PATHFINDER AIM

The Advent Message to All the World in My Generation.

PATHFINDER MOTTO

“The Love of Christ Constrains Me”

PATHFINDER PLEDGE

By the grace of God,
I will be pure and kind and true.
I will keep the Pathfinder Law
I will be a servant of God
and a friend of man

EXPLANATION – PATHFINDER PLEDGE

By the grace of God

Only as we rely on God to help us can we do His will.

I will be pure

I will fill my mind with everything that is right and true and spend my time in activities that will build a strong, clean character.

I will be kind

I will be considerate and kind, not only to my fellow man, but also to all of God's creation.

I will be true

I will be honest and upright in study, work and play and can always be counted upon to do my very best.

I will keep the Pathfinder Law

I will seek to understand the meaning of the Law and will strive to live up to its spirit, realizing that obedience to law is essential in any organisation

I will be a servant to God

I will pledge myself to serve God first, last, and best in everything I am called upon to be or do.

I will be a friend to man

I will live to bless others and do unto them as I would have them do unto me.

PATHFINDER LAW

The Pathfinder Law is for me to:

Keep the morning watch
Do my honest part
Care for my body
Keep a level eye
Be courteous and obedient
Walk softly in the sanctuary
Keep a song in my heart
Go on God's errands

EXPLANATION – PATHFINDER LAW

Keep the Morning Watch

I will have prayer and personal bible study each day.

Do my honest part

By the power of God I will help others, and do my duty and my honest share, wherever I may be.

Care for my body

I will be temperate in all things and strive to reach a higher standard of physical fitness.

Keep a level eye

I will not lie, cheat or deceive, and will despise dirty talk or evil thinking.

Be courteous and obedient

I will be kind and thoughtful of others, reflecting the love of Jesus in all my association with others.

Walk softly in the sanctuary

In any devotional exercise I will be quiet, careful and reverent.

Keep a song in my heart

I will be cheerful and happy and let the influence of my life be as sunshine to others.

Go on God's errands

I will always be ready to share my faith and go about doing good as Jesus did.

BOOK CLUB CERTIFICATE

[Compulsory Requirement]

1. Pathfinders are to read a minimum of 4 books every year. One book must be from each of the following categories:
 - a) Missions
 - b) Autobiography
 - c) Nature of Science
 - d) One book of personal choice (excluding fiction e.g novels, etc)
2. Juniors are to read a minimum of 40 pages.
3. Teens are to read a minimum of 80 pages.
4. Pathfinders must inform their Club Leaders/Counsellors about the choice of books **BEFORE** commencing to read so that the category of book and suitability can be decided upon. Club Leaders may choose to have a collection of books as reference but Pathfinders may have books at home that will fall into the categories listed above.
5. Upon completion, Pathfinders must prepare a summary of what they have read to include:
 - Title of Book
 - Author
 - Publisher and Year Published
 - Paraphrased, bulleted points or outline of main events or ideas.
6. Reports should be a minimum of 80 words for Juniors and 120 words for Teens, completed in their own time.
7. The Pathfinder and the Club Leader/Counsellor must date and sign each completed Book Club Certificate Report (sample Report in Leaders Book – copy as required).
8. The completed work must be kept in the Pathfinder's folder for inspection at the Evaluation Day.

N.B. Pathfinder Reading Lists are no longer issued annually but there are thousands of good reading materials for this requirement.

Pathfinders and their counsellors can find appropriate reading materials by searching online with the words 'junior reading lists'.

You can also take advice from your local library, schools or local authority experts.

HEALTH AND FITNESS

The purpose of this section is to create an awareness that the body is the temple of God and to learn the harmful effects of smoking on health and fitness.

1. Memorise and explain 1 Corinthians 9:24-27

24Do you not know that in a race all the runners run, but only one gets the prize? Run in such a way as to get the prize. 25Everyone who competes in the games goes into strict training. They do it to get a crown that will not last; but we do it to get a crown that will last forever. 26Therefore I do not run like a man running aimlessly; I do not fight like a man beating the air. 27No, I beat my body and make it my slave so that after I have preached to others; I myself will not be disqualified for the prize.

