EXAM OVERVIEW

Cambridge Safety is a Neboosh Gold Learning Partner number 389 and is accredited to teach a variety of Neboosh qualifications including General Certificate and National Diploma. We regularly hold exams for General Certificate, Construction Certificate, Fire Certificate, Environment Certificate, National Diploma and Environment Diploma, alongside supplying a bespoke revision package for each qualification.

To be able to sit the **Neboosh Health and Safety Diploma or Environmental Diploma** examinations you must have been studying with an approved centre such as ourselves or another Neboosh approved centre, whether by taught course or distance learning.

To be able to register for any Open Book Exams with Cambridge Safety you must have studied with us (classroom/distance learning/E-learning) unless your course provider has ceased to operate.

To enter for any Neboosh exam or assessment, exam registrations must be made by the time frame given on our exam timetable, to enable us to register you with Neboosh.

Please note that these details, fees and exam dates/cut off dates are subject to change.

QUALIFICATION OVERVIEW

Nebosh General Certificate in Occupational Safety and Health 2020 Syllabus

This qualification consists of eleven course elements, four covering the management of health and safety and seven covering specific workplace hazards and risks.

The four management elements are assessed by one new style open book examination (NG1) accessed online at home, and the more practical hazards and risks are assessed via a comprehensive workplace risk assessment report (NG2).

Both exam and risk assessment have to be passed in a five year period to achieve the qualification. We recommend allowing approximately 100 hours of study time.

If you have taken the 2014 version of the General Certificate and have already taken one or more assessments - contact us as you will still be able to take the remaining exams in 2020 and 2021. If you still need to take the NGC1—this will now be in the form of an open book examination which you can take in a safe and secure location of your choice.

Revision Package :

NG1 (Open Book Exam)

- 1 mock case study for the delegate to complete and send in for tutor marking and feedback
- True and False quiz
- Key Terms Review
- YouTube video explaining the answers to the mock case study and true and false quiz
- YouTube video with NG1 Open Book Exam guidance

NG2 (Risk Assessment Practical)

- 1 practice short risk assessment for the delegate to send in for marking and feedback
- YouTube video with NG2 guidance

QUALIFICATION OVERVIEW

Nebosh National Diploma in Occupational Health & Safety

The course is structured around four units:-

- Managing Health & Safety (Unit A) - One three hour examination
- Hazardous Agents in the Workplace (Unit B) - One three hour examination
- The Workplace and Work Equipment (Unit C) - One three hour examination
- Workplace Based Assignment (Unit DNI) - This can be submitted in February, May, August or November of each year

DNI assignment

The DNI is a significant piece of work to demonstrate your work as a H&S practitioner, it is to be submitted when you have taken all three diploma examinations. The report **must** contain evidence of research & reading beyond your course notes.

The report may be up to 12,000 words but there is no maximum word count apart from the executive summary which must be on just one sheet of A4 paper. Nebosh suggest 8,000 words but past experience shows this may not be enough to enable all key issues to be covered in sufficient depth. However it is important that the report is not excessively wordy and therefore does not focus on the specific issues required.

As there is no word count limit you may place any material which you have actually completed in to the report, i.e. sample risk assessment forms, questionnaires etc. You should put any non original material that you have referred to in the appendix, i.e. copy of an extract of a company procedure. However only put into the appendix information that you actually refer to in the report and that which adds to the understanding of the report. Full copies of paperwork such as company H&S policies or HSE guidance notes are not required.
