# Something to Think About. . . Something to Write About. . .

(Chapter by Chapter)

## Chapter One

Opal went to the grocery store for a box of macaroni-and-cheese, white bread, and tomatoes, and she came back with a dog.

- What is your favorite how-I-got-my-pet story?
- Write a narrative about the event from the *animal's point of view*.

When Opal found him, Winn-Dixie was running amuck in the grocery store.

- How do you suppose Winn-Dixie became a smelly, skinny, raggedy stray? What could possibly have caused a dog with a sense of humor to become homeless?
- Did Winn-Dixie find Opal or did Opal find Winn-Dixie? Explain your answer.

## Chapter Two

Opal introduced Winn-Dixie to her father as a Less Fortunate.

- Would you call Opal's technique *deceitful* or *shrewd*? Explain your choice. Include your word's definition as part of your answer.
- What word do you think best describes the preacher's reaction to Winn-Dixie—*sympathetic* or *evasive*? Add details to explain your choice.
- Which *two words* from the following list do you think is the best description of Winn-Dixie's personality? Use the words' definitions as part of your answer.

*friendly*  
*amiable*

*goofy*  
*endearing*

*exuberant*  
*undisciplined*

*cowardly*  
*spontaneous*

## Chapter Three

Opal was lonely because she has left her friends behind in Watley, and she had been thinking about her mama extra-extra hard.

- Why do you think the preacher moved from Watley to Naomi?
- In what way(s) did Winn-Dixie and Opal seem to be in the same boat?
- Why do you suppose Opal was hesitant to talk to the preacher about her mama? How did Winn-Dixie help her?
- Do you think there is something wrong with people who talk to their pets the same way they talk to humans? Why or why not?

## ***Something to Think About. . .*** ***Something to Write About. . .*** (Whole Book)

No doubt you know a thing or two about pushing numbers around to find the answer to a problem. Many problems, however, do not involve numbers. When there is something you want, a goal you wish to reach, or a situation you wish to change, you are encountering a problem. Good problem solving requires making one or more good choices that will get you exactly what you want or need. This rule applies to adults and young people alike.

When Opal saw that Otis needed to play his guitar so the animals running amuck all over Gertrude's Pets could be captured, she demonstrated her ability as a problem solver. Some of the other characters had the knack as well.

Make notes about how a character solved each of the following problems. Then write a composition about **Problem Solvers**.

- Opal found a stray dog that she wanted to keep, but she had to get the preacher's approval.
- Opal wanted Otis to come to the party at Gloria Dump's house.
- Gloria Dump knew that Opal should stop being stubborn and make friends with Stevie and Dunlap Dewberry.
- A bear wandered into the Herman W. Block Memorial Library while Miss Franny Block was there.
- Winn-Dixie couldn't stand to be left alone.

(See **Graphic Organizer #1 Page 56**)

**Teacher's note:** Use this writing activity as a basis for a second assignment about the steps Opal took to deal with her grief and loneliness—the story theme. Another possibility is to ask students to identify several more story problems—The Dewberry boys' fleas, Litmus W. Block's sad homecoming, Gloria Dump's drinking, the preacher's loneliness, Sweetie Pie's wish for a pet, Amanda Wilkinson's loss, Otis' need for an audience, etc.—and follow the same format as the prepared graphic organizer. Still another variation is to have students identify small problems they solve every day and write about their accomplishments.

---

Gloria said *You can only love what you've got while you've got it*. Explain what each of the following characters have to love while they have it:

*Gloria Dump*  
*Amanda Wilkinson*  
*Miss Franny Block*  
*Gloria Dump*  
*Stevie and Dunlap Dewberry*  
*Sweetie Pie Thomas*  
*the preacher*  
*Opal*  
*Winn-Dixie*

# About Your Novel Teaching Pack

## Objective Tests

The objective tests have multiple functions. In addition to their obvious application, they also serve as tools that can *improve **comprehension skills** by providing practice in understanding plot structure and recognizing important story elements.*

### **Rationale:**

#### ***Focus on the Plot. . .***

Whether they are aware of their ability or not, all good readers sense the **rhythm** of the **connected** events that compose the plot of a novel, and consequently **comprehend** the story. They are in tune with cause and effect, behavior and consequence, sequence—the heartbeat of the narrative.

This “plot rhythm” forms the framework for the objective tests. The chain of events that tell the story have been pulled from the novel and reformatted into a series of sequential questions, none of which require **interpretation**. They are intended to **draw student attention to the fact that something happened**, not to what the incident means. That comes later.

In addition to their testing function, teachers may use the pages to strengthen their students’ ability to **Summarize**: With only the questions as a guide, have students write a summary of the chapter. For a set of ten questions, limit the number of sentences they may write to seven or fewer. When they work with twenty or more questions, allow no more than twelve sentences.

**Report the News**: Ask your students to write a newspaper article based on the events identified in a set of questions and the *who, what, when, where, why* elements. Some information needed to complete this assignment may be located in previous chapters.

**Twist the Plot**: Choose one or two questions from each chapter and change its answer—true to false, no to yes, etc.—to demonstrate how changing a single (or several) events would (or would not) change the story. This process can be used to help students become proficient in distinguishing major plot movers from minor story details.

#### ***The Characters. . .***

Too often, when they are asked to describe a story character’s personality, the only answer many students can muster is “nice.” This portion of the Novel Teaching Pack, coupled with related activities from ***Something to Think About, Something to Write About***, is a well of opportunities for those teachers who wish to eradicate “nice” from their students’ vocabularies!