1 Corinthians 9:24-27 (New International Version)

1. Safely perform a compact jump, a fall in entry and exit from deep water.
2. Throw a rescue flotation aid to a partner at 5 metres distance and instruct the partner to kick to the edge.
3. Demonstrate feet first sculling on the back.
4. Demonstrate rotation of the tucked body, keeping the face above the surface of the water.
5. Surface dive, swim underwater, search for and recover an object from water equivalent to the candidate's height
6. **Swim continuously**
 - a. 50 metres with above water arm recovery and
 - b. 25 metres with underwater recovery.
 - c. Recognised stroke techniques must be used.
7. **Survival Sequence**

Dressed in swimwear, shorts and T-shirt, complete the following:

 - a. Scull, float or tread water for 2 minutes.
 - b. Swim slowly for 3 minutes changing survival strokes after each minute.
8. Float for 1 minute using an open ended flotation aid.
9. Answer questions about dangers in the aquatic environment.
10. Extension: Demonstrate introductory butterfly arm action for 5 metres.

ORGANISATION AND LEADERSHIP DEVELOPMENT

..

1. Plan and lead a devotional service for your group

 **Consider the following potential times for devotionals:**

1. Start of each Pathfinder Meeting
2. AJY Society Meeting
3. Vespers at church
4. At close of Sabbath while on a hike

Write a summary of what took place:

B. Plan and take a three-hour or 8 km hike.

HIKING TRIP PLAN

A trip plan prepares you for the challenges of a hike. Take a copy of your trip plan with you and leave one with your parents or other adult. The parts of a trip plan are:

WHERE are you going? Decide on your destination and the route you will travel to reach it and return. For backcountry trips, include a copy of the map with your route marked in pencil.

WHEN will you return? If you are not back reasonably close to the time on your trip plan, someone can take steps to locate you and provide assistance if needed.

WHO is going on the hike? List the names of your hiking partners. Write down who will transport you to the trailhead, if required.

WHY are you going? Going fishing, climbing a mountain, exploring a new area are all good reasons for a hike. Write a couple sentences about the purpose of your trip.

WHAT are you taking? Carry the Pathfinder outdoor essentials and list other equipment and clothing you will need.

HOW will you respect the land by using Countryside Code?

NATURE STUDY

The purpose of this section is to introduce the Companion to the thrill of discovering God's Book of Nature and to develop a sense of accomplishment by completing Pathfinder honours.

1. Participate in nature games or in a one-hour nature walk.

New to Walking?

Walking is something to be enjoyed. It is not boring and it is not a hobby for the elderly. At times it can involve hard work, especially when you head off into the hills, but generally you get more out of a walk than the effort you put in. Besides providing an interesting way to keep fit, you see Britain at its best with fascinating insights into the countryside, its wildlife, scenery and of course its weather.

What Equipment?

Apart from good footwear and some waterproof clothing you need very little equipment to get started. At first you need nothing fancy, go for comfort and footwear with ankle support. If you decide walking is something that interests you, then investment in a good pair of hiking boots would make sense but not when you first start. Waterproof outerwear is essential especially in the British climate. Most of us have at least a basic waterproof and this should be fine until you venture out for longer walks or up into the hills.

When you have decided you enjoy walking and want to extend your "range" then read as much as you can about available products before making a purchase. Boots are perhaps the most essential item and comfort depends on the fit. Many people complain of blisters when they are walking. This is nearly always due to poor fitting boots or inappropriate socks. Remember comfort first - fashion second.

How far?

Start with short easy walks - perhaps two or three miles - over well marked routes. Setting out a ten mile circuit in the mountains is not for beginners and will probably frighten you off walking for good. Work your way up to something more adventurous perhaps increasing the walk length to five miles over easy terrain. From this base you can then build up your experience and set out on a high level route that requires more experience and greater fitness. Hundreds of walks are featured on this site but before choosing a walk check here for details of how walks are graded, perhaps starting with easy or easy/moderate grades.

When to go?

Walking is not just for sunny summer days. It is a year round activity that is often more pleasant in winter than in summer. Why get fit in summer only to let your fitness slip during winter? Why share the footpaths with crowds in summer when you can have them almost to yourself in winter? If venturing out in winter then do take care as clothing and footwear become more critical especially as you gain height above sea level.

Where to go?

Try walks in your local area first. They may not feature the best scenery or the most dramatic views but they provide a way of getting yourself fit for something more exciting. National Parks, Areas of Outstanding Natural Beauty and the British coast provide the best places to walk and form the basis for many walks to suit all abilities and fitness levels.

BIRDS

Snapshot of Honour

This honour is an introduction to those fantastic feathery friends!

You'll learn what makes birds different to other creatures and understand more about the creativity and love of our God. You will reflect on how birds impact on the lives of people, especially the people of your country or where you live.

