& GeForce RTX™ 30 Series GPUs

More games than any other platform

 Windows 10

REPUBLIC OF GAMERS

For those who dare

Welcome to Republic of Gamers. It's a proving ground for the elite — a place where players and teams gather to celebrate camaraderie and gaming excellence. There's no room for mediocrity or weakness here.

This is a call for those who dare venture, defy convention, and rebel against conformity. You rise up to challenges, and are not afraid to stare failure in the face, time and time again. You stand by your instincts, as well as alongside comrades in need. Republic of Gamers is for those who dare seek the impossible because 'hard' isn't enough.

ROG is the Choice of Champions. If you dare, put on your game face and Join the Republic.

THE ROG LEGACY CONTINUES

NO. 1 GAMING LAPTOP BRAND WORLDWIDE

ROG R&D engineers are hardcore gamers, too. We know gaming, and we are constantly striving to develop products that gamers need. Our goal: give gamers the ultimate gaming hardware.

ROG Zephyrus S 15 (2018)

At its best, the ASUS ROG Flow X13 is what a convertible laptop aspires to be; it's versatile enough to hold the role of a low-powered gaming machine when needed, and the role of a day-to-day work machine.

ROG Flow X13 (GTX 1650) – 02.2021

Pokde.net – Gold Pokde.net

ASUS refreshed the ROG Zephyrus Duo 15 SE with the latest hardware, and it is an absolute beast!

ROG Zephyrus Duo 15 SE (RTX 3080) – 02.2021

KL GadgetGuy

With an RTX 3080 and a Ryzen 9 5900HX, the ROG Zephyrus Duo 15 SE is the most beastly gaming laptop you can get right now.

ROG Zephyrus Duo 15 SE (RTX 3080) – 02.2021

Tech Critter

For the Zephyrus Duo 15 SE GX551Q, we think that it's pretty spotty throughout. Some games can run at 4K 60fps.

ROG Zephyrus Duo 15 SE (RTX 3080) – 02.2021

Gamer Braves

It's no surprise when I say the Zephyrus Duo 15 SE might be a contender for one of the best laptops this year. It's an excellent laptop with top-of-the-line specs, limited only by the quiriness of the second screen, and even then, you'll easily get used to it after a week.

ROG Zephyrus Duo 15 SE (RTX 3080) – 02.2021

Gamer Santai

Fakta bahawa skrin monitor kedua dan dapat dianggap sebagai cara bahawa anda dapat melakukan banyak hal dengannya, bukan hanya permainan, ianya memang memuaskan.

ROG Zephyrus Duo 15 SE (RTX 3080) – 02.2021

Wanuxi

Wanuxi ASUS ROG Strix SCAR 15 电竞笔电有个值得一提的特点，就是这电竞笔电搭配了 Keystone II 来客制化这电竞笔电以及保护资料隐私。

ROG Zephyrus Duo 15 SE (RTX 3080) – 02.2021

Nextrift

Without a doubt the ROG Zephyrus Duo 15 SE is not an affordable gaming laptop, but this has always been the case for the Taiwanese company's line of premium Zephyrus gaming machines. If you can look past the high asking price of the Zephyrus Duo – and you like the fact that it has two screens – I reckon you will be very happy with this gaming powerhouse.

ROG Zephyrus Duo 15 SE (RTX 3080) – 02.2021

HiTechCentury

The ASUS ROG Strix SCAR 17 G733Q is currently one of the most powerful gaming laptops in the Malaysia market with its potent combination of an AMD Ryzen 9 5900HX and an NVIDIA GeForce RTX 3080 graphics card crammed into a compact and stylish form factor, earning it a very well-deserved Gold award.

ROG Strix SCAR 17 (RTX 3080) – 02.2021

The AXO

If you want the best of the best, and you couldn't care less about the dual-screen hype, then the Strix SCAR 17 is the way to go.

ROG Strix SCAR 17 (RTX 3080) – 02.2021

Salty News Network

ROG has managed pack the new Strix Scar 17 to the brim with powerful latest-gen components while further shrinking down the form factor. The aesthetics have also been given a subtle makeover, and maintains its overall gamer aesthetic without being too overbearing.

ROG Strix SCAR 17 (RTX 3080) – 02.2021

Ering

ROG STRIX G17外型上來看確實很不錯，滿滿的電競和科技感，再加上鍵盤的邊緣的燈效真的很漂亮！整體操作上來說是非常讓人滿意的，無論是一般的文件操作或是玩遊戲，都不會出現卡頓情況，17 吋的螢幕也帶來了視覺滿足，絕對是電競用戶的必選筆電之一啊！

ROG Strix G17 (RTX 3070) – 02.2021

Gold Award TechCritic

In terms of the design, it is classy and minimalist. It doesn't weight a tonne yet packs a lot of performance under its hood.

ROG Zephyrus G14 (RTX 2060) – March 2020

IGN SEA

Pronounced Ani - Me, the ROG Zephyrus G14 is one of the most compact and COOLEST gaming laptops around.

ROG Zephyrus G14 (RTX 2060) – July 2020

TechNave

Overall, I've enjoyed using the ASUS ROG Zephyrus a lot during this period. The AMD Ryzen 9 4900HS CPU certainly proved that it's more than capable of handling graphic intense Triple-A titles.

ROG Zephyrus G14 (RTX 2060) – June 2020

Gold Award NasilemakTech

This laptop is an attention-grabber. Whenever I take out this laptop, the first question I get is – what are those holes? When I boot it up, everyone goes wow.

ROG Zephyrus G14 (RTX 2060) – July 2020

Vesper

ASUS beefed up the TUF Gaming A15 with some great specification for both Gamers and Content Creators and with features that was once only available to niche consumer like the 2x M.2 SSD slots.

ASUS TUF Gaming A15 (RTX2060) – May 2020

HiTechCentury

The ASUS TUF Gaming A15 represents a superbly tuned combination of performance and rugged good looks that lets you tackle the latest games and heavy duty content creation at a reasonable price point.

ASUS TUF Gaming A15 (RTX2060) – May 2020

tom's HARDWARE

**tom's
HARDWARE**
Editor's
Choice

The ROG Zephyrus Duo 15 takes things to another level —literally —and delivers some serious cooling innovation in the process. It's one of the best gaming laptops you can buy, particularly if you value the utility of a second screen more than comfortable input devices.

**tom's
HARDWARE**
Editor's
Choice

The Asus ROG Zephyrus G14 and its AMD Ryzen 4900HS CPU deliver epic battery life and strong performance in a light and attractive package.

tom's HARDWARE

**UNBOX
THERAPY**

This is not your typical laptop. This dual display laptop gives more screen real estate to gamers, streamers and multitaskers.

T3

We've liked a lot of these gaming laptops in the past, and this could be the best yet.

**PC
PCMAG.COM**

The twin-screen Asus ROG Zephyrus Duo 15 is the rare laptop that does something completely new, and executes it well.

**tom's
guide**
Editor's
Choice

The Asus ROG Zephyrus G14 is an impressive 14-inch gaming laptop that delivers on several fronts, with great performance, incredible battery life and unbeatable portability.

NOTEBOOKCHECK

The octa-core Ryzen 9 4900HS would be impressive on any 15.6-inch or 17.3-inch gaming laptop, but to see it work so well in such a small 14-inch form factor is extraordinary.

Misfits Gaming

LOL

"The Misfits Gaming LEC team need the highest performing gear to stay on top of their game, whether that's in the training facility or on the go. The STRIX SCAR 17, with its impressive GeForce RTX 3080 and 360Hz display, enables our team to play at their very best without any compromise."

Florida Mayhem

OverWatch

"ROG knows exactly what kind of hardware professional players and normal PC gamers need. This partnership will give our players the up-to-date gaming tech and solid machines for any gaming or streaming needs our team needs. Mayhem and ROG are ready to #BringTheMayhem together in 2021."

Florida Mutineers

Call of Duty

"With the Call of Duty League switching to PC only it is important that our players are on the best performing and most reliable hardware. ROG is designed with competitive gaming in mind making them a superb partner for our players practicing and streaming needs."

Misfits Premier

LOL

"Partnering with ROG will enable our LFL team to reach new heights! The reliability of ROG will help our players play their game at a top level without having to worry about the PC they're playing on."

RRQ

Valorant

"As a team aiming for the best, we always maintain our quality by training, working hard, and trying to be the best. Likewise, ROG continually features the latest technology for excellent quality. We strive for the same goal of quality, can't think any better than ROG."

Deimosforce

LOL, R6

"ROG embodies the true spirit of gaming, and we could not have asked for a better partner for our journey toward competitive excellence."

