ZOETIC SIZES + PATTERNS

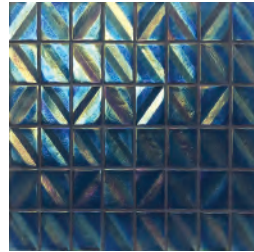

Art is not essential to life, just to feeling alive. As the curator of your life, you fill it with moments of beauty; with beginnings, middles, and ends; with the zoetic. Of or relating to life, zoetic describes all things that add a little something to who you are. Music, dance, and design are every bit as zoetic as food, water, and shelter, and they leave us with a sense of joy one can only attribute to being fully and completely alive. A collection inspired by their nature to find joy, spontaneity, and delight in everyday surroundings, Oceanside Glass & Tile introduces their newest line, Zoetic. Composed of dynamic dimensional mosaics, Zoetic launches into the marketplace to bring life to your home.
