minor surgery

3 YEARS GUARANTEE

Disposable burners also available

- Light duty cautery transformer
- Variable output up to 20 ampere
- Non-slip adjustable feet
- Connectors with safety terminals for banana plugs
- Complete with either standard or pistol grip handle with push button control and cable
- Supplied with set of five, non-corroding, non-oxidising, platinum iridium, 50mm burners: coagulation ball, ring cutter, straight cutter, loop and cold-point
- Alternative 50mm burners available (see chart)
- Burners are autoclavable

Please note: with single patient use tips it is very important that each tip is gradually brought up to operating temperature.

CAU087	Standard grip handle	£952.05
CAU08833	203 disposable, single-use	£21.20
CAU08834	204 disposable, single-use	£21.20

Rechargeable cautery set

510 Heavy duty coagulation ball
 507 Heavy duty straight cutter
 509 Heavy duty ring cutter
 508 Straight cutter
 504 Needle/ cord point

- Elemental cautery system with rechargeable power supply
- Exceptionally compact 'foot-print' on desk charger, ideal for surfaces where space is at a premium
- Hygienic design – no awkward or difficult to clean areas
- Simple to use – just plug-in, recharge and use
- Intelligent charging system with NiMH rechargeable battery
- Fully charged from empty in 3 hrs
- 10 to 15 minutes continual operation from a full charge
- Twin lamp charging indicators
- Slim handle with exact-touch control, highly accurate and well balanced in use
- Fully autoclavable handle and tips (excluding battery)
- 3 burner set CAU08402: ring cutter, straight cutter & coag ball

Disposable burners also available

3 YEARS GUARANTEE

CAU08401	Cautery without burners	£608.90

CAU073	25mm flexible tip 073	£8.13
CAU077	Short circular tip 077	£8.13
CAU078	25mm fine tip 078	£8.13
CAU081	Short heavy duty tip 081	£8.13

Schuco 120W electrocautery unit for minimally invasive surgical procedures is ideal for the treatment of a variety of skin conditions.

This unit will give you the flexibility of cut, coagulation as well as a combined cut and coagulation setting.

Ideal for the treatment of a variety of skin conditions and minor operations.

Cut mode

Cuts tissue to any depth better than a scalpel, with no dragging or snagging

Blend mode

Cuts and coagulates at the same time to provide a clear haemostatic field for the surgeon

Forced coagulation mode

Create superficial coagulation for surface indication

Soft coagulation

Gives the capacity to coagulate deeper through the tissues and to coagulate without carbonisation

Bipolar coagulation

(with adaptor) capable of handling all standard bipolar applications from large vessel cauterisation to small tissue resection

- Pure cut, cut
- Coagulated cut, blend
- Superficial coagulation, coag forced
- Deep coagulation (without carbonisation), coag soft
- Bipolar coagulation, bipolar (with adaptor)

The Schuco 120 comes complete with the following accessories:

- **2 single-use bipolar forceps, with adaptor**
- Reusable handle with finger switches
- Footswitch
- Power lead 2m
- Box of 25 single-use ground pads
- Assorted electrodes, 5cm, 10/pk
- Reusable patient plate
- User manual
- **A range of single-use consumables is also available – see single-use consumables for Schuco 120W on this page**

NB. Delivery is not included in the price

CAU200	£1495.00

Consumables for Schuco 120

- Compatible with all hyfrecator electrodes
- Additional electrodes are available upon request

CAU210	Coag ball 3mm electrode, shaft length 5cm, box of 40	£115.00
CAU211	Switching handle with 3m cable (no electrode), box of 50	£159.00
CAU212	Switching handle with 3m cable & blade electrode, box of 50	£159.00
CAU213	Switching handle with 3m cable & ball electrode, box of 50	£159.00
CAU217	Fine wire cut electrode 0.1mm, box of 36	£52.00
CAU218	Bipolar forceps with integral cable, box of 20	£379.00

Hyfrecator 2000

In terms of efficiency and cost-effectiveness, there is little to compare with the Hyfrecator 2000, the latest and best model in a long line of Hyfrecators. The Hyfrecator is commonly used by dermatologists & GPs in conjunction with curettage for the destruction of small well-defined skin cancers such as basal cell carcinoma.

