Set Your Lab in Motion
2016/2017

Welcome to

New Lab Start-Up

Are you...

- Setting up a new lab
- Expanding or renovating your lab
- Relocating to new premises
- In receipt of a first time grant

Yes? Then you are in the RIGHT place...

Our well-established programme includes:

- Exclusive Offers-only available to New Lab Start-Up customers
- New Products
- Free Products
- Fisherbrand Vouchers
- Tailored Packages
- A Dedicated Field Sales person

This is how it works

1. Apply

Complete the online application form to get your New Lab Start-Up account number.

Visit
eu.fishersci.com/go/nlsu
to apply!

2. Order

Place your orders on this account number. Simply order online or obtain a quotation for your specific requirements.

3. Redeem

Once your account passes the required spend thresholds we email you your Fisherbrand Vouchers to redeem online.

Always on hand...

Your Dedicated Field Sales Person

Your Customer Service Specialist

Write your New Lab Start-Up account number here _____

Contents

Take advantage of these exclusive offers

	Equipment & Instrumentation 2 - 15
	Lab Essentials & Consumables 16 - 22
	Life Science 23 - 28
	Safety 29
	Chemicals 32
	Fisherbrand Favourites 33 - 60

Fisherbrand vouchers

You have six months from the date of your first order to hit one of the three spend thresholds.

Use your voucher to stock up on Fisherbrand consumable items. The Fisherbrand Favourites Supplement at the back of this brochure provides a good guide to qualifying redemption items. Or alternatively look out for Dr Blues recommendations.

We will email you a unique Fisherbrand voucher code. To redeem go to...

eu.fishersci.com/go/nlsu

Redeeming your voucher is EASY!

*Terms and conditions apply, see back page

Spend **20 000€** receive a further **500€ Fisherbrand voucher**

Spend **10 000€** receive a further **500€ Fisherbrand voucher**

Spend **2 000€** receive a **500€ Fisherbrand voucher**

Balances, compact series

- Sleek, low profile design
- Large, high contrast LCD
- Energy saving auto shut-off feature
- Two-button keypad
- Storage made easy with a stackable design
- Integrated load cell lock
- Over-load and under-load indicators
- Digital calibration from keypad
- Low battery indicator
- Three AA batteries (included) or optional a.c. adapter
- Stabilisation time: 3 seconds
- Two year warranty

Balances, analytical portable series

- Weighing modes include weighing, parts counting and percentage weighing
- Large draft shield with sliding top and side doors
- Single line LCD
- Three button operation
- RS232 bi-directional interface
- Front level indicator - no need to look in back of balance during levelling process
- Solid diecast metal base, stainless steel pan
- Works well in harsh environments; settings can be adjusted to compensate for vibrations and other disturbances
- Calibration lockout
- Integral menu lock - a combination of software and a mechanical switch locks menus, including calibration
- Security loop in rear of balance
- a.c. adapter (included), balance power input 8 to 14.5V a.c., 50/60Hz 4VA or 8 to 20V d.c., 4W
- Stabilisation time: 3 seconds
- Two year warranty

Baths, general purpose, Isotemp™

- New timer for worry free operation
- New addition of three presets for quick set up
- Advanced temperature controller with LCD display shows set-point and actual temperature
- Global voltage – each bath works anywhere in the world exactly the same
- Corrosion-resistant exterior with easy-to-clean enamel coating
- Display shows °C or °F and is readable from a distance
- Open tank design makes the bath easy to clean
- Adjustable over temperature protection
- Low fluid start protection capability
- CE and UL listed
- Audible alarms for timer, low fluid detection, over temperature and safety
- Rounded reservoir corner and sample tray with finger holes allow for easy removal and cleaning
- Hinged polycarbonate cover that lifts to a 90°C stay-open position or can be removed completely
- Baths come with diffuser tray and gable cover

Baths, ultrasonic, analogue

- State of the art microprocessor controlled ultrasonic cleaning and sweep technology
- Long lifespan from cavitation resistant stainless steel tanks
- LED display showing set and remaining time and pre-set and actual temperature
- Ergonomically shaped plastic carrying handles
- Newly developed cover reduces noise and accelerates the heating up process
- Easy draining of cleaning liquid through the drain duct via a dial on the side
- Operating panel arranged so that liquid cannot enter the electronics
- Degas function key

Baths, circulating, refrigerated/heated

For laboratory and industrial applications.

