

Royal College of
Obstetricians &
Gynaecologists

**MRCOG Final
Preparation:
Part 2 Written
and OSCE
Consecutive
2–4 July 2015**

**DURATION
3 DAY**

**LOCATION
HONG KONG**

Overview

This three day course is divided into a two day written course for up to 40 candidates followed by a separate one day OSCE course for a maximum of 20 candidates. The written course focuses on the practice of obstetrics and gynaecology within the NHS, lectures on examination technique and practice examinations. The candidates will have two papers each containing 50 SBAs and 50 EMQs to reflect the new format and will receive feedback about their answers.

The one day OSCE course focuses on examination technique and communication skills. The candidates will do two mock OSCE circuits, once as the candidate and once as an observer. The OSCE circuit has 10 stations, 2 preparatory and 8 active stations hence the course is limited to 20 candidates.

This course is ideally suited to candidates who are “exam ready” in their knowledge skills and competencies. This course is intended to complement your local training programme and therefore focuses purely on exam technique and practice and doesn’t include lectures on core clinical knowledge and skills. The course is limited to 20 candidates to ensure that they all have practice OSCE experience with individualised feedback.

Venue

Function Room, 2/F., Hong Kong Academy of Medicine Jockey Club Building, 99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Course Organiser
Dr Leung Wing Cheong

International Convenors of the Part 2 MRCOG Revision Course