There's plenty to practical things to do; identifying birds – some by sight and some by sound. There's a choice of setting up a feeding station, observing an occupied bird's nest or making a study of a bird habitat. Come to think of it, if you're keen, you can do all three!

Requirement 1: Give five characteristics which set birds apart from all other creatures.

1.	
2.	
3.	
4.	
5.	

Requirement 2: Name three flightless birds, tell what their diet consists of and name the country or continent in which each one lives.

	Bird	Diet	Country of Origin
a.			
b.			
c.			

Requirement 3: Give the day of the week when birds were created. Find in the Bible the names of five birds and be able to name them from memory.

Order	Details / Distinguishing features
Day Birds were created	
Five Birds in the Bible	

Requirement 4: Give three ways in which God’s love and purpose is shown in the creation of birds.

1.	
2.	
3.	

Requirement 5: Describe how you and your family can attract wild birds into your home environment in a long-term sustainable way.

--

Requirement 6: Name five ways by which bird’s impact on the lives of people. Some of these must relate to people of your country or where you live.

1.	
2.	
3.	
4.	
5.	

Requirement 7: Make a list of at least twenty (20) species of birds, that you personally have observed and positively identified by sight.

Requirement 8: Make a list of five (5) species of birds that you personally have positively identified by sound.

1.	
2.	
3.	
4.	
5.	

Requirement 9: Do at least one of the following:

9:

- a. Set up a feeding station and report on the bird visitors observed for a period of at least seven days.
- b. Find a an 'occupied' bird's nest, identify the species of the bird that built it, describe the nest in detail, observe the nest for five days, and report what happened at the nest on each of the days.
- c. Make at least three visits to a wild-bird habitat. Make a brief report on the number of birds observed, the number of different birds observed and any interesting things you saw.

Please complete the following according to the option chosen

2. Learn or review the Friend knots and Tie and know the practical use of the following knots: sheet bend, sheepshank, fisherman's knot, timber hitch, taut line hitch:

KNOTS

The Sheet Bend

This knot is used in bending the sheet to the clew of a sail. It is used also when tying two ropes of different thickness together.

For example, if a rope needs to be thrown some distance, a string is first tied to a weight of some kind and thrown. Then use this knot to tie the string to the rope. This knot is also valuable in stretching a sheet for a projector screen or in any other case where a cloth must be tied by the corners with a rope or a string. Make a loop with rope, pass the end of the other rope up through and around the whole loop, then bend it under its standing part.

The Sheepshank

This knot is valuable for taking up a slack when both ends of the rope are tied, or for strengthening a weakened rope. Gather up the amount to be shortened, then make a half hitch around each of the bends.

Fisherman's Knot

Useful in tying together anything smooth and stiff, such as nylon fishing wire. It does not slip and is easily untied. Lay the two ropes parallel, then with the end of each tie an overhand knot about the other. Pull the two standing parts.

Timber Hitch

Used in hauling timber and for commencing the diagonal lashing

Pass the end of the rope around the timber. Bring it up and around the standing part, then twist it back about itself two or more times. The weight of the timber will hold it securely.

When the knot is used for pulling a log along the ground at least an extra half hitch should be tied along the log in the direction of travel.

Taut Line Hitch

Used in tying tent rope to pegs. Pass rope around peg.

Tie half hitch then tie second half hitch further up rope.

Pass the round standing part once again locking rope into half hitch. A round turn on the peg may be added if desired.

Remember to review these knots continuously or they will be forgotten.

LASHINGS

Square Lashing

This is used whenever spars cross at an angle, touching each other where they cross. It is started with a clove hitch around the upright spar immediately under the spot where the cross piece is to be.

Twist the end of the rope into the standing part then "wrap" the rope around the cross piece and upright binding them together. In wrapping, rope goes outside the previous turn around the cross piece and inside the previous turn around the upright. After three or four right wrapping turns, make two "frapping" turns between the timbers. Strain them tightly. Finish with clove hitch around end of cross piece. Remember: "Start with clove, wrap three times, frap two times, end with clove".

Diagonal Lashing

This is used to "spring" two spars together, that is, to lash together two spars which tend to spring apart and which do not touch where they cross. The lashing is started with a timber hitch around both spars. The timber hitch is tightened so as to bring the two spars together. Three or four turns of the lashing are then taken around one fork and three or four turns around the other fork. Two frapping (tightening) turns are taken about the lashing at the point where the spars cross and the lashing is finished off with a clove hitch around the most convenient spar.