- The robust refrigeration system ensures that your samples and applications can be cooled quickly
- Stainless steel tanks for durability and ease of cleaning
- Fine tuned refrigeration metering for excellent temperature stability
- Bath drains are located on the front of the unit
- Capacity, L: 5.4 to 6.5
- Temperature range, °C: -20 to +100
- Stability, °C: ±0.05
- Heater, kW: 1.2
- Cooling capacity, W [at 20°C]: 250

Centrifuges, SL 16/16R and 40/40R

- TX-400 bundle contains TX-400 rotor, round buckets, sealing caps, 16 x 50mL and 36 x 15mL conical tubes
- TX-750 bundle contains TX-750 round buckets, sealing caps, 28 x 50mL and 56 x 15mL conical tubes

Chillers, recirculating, ThermoFlex™ TF25

- Temperature range from 5°C to 40°C
- 2.2kW cooling capacity (20°C setpoint and 25°C ambient)
- Internal pressure relief valve
- Custom temperature and pressure alarms
- An intuitive user interface for ease of operation
- Integrated funnel for easy filling
- Full flow fluid filter ensures clean fluid to protect your application and maximise recirculation system life
- Easily removable condenser grill and air filter allow for quick and simple cleaning to optimise chiller performance and maximise component life
- Air and water filters that can be changed while unit is in operation
- Innovative, patented packaging for rapid installation
- Quick start guide for seamless start-up in minutes
- Advanced design allows two sides of the unit to be blocked, allowing placement in a corner while maintaining full refrigeration performance
- Minimises space requirements, even when compared to chillers with smaller footprints
- Temperature stability to ±0.1°C accuracy

15% OFF

Furnaces, muffle

- Heating from two sides by ceramic heating plates with integrated heating element which is safeguarded against fumes and splashing, and easy to replace
- Insulation made of non-classified fibre material
- Textured stainless steel sheet housing
- Dual shell housing for low external temperatures and high stability
- Adjustable air inlet integrated into the door, exhaust air outlet in the rear wall of furnace
- Supplied with B410 controller with four programs and five freely programmable ramps, or C450 with 10 freely adjustable programs and 20 segments
- Both controllers have integrated USB interface and offer plain text display in different languages

Nabertherm furnaces are the perfect all-rounder for research and laboratory applications. They are manufactured from expertly finished, high quality materials and are easy to operate. These models stand out for their excellent workmanship, advanced and attractive design, and high level of reliability.

The very best insulation out of non-classified fibre materials permits energy saving operation and fast heating times due to low heat storage and thermal conductivity. The muffle furnaces come equipped with a flap door. They are available for maximum temperatures of 1100°C, 1200°C or 1300°C. Alternative furnace sizes and temperature ranges are available on request.

Ovens, heating and drying

For simple drying of glassware to the most complex and carefully controlled heating applications. The Thermo Scientific™ Heratherm™ oven range includes an array of features to match your needs.

Efficient

- Surpassing energy efficiency, increasing cost effectiveness, reducing environmental impact
- Unique door design reduces heat emission significantly
- Timer for effective usage and additional energy savings
- Space saving footprint without compromising volume
- Flexible shelving system allows for optimal space utilisation

Safe

- Routine check upon startup for optimum performance levels
- Temperature uniformity as good as $\pm 2^{\circ}\text{C}$ at 150°C
- Automatic audible and visual over temperature alarm
- Access port for data logging with independent sensors

Easy

- Easy to read, large display
- Easy setting with intuitive interface
- Easy cleaning with rounded corners

Fisherbrand

Pumps, vacuum, diaphragm, chemically resistant

- Handles corrosive and aggressive vapour without damage
- Clean, reliable vacuum pumps to suit your needs
- Compact and easy to use
- Hose nozzles for 8mm I.D. tubing
- Vibration damping feet

Chemically resistant, these pumps are ideal for applications involving aggressive solvents and acidic vapours. The diaphragms and all gas contaminated parts are made from PTFE and PTFE compound. The pumps and connection heads are carbon fibre reinforced to provide electrical conductivity and prevent electrostatic charging.

