**SHORT BIO**

Nick Bostrom is Professor in the Faculty of Philosophy at Oxford University. He is the founding Director of the Future of Humanity Institute, a multidisciplinary research center which enables a few exceptional mathematicians, philosophers, and scientists to think carefully about global priorities and big questions for humanity. The FHI is home to teams working on AI safety, biosecurity, macrostrategy, AI policy, the ethics of digital minds, and various other technology or foundational questions.

Nick Bostrom is Swedish-born philosopher and polymath with a background in theoretical physics, computational neuroscience, logic, and artificial intelligence, as well as philosophy. He is the author of some 200 publications, including *Anthropic Bias* (Routledge, 2002), *Global Catastrophic Risks* (OUP, 2008), *Human Enhancement* (OUP, 2009), and *Superintelligence: Paths, Dangers, Strategies* (OUP, 2014), a New York Times bestseller which helped spark a global conversation about artificial intelligence. Bostrom's widely influential work, which traverses philosophy, science, ethics, and technology, has illuminated the links between our present actions and long-term global outcomes, casting new light on the human condition.

He is recipient of a Eugene R. Gannon Award, and has been listed on Foreign Policy's Top 100 Global Thinkers list twice. He was included on Prospect's World Thinkers list, the youngest person in the top 15. His writings have been translated into 30 languages, and there have been more than 100 translations and reprints of his works. He is a repeat TED speaker and has done more than 2,000 interviews with television, radio, and print media. His publications have garnered more than 18,000 academic citations. He has an h-index of 50.

**POSITIONS**

**Oxford University**

2008 – present:

**Professor**, Faculty of Philosophy

2005 – present:

**Director**, Future of Humanity Institute

2011 – c. 2014:

**Director**, Programme on the Impacts of Future Technology, Oxford Martin School

2005 – c. 2014:

**Governing Board Fellow**, St Cross College

2005 – 2006:

**University Fellow**, James Martin Institute for Science and Civilization

2003 – 2005:

**British Academy Postdoctoral Fellow**, Faculty of Philosophy

#### **Yale University**

2000 – 2002:

**Lecturer**, Department of Philosophy

**Lecturer**, Yale Institution of Social and Policy Studies

## **EDUCATION**

### **London School of Economics**

1996 – 2000:

**PhD in Philosophy**

Dissertation selected by the late Prof Robert Nozick for inclusion in the Routledge series *Outstanding Dissertations* (seven dissertations worldwide selected for this honor)

### **King's College, University of London**

1996:

**Astrophysics and General relativity**, Department of Physics

**MSc-thesis in Computational neuroscience**, Department of Mathematics

### **University of Stockholm**

1994 – 1996:

**MA in Philosophy and in Physics**

### **University of Goteborg**

1992 – 1994:

**BA in Philosophy, Mathematics, Mathematical Logic, Artificial Intelligence**

Undergraduate performance set national record in Sweden (AFAIK).
