

Nagarkot Everest Panoramic View Hike—Half Day

Today's hike will take around four hours and you will have a guide too. The hike passes through pine forest on a dirt trail. We will pass through some idyllic villages along the way and land at some great viewing spots chiefly two spots which are called Coffee Shop Point a.k.a. Windy Hill and another Nagarkot View Tower. Then we will begin with the nature walk through a pine forest. The thick coniferous area covers more than half of Nagarkot. After some time your trail will end up at Kartike, a Tamang Village which has all the trademarks of a typical Nepali village with terraced fields and thatched houses. Then we will be heading to another village called Dada Gaun which also falls under the hiking trail. Hike now being almost half complete you will be returning to the spot where you had started earlier for your nature walk. This hike provides you with unrestricted view of the Himalayas from Everest in the east to Annapurna to the west Mahalangur Range, Langtang Range, Ganesh Himal Range, Jugal Range, Rolwaling Range and Everest Range among others.

Highlights of the Hike

Unparalleled Mountain View

This is probably the most rewarding aspect of the hike. Nagarkot being a high hill which acts like a view tower makes mountain viewing an experience quite unlike anywhere. On a clear day you can see mountains higher than 8000 meters like Everest (8848 m), Cho Oyu (8201 m) and Annapurna (8091 m), not to mention hundreds of other smaller peaks. Other famous mountains you can see are Ganesh (7422 m), Langtang (7205 m) and Gaurishankar (7134 m).

Forested Area

The forests big and small found in the countryside of Nepal are another attraction to the hikers these days. In recent days community forests have changed the face of rural areas of Nepal spreading greenery everywhere. The similar patch of forest in Nagarkot called Darabisaune Community Forest is increasingly being popular for day hikers, bird watchers and nature lovers.

Village Scene

Nepal is mostly rural and even places near Kathmandu are still untouched by modernity. So take advantage of the situation while it still lasts as Kathmandu is experiencing fast urbanization. You never know what might happen ten or twenty years down the line. Nagarkot and its periphery is still abound with the beautiful Nepali rural scene and an opportunity to see it all is waiting for you.

Paragliding in Nagarkot

Paragliding in the Nagarkot has been recently started. The paraglider in the Nagarkot can experience the view of green valleys, Himalayan view with the MT. Everest on the clear day as well as the mountainous landscapes and Mongolian village.

Everest Panorama Trek (10D/9N)