Cat. No	Description	Price, €

Sample preparation, homogeniser, FastPrep-24 5G

- Intuitive software, user-friendly touch screen
- Highest speed and most power
- Shortest processing
- Widest range of adapters for sample flexibility
- Highest yield of DNA, RNA and proteins
- Process any tissue or cellular sample type with highest quality results

The FastPrep-24™ 5G Instrument is a high speed bench top homogeniser offering the ultimate in speed and performance for the lysis of biological samples. Indeed, simultaneous homogenisation of up to 24 samples takes place within 40 seconds. For use with 2.0mL lysing matrix tubes.

Microplate and cuvette UV/Vis spectrophotometers, Multiskan GO

The Thermo Scientific Multiskan GO microplate spectrophotometer is a handy tool for virtually all photometric research applications.

- Freely selectable wavelengths from 200 to 1000nm for the demands of endpoint, kinetic and spectral scanning assays
- Both microplate (96 and 384 well plates) and cuvette reading for any throughput requirements
- Very fast plate measurements and a full spectrum of a sample in less than 10sec
- Incubation up to 45°C and variable shaking speeds to optimise sensitive applications such as enzyme kinetics and cellular assays
- High quality data guaranteed by extensive self diagnostics
- A unique power save function for reduced energy consumption
- Visual internal software on a large colour screen for quick measurements

Select any measurement wavelength from low UV to visible with just a few keyboard clicks to measure both cuvettes and microplates, all according to your assay and throughput requirements. Gives you the freedom for any photometric research application.

Cat. No	Description	Price, €
10039314	With cuvette, 100 to 240V, 50/60Hz	11045.75
10680879	Without cuvette, 100 to 240V, 50/60Hz	9022.75

Spectrophotometers, Nanovue™ Plus

- Stand alone instrument with a novel drop-and-measure sample plate that can be used with a wide range of chemicals
- Low sample volumes: from 0.5µL to 5µL. The appropriate pathlength for your sample is selected automatically unless you opt for manual selection
- Fast measurements: read-time is typically <5s per sample
- Convenience and easy of use: calibration curves, kinetics or ratio measurements are all displayed at the touch of a button. The instrument has automatic self-calibration, always ready to use
- Flexible analytical performance: Full wavelength scan in less than 5s from 200nm to 900nm with zoom facility, peak identification and on peak confirmation
- Choice of data output, integrated printer, connect to PC via USB, wireless bluetooth connection or SD card

**Stirrers, overhead
ReversingDigital™**

Features:

- Countdown timer
- Reversing
- xRx agitation
- Brushless d.c. motor
- Stirright

Package includes:

- Impeller shaft
- Anchor paddle
- Dispersion blade
- Straight blade
- Propeller
- Stirring motor
- Stirring clamp
- Compact stand

**Water purification
systems, Type 1,
ultrapure, MicroPure™**

Smart features

- Backlit display tilts for easy viewing
- Variable speed dispensing
- Optional integrated 6L feed water reservoir so you can place the system without direct access to a water line

Monitor feed water quality

- Good feed water quality leads to consistently ultrapure water and maximises cartridge life

Smart design

- Recirculation pump prevents bacterial growth during standstill and allows for constant monitoring of all system functions, allowing for the immediate display of fault messages if a problem is detected
- Systems shipped fully equipped with pressure reducer, ultrapure cartridge and 0.2µm sterile filter

Superior filters

- Ultrafilter is flushed automatically to assure the highest retention of endotoxins and nucleases, which produces a long two year lifetime
- Validated 0.2µm final filter with folded membrane can be sterilised up to 5 times

Cat. No	Description	Price, €
14861502	Overhead stirrer, speed 40 to 2,010rpm	1863.00

Cylinders, PPCO, graduated variety pack

- Includes seven cylinders, one each size: 10mL, 25mL, 50mL, 100mL, 250mL, 500mL and 1,000mL
- Guaranteed to meet requirements of ASTM Class B, E1272 for accuracy
- No meniscus to confuse readings - eliminates guesswork
- Large blue octagonal base prevents rolling and tipping
- Generous pour spout provides ease in dispensing liquids
- Moulded-in graduations are silk-screened for easy reading
- Excellent chemical resistance for a wide variety of solutions
- Impact resistant at temperatures above -40°C
- Autoclavable/graduated

Compliance: Meets ASTM Class B, E1272 Class B and 21 CFR Part 177.1520 for food/beverage use

Notes: Autoclaving will affect graduation accuracy

Pipettor, Pipetman™ G starter kit

PIPETMAN™ G Starter Kits provide premium pipetting comfort without compromising Gilson's legendary robustness, accuracy and precision. PIPETMAN Starter Kits offer amazing savings and are the most convenient way of purchasing a complete set of PIPETMAN pipettes and accessories for trusted performance and results.