Also for the treatment of: benign moles, common viral warts, seborrheic warts, skin tags, solar keratoses, spider naevi, telangiectasias, venereal warts, etc. The Hyfrecator 2000 can be easily combined with a smoke evacuation unit.

Key features:

- Complete all-in-one ready-to-use low power diathermy machine that allows a wide range of procedures to be performed
- Handpiece power control, saving procedure time
- 3 separate settings (low power, high power and bipolar)
- Hexagonal locking system in the Hyfrecator handpiece and on tips provides total tip security
- Pack contains: Hyfrecator 2000, patient plate, reusable hand switching pencil, starter box of non-sterile electrolase tips (blunt and sharp), wall mount kit, operator's manual and training CD

NB. Delivery is not included in the price

Hyfrecator 2000 service pack

To provide compliance with Medical Device Guidelines and to ensure that your unit continues to provide you with the accuracy and reliability that you expect. It is essential that your Hyfrecator undergoes an annual service and safety test to the manufacturer's guidelines and standards, using approved spares and calibration equipment.

Upon satisfactory completion each hyfrecator is returned with a current test and calibration certificate.

Each returned unit undergoes the following:

- UK collection and return
- Visual inspection
- Electrical safety test
- Equipment test covering; delivered output, hand piece, patient plate, footswitch and bipolar cable

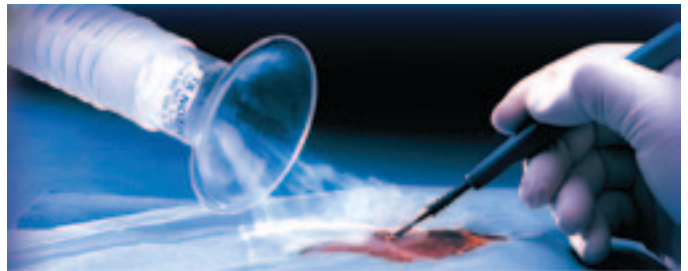

CAU038	Service package	£189.00
--------	-----------------	---------

Acu-Evac IE II surgical smoke evacuator

Smoke Evacuator
shown with Hyfrecator 2000

Advanced, patented, high efficiency filtration system for eliminating surgical smoke plume which may contain hazardous bio-aerosols, live and dead cellular matter (including blood fragments and viruses). Surgical smoke plume can also be carcinogenic, which is another key reason to invest in the Acu-Evac to protect patients and staff. Ideal for GP practices, outpatient departments and all minor operations.

- Can be used with the Hyfrecator 2000 or Schuco 120 – needs special mounting bracket CAU220
- Eliminates unpleasant odours associated with electro surgery or cauterly
- Powerful, portable, easily stored
- Boom arm allows single operator use, with both hands free to perform skin surgery
- Pack comprises: 1 x BH-500 machine, 1 x BH-510 main filter, 1 x BH-511 TX nozzle, 1 x BH-512 tubing, 1 x BH-520 footswitch, 1 x BH-522 mobile stand and 1 x BH-524 boom arm.

TX nozzle

Disposable preliminary filter fitted to the directional end of the tubing and placed nearest the point of surgical contact. Intended for short procedures up to 15 minutes in duration.

- Single-use to reduce possible cross-contamination
- Directional control means convenience for the operator
- Captures 30% more surgical smoke plume due to patented "trumpet" design
- Schuco 120 smoke package available on request
- Hyfrecator smoke package available on request

Main filter for Acu-Evac

A charcoal/odour filter and an ULPA (ultra low penetration air) filter – rated at 99.99997% efficiency on particles 0.01 and 0.12 micron MPPS. Each filter has been tested and certified to be free of leaks at time of shipment. Filter life: 16 hours.

- Gases and vapours are absorbed by activated charcoal
- Sealed unit retains contaminated particles
- Easily and safely removed for replacement and disposal

For special discounts and leasing options please contact our sales team.

NB. Delivery is not included in the price

Liquid nitrogen storage dewars and withdrawal device

- Vessels for the safe storage of liquid nitrogen over a prolonged period
- Full range of specifications to suit individual requirements
- **A withdrawal device is supplied with every dewar as standard; withdrawal device allows the safe dispensing of liquid nitrogen.**
- All dewars include dust cap
- Optional roller base for 20 litre and above dewars

All dewars supplied with a withdrawal device

Note: Dewars should not be stored on concrete or direct on to floors to avoid corrosion or rusting, the larger dewars can be heavy and the roller base is ideal for easy movement.

