The Smart Card Architect

nagra.com

Kudelski Group Structure

Presence Worldwide

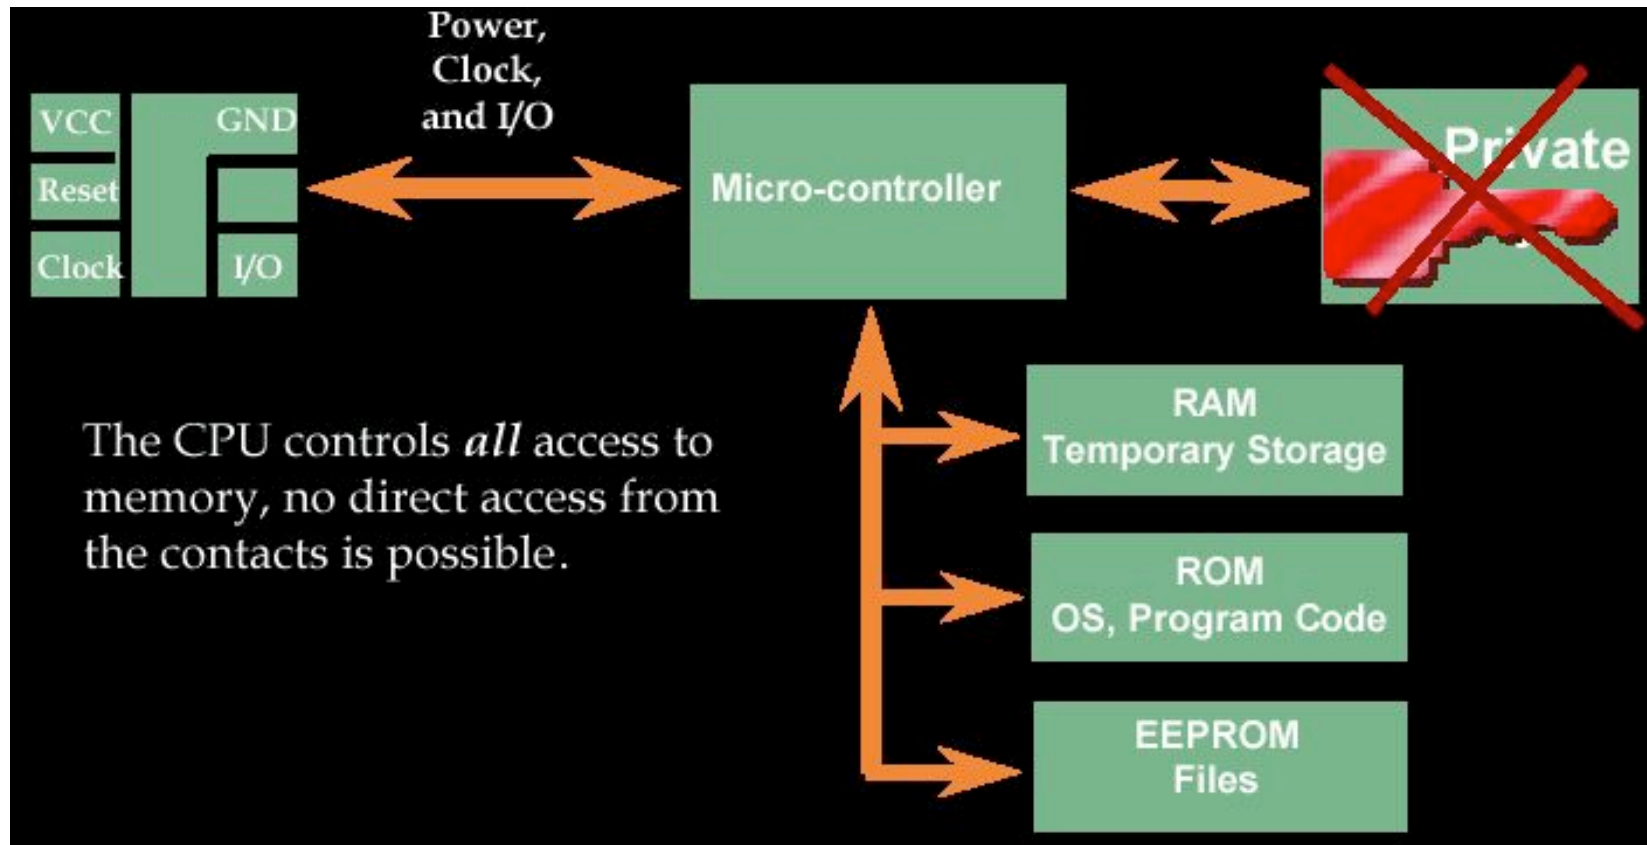

Pay-TV, did you know it's PKI ?

