000G	(44"W X 111"L X 95"H)

OPTIONS:

- INVENTORY LEVEL GAUGE & OVERFILL ALARM
- OVERFILL PREVENTION VALVE
- DEDUCT FOR REMOTE MODEL (WITHOUT DISPENSING EQUIPMENT)

DEF DISPENSERS

The Blue1USA dispenser is designed for use in either commercial or card lock locations where demanding use requires high performance reliability. Every Blue1USA dispenser is pre-wired per UL and CSA electrical standards. The Weights & Measures certified dispenser is perfect for card lock locations and resale establishments. Rugged design provides many years of reliable performance and long-term value.

BLUE1USA'S DEF DISPENSERS PROVIDE:

- ◆ **EASY PERMITTING** Electrical certification per UL-508A and CSA 22.2 provides assurance that every Blue1USA dispenser conforms to the highest electrical standards.
- ◆ **DEPENDABILITY** The weatherproof exterior is made of 100% composite material that will not rust, corrode, warp, or fade. The locking cabinet includes bolt down brackets for fastening the unit securely to the concrete pad.
- ◆ **EASY, INEXPENSIVE INSTALLATION & RELIABLE PERFORMANCE** Factory-installed components include 20' hose reel with DEF hose, 1 micron filter, automatic shut-off nozzle with misfill prevention, and swivel/breakaway.
- ◆ **USAGE TRACKING** Electronic LED display provides easy and secure ability to track and reconcile daily fluid consumption. Totalizer and pulse output included.
- ◆ **CARD READER COMPATIBILITY** Blue1USA's dispensers are compatible with all major card reader systems.

AVAILABLE CUSTOM OPTIONS:

- ◆ Thermostatically controlled heater
- ◆ Upgrade to 40' hose
- ◆ Weights & Measures upgrade. NTEP certified dispenser

BULK STORAGE

BLUE1USA'S BULK STORAGE

Designed for outdoor use and dispensing, these bulk storage units provide high-volume capacity for your DEF. All fittings and venting components are pre-installed, and Blue1USA offers heated and insulated options, as well as a dispensing system.

Find out why our customers say that Blue1USA's solutions are the World's Best!

BULK STORAGE PACKAGES INCLUDE:

- ◆ **FLEXIBLE SIZING OPTIONS** DEF compatible single wall, HDPE, vertical storage tank is available from 3,000 gal to 8,400 gal capacity.
- ◆ **FEATURES YOU WANT** Tie-down slots, built-in graduated gallon indicators, and an offset fill port option.
- ◆ **PRE INSTALLED FITTINGS** Custom placement of any bulkhead fittings required for your facility. Manway standard on all tanks.
- ◆ **SUBMERSIBLE PUMP**
1 HP to 2 HP models available

DISPENSING SOLUTIONS:

- ◆ Stand-alone commercial or weights and measures certified dispensers are perfect to package with a bulk tank.
- ◆ Components include 20' hose reel with DEF hose, 1 micron filter, automatic shut-off nozzle with misfill prevention and a swivel / breakaway.

TOTE CABINETS

For your small fleet or temporary solution, Blue1USA offers a quality line of tote cabinet solutions, specifically designed for the outdoor storage of 275/330 gallon DEF totes. Protect DEF from freezing temperatures as well as degradation from UV rays and excessive heat with these clean and reliable totes.

Blue1USA's pre-wired tote cabinet systems are certified per UL-508A and CSA 22.2 electrical standards and include an on/off switch, interior light and GFCI receptacle. The exterior is constructed of 100% composite material that will not rust or corrode. Sizes are available for both single and double tote storage. The narrow width allows convenient installation directly on the fuel island.

Both models can be crafted for you for either cold weather (insulated) or warm weather (non-insulated) sites.

BLUE1USA'S TOTE CABINETS INCLUDE:

- ◆ **NO FREEZING, NO DEGRADATION.** Cabinets protect pump assembly and tote from inclement weather
- ◆ **EASY REFILLING ACCESS TO BOTH LANES.** Centrally located weather-proof fold down dispense door on end of unit for easy vehicle re-filling access to both lanes
- ◆ **EASY ON/OFF LOADING & RELOCATON.** Heavy duty chassis with forklift-compatible slots
- ◆ **SECURITY & PEACE OF MIND.** Both dispense and large door are lockable to prevent potential fluid theft.

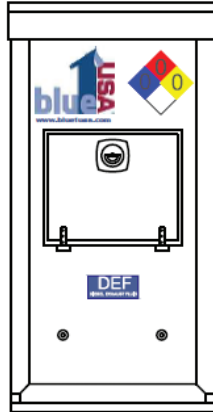

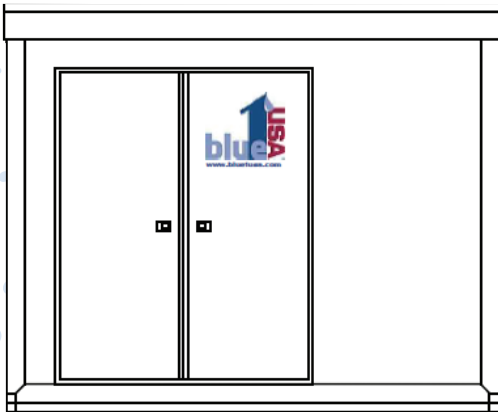

AVAILABLE CUSTOM-CRAFTED SOLUTIONS:

- ◆ Insulated and non-insulated exterior housing
- ◆ Thermostatically controlled heater
- ◆ Built-in dispense door with hose, reel and pump assembly

BLUE1 COMBO AST SYSTEM

DUAL COMPARTMENT DIESEL & DEF STORAGE

The Blue1Combo AST System is the industry's first and only Dual Compartment DEF / Diesel AST System that meets all NFPA, UL, NEC, ISO and STI industry standards. The primary diesel compartment is available in either UL-142, Flameshield or UL-2085, Fireguard models. The DEF compartment is insulated and lined with our proprietary, industry approved liner. Both diesel and DEF dispensers are mounted on a convenient low profile platform. This turn-key system is the perfect long-term solution for fleet owners in every vocation.

ADVANTAGES AND BENEFITS INCLUDE:

- **MAXIMIZE FUEL AND FLUID SAVINGS.** Volume purchases will substantially reduce delivered cost per gallon for both products.
- **COST EFFECTIVE.** Minimize installation costs by installing one complete system versus two separate storage systems.
- **COMPACT.** One system for both products minimizes valuable real estate requirements.
- **ELIMINATE POTENTIAL RUNOUTS.** Larger storage capacity reduces the risk of run-outs from product shortages or delivery driver delays.
- **SAFE.** Double-wall with 110% secondary containment for both product compartments.
- **LEGAL.** Meets all industry standards for both diesel and DEF.
- **PRODUCTIVE.** Drivers can dispense both products simultaneously.

Storage combinations available from 10,000 to 30,000 gallons total.
Available with your choice of Gasboy, Wayne or other private label dispensers.
Compatible with all major card reader systems.