Aerowolf

Valorant

"Being professional team is not just about skill, luck or how we think. There is an external factor as same as those three; ROG laptop accompany us outside of the competition, especially during our team briefings and evaluations; with maximum power and performance from ROG, it increasing the quality of the practice and the results more efficient."

STRINGENT QUALITY CONTROL

All ROG notebooks go through a series of durability tests to ensure toughness and reliability. They're tested under extreme conditions and situations to ensure they're always up to the high standards expected of ROG gear.

NO. 1 GAMING LAPTOP
BRAND WORLDWIDE

VIBRATION TEST

We rattle our systems with vibrations across all axes and check for any damage with a microscope. It's not hard to understand why this is necessary; any time a system is in transit, it's experiencing vibrations, and most of us take our laptops with us everywhere.

PANEL PRESSURE TEST

We test the durability of the lid and underside of the laptop. Both need to be able to absorb pressure without cracking or damaging any of the components inside. This is a simple test whereby a machine applies 25kg of force to the top and bottom of our laptops.

HINGE ROTATION TEST

Tougher still, that hinge has to stay perfect even after years of abuse, which is why we use a machine to open and close laptop lids 20,000 times before they leave the test bench.

PORT TEST

We do port plugging tests by using a machine to insert and remove a connector into and from our systems' ports 5,000 times. Another test checks the endurance of plug mis-insertion.

TEMPERATURE TEST

We toss ROG systems into humidity chamber and freeze them for up to 24 hours. Then we perform dozens of startup cycles. Next, we crank up the thermostat to 50°C/122°F for up to another 24 hours, and do even more startup cycles.

TWIST TEST

It's hard on your laptop when you carry it around with the lid open, but of course, we all do it. To be sure our laptops are tough enough to endure, we put them in a pair of clamps and twist the base of the laptops and the lids 50,000 times.

NOISE TEST

We want to keep our laptops and desktops humming along as quietly as possible even under a full load, so we use a sensitive microphone to make sure they test under certain noise thresholds. We even check to make sure the touchpads on laptops don't click too loudly.

KEYBOARD TEST

To ensure that our laptop keyboards will hold up, we test them to be sure most models can withstand at least 20 million key presses. We speed up the process by using numerous probes that stand in for your fingers. Then we mash the keys millions of times in rapid succession.

DROP TEST

To make sure that daily jostles don't add up to long-term damage, we drop each product from a height of 30cm and repeat the test from multiple angles, letting each side and every corner of the product hits the ground.

ACCELERATION TEST

HALT test stands for Highly Accelerated Life Test, and express moves notebooks through their typical life cycle to ferret out problems, with extensive analysis conducted by engineers.

ABRASIVE TEST

Abrasive resistance test subjects ASUS ROG Notebook exteriors to friction, indicating colors and surface materials stay at prime condition even after extensive and demanding usage.

CARRYING GAMING TECHNOLOGY INTO THE FUTURE

ROG innovation leader

NO. 1 GAMING LAPTOP BRAND WORLDWIDE

Active Aerodynamic System plus lifts your airflow

In order to increase airflow through the ultra-slim chassis of our highest end Zephyrus laptops, our original Active Aerodynamic System (AAS) lifted to expose a small vent beneath the chassis. AAS Plus pushes that concept further, opening up a 28.5mm high air intake behind the tilted secondary display that increases airflow by 30%. Instead of drawing in air from below where warmer components have a greater effect on intake flow, allowing our fans to draw cooler air from above. The larger space also helps keep noise levels below 43dB on performance mode, giving you a quieter gaming experience.

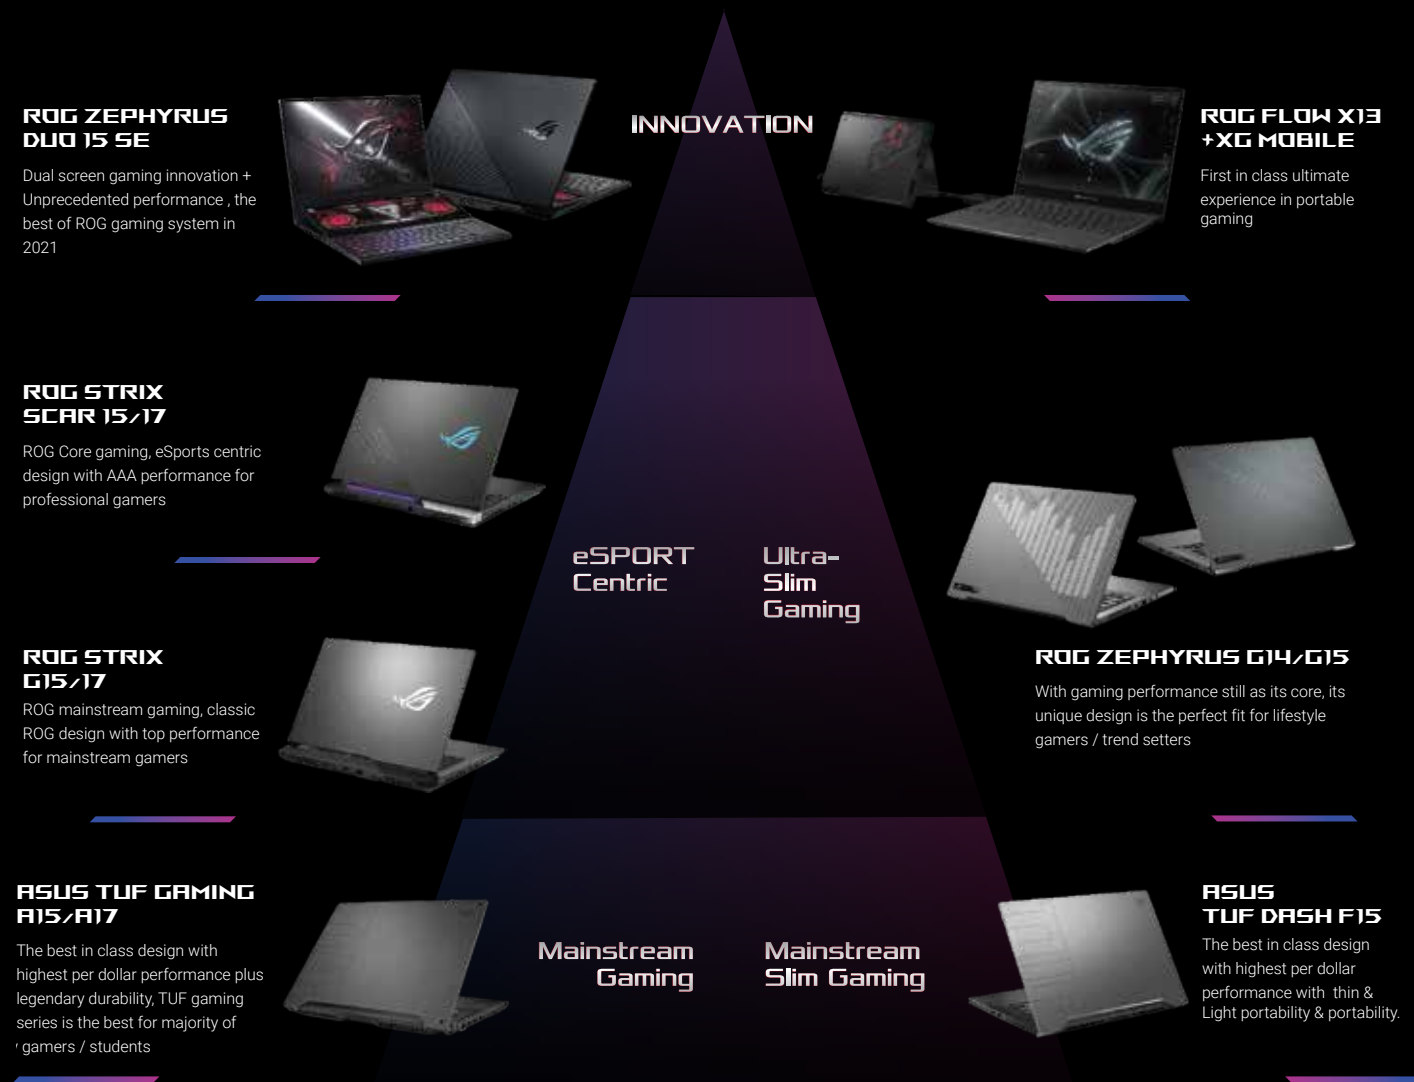

The ROG Liquid Metal Project Revolutionizes Cooling

The ongoing ROG liquid metal project is dedicated to developing better cooling for gaming laptops. The ROG Mothership was the first system to take advantage of this technology, paving the way for a much wider rollout across the full family of ROG gaming laptops with 10th Gen Intel Core processors. Patents for the liquid metal process and anti-seepage barrier formally recognize the innovation ROG brings to gaming laptops. The superior thermal compound enhances cooling, improving performance, temperatures and acoustics. While liquid metal was once restricted to the realm of hardcore overclocking, ROG is bringing it to gamers everywhere.