- Lowest pipetting forces on the market for premium comfort
- Complete set of pipettes, tips and accessories in one convenient kit

Accessories included

- Three SINGLE™ pipettor holders
- 10 coloris clips
- Gilson Guide to Pipetting
- Three plastic tip ejectors

Increased traceability

- Largest writing area on the market provides more space for labelling your research

Environmentally friendly

- Recyclable plastic rack reduces waste in the lab
- New plastic rack minimises risk of contamination and particles
- Tubes are sterile with a SAL 10⁻⁶

Highly certified

- Higher RCF rating enables greater range of applications from low-speed to super-speed centrifugation
- Leakproof to protect your samples
- USP Class VI, non-pyrogenic, non-cytotoxic and RNase/DNase free to help ensure optimal reliability and performance

Thermo Scientific™ Nunc™ Conical Centrifuge Tubes are RNase/DNase free, USP Class VI, sterile SAL 10⁻⁶, non-pyrogenic, non-cytotoxic, clarified polypropylene and leakproof.

Thermal cyclers, SimpliAmp™

- VeriFlex™ blocks for precision - provide three independent temperature zones, for precise temperature control over your PCR optimisation
- Eight-inch colour touch screen to help save time
- WiFi-enabled for remote monitoring - conveniently monitor your instrument from anywhere with our free PCR Essentials mobile app
- Innovative heated lid designed to help protect your samples - when open, it is in an upright position for easy handle access, will open automatically if not closed properly
- Simply plug in a USB drive - follow the on-screen prompts to back up your data simply and effortlessly
- Library of simulation modes available - you may run an experiment using the same ramp rates as with a previous or different instrument

The SimpliAmp™ Thermal Cycler is a small, easy-to-use, and accurate thermal cycler that suits any lab's needs for everyday PCR. It is crafted with the reliable engineering and performance you've come to expect from Applied Biosystem™ instruments. It is elegantly designed to deliver quiet cycling, and features an innovative, safe heated lid and a large LCD colour touch screen.

Thermal cyclers, Veriti™

- Innovative VeriFlex™ Blocks allow for precise PCR optimization or to run up to six independent assays
- Six temperature zones for convenient PCR optimisation
- Standard and fast enabled cycling to address your current and future PCR needs
- Easy-to-use graphical interface (6.5 inch VGA Touch Screen)
- Convenient protocol transfer from one Veriti™ Thermal Cycler to another using USB
- Reduced PCR cycling time when using faster ramp rates
- Optional VeritiLink™ Remote Management Software provides you with peace of mind, allowing you to remotely manage more than 50 cyclers from your PC or internet-compatible phone

The Applied Biosystems™ Veriti™ 96-Well Fast Thermal Cycler delivers the proven reliability of Applied Biosystems™ instruments. With the added control of VeriFlex™ Blocks, you have six independent temperature blocks that provide precise control over your PCR optimisation. Additionally, the colour touch screen simplifies the setup and use of the Veriti™ 96-Well Fast Thermal Cycler. Optional setups for fast or standard PCR methods provide flexibility to shorten your PCR cycling times. The Veriti™ 96-well Fast Thermal Cycler comes with a 0.1mL block configuration that saves you both time and reagent consumption.

Electroporation system, Gemini X2 HT, BTX™

- Universal Electroporation - transfects all cell types including difficult to transfect cells
- Special Applications - transfects cells in vitro, in vivo, in ovo and adherent forms
- 96 well - Transform prokaryotic cells and eukaryotic cells in 96 well format
- Preset protocols - includes the most common eukaryotic and prokaryotic cell types
- User defined protocols - unlimited ability to add and modify protocols
- Safety - displays resistance measurements for each pulse with three layers of arc protection
- Data Management - stores logs of every pulse delivered for QC and troubleshooting
- Remote Operation - can be remotely operated via footswitch or PC
- Reproducibility - incorporates advanced features to ensure reproducible results
- Ease of Use - touch screen operation

This highly accurate system is designed to efficiently transfect/transform any cell type in any format without the requirement for proprietary buffers.