- Pay-TV systems installed worldwide
 - 22 millions customers
 - pay-per-view
 - electronic purse
 - Internet

- Managed and secured with a very high proprietary secured PKI solution
 - based on a smartcard

Microprocessor based smart card

Smart Cards and PKI

- Smart cards are «certificate wallets»
- Secure storage for:
 - Owner private key
 - Trusted root certificates
- Smart Cards are a «PC-in-your-Pocket»
 - Generation of owner's digital signature
- Smart cards provide:
 - Mobility
 - Security
 - Transparency
 - Issuer branding, loyalty

Digital ID

■ Asymmetric key-pair

- public key
- private key

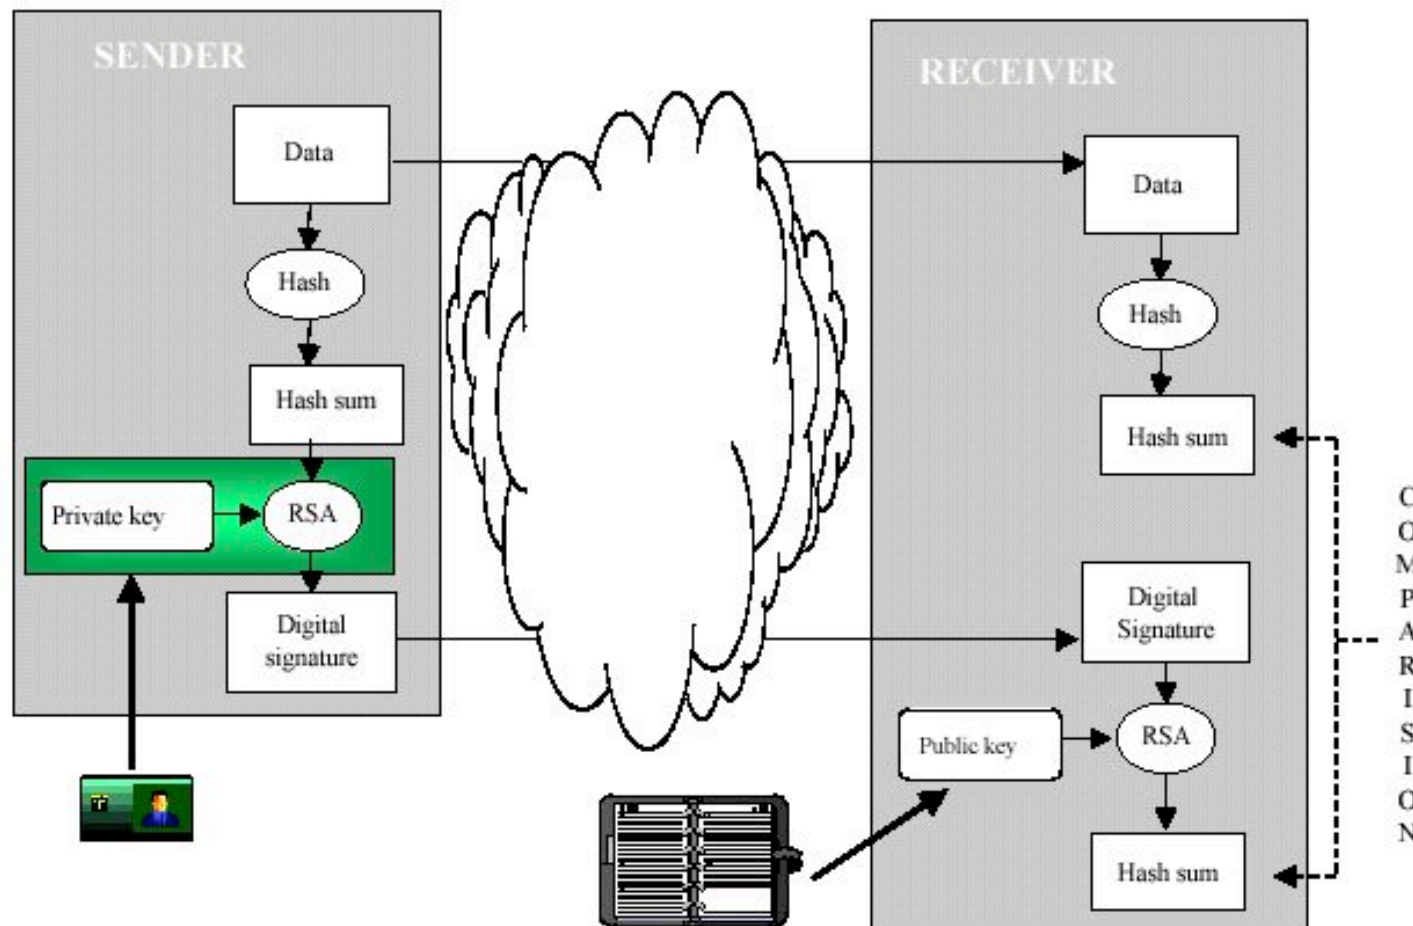

■ X.509 certificate

- ISO standard
- public key
- credentials

Smart card application example: Digital Signature

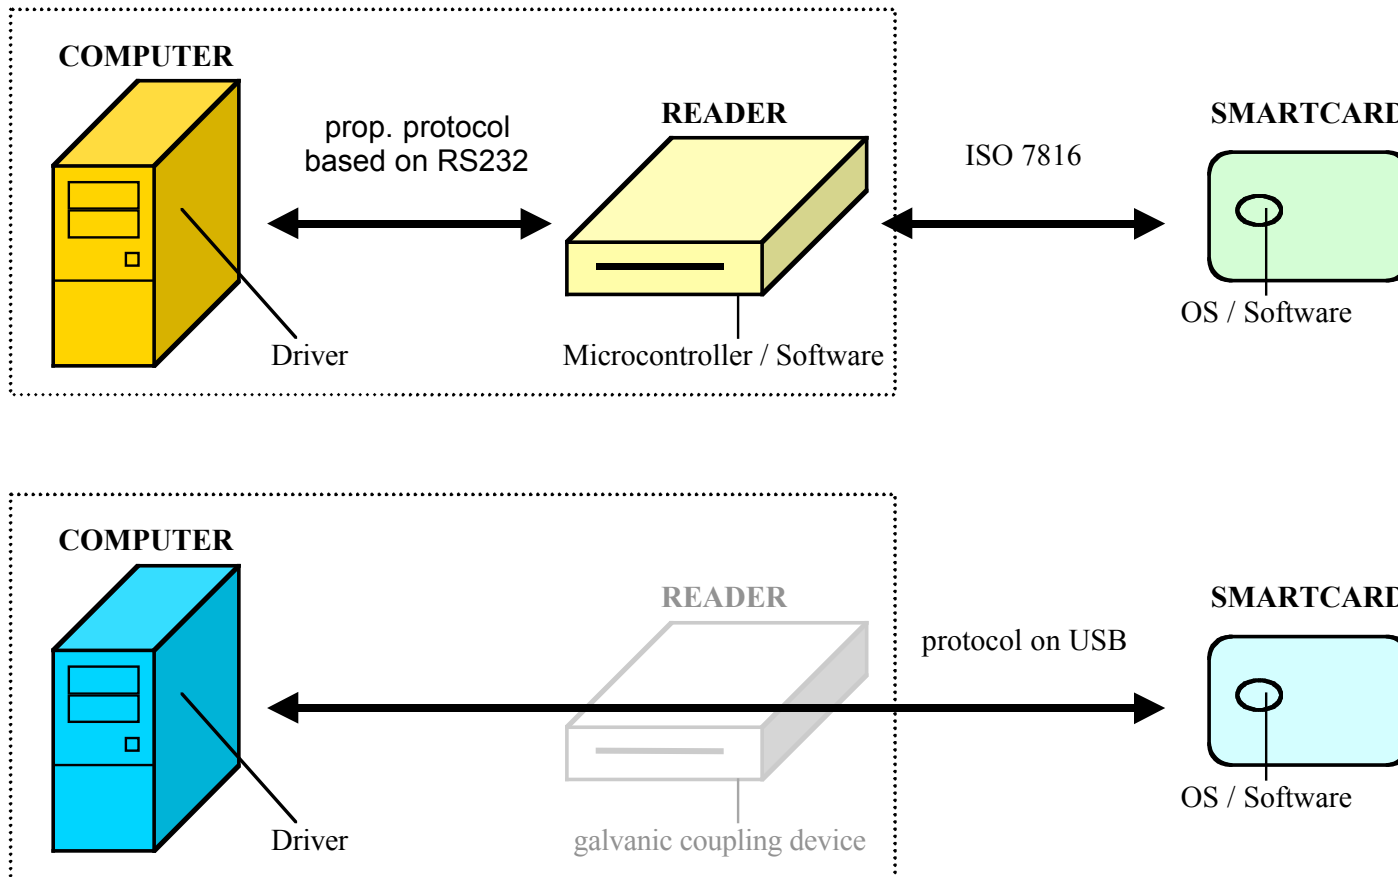

Smart card in heterogeneous environments

- Smart cards need readers and drivers

- Readers
 - desktop or embedded (keyboard, floppy slot)
 - optional display and keypad
 - PC world ready for installation
 - Mac, Unix & Linux 'waiting' for USB

- Drivers
 - PC/SC standard for Windows PC
 - custom developments

ISO 7816 vs USB

Certificate Portability: Smart Cards Holding Certificates

■ Pros

- Tamper-proof device
- Portable
- Visible security/theft indicator
- Upgradeable
- Branding, Photos, Mag-stripe
- Biometric cards, readers coming

■ Cons

- More expensive than a pure software solution
- infrastructure
- Standards issues
- Multi-application issues

NagraCard solution

- Based on knowledge of massively-deployed smart card based system management in Pay-TV
 - Nagravision is the #1 player in digital TV, and is an independent company
 - More than 20 millions of smart cards delivered and operating

- NagraCard thinks security at system level
 - To secure the overall security
 - To avoid a breach in the chain
 - To strengthen each element security

Our Mission

- Smart card architect
 - Security solutions & services
- Smart card R&D
 - Secured and reliable smart card operating systems and applications
- Our approach
 - audit
 - architecture, security
 - implementation