THE LATEST AMD RYZEN™ CPU

AMD® Ryzen™ CPUs

Power through anything with up to the latest AMD Ryzen™ 9 5900HX CPU. Bolstered by ROG Intelligent Cooling, it runs on up to 50W of sustained power when the GPU is active and 80W on its own. It's also unlocked, so you can pursue faster performance with overclocking. Ryzen 5000 Series mobile processors are made with cutting-edge 7nm fabrication technology. They're designed to deliver the most immersive gaming experience you can get in a laptop, and they activate up to 8 cores and 16 threads to handle demanding work. Stream your favorite channels, jump into games, and stay on top of tasks anywhere.

CPU Cinebench R20 Test

*Performance tested on Strix Series.

THE LATEST RTX™ GEFORCE GRAPHICS

The leading-edge NVIDIA RTX GPU was built on the new Ampere™ architecture that brings realistic ray-traced graphics and the power of AI to thin and light gaming laptops. The GeForce RTX™ 3080 GPU is clocked up to 1645MHz at 115W with ROG Boost, with another 15W available from Dynamic Boost. It delivers awe-inspiring visuals for games and accelerated performance for demanding tasks like 3D animation and high-resolution video editing. Paired with 16GB of GDDR6 VRAM, this GPU powers advanced lighting, shadows, and reflections that truly bring virtual worlds to life.

GeForce RTX™ GPU Performance

*Performance tested on Strix Series.

EXCLUSIVE ROG HYPERDRIVE TECHNOLOGY

Exclusive ROG HyperDrive technology features blazing-fast data read and write speeds to get you into the game before everyone else. ROG Zephyrus includes the latest NVMe and PCIe® technologies to quick data access and transfer rates at speeds of up to 3200MB/s for superfast game load times, so you spend less time waiting and more time gaming!

*ROG HyperDrive is only available on Zephyrus series models

HyperDrive SSD Performance Benchmark

SUPERFAST SSD & SSHD STORAGE

The Latest M.2 NVMe PCIe® 3.0 x4 SSD provides data read and write speeds of up to 3190MB/s and 1235MB/s respectively. When compared to a SATA III SSD, the M.2 SSD offers 5.67X faster read speeds and 4.6X faster write speeds so everything you do feels faster.

SSD Benchmark (Seq Read)

SSD Benchmark (Seq Write)

POWERFUL MEMORY

The Latest Dual-Channel Ddr4-3200 Memory lets you multitask like a pro. This high-performance RAM stands up to any challenge thrown its way. Gamers can play the latest AAA titles, stream, and chat with teammates without missing a beat, while serious power users and creators can run every program they need at once for peak productivity.

Memory Reading Speed Benchmark

NO. 1 GAMING LAPTOP
BRAND WORLDWIDE

ROG INTELLIGENT COOLING MEANS MORE FPS

ROG uses a strategic mix of hardware and features to achieve ideal cooling for each combination of components and chassis, combined with smart software that optimizes your experience for work and play.

LIQUID METAL X THERMAL GRIZZLY

NO. 1 GAMING LAPTOP
BRAND WORLDWIDE

Cooling is one of the greatest challenges facing gaming laptops, and ROG is constantly looking for ways to improve. This drive led to liquid metals, which are extremely effective at transferring thermal energy between surfaces like a processor die and heatsink. Over a year of testing liquid metal with various processors, ROG engineers observed an up to 10 degrees Celsius reduction in temperatures depending on the CPU. Lower temperatures help processors sustain higher clock speeds for longer and prevent fans from ramping up to louder RPMs. The additional thermal headroom can also be used to reach even faster frequencies and higher performance.

Up to
10°C Cooler
CPU Temperature

ARC FLOW FANS

Upgraded Arc Flow fans feature 84 blades shaped to increase airflow by up to 13% and reduce noise by up to 2dB below previous gen designs. Laptop fan blades are typically uniform in size and shape, but ours vary in thickness, tapering down as low as 0.1mm at the base and flaring at the ends to draw in more air per rotation. Their anti-resonance design includes custom tips arranged in an aerodynamic wave pattern that guides airflow around the fan and keeps it balanced from blade to blade. Steady airflow reduces turbulence to lower noise and keeps cooling reliable over time.

**0.1mm Thin
Fan Blade**

**Variable Blade
Thickness**

**Anti-Resonance
Design**

0dB TECHNOLOGY

Enjoy truly silent cooling under light workloads with 0dB Technology. With everyday tasks that the CPU and GPU handle in the Silent operating mode, the cooling system switches off all fans and dissipates heat passively. This lets you concentrate on important tasks and immerse yourself in movies. If CPU or GPU temperatures increase, the fans automatically switch on again.

SELF-CLEANING COOLING 2.0

Our self-cleaning thermal module helps maintain strong cooling performance over time. Our upgraded design features shorter anti-dust tunnels that leave up to 5% more space around the fan, improving airflow by up to 15%. Preventing the buildup of dust on the fan blades, heatsink fins, and other cooling components ensures the long-term stability and reliability of your system.

CUSTOMIZED INWARD SELF-CLEANING COOLING 2.0

Additional air is channeled through the chassis, helping to accelerate heat dissipation and lower overall system temperatures.

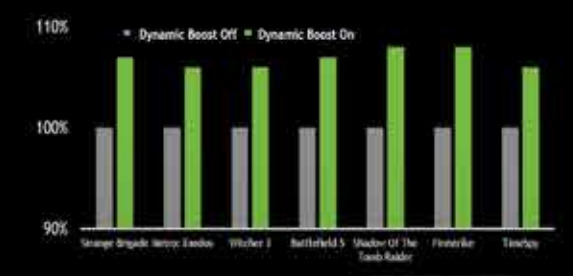

DYNAMIC BOOST

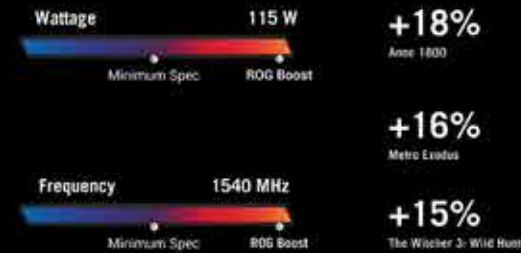

Dynamic Boost shifts power between the CPU and GPU to intelligently maximize performance for the thermal design power of your device. Serious gaming creates a heavy load on graphics with relatively light demand on the CPU, so Dynamic Boost amplifies GPU power to improve performance for smoother gameplay.

Dynamic Boost Technology Doubles Efficiency

ACTIVE AERODYNAMIC SYSTEM PLUS

Boost Past the Competition

Maximize Gpu Performance

ROG Boost takes graphics to the next level by pushing GPUs to their maximum clock speeds, wattages, and beyond. Faster frequencies mean more frames per second and smoother, more engaging gameplay.

Tailor-Made Heat Spreaders

Tailored to the cooling for each device. The heat spreaders are specially shaped for each machine and placed to optimally collect heat from multiple components. The attached heatpipe network varies by model, with higher-end machines featuring additional pipes to ensure effective cooling for the processors and power circuitry.

Active Aerodynamic System

Lift Your Active Aerodynamic System

Active Aerodynamic System (AAS) helps increase airflow by up to 22% compared to typical laptops. Cool air is drawn in through the opening and pumped out of exhausts in the edges of the chassis. Slight ramps in the outlets help direct warm air upward, separating it from the cooler layer of intake air below.

Stand Tall to Breathe Deeper

Typical clamshell laptops force fans to draw air through a narrow space under the chassis. The innovative design of the ROG MotherShip lets fans breathe freely from the back to improve cooling.

Airflow on a New Dimension

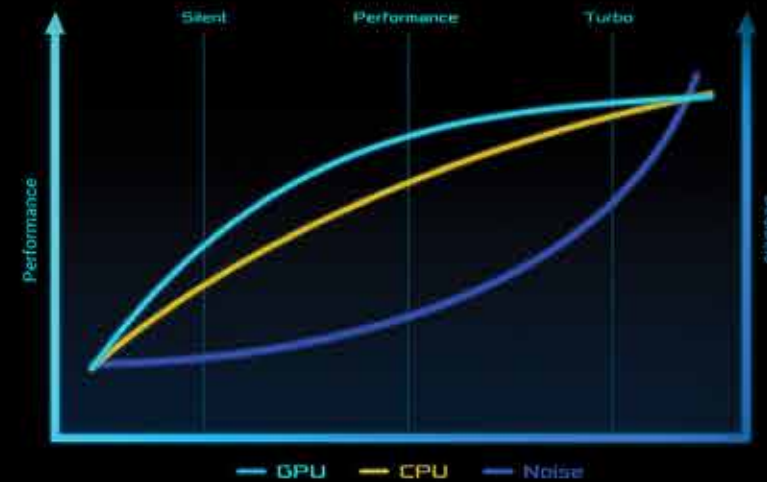

AAS Plus opens up a 28.5mm high air intake behind the tilted secondary display that increases airflow by 30%. Instead of drawing in air from below where warmer components have a greater effect on intake flow, AAS Plus is designed to draw in cooler air from above. The larger space also helps keep noise levels below 43dB on performance mode, giving you a quieter gaming experience.