Round or Shear Lashing

This lashing is used for binding together parallel spars and for forming "shear legs" which support bridges and the like. Place the two timbers next to each other. Tie clove hitch around one of them at appropriate place from the top. Bind the two timbers together by laying seven or eight turns of the rope around them, one turn beside the other. Make two frapping turns around the lashing turns between the timbers. Fasten rope with a clove hitch around the second timber. Open out the timbers.

Note: Two shear lashings without frapping's used to lash two timbers into one long one.

Continuous Lashing

Continuous lashing holds small sticks at right angles to long sticks and is useful in making table tops, seats, etc. Follow these steps in laying a table top.

- Cut sticks to desired size and trim ends. Next notch the frame and place the cross pieces in correct position.
- Make clove hitch on the frame, in middle of the rope, with knot underneath and ends out to sides. There should be equal lengths of rope on either side of the long stick.

The hitch should be placed so that the ends of the rope pull the knot tight as they come up from under the long stick.

- With one end in each hand, pull rope over one crosspiece and down under frame.
- Cross rope, making an "X". Pull rope tight.
- Bring up and over second crosspiece. Repeat this procedure until all the crosspieces are lashed.
- End with two half hitches or clove hitches and tuck ends of rope under last small stick.

Camp Furniture

With skills you have just learned in lashing, try making the following camp furniture. If materials are scarce, these models may be built in miniature.

Camp table - use heavy timbers 3 m long

Washup table - bowl here

Washup bowl stand
w/ rack

Additional Teaching Methods for Proficiency Are:

- Use the knots in games.
- Make knot boards which can be added to as the junior's progress in their classwork.
- Teach some knots as speed knots. (See Advanced Requirement #3.)

Method of Testing

Demonstration of ability to understand and tie the knots required.

4. Pass a test in Companion First Aid

The completion of the Basic First Aid Honour will satisfy this Requirement.

COMPANION FIRST AID NOTES

First Aid is the emergency first care given to the sick or injured. The aims of first aid are:

1. Preserve Life
2. Promote Recovery
3. Prevent the injury or illness from becoming worse

THE RULES OF FIRST AID (Remember: "D A N G E R")

- D** Danger Urgently assess the situation and beware of dangers to self, onlookers and victim.
- A** A.B.C.D. Of life-sustaining first aid. Act quickly and confidently to check:
Airway - clear and tilt head back if necessary
Breathing - restore if necessary
Circulation - check pulse, control haemorrhage
Degree of Consciousness - note cause, gives treatment
- N** Never leave an unconscious person - place in the coma position and check pulse and breathing regularly.
- G** Get medical assistance when necessary.
- E** Examine the patient for further injuries and treat according to severity.
- R** Reassure the victim, handle him gently, and make arrangements to send patient to hospital, home, etc.

THE FIRST AIDER MUST BE ABLE TO ASSESS:

1. History The story behind the accident or illness
2. Signs Difference from normal that can be detected - pallor, pulse, etc.
3. Symptoms Sensations described by the patient - thirst, pain, nausea.
4. Diagnosis making a decision as to what is the matter with the patient.
5. Treatment Decide on priorities and act quickly.

THE FIRST AIDER MUST KNOW HOW TO:

1. Take the pulse in the radial and carotid arteries
2. Measure the respiration rate
3. Take the temperature of

	PULSE	RESPIRATION RATE	TEMPERATURE
Adults	60-80/min	12-15/minute	98.6°F 36.9°C
Children	100/minute	15-20/minute	98.6°F 36.9°C
Infants	120/minute	20-25/minute	98.6°F 36.9°C

FIRST AID KIT

Avoid elaborate equipment and treatment. Remember this is "First Aid".

Add to this basic list as local conditions indicate.

- 1 pair scissors. Surgical type with one round end.
- 1 pair tweezers. For removing splinters and handling non sticky dressings.
- Band Aids, safety pins, cotton wool.
- General antiseptic. Do not use undiluted. 1 teaspoon to 300 mls of water.
- 1 roll ankle wrap 2.5 cm
- Bandages - 4 triangular bandages (sufficient to cover most emergencies) 2 x 25 mm bandage; 2 x 50 mm bandages; 2 x 75 mm bandages; 2 x 75 mm or
- 100mm crepe bandages.
- Eye wash. Especially useful for chemicals, smoke, etc.
- Non-stick dressing. Individual packs. Teflon or Tule Gras type.
- Syrup of Ipecacuanha, 100 mls.
- Methylated Spirits.
- 1 packet sterile gauze squares 5 cm x 5 cm.
- Calamine lotion.