NB. Delivery is not included in the price

CRY-AC cryosurgery flasks

- Easily refillable hand held systems which use liquid nitrogen
- Providing a very safe and effective low cost, non-invasive treatment for many benign lesions and requiring no anaesthetic
- Very quick treatment, usually less traumatic for the patients than excision, with little or no scarring
- Uses a substance which is non-toxic and non-flammable to provide rapid freezing at minus 196°C via spray delivery or a direct contact probe using KY jelly
- Systems are fully portable and easy to use with a carry case (available as an optional extra)
- Available with 300ml or 500ml stainless steel flask with adequate static holding time to allow for a full day's use
- Each flask is supplied with
 - 1 x aperture A (0.04")
 - 1 x aperture B (0.031")
 - 2 x aperture C (0.022")
 - 1 x aperture D (0.016")
 - 1 x 20g bent spay

3 YEARS GUARANTEE

CRY-AC 300ml flask

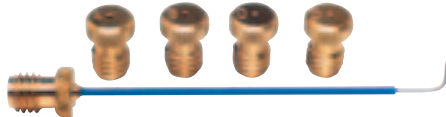

- Height: 215mm
- Weight: full 618g, empty 412g
- Static holding time: 10 to 12 hours

Schuco CryoSpray 350ml

The Schuco Cryospray offers the ultimate in liquid nitrogen spray technology, with maximum ease of use, cost-effectiveness and safety.

Features

- Ergonomic design; offering easy grip for low fatigue and complete control
- Brass collar design; offering a secure connection from head to body; the brass collar will not deteriorate like other plastic design collars can
- Aluminum stabilizing base; additional safety to ensure your canister does not tip over
- Canvas carry case; foam moulded for convenient safety storage and transportation
- 5 year warranty

The Schuco Cryospray is supplied with 5 brass spray tips, a bent spray extension tip, nozzle extension and specialist adaptor to use other orifices – please enquire.

Please Note: The Schuco Cryospray must not be used to transport liquid nitrogen. This item is not supplied with liquid nitrogen.

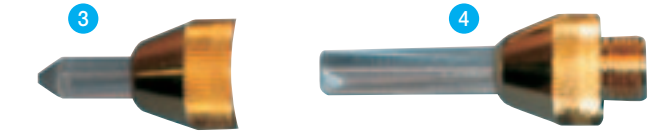

NB. Delivery is not included in the price

CRY136

£575.00

CryoSuccess

Treatment time in seconds

Acne	4 – 6
Keratosi actinica	5 – 7
Age pigments	1 – 2
Basiloma	8 – 9
Cavernous angioma	4 – 6
Granuloma anulare	5 – 6
Hemangiolympangioma	6 – 8
Juvenile warts	3 – 4
Keloids	4 – 6
Senile keratoma	7 – 8
Condyloma	8 – 12
Lentigo maligna	4 – 5
Lentigo senile	2 – 3
Nevus pigmentosus	8
Plantar warts	15 – 20
Solar keratosis	4 – 5
Seborrhoeic warts	6 – 8
Verruca vulgaris	8 – 10
Soft fibroma	4 – 5

The CryoSuccess is a highly portable, simple and effective handheld cryotherapy device for accurate treatment of skin lesions, making it ideal for general practice, dermatology, podiatry and minor surgery applications. To apply the cryogenic liquid gas the dispenser tip is touched against the skin surface and activated by the finger trigger. The liquid gas travels at a mean speed of 40 m/s in a phase stable state (gaseous state) enabling cells to be destroyed accurately and safely. For example a target area with a diameter of 10mm and a depth of 3mm can be frozen to -40° within 12 seconds which will ultimately result in absolute cell destruction.

The CryoSuccess is an alternative solution for cryotherapy without the cost and safety complications associated with liquid nitrogen.