Ultra-Thin Fins / Heatpipes / Spreaders

Dissipate the Heat

Thermal energy is dissipated by 4 heatpipes, each lined with ultrathin copper fins as slim as 0.1mm. These fins are half the size of typical solutions, allowing for higher density to increase surface area for heat dissipation and lower air resistance to allow for smoother flow. There are up to 252 heatsink fins totaling 110,328mm² of surface area.

Operating Modes

Strike a Balance Between Speed and Noise

Expertly tuned system profiles let you quickly adapt to different scenarios using a convenient keyboard shortcut. Turbo mode maximizes fan speed and frequencies to accelerate CPU-intensive workloads like video editing and 3D rendering. Performance mode optimizes performance and cooling to lower noise levels under 45dB while gaming. Silent mode goes further to take acoustics below 35dB for lighter workloads like watching videos.

Coolzone Keyboard

Coolzone Keeps Keyboards Comfortable

Laptop keyboards can become uncomfortably hot during marathon gaming sessions. Venting by the WASD keys allows the fan beneath to generate airflow through the board, keeping your crucial inputs cool.

Scenario Profiles

Scenario Profiles Enhance Your Experience

Automatic switching between Scenario Profiles puts you in the right mode for the moment. Define your preferred operating mode and other system settings for individual applications and games.

BALANCING HIGH RESOLUTION AND HIGH REFRESH RATE

NO. 1 GAMING LAPTOP BRAND WORLDWIDE

14" FHD
144Hz

14" WQHD
120Hz

WQHD
165Hz

4K
120Hz

FHD
300Hz

High speed and resolution rarely co-exist in laptops, but ROG is pioneering a new breed that balances both with vivid colors. The balance between high resolution and high refresh rate makes ROG products suitable for all users, ranging from content gamers, content creators, streamers, and lifestyle users. WQHD/165Hz is the perfect balance between speed, color and accuracy. FHD/300Hz is designed for the discerning player who's obsessed about the micro-second speed difference. And Our latest premium panel takes up to 4K/120Hz, empowering hardcore gamers and creative professionals to work and play on the same display, and experience realistic visuals in everything they do.

Smoother, Faster Gaming at 300Hz

ROG is one of the first to push gaming display refresh rates to 300Hz/3ms across a range of top tier gaming laptops. High refresh rates enable superior visual smoothness, giving gamers a competitive advantage for fast-paced, high-FPS experiences. The 3ms grey-to-grey response time minimizes blur, making target tracking clearer and more accurate for high-level play. Raising the refresh rate to 300Hz represents a 25% increase over the current standard for high-level esports tournaments. At that speed, the screen can draw 5X more frames than the 60Hz panels found on conventional laptops.

The World's First Wqhd 165Hz Gaming Panel

For a satisfying balance between high speed and resolution, the world's first WQHD 165Hz/3ms display option brings immersive 2K details into high-refresh territory. It covers 100% of the wider DCI-P3 color space and lets you see more shades in compatible films and other media.

HIGH RESOLUTION AND WIDE COLOR GAMUT

Higher resolution offers creators significantly more detail for work and entertainment. Our 4K gaming laptop packed over 8 million pixels for ultra-fine photo and video editing, allowing artists to work more easily on the go with a device that matches the popular Ultra HD resolution.

DCI-P3 100% and Adobe RGB 100% enable wider color range than sRGB, resulting in more realistic color reproduction. We also added a blazing backlight with up to 400 nits of brightness for vibrant colors and better visibility outdoors or under intense indoor lighting.

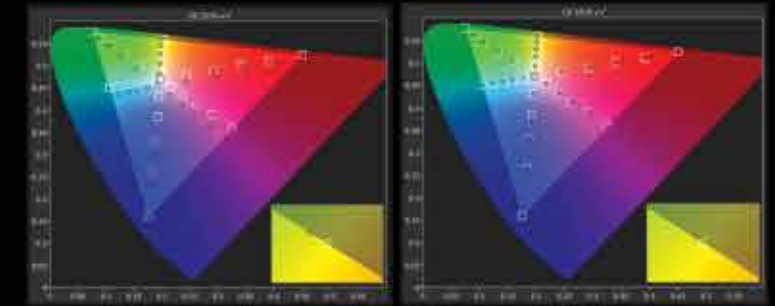

IPS-LEVEL DISPLAY AND PANTONE® COLOR VALIDATION

NO. 1 GAMING LAPTOP BRAND WORLDWIDE

IPS panel uses a parallel crystal structure to produce rich colors with outstanding accuracy across wide viewing angles. Pantone® Validated displays guarantee accurate color reproduction that's faithful to the globally recognized Pantone palette. This level of color accuracy allows artists, designers, and content creators to do serious professional work and enjoy richer gaming visuals all on the same machine.

Before Pantone Calibration

After Pantone Calibration

COLOR CALIBRATION THROUGH ARMOURY CRATE

The X-Rite i1 Display PRO is the ultimate display color calibration tool for creative professionals who want to work with speed and confidence in getting accurate results.

ROG GameVisual now can support X-Rite i1 Display PRO and allows users calibrate their own laptop displays for color accuracy.

ROG SCREENPAD™ PLUS

NO. 1 GAMING LAPTOP
BRAND WORLDWIDE

Stream

Streaming and gaming simultaneously is simpler with two screens. Keep your broadcast controls, video feed, and other commands on deck to produce a high-quality stream on the go. Stay engaged with your audience by keeping all your chat channels in view as you play. Optimized apps like Xsplit Gamecaster make it easily easy to take your stream to the next level.

Create

More screen space for multimedia editing makes it easier to create original content anywhere. Give yourself a broader workspace for writing, drawing, and more, while keeping critical tools like timelines, layers, histories, and reference materials within easy reach. Stylus support lets you use the touchscreen like a drawing tablet for quick sketches, note-taking, and more.

Game

Streaming and gaming simultaneously is simpler with two screens. Keep your broadcast controls, video feed, and other commands on deck to produce a high-quality stream on the go. Stay engaged with your audience by keeping all your chat channels in view as you play. Optimized apps like Xsplit Gamecaster make it easily easy to take your stream to the next level.

Immerse

Immerse yourself more deeply in games with unobstructed views. ROG is working with game developers to enhance your experience with optimized screen space and minimal distractions. AAA games like Dying Light 2 from Techland moves your co-op chats, inventory, and mission log to the secondary screen, letting you stay locked in the action.

Multitask

Intuitive touchscreen controls and optimized apps make interactions between your displays seamless. Move browsers, videos, and chats to the ScreenPad Plus to keep them on deck while you work and play. Shift between functions easily with simple touch commands. More screen space makes multitasking easier than ever, letting you keep an eye on all the tools you need at the same time.

Thanks to a radical new AAS+ design, the Zephyrus Duo 15 serie puts that multi-screen functionality in an ultraslim form factor. As you open the laptop, the ScreenPad Plus secondary display rises to a 13° angle for comfortable viewing and touchscreen interaction, while simultaneously opening up a massive air intake behind it to improve cooling.

The large IPS-level secondary display lets gamers maximize play on the primary display, while keeping chats and stream controls on deck. Creators can use more of the main display as a canvas and still keep menus, toolbars, and more within easy reach. The 3840 x 1100 resolution boasts a high pixel density, delivering rich details, crisp text, and flowing lines to match the premium primary display.

TWO-WAY AI NOISE CANCELATION

Our noise-canceling technology removes unwanted sound from upstream and downstream feeds, clarifying audio from both your mic and your teammates' mics. Settings can be customized on a per-app basis to filter specific apps like voice chat without touching game audio. Since our technology runs on the CPU, your GPU is freed up to maximize frame rates.

Up Link Speak without Noise

Down Link Speak without Noise

Eliminate **500-Million** Types of Background Noise

-95% Noise Reduction

Two-Way Ai Noise Cancelation within Gaming Performance

When the AI Noise Cancelation feature is turned on, our ROG laptops still has a 7.47% higher FPS rates than our competition. This is because our Two-Way AI Noise Cancelation feature runs on the laptop's CPU and the GPU is freed up for optimal gaming performance. even faster frequencies and higher performance.