Questions that identify a character’s personality and/or motivation are purposely and carefully included with the plot movers. Again, the questions do not require **interpretation**. They simply establish that someone did or said something—knowledge that is invaluable when character analysis is required.

#### ***Implied Meaning and Story Clues. . .***

The objective tests include items that establish the existence of story components carrying **implied meaning**. **Story clues** that tantalize the reader with hints of future events also appear as question. At this point in the novel study, as before, **interpretation** is not the goal. **Awareness** of the **facts** is the target.

#### ***Developing/Improving Listening Skills. . .***

Listening skills are rightfully included on every list of state competency requirements. Rather than always requiring students to answer test questions on a printed page, why not surprise them occasionally by doing the test orally and meeting competency goals at the same time?

#### ***Discussion Guide Capability. . .***

The objective tests are helpful discussion guides. Use individual items on these pages to draw student attention to sequence, cause and effect, story clues (foreshadowing), character traits, recognizing and interpreting implied meanings, etc. These “thinking out loud” sessions are an **important building block** for the next learning phase.

## Something to Think About. . . Something to Write About. . .

In this section, students pack up what they already know about the novel and go exploring into its every nook and cranny. Some activities require the simplest interpretation or application, while others will challenge the most proficient thinkers. There is a high probability that young scholars, even reluctant ones, will label some of the selections as *fun*.

### **Rationale:**

#### **Guidelines. . .**

Most of the items in this section are based on the skills presented in the *Taxonomy of Educational Objectives (Bloom's Taxonomy)*. There are two reasons for this choice. First, it mirrors the Novel Teaching Pack's primary purpose of building a variety of sophisticated thinking skills on a foundation of basic knowledge. Second, in following the taxonomy guidelines, activities that correlate with many state educational standards emerge automatically.

#### **Organization. . .**

**Chapter-specific** activities are grouped and presented according to their corresponding sets of **Objective Test** page(s). Having led students through the basics for each chapter (or selected section), teachers may shop in this section for activities to optimize student understanding and interest. Armed with a firm grasp of each successive chapter, students are more likely to anticipate, embrace, and enjoy the next section. By repeating the process, students are also mastering concepts and intricacies connected to the **whole** novel.

The **Whole Book Activities**, as their name indicates, require a grasp of the theme(s), characters, implications, etc. as they apply to the full novel. These pages are a teacher's smorgasbord of culminating possibilities.

#### **Levels of Difficulty. . .**

A broad spectrum of **difficulty levels** to accommodate the needs of individual students, including the gifted, is an integral part of this component. However, **all** items from this section are intended to **challenge** and **sharpen** thinking abilities.

#### **Activities. . .**

**Something to Think About/Something to Write About** includes activities that require students to choose and use precise, appropriate, and meaningful **vocabulary**. These exercises involve choosing a word or a group of words to describe a character's personality or behavior. The following example is from *Because of Winn-Dixie*.

Opal comforted Winn-Dixie during thunderstorms, holding on to him tight so that he wouldn't run away. She decided that the best way to comfort Gloria was to read a book to her, loud enough to keep the ghosts away.

From the list of words below, all of which can correctly describe Opal's behavior, which *two* do you think are the best? Cite facts from the story and the words' definitions to support your choices.

<i>empathetic</i>	<i>compassionate</i>	<i>nurturing</i>	<i>warmhearted</i>
<i>sympathetic</i>	<i>loving</i>	<i>devoted</i>	<i>benevolent</i>
<i>unselfish</i>	<i>generous</i>	<i>thoughtful</i>	<i>considerate</i>

In each case students work with a given collection of terms, all of which can be correctly applied to the character(s) in question. However, the individual words have varying strengths of meaning. It is the student's task to analyze both the character's behavior and the words, make choices, and then cite events from the story to support his/her selection.

Teachers may opt to narrow the choices to fewer words, choose words for individual students, divide the class into groups and offer a specific set of words to each group, or use the assignment as it is written. Whatever the technique, it is here that the word *nice* can be knocked off the shelf, shattered on the floor, and swept out the door. No longer necessary. Useless. Gone!

**Other items** in this section challenge students to . . .  
*create drawings, diagrams, photos, maps,*  
*form opinions and theories*  
*cite “evidence” from the story to support their*  
*explanations and opinions*  
*connect personal experience to story situations*  
*become familiar with and identify literary elements*  
*analyze story characters and events*

*make predictions*  
*understand point of view*  
*imagine*  
*categorize*  
*engage in research and data gathering*  
*recognize and perceive story theme(s)*

**Note:** Inclusion of activities will vary with each novel title.

### ***Options, options, and more options. . .***

**Something to Think About, Something to Write About** is purposely jam-packed to give teachers **pick-and-choose options** for

*individualizing assignments*  
*group work*  
*whole class activities*  
*capitalizing on student interest*

*homework*  
*short-term and long-term projects*  
*differentiating assignments for two or more classes*

## **Graphic Organizers**

Ideas for the graphic organizers are pulled from the chapter or whole book activities and expanded into a writing assignment. Priority is given to those topics that allow a student to relate personal experiences, make choices, empathize with a story character, and/or imagine.

### ***Structure. . .***

The organizers do not repeat a set pattern of circles, squares, lines, etc., prescribed for a particular type of writing. Each one is tailored to a **specific idea** pulled from the novel. **Structured directions** for **organizing** the topic support the student at this stage of the process so that **writing** is the major focus.

## **Final Note**

The Novel Teaching Packs are designed for use as supplementary material. They are not intended to be a total program. However, this work does provide a core resource for busy teachers and eager students as they strive to become competent readers. Thanks for choosing one of our products for your classroom.