TREATMENT FOR SHOCK (Now called Circulatory Collapse)

This term refers to a condition met with in all medical emergencies. It is a state of collapse with a reduction of blood volume circulating to the brain and heart.

Shock is caused by loss of body fluid from bleeding, burns, vomiting or diarrhoea, heart attack and poisoning, nervous reaction, and infection.

It is recognised by a cold clammy skin, rapid feeble pulse, rapid shallow breathing, and finally unconsciousness. The patient often feels faint or giddy, nauseated and maybe thirsty. It is best handled by treating the cause as well as:

R Rest Lie the patient down, legs elevated.

A Air Ensure adequate airway. Loosen clothing around the neck, chest and waist.

W Warmth Do not over-heat the body.

WOUNDS, BRUISES

A wound is a break in the skin allowing entry of germs or damage to deeper tissues.

Cuts of any kind are best treated by:

- Cleaning the surrounding area and the application of a mild antiseptic.
- Covering the wound with a suitable sterile dressing if available.
- If there are embedded objects, do not remove. Apply a ring pad or build up dressing to the area.
- Use gauze dressings direct on a wound, never cotton or wool.
- If stitches (sutures) appear necessary, they should be done as soon as possible. Medical advice regarding tetanus injections should be sought.

Bruises

A bruise is a minor haemorrhage into the tissues. It can be recognised by pain, swelling, discoloration, and tenderness. The best treatment is elevation, application of an evaporating dressing and the application of a firm bandage. To reduce swelling, evaporating dressing should be applied for 20 minutes. Ice packs, gel packs, water, may also be used, if correctly applied.

Bleeding

Bleeding (haemorrhage) is the loss of blood from the circulation causing reduced blood pressure (weak pulse) and reduced supply of oxygen.

Blood can be lost internally or externally.

External bleeding can be from Arteries (usually bright red and spurts out), Veins (usually darker red and pours out) and Capillaries (as in gravel rash, oozes out).

Treatment: Act quickly as blood loss aggravates shock. Stop the bleeding using direct pressure on the wound where appropriate. Bandage, using pad, ring pad, or build up dressing, and elevate the affected part. If bleeding persists after the application of a pad and bandage, add another pad and bandage firmly. Together with rest and elevation, this usually suffices. By resting the patient, we help to reduce blood pressure. Do not disturb clots.

Internal bleeding has all the usual signs of shock, plus the following:

- Severe thirst, restlessness, and air hunger.
- Bright frothy red blood coughed up, indicates bleeding from the lung.
- Blood vomited like coffee grounds, indicates bleeding in the area of the stomach.
- Rest the patient, and secure medical aid speedily.

Control of Bleeding from Special Areas

Bleeding from the Nose

This can be serious if not stopped quickly. Sit patient with the head slightly forward. Loosen clothing around the neck, chest and waist. Instruct the patient not to blow through the nose. Instruct the patient to breathe through the mouth. Apply pressure to flap of nostril for at least ten minutes. Apply cold packs or wet towels to neck, forehead and bridge of nose.

Bleeding from Tooth Socket

Place a firm pad of gauze (not cotton or wool) over the socket and ask the patient to bite on it.

Bleeding from Palm of Hand

- Place a dressing in the hand.
- Have the patient close hand firmly.
- Bandage the fist.
- Elevate in a triangular arm sling, and rest the patient.

Note: The completion of the Basic First Aid Honour will satisfy this requirement. For the requirements of that Honour, check the Pathfinder Honour Handbook.

Complete the following:

Know the causes of shock and demonstrate its proper treatment.	
Know the proper steps for rescue breathing.	
Know the proper procedures to assist a choking victim.	
Know the proper procedures to assist a bleeding victim.	
Know the pressure points and how to correctly apply pressure at these points.	
Know the proper procedure to assist a victim of poisoning.	
Demonstrate the proper procedure in splinting various broken bones in the body.	
Know the proper procedure to assist a first, second, and third degree burn victim.	
Know the proper procedure to assist a victim of a chemical burn.	
Know what situations are likely to cause carbon monoxide poisoning and the rescue and treatment techniques for such poisoning.	
Know the proper procedure for giving assistance to the victim of a head injury.	
Know the proper procedure for giving aid to a victim of internal injuries.	

Know the difference between a heart attack, stroke, epilepsy, and simple fainting, and the treatment for each.	
Know how to prevent infection.	
What is the proper treatment for a snake bite?	
What is the proper treatment for animal bites	
What is the proper treatment for insect and spider bites	
What is the difference between heat exhaustion and heat stroke, and what is the treatment for each