Ainc Software Comparison Table		Two-Way AINC by ROG Gaming NB	Other AINC software
		Avg. FPS	
Game	Far cry 5	82	77
	Shadow of the Tomb Raider	71	66
	Assassin's Creed Odyssey	52	48

Customized Your Two-Way AI Noise Cancelation Experience in Different Scenario Via Armoury Crate

For example, playing Youtube music, having a Game match, and communicating with friends with Ai noise cancellation on via Discord at the same time.

After activating, the system will automatically detect the using mode detect the device you are using.

1. Select noise reduction level – low, mid, high
2. Please go to the app you want to apply and switch the default setting to richer.

AI Noise-cancelling Input/ Output (ASUS Utility)

DOLBY ATMOS FOR RICH SPATIAL SOUND

Experience audio that offers 360-degrees of depth and direction with virtual 5.1.2-channel surround sound. Whether you're using headphones or speakers, Dolby Atmos technology enhances spatial immersion with more nuanced, layered sound effects that can be further optimized with specially tuned preset modes for movies and games. DAX3 algorithms are expertly tuned to your devices speakers for improved loudness and clarity.

Dolby Makes Everything on Your Device Sound Better

Dolby Atmos in Action

Game in Dolby

Dolby Atmos sound unleashes the full detail and nuance of in-game music to make your experience richer.

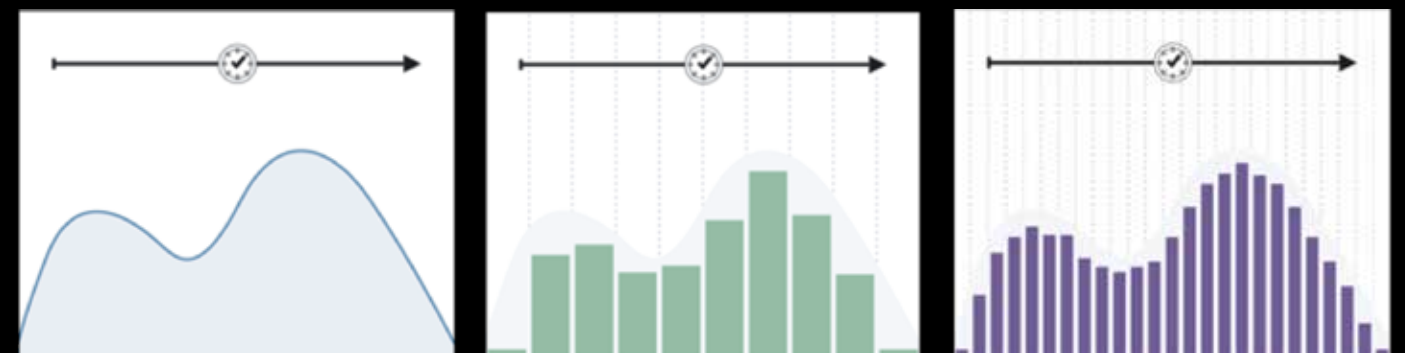

Stream Movies with Dolby

Dolby Atmos gives sound direction and depth that can place objects around you in three-dimensional space, putting you at the center of the action.

HIGH-RESOLUTION AUDIO

High-Resolution Audio refers to a collection of digital processes and formats that allow the encoding and playback of music using higher sampling rates than the standards used in CDs.

Original Analog Recording

CD: 16 bit / 44.1 kHz

High-Resolution Audio at 24 bit/96 kHz

The graphs above start with the original analog sound waves and illustrate the low sample rate of CDs compared to the greater frequency used to record High-Resolution Audio. There is no single standard for High-Resolution Audio, but the most commonly used specifications are 24 bit/96 kHz (3.2x more data transmitted than CD) and 24 bit/192 kHz (6.5x more data transmitted than CD).

PATENTED ROG RANGEBOOST STRENGTHENS YOUR SIGNAL

Keystone II

THE KEY TO DEEP PC PERSONALIZATION

NO. 1 GAMING LAPTOP BRAND WORLDWIDE

Inspired by our collaboration with BMW Designworks Group to reimagine the future of gaming laptops, Keystones are physical NFC keys that were created to evoke a physical connection between a user and their machine. These keys can be paired with different functions that transform your gaming machine to your preferred settings when docked into compatible devices.

ROG gaming laptops are the first in the world to feature multi-antenna Wi-Fi for 30% more range, higher Wi-Fi throughput, and fewer connection drops. Patented ROG RangeBoost technology combines four antennas located at the back and front of the machine with a unique algorithm that constantly scans and selects the best pair of antennas able to cover each other's dead spots, resulting in the strongest possible signal. The latest 802.11ac Gigabit Wi-Fi standard delivers speeds of up to 1.7Gbps — twice that of 802.11ac 2x2 and 12x that of 802.11b/g/n!

Quick Command

Keystones quickly perform a wide range of function and apps based on preferences saved to your ROG ID. Dock a keystone to launch your favorite apps, switch operating modes, log out of Windows, or even activate Stealth Mode on your PC to work and play with greater privacy.

Shadow Drive

Keep private files in a secret storage space linked to your Keystone. When docked, keystones can be used to reveal a Shadow Drive within your computer. For Windows 10 Pro users, this hidden partition can be encrypted to offer additional security for personal data, programs, and files you don't want to fall into the wrong hands. Link the drive to multiple Keystones to share access or create backup keys of your own.

OPTICAL MECHANICAL KEYBOARD

Optical Switches Enhance Precision

Our optical mechanical keyboard switches actuate nearly instantaneously and much faster than standard alternatives, enabling more responsive input, superior accuracy, and extreme durability. A longer travel distance adds comfort, while curved caps keep your fingers centered. Per-key Aura Sync illumination lets you highlight key commands for different games, and offers a fun way to light up your world.

AURA CREATOR UNLEASHES UNLIMITED RGB CREATIVITY

NO. 1 GAMING LAPTOP
BRAND WORLDWIDE

Take the exclusive Aura RGB lighting technology to the next level with this powerful tool that lets you easily customize the lighting of all your Aura devices down to the last LED. Create richly detailed, multi-layered effects that make your system come alive with your personality.

If you're ready to make your system shine, check the list below to see if Aura Creator works with your device and then click Download to get started now.

AURA SYNC COORDINATES COLORS ACROSS YOUR ECOSYSTEM

Aura Sync technology gives you the freedom to customize and sync up light effects with Aura Sync-supported gaming mice, headsets, and other peripherals to give your entire gaming setup a consistent look and feel. With a full spectrum of colors to choose from, as well as eight different lighting modes that can be accessed via Armoury Crate, Aura Sync technology lets you express your gaming persona, or the feel of the game you're currently playing.

* Effects may vary by models

AniMe Matrix™ Display

ILLUMINATING NEW PLATFORMS FOR CREATIVITY

ROG consistently pushes the boundaries of personalization to help users express themselves and make each machine their own. The groundbreaking AniMe Matrix Display turns the top of your gaming notebook into an illuminated canvas that offers you a wholly new platform for creativity. Made up of over a thousand individual mini-LEDs, these displays can be used to show custom animations of your own creation, scrolling text to convey quick messages, equalizer visualizations to enhance your music playback, and status updates that keep you in the loop on new messages. An all-new virtual pet from the ROG universe can hang out on the AniMe Matrix™, too. This interactive assistant reacts to system usage and battery level—and also stars in its own desktop app!

NO. 1 GAMING LAPTOP
BRAND WORLDWIDE

Virtual Pet

A character from the ROG universe, this virtual pet is a fun sidekick that doubles as an interactive assistant. It lives on your desktop after activation and reacts in real time to changes in system load and battery level. The virtual pet can also be configured to hang out on the Zephyrus G14's AniMe Matrix™ display.

Animation

Show off creative animations in clean white LED lighting with the AniMe Matrix Display. You can create your own animations by inserting individual images frame by frame, and watch them play out in illuminated animated sequences.

Scrolling Text

Make your status and thoughts known with a scrolling text display. Type in any text and have it scroll by in LED lights, perfect for sending a message from across a room or letting people know to "Do Not Disturb" while you're at work.

Audio Equalizer

A selection of equalizer visualizations synchronize to your music and amplify your audio experience. Play the DJ at parties and events with visualizations that lighten up the mood.

System Notifications

Even when the laptop is closed, the AniMe Matrix Display can keep you updated on the time, date, battery life, incoming messages, and more.

UNIFIED SYSTEM CONTROL WITH ARMOURY CRATE

NO. 1 GAMING LAPTOP
BRAND WORLDWIDE

The brand-new ROG Armoury Crate software unifies system and lighting control and puts them at your fingertips. Its user-friendly interface lets you manage up to four gaming profiles that automatically load your preferred settings when you launch your favorite titles. These options are the beginning for what will become an even more versatile tool.