CryoSuccess:

- Low treatment costs
- Portable
- Simple and secure handling
- Extremely precise application, with a constant temperature of -89°C at the base of probe
- Ergonomic design; fits in the hand like a pen
- Effective treatment of all types of skin lesions
- Accessories for special applications in gynaecology, proctology, urology, plastic surgery, dentistry, veterinary medicine, podiatry and aesthetics

- Pack contains: 1 x CryoSuccess (with standard 1mm application tip and protective cap), 1 x cartridge, 1 x pin, 1 x instructions for use, all contained in an ABS protective case
- Simple pencil type grip for easy use and very accurate application
- Freezes to -89°C and to a depth of 3mm
- Level of cold generated adjusted by the rate at which the button is depressed
- Using nitrous oxide cartridges avoids all of the storage and transport problems associated with liquid nitrogen
- Ideal for home visits, nursing homes, etc.

Replacement cartridges

- New cartridge fits all models (however a one off upgrade conversion is required)
- 50% increase in gas volume from 16g to 23.5g (compared to old cartridge)
- Easier and safer to replace cartridges
- Cartridge can be safely removed from the head in between clinics, which prevents leakage

Tips

- The tip is made from a soda clear glass capillary with a diameter of $80\mu\text{m}$
- Can be used as a replacement if the existing tip is damaged, or as a spare for multiple patients if the tip is to be sterilised between patients (optional)
- Comprises brass head and glass tip as a one piece design
- Includes protective plastic cap

CRY132	CryoSuccess	1	£595.00
CRY123	Replacement cartridge	2	£35.00
CRY133	1mm replacement tip	3	£129.00
CRY134	4mm tip	4	£129.00
CRY135	Gynaecological non-flexible tip	5	£226.83

Graseby syringe drivers

- Small, lightweight and battery operated
- Offers reliable infusions with 2–35ml syringes
- A shoulder or belt holster allows the patient to remain mobile during therapy
- Suitable for subcutaneous, intravenous, intra-arterial and nasogastric feeding
- Supplied complete with syringe cover, infusion set 100cm, fabric holster, rate adjuster, instructions and battery
- Two models are available:
 - MS16** will infuse from 20 minutes to 24 hours,
 - MS26** will infuse 24 hours or longer

HEA250	MS16 syringe driver	1	£1100.00
HEA251	MS26 syringe driver	2	£1100.00

HEA254	Fabric holster		£35.83

Askina skin freeze

- Portable cryosurgical system from B|Braun
- Wart and skin tag remover
- New simple application technique
- Very low cost per treatment
- Available in 2mm and 5mm applications
- 50 applicators per pack

CRY171	2mm applicator	£65.00
CRY170	5mm applicator	£65.00

Polymedical Dermo-Jet injector

Polymedical Dermo-Jet with interchangeable sterilised injection tips for local anaesthetics, therapeutic applications in dermatology, rheumatology, scar reduction & vasectomy.

'No needle vasectomy' using the Polymedical jet injector is now the technique of choice in the USA and is growing in popularity within the UK providing patients with a no needle no scalpel vasectomy. Intradermal needleless injector. Intradermal injections of 0.1ml per injection are achieved by a high velocity liquid jet which penetrates the surface membrane to a depth of 2 – 5mm and produces a weal of up to 6mm diameter without contact with the injection site.

- Relatively painless for the patient
- Cost saving in terms of needles, syringes and medication
- The 4ml reservoir is easily filled to permit up to 40 injections to be given in rapid succession
- By purchasing spare heads, the injector head can be changed between patients and then sterilised in one batch
- Unit weighs 300 grams and is manufactured from surgical grade stainless steel
- Can be used for vasectomy, anaesthetics, dermatology, podiatry, dentistry and general vaccinations

DER162	Polymedical Dermo-Jet	£599.00
DER163	Distance piece for Polymedical Dermo-Jet x 1	£67.00

Surgical skin marking pens

Applications

Pre-operative skin marking in:

- Minor surgery
- Dermatology
- Radiotherapy
- Plastic, eye, neuro, vascular and general surgery

Features

- Non-toxic gentian violet ink
- Provides sharp, distinct markings that remain visible for several days but can easily be removed with soap and water, ethyl alcohol or acetone
- Bullet point tip design allows thin or broad line
- Supplied sterile in packs of 10

ComfiSpec vaginal speculum with lock

Designed for the discerning medical professional, ComfiSpec is a high-quality, reliable disposable vaginal speculum, which offers great value for money and predictable performance.

Utilised in gynaecological procedures, such as cervical smear tests and IUCD fittings, the ComfiSpec disposable speculum is the primary speculum for primary care.

