FOCACCIA

(pronounced FO-KAZ-YA)

Once upon a time, around 1000BC, the Etruscans developed a method of baking seasoned bread with herbs and olive oil. The Romans came along a couple years later and added this to their diet, calling the thin bread-like cakes "focaccia" (from the Latin "panus focus") - Rollo's further improved upon this age old classic, and it makes a very tasty appetizer indeed! Goes great with a salad! 4.99

Developed by Gus Guerra in Detroit, Michigan at the end of WWII, Detroit style pizza is something you need to try. Its rectangular shape comes from the original pans that Gus used. Small rectangular steel pans that were used to store parts in the factories during the War effort were in plentiful supply. With its thick and airy crust and caramelized cheese around the edge, you're in for a treat. These pizzas are a labor of love to produce, and we prepare a limited quantity each day. Get 'em while you can!