Intelligent Cooling enables ROG Boost, a term we use to describe reaching a GPU higher clock speed and wattage than the baseline requirement. GeForce GPUs can be configured with a range of clock speeds and power envelopes from the mildest Max-Q spec to full-throttle implementations that don't hold anything back. ROG Boost keeps us at the upper end of that range and some cases even pushes the GPU beyond stock speed.

Aura Creator
Customize your RGB keyboard

Fan Settings
Control noise levels and power consumptions

13.4" ROG FLOW X13

World's Most Powerful 13-inch Convertible Gaming Laptop

Flex Your Power

Go small without sacrificing power. Even with an ultralight, compact chassis, the ROG Flow X13 speeds through tasks with cutting-edge processors up to a Ryzen™ 9 5980HS in the Supernova Edition. A discrete GeForce® GTX GPU makes everyday play smooth and silky. Move more freely than ever and create, stream, and game wherever the mood strikes.

Up to AMD **Ryzen™ 9 5980HS** CPU

The Latest **GeForce® GTX 1650** GPU

Up to **32GB 4266MHz** LPDDR4X Memory

Expand Your View

The Flow X13's versatility extends to a choice of displays that tailors the experience for serious gaming or creativity. Go 4K and immerse in Ultra HD detail, or go 120Hz FHD for super-smooth gaming. Both edge-to-edge displays boast a taller aspect ratio with more space for toolbars and tabs. Touch and stylus support balance the visual experience with more intuitive input for entertainment and artistry.

16:10 Aspect Ratio
Corning Gorilla Glass Touchscreen Protection
Adaptive-Sync Support

Light and Long-lasting

Go farther with the energy-efficient ROG Flow. With up to 10 hrs* of video playback, you can stay entertained and tackle to-dos anywhere. The included 100W Type-C charger is much smaller and lighter than standard gaming laptop adapters but still gets you up and running fast. Compatible USB-C power packs extend your time on the go, so you can stop searching for outlets and thrive in any off-the-wall scenario.

Compact Adapter **100W USB Type-C**

Light Even Under Load

Despite delivering heavyweight gaming performance, the ROG XG Mobile is the lightest and most compact external GPU in the world. It's significantly smaller than competitors, at just 6% of the size of typical eGPUs built for desktop graphics cards. Weighing in at only 1kg, it's portable enough to pack up and plug in just about everywhere.

Ultralight Weight **1kg**
Chassis Size **6%**
Of Typical eGPUs

Amp Up Your Play

PCIe® 3.0x8
GPU Interface
GeForce
RTX™ 3080
GPU

Maximize performance with our exclusive interface. Its direct PCIe® 3.0 x8 connection to the CPU dedicates 63Gb/s of bandwidth just to the graphics processor, beating Thunderbolt™ by 57.5%*. A separate USB 3.2 Gen 2 link adds 10Gb/s for the I/O hub and prevents peripheral traffic from impeding graphics performance.

Beat the Heat

Contact Area **54% More**
Than Typical Heatpipe

Advanced vapor chamber cooling keeps the ROG XG Mobile's graphics strong. Our custom design increases contact area with the heatsink by 54% compared to a typical heatpipe layout, enabling faster thermal transfer and opening up more space for airflow.

Take on Any Challenge

Maximizing performance for an ultra-slim gaming laptop with two integrated screens necessitates innovation. Our radical AAS Plus approach opens up a large 28.5mm intake behind the second screen that draws in cool air from above and reduces noise. When combined with cutting-edge upgrades like redesigned fans and liquid metal compound on the CPU, this dynamic system delivers next-level performance. Scenario Profiles let you optimize cooling and acoustics by seamlessly switching operating modes based on the task at hand.

Go Anywhere. Do Anything.

Thin, light, and wrapped in a magnesium-aluminide chassis that's as strong as it is sleek, the Zephyrus Duo 15 SE lets you do more anywhere. Unplug to take work and entertainment on the go with its high-capacity 90Wh battery. Type-C charging supports recharging from compatible power packs, so you can stop scrambling for a socket when your battery gets low. For everyday activities like web browsing and streaming video, you can work off a smaller 100W adapter and travel even lighter.

Immerse in Crystal Clear Sound

Virtual 5.1.2-channel surround sound powered by Dolby Atmos technology puts you in the center of the action. Twin tweeters fire sound directly at you, while dual Smart Amp woofers bounce sound off the table. Switch between 6 preset modes that optimize settings based on the type of game and media, or make manual modifications that fit your preferences. Two-Way AI Noise Cancellation removes distracting background noise to make streams, chats, and recording clearer than ever.

KEY FEATURES

- SECOND SCREEN EXPANDS POSSIBILITIES**
 A 14.09" integrated secondary display up to 4K resolution is tilted for viewing comfort and supports touch and stylus input.
- POWERFUL PRODUCTIVITY**
 Everything from gaming to content creation to coding is faster with up to the latest AMD Ryzen™ 9 5900HX CPU and GeForce RTX™ 3080 GPU.
- SUPERIORITY YOU CAN SEE**
 Choose between 4K 120Hz/3ms with 100% Adobe RGB or FHD 300Hz/3ms, both Pantone® Validated with Adaptive-Sync
- NEXT LEVEL COOLING WITH AAS PLUS**
 A 28.5mm opening behind the second screen elevates airflow, while liquid metal thermal compound lowers temperatures on the CPU.
- AMPED UP WITH PREMIUM AUDIO**
 Quad speakers with Dolby Atmos surround sound, Smart Amp, and Hi-Res Audio elevate your media, while Two-Way AI Noise Cancellation enables clear audio recording for work and play.

Light It Up

The groundbreaking AniMe Matrix™ display shows off your creativity through 1,215 programmable mini-LEDs that illuminate the lid. Display custom designs, unique animations, and live audio visualizations for extra flair. Or stay in the loop with status notifications about battery life, calendar, alarm and more. An all-new virtual pet from the ROG universe can hang out on the AniMe Matrix™, too.

Live It Up

Zephyrus G14's energy-efficient AMD Ryzen™ 9 5900HS CPU lets you finish up work, watch videos, and stay productive without the weight. USB Power Delivery gives you the flexibility to charge the battery with portable Type-C power packs and adapters, or quickly rejuvenate compatible smartphones and other devices.

KEY FEATURES

- **A PORTABLE 14-INCH POWERHOUSE**
Up to NVIDIA® NVIDIA® GeForce RTX™ 3060 GPU and 8-core, 16 thread AMD Ryzen™ 9 5900HS 7nm CPU accelerate gaming.
- **VISIBLE SUPERIORITY**
High-res WQHD display with Pantone® Validated for superb color accuracy.
- **LIGHTEN UP AND SHOW OFF**
A customizable AniMe Matrix display uses 1,215 mini-LEDs to show off animations, notifications, a new virtual pet, and more.
- **SUBMERGE YOURSELF IN HIGH SOUND QUALITY**
Dolby Atmos technology and quad speakers redefine your audio experience with multidimensional sound.
- **STAY ACTIVE ANYWHERE**
Do more anywhere with over 10 hours of battery life, while Type-C charging lets you recharge with power packs.
- **FAST, RELIABLE WIRELESS**
Wi-Fi 6 offers lower latency for reduced lag and improved network efficiency for better connectivity in a crowd.

Immersive Surround Sound

Six speakers powered by Dolby Atmos technology put you in the center of the action. Twin tweeters face front to fire sound directly at you for louder volume, while pairs of force-canceling woofers under the palm rests balance acoustics and minimize unwanted resonance. Turn up the volume at parties and events and enjoy louder, more dynamic audio.

6 Speakers
Dual Force-Canceling Woofers

Clear Voice Communications

Updated audio inputs make all your streams and voice chats clear. Two-Way AI Noise Cancellation clarifies upstream and downstream audio, filtering out unwanted noise to make voice communication clearer. The 3D mic array captures a broad soundscape that can be optimized for specific scenarios like recording live music or hosting conference calls.

Two-Way
AI Noise Cancellation
3D Mic Array
3 Input Modes

KEY FEATURES

- RAISE YOUR GAME**
 The latest 8-core Ryzen™ 9 CPU and GeForce RTX™ 3080 GPU run fast and quiet thanks to innovative cooling like liquid metal on the CPU.
- IMMERSE IN RICH DETAIL AT SPEED**
 High-res WQHD 165Hz/3ms Adaptive-Sync panel offers smooth, detailed visuals, while Pantone® validation and 100% DCI-P3 coverage ensure rich and accurate color.
- SINK INTO PREMIUM SOUND**
 Six speakers with dual force-canceling woofers offer surround sound powered by Dolby Atmos®, while Two-Way AI Noise Cancellation captures clear audio for chat, streaming, and more.
- DIVE INTO ACTION ANYWHERE**
 Create and connect on the go with up to 14 hours of battery life, Type-C charging, and Wi-Fi 6 (802.11ax) in a smaller, lighter ultraslim chassis.
- ENJOY CONVENIENCE WITHOUT COMPROMISE**
 A 180° ErgoLift hinge tilts the Stealth Type keyboard for comfort able use, while a larger and more sensitive touchpad makes quick inputs on the move easier.
- COOL OFF IN STYLE**
 Dual 84-Blade Arc Flow fans and self-cleaning cooling sustain strong performance, while Scenario Profiles switch system settings to match the task at hand.