Countess™ II Automated Cell Counters

The Invitrogen™ Countess™ II and Countess™ II FL Automated Cell Counters contain advanced autofocusing and counting algorithms to allow you to quickly and accurately identify and count cells within a population while avoiding user variation associated with manual focusing mechanisms. The Countess II FL Automated Cell Counter offers bright-field and two optional, user-interchangeable fluorescent channels. The fluorescent colours collected are determined by the insertion of individual light cubes.

Feature	Countess II	Countess II FL
Cat No.	15397802	15307812

iBlot™ 2 Gel Transfer Devices

- Complete protein transfer in 7 minutes or less
- High detection sensitivity and even transfer
- Increased blotting reliability and reproducibility
- Flexible gel size formats and membrane types
- A simple, user-friendly system
- Options to create new custom programs
- Built-in tutorial and application notes
- High-quality transfer stacks that are more compact than before

The iBlot™ 2 Dry Blotting System is for dry electroblotting of proteins from mini-, midi-, and E-PAGE™ gels onto nitrocellulose or PVDF membranes for western detection. The iBlot™ 2 system offers high-quality transfer, convenience, and speed, producing crisp, clear bands that remain sharp and straight, with exceptional transfer efficiency. Additionally, the iBlot™ 2 Dry Blotting System offers new options that allow users to create their own custom programs.

Gel documentation systems, BioDoc-It™2 Imaging System with M-26V transilluminator

- High resolution monochrome camera with 5.0 megapixels resolution
- Large 10 inch touch screen with new software interface
- Save images to the system, USB or connect to network via PC
- Ethidium bromide filter as standard
- Viewer window allows visibility of gels
- Wide front door with safety switch turns the UV off when the door is open
- Side access doors allow gels to be repositioned while viewing a live preview
- Compact design
- With M-26V single UV bench top transilluminator

New design BioDoc-It™2 gel documentation imaging system with M-26V single UV bench top transilluminator. The transilluminator is uniquely designed with increased UV intensity and uniformity, instant on capabilities, no lamp flicker and reduced electrical consumption. 302nm wavelength.

DNA and protein ladders, PageRuler™ and GeneRuler™

Protein ladders:

- Ready to use – supplied in a loading buffer for direct loading on gels
- Sharp bands – excellent accuracy for detection with Coomassie or silver stains
- Quality tested – each lot evaluated by SDS-PAGE and Western blotting

DNA ladders:

- Ideal for both DNA sizing and approximate quantification
- Sharp bands
- Bright reference bands
- Supplied with loading dye

bolle SAFETY

Spectacles, safety, with PLATINUM lens

PLATINUM coated on both sides of the lens. Carrying the anti-fog marking N* and antiscratch marking K**, but also exceeding these EN test requirements.

The permanent PLATINUM coating gives high resistance to scratching (1.4cd/m²) to the most aggressive chemicals and delays the onset of fogging for two minutes. In all circumstances and at all times the PLATINUM lens innovation guarantees your eyes improved protection.

*EN 166 option N: fog resistance. For the lenses to comply, they must be fog-free for a minimum of 8 seconds at 100°C.

**EN 166 option K: resistance to surface damage by fine particles. For the lenses to comply, light diffusion after abrasion must be less than 5 candelas per m².

THE NEW SYSTEMLABOR

EXPLORIS

EXPLORIS – A NEW DIMENSION IN SAFETY, INTELLIGENCE AND EFFICIENCY

Discover EXPLORIS: the next generation of Systemlabor. Enhanced modular design now provides maximum flexibility to perfectly adapt to your needs. State-of-the-art technologies offer new dimensions in safety and efficiency. Meticulously designed and incorporating many innovative features, EXPLORIS has been created to encourage maximum efficiency in all laboratory processes. Quality is not just a promise with us - all Köttermann products now carry an industry-leading guarantee up to 10 years.
