

National Handicap for Cruisers (NHC) - Base List

The NHC Base list should be used in conjunction with the *Rules and Guidance* document that can be downloaded from the RYA website: www.rya.org.uk/racing/pages/nhc.aspx.

- If your design of boat is not featured on the base list contact the RYA technical department (technical@rya.co.uk).
- The base numbers should be used for boats taking part in a club series where a club number has not been developed.
- The base list should also be used to allocate base numbers to boats for their first race in a regatta series.
- Take note of the design year as there may be two or more numbers for the same design available.