ROG STRIX SCAR 15/17

World's First 300Hz 3ms Display with Liquid Metal Cooling & Optical Mechanical Keyboard

Compete at the highest level of Windows 10 Pro gaming with the ROG Strix SCAR 15/17. Leading-edge graphics up to a GeForce RTX 3080™ GPU enable ultrafast and fluid gameplay. A powerful AMD CPU up to Ryzen™ 9 5900HX runs on up to 50W of sustained power when the GPU is active and 80W on its own, and is paired with up to 64GB of DDR4-3200 RAM to slice through heavy workloads. Two M.2 NVMe SSDs running in RAID 0 accelerate load times and nearly double the throughput of a single drive. All-new designs elevate both form and function in the new Strix SCAR series, introducing a bold style inspired by athletic gear. The aesthetic includes translucent materials and lighting upgrades that enable extensive personalization. Add a pop of personality to your chassis, two additional color options of Customizable Armor Caps come in the box and swap out effortlessly, letting you switch up your style anytime.

Optical Switches Enhance Precision

Our optical mechanical keyboard switches actuate nearly instantaneously and much faster than standard alternatives, enabling more responsive input, superior accuracy, and extreme durability. A longer travel distance adds comfort, while curved caps keep your fingers centered. Per-key Aura Sync illumination lets you highlight key commands for different games, and offers a fun way to light up your world.

KEY FEATURES

- UNSTOPPABLE NEXT-GEN POWER**
The latest AMD Ryzen™ 9 5900HX Overclocked CPU and GeForce RTX™ 3080 GPU are fast, powerful, and quiet (under 45dB in Turbo Mode) thanks to innovative cooling such as liquid metal on the CPU.
- PRO-LEVEL PRECISION**
Gameplay is ultra-smooth on FHD 300Hz gaming panels with 85% screen-to-body ratios. Optical mechanical keyboard enhances input accuracy with superior tactile response.
- DEEP AUDIO IMMERSION**
Quad speakers powered by Dolby Atmos tech offer rich, studio-quality surround sound, while Two-Way AI Noise Cancellation ensures crystal clear voice chat.

Travel Distance **1.9mm**
Durability **100m**
Key Press Lifetime
Zero Debounce Delay
Response Time **0.2ms**

- POWER THAT TRAVELS ANYWHERE**
An expansive 90Wh battery and Type-C rapid charging extends your battery life in a chassis with a footprint 7% smaller than previous generations.
- PERSONALIZE YOUR EXPERIENCE**
Dock a Keystone II to quickly launch a range of flexible functions, add a pop of color with a Customizable Armor Cap, and coordinate your AURA Sync lighting to set the mood.

For Esports Speed

Cutting-edge cooling boosts performance

Keep a low profile with quieter, more effective cooling. Liquid metal thermal compound pulls more heat away from the CPU. Arc Flow fans spin 84 blades each with a new design that pushes more air with less turbulence. Air flows through up to 4 heatsinks and fan outlets to rapidly expel heat. These and other improvements allow ROG Boost to overclock the GPU in Turbo mode, and they open up extra thermal headroom to pursue even higher GPU clocks and also overclocks the CPU.

Up to **4** Fan outlets
Up to **16°C** Cooler CPU
Up to **4%** Less noise

Gaming Greatness

The latest processors team up to take down gaming, multitasking, and more. NVIDIA graphics up to a GeForce RTX™ 3070 GPU deliver smooth frame rates, while up to an AMD Ryzen™ 9 5900HX CPU powers through heavy lifting. Armed with up to 32GB of high-performance DDR4-3200 RAM, you can game, stream, and switch gears seamlessly. Up to 1TB of NVMe SSD storage accelerates load times for games and apps, and a second M.2 slot lets you add another drive to expand your collection.

Up to an AMD **Ryzen™ 9 5900HX** CPU
Dual RAIDO **1TB** SSD
Up to Nvidia® GeForce **RTX™ 3070** GPU
32GB **3200MHz** Memory

Strike with precision

Precision and instinct define the desktop-inspired keyboard. Five dedicated hotkeys put frequently used controls within reach, so you can make quick adjustments while staying in the flow of the action. Bigger, isolated arrows, and well-spaced function keys let you navigate more intuitively and accurately. Highlight crucial commands with per-key RGB lighting. Punch in your inputs worry-free with durable key switches built to withstand over 20 million presses.

KEY FEATURES

- FOCUSED FIREPOWER**
The latest 8-core Ryzen™ 9 overclocked CPU and GeForce® RTX™ 3070 GPU are fast and quiet (under 45dB in Turbo Mode) thanks to innovative cooling like liquid metal on the CPU.
- FLUID, FAST-PACED PLAY**
Gaming is ultrasMOOTH on an FHD 300Hz/3ms display with Adaptive-Sync. Slim 4.5mm bezels on three sides minimize distraction to deepen immersion.

- CRYSTAL CLEAR SOUND**
Dual speakers powered by Dolby Atmos tech offer studio-quality surround sound, while Two-Way AI Noise Cancellation ensures clear voice recording for streaming and more.
- SMALLER, SLEEKER, STRONGER**
A resilient aluminum lid tops off a sleek chassis with a footprint up to 7% smaller than last gen. Customize the look with a per-key RGB keyboard and lightbar.
- ALWAYS UP FOR ADVENTURE**
Stay active with a 90Wh battery that gives you up to 12 hours of video playback on the go and Type-C charging that lets you extend your life from compatible power packs.

ROG STRIX G15/17

World's First Multicolor Gaming Laptop with Liquid Metal Cooling

KEY FEATURES

- GET A COMPETITIVE ADVANTAGE AT 144HZ**
 Pro-level precision is in sight with an ultra-fast 144Hz display that makes fast-paced play silky smooth.
- POTENT PROCESSING POWER**
 10th Gen Intel® Core™ i7 Processor and GeForce RTX 2060 GPU power through work and play.
- COMMANDING COOL**
 Intelligent cooling measures like liquid metal compound on the CPU, n-Blade fans, and self-cleaning cooling thermal module reduce noise and raise the bar on peak performance.
- SUPER RAID 0 STORAGE**
 Speed up load times with 2 ultrafast SSDs running in RAID 0. A third M.2 SSD slot lets you upgrade your storage.
- QUICK AND RELIABLE WI-FI 6**
 Low latency Intel® Wi-Fi 6 (Gig+) improves connectivity in crowds, while Rangeboost maximizes Wi-Fi signal strength no matter where you play.

ULTRATHIN FOR THE WIN

240Hz 3ms with Adaptive Sync & 100% sRGB

1.99cm Ultra Slim & Light Chassis

Smart Cooling with Dual 83-Blade Fans

100W Type-C Charging

Military Grade Toughness

Be bold. Do more on the move. The all-new TUF Dash F15 puts powerful Windows 10 Home gaming in a super slim chassis. Up to the latest 11th Gen Intel® Core™ i7-11370H CPU and GeForce RTX™ 3070 GPU make gaming smooth on up to a blazing fast 240Hz display. Even at 19.9mm thin, this TUF chassis meets rigorous MIL-STD durability standards, resisting everyday knocks and bumps. Up to 16.6 hours of battery lets you multitask more in a laptop light enough to carry into action anywhere.

Up to 11th Gen

Crystal Clear Audio

Two speakers with four cut-outs let you enjoy the full depth of DTS:X™ Ultra high-fidelity audio. Voice communication is clearer than ever with Two-Way AI Noise Cancellation that removes unwanted sound from incoming and outgoing audio. Virtual 7.1-channel surround sound amplifies spatial awareness in-game, so you can get the drop on enemies. Optimized preset modes enhance your experience alongside an equalizer for deeper customization.