- Independently tested as the strongest disposable speculum in the market
- Optimum 38 degree opening angle provides best access for gynaecology procedures
- Textured and frosted handle provides superior grip and control
- Predictable fail safe feature is outside the patient
- Reduced danger of skin trapping
- Fast acting locking mechanism for reduced procedure durations and less patient trauma
- Silent operation
- Professional medical grade plastic

Instraspec vaginal speculum

High quality, reliable, sterile disposable vaginal speculum that offers healthcare professionals complete peace of mind when performing a pelvic examination or gynaecological procedure that requires the use of a speculum, often referred to as ausco. The product is technologically advanced yet offers exceptional value for money. Made from an advanced polymer, it is unbreakable in normal use, offering patients and clinicians complete peace of mind that the anxiety and trauma experienced if a product breaks will not occur. Instraspec therefore combines the safety benefits of a metal speculum with the crystal clear transparency of plastic for maximum visibility, permitting the vaginal wall to be examined during any procedure.

Design comfort

Instraspec has a smooth, rounded design. The danger of skin trapping is reduced when closing the device, whilst a silent and rapid locking action contributes to minimal procedure duration. All culminate in improved patient comfort. Clinicians also retain complete control thanks to the smooth action mechanism and ergonomically designed textured handles.

Ease of use and convenience

Designed thoughtfully, even down to the convenient, easy to use case. To open the case, simply tear off the perforated entry flap. This reveals the flip open dispensing tray which makes selection and dispensing simple and rapid. The individually packed specula are colour coded by size, matching a large and prominent label on the front of the case, further simplifying selection and use.

ComfiSound uterine sound

Single-use uterine sound boasting a series of unique features that make this latex-free, polyethylene device a market leader. ComfiSound disposable uterine sounds have been designed with a rubber cursor that allows the clinician to accurately measure the length of the uterus. The uterine sound's flexibility ensures the shape of the uterus can be determined accurately, plus its textured handle makes the sound easy to hold and manoeuvre.

Features:

- Moveable rubber cursor and centimetre markings for quick, accurate measurement of the uterus
- Highly flexible sound to adjust to the shape of the uterus
- Textured handle provides a strong grip for complete confidence when using the sound
- Easy to hold and manoeuvre
- Sterile single-use eliminates the risk of cross contamination
- Latex-free

SUT220	W319 – 3/8 circle reverse cutting needle	19mm	45cm	4-0 1.5	Blue	12	£18.84
SUT221	W320 – 3/8 circle reverse cutting needle	26mm	45cm	3-0 2	Blue	12	£20.37
SUT222	W736 – 3/8 circle reverse cutting	45mm	100cm	2-0 2	Black	12	£23.11

MERSILK
Braided silk suture non-absorbable

Product	Description	Needle	Length	Gauge	Colour	Quantity	Price
SUT224	W321H – 3/8 circle reverse cutting needle	26mm	45cm	2-0 3	Black	36	£70.60
SUT225	W328H – 3/8 circle reverse cutting needle	26mm	45cm	3-0 2	Black	36	£72.37
SUT226	W501H – 3/8 circle conventional cutting needle	16mm	75cm	4-0 1.5	Black	36	£72.70
SUT227	W537H – 3/8 circle conventional cutting needle	26mm	45cm	3-0 2	Black	36	£75.91
SUT228	W2511T – 3/8 circle reverse cutting – PRIME needle	26mm	45cm	3-0 2	Black	24	£65.73

All available on drug tariff

a world class
ordering system
that saves you
time and money...

discover One Web

The Henry Schein website makes ordering products quick and easy. Our sophisticated order reporting means you can review what product you've purchased, how many and when you ordered last. We're here to support you and as part of our promise to you, we are committed to:

- helping you identify cost reductions
- streamlining processes
- providing excellent customer service
- product satisfaction
- issuing bar code scanners to help you manage your inventory
- providing up to date product information and pricing
- ease of use

We're proud of our industry knowledge - with it we can provide advice and services that make a real difference to your bottom line.

Henry goes beyond products to offer services that really help

Consolidating invoicing

Eliminating unnecessary administration

Blanket/standing order

Reducing order processing time

Stock management expertise

Helping to reduce working capital

Bespoke reporting

Analysing purchase history to identify and maximise further savings