KEY FEATURES

- POWER-PACKED, SUPER SLIM FORM FACTOR**
A slim 19.9mm thin houses up to Intel® Core™ i7-11370H CPU and NVIDIA® RTX™ 3070 GPU to speed through gaming, multitasking, and everyday productivity.
- SPEEDY, SMOOTH VISUALS IN STUNNING COLOR**
Gameplay is fluid and precise on a fast 240Hz/3ms display with Adaptive Sync support. Colors are accurate and rich, covering 100% of the sRGB spectrum.
- ENDLESSLY VERSATILE FOR PEAK PORTABILITY**
Tap into power anywhere with the lightning fast Thunderbolt 4 port. Stay mobile with Type-C charging that further extends an ample up to 16.6 hours of battery life.
- PRODUCTIVITY WITH PRECISION AND SPEED**
Work like a pro with Two-Way AI Noise Cancellation that makes voice chat crystal clear, ultrafast Wi-Fi 6 (802.11ax), and 32GB of high-performance 3200MHz RAM.
- COMMANDING COOLING MAXIMIZES FPS**
Dynamic Boost 2.0 amps up the GPU while balancing thermal capacity, while 4 full-sized fan outlets and n-Blade fans rapidly dissipate heat with lower acoustics.
- COMPACT WITH MILITARY-GRADE TOUGHNESS**
Even in an incredibly thin and portable chassis, this laptop meets MIL-STD-810H standards for resilience against elemental extremes, serious travel, and beyond.

Accelerate Victory

Game at pro speed with a lightning fast IPS-level panel up to 240Hz/3ms with 100% sRGB. With Adaptive-Sync, the display's refresh rate synchronizes with the GPU's frame rate to reduce lag, minimize stuttering, and eliminate visual tearing for ultra-smooth and immersive gameplay.

OUTLAST THE COMPETITION

- AMD Ryzen 5000 H Series Processor
- Solid Metal Chassis with 240Hz Display
- All Zone RGB Keyboard
- Smart Cooling with Dual 83-Blade Fans
- Military Grade Toughness

KEY FEATURES

- POTENT PERFORMANCE FOR GAMING AND BEYOND**
Up to the latest AMD Ryzen™ 7 CPU, GeForce RTX™ 3070 GPU, and 32GB of DDR4-3200 RAM speed up work and play, while a 2nd SSD slot lets you add terabytes of space.
- IMMERSIVE GAMING EXPERIENCE**
A fast 240Hz 100% sRGB panel with Adaptive-Sync support makes gameplay silky smooth, while Two-Way AI Noise Cancellation allows for clearer communication.

- SMART COOLING SUSTAINS LONG-TERM STABILITY**
Improved thermals allow for better performance with less noise. Dual 83-Blade fans draw in more air, while self-cleaning cooling extends system longevity.
- POWERFUL PRODUCTIVITY ANYWHERE**
Stay connected on the go with a long-lasting 90Wh battery, Wi-Fi 6 (802.11ax) connectivity, and an integrated webcam in a portable chassis.
- MILITARY-GRADE TOUGHNESS INSIDE AND OUT**
Modern aesthetics are engineered to meet stringent MIL-STD-810H standards, for a stylish machine with lasting durability.

Graphic Superiority You Can See

More Cores, More Power

Liquid Cooling System

Multi-zone Chassis With Superior Airflow

Aura Sync for Ultimate Personalization

MORE CORES. MORE POWER.

Powerfully equipped for gaming and multitasking, the GA35 slashes through any task that comes its way. Up to a GeForce RTX™ 2080 Ti GPU delivers high frame rates for smoother fast-paced action, while up to a Ryzen™ 9 3900X CPU has 16 cores and 32 threads to speed up intensive workloads like streaming, video editing, and 3D rendering. Armed with up to a massive 64GB of DDR4-3200MHz memory, you can produce a high-quality broadcast with multiple video inputs, keep up with stream and team chats, and jump into competitive play all at the same time.

MULTI-CHAMBERED CHASSIS BOOSTS COOLING

Comprehensive cooling enables the high-level processor performance required for serious gaming and work. The multi-zone chassis keeps the CPU, graphics card, and power supply in separate chambers to minimize thermal interference and lower ambient temperatures. CPU performance is further enhanced by a liquid cooling system that enables higher sustained clock speeds for speedier system performance. Dedicated heatsinks across the PCIe 4.0 SSD slots speed up workflows even more with superfast sustained speeds and reliable data access.

*Vertical graphics card mount is only available with RTX 2080 Ti configuration.

AN ELEVATED ESPORTS EXPERIENCE

Two hot-swap SSD bays make switching hard drives stress-free and simple. Organizing multiplayer tournaments is faster and easier, as players can quickly exchange drives to load personalized settings with minimal downtime between matches. The sturdy built-in handle can sustain up to 30kgf. It's durable enough to bring around to all of your local LAN and esports tournaments. Hang your headphones in style on a hook sleekly incorporated into the chassis. This dynamic folding design keeps your space cleaner and clutter-free.

KEY FEATURES

- **GRAPHICS SUPERIORITY YOU CAN SEE**
Experience immersive gaming at high-refresh rates with up to an NVIDIA® GeForce RTX™ 2080 Ti graphics card in an optional vertical mount that lets you see it in action.
- **MORE CORES, MORE POWER**
Up to a 12-core AMD® Ryzen™ R9-3900X CPU with a liquid cooling system that allows the unlocked chip to be overclocked to reach even higher performance.
- **AN ELEVATED ESPORTS EXPERIENCE**
Two SSD hot-swap bays let players quickly switch games and settings for competitive esports, while a built-in carrying handle improves portability for travel.
- **MULTI-CHAMBERED CHASSIS BOOSTS COOLING**
The multi-zone chassis keeps CPU, GPU, and power supply in separate bays to minimize thermal interference and lower ambient temperatures, enabling higher performance.
- **DO MORE WITH KEYSTONE**
Keystone II transforms your PC with customizable functions that give you quick access to your game and app profiles, a hidden Shadow Drive, and more.
- **GLASS PANEL LETS AURA SYNC SHINE BRIGHT**
A transparent glass side panel shows off extensive internal lighting that can be coordinated across an entire environment of Aura Sync-compatible devices.

PLAY IT COOL

Huracan features air intakes at the front, top and underside of the chassis. Opening the cover adds to that, allowing the maximum amount of cooling air into the chassis. It increases airflow by 16% and reduces internal temperatures by 15% to help cool critical components. Huracan gives you exactly what you want for gaming — a compact desktop that runs cool and quiet without compromising performance.

EXTRAORDINARY GAMING EXPERIENCES

To make sure Huracan gives you the very best gaming experience, ROG engineers play-tested the latest AAA games and the results are stellar: With 'Ultra' graphics settings, Huracan ran Destiny 2 in QHD at up to 100fps, and in 4K UHD at an astounding 60 fps.

* Tested on Huracan with an 8th Gen Intel Core i7-8700 CPU, GeForce GTX 1080 GPU, and 32GB DDR4 RAM.

ROG Sonic Studio III and Sonic Radar III

XSplit GameCaster

TESTED FOR QUALITY AND PROVEN FOR RELIABILITY

Each ROG GL10CS is subjected to a series of rigorous quality tests, including drop and vibration, thermal, noise, and voltage testing to ensure it meets our exacting standards, and surpasses those of the competition. From the internal structure to the individual components and from mechanical design to electrical safety is tested to make sure the device you receive serves you reliably for years to come. The user comfort tests such as noise tests are carried out to isolate and optimize sound pressure and tones in different performance modes and scenarios to provide you with a comfortable experience even in the most demanding applications.

UNIFIED SYSTEM TUNING AND PERSONALIZATION

ROG Armoury Crate puts all essential system and lighting control at your fingertips in a single utility. You can easily change settings for both and define up to four game profiles that automatically make adjustments when you launch your favorite titles. These options are just the beginning for what will become an even more versatile tool.

DUAL-CHAMBER S-SHAPE DESIGN

The chassis adopts a dual-chamber S-Shape design meaning that the main components, including the CPU, the motherboard, and the graphics card are isolated from where the HDD and power supply unit are stored so that the internal thermal channels will not warm up one another resulting in improved thermal performance.

KEY FEATURES

- MORE BANG FOR YOUR BUCK**
 Powered by up to an 9th Gen Intel® Core™ i7 CPU with GeForce® GTX 16 series graphics and ultrafast Intel® Gigabit Wi-Fi.
- CUSTOMIZABLE AURA SYNC LIGHTING**
 Choose your own lighting from a full spectrum of colors and effects, and easily match with compatible Aura Sync peripherals.
- LOAD GAMES FASTER WITH A HIGH-SPEED SSD**
 Equipped with up to a 256GB M.2 PCIe SSD for a perfect balance of speed and storage capacity.
- IMMERSIVE DTS SOUND EXPERIENCE**
 DTS Headphone:X simulates 7.1 channel surround sound at theater-quality experience over stereo headphones.
- UNIFIED SYSTEM CONTROL WITH ARMOURY CRATE**
 Adjust lighting effects, system performance, and up to four custom gaming profiles via a user-friendly interface.
