# WELCOME TO THE DENTAL FIX DIFFERENCE

Dental Fix is a full-service national brand owned and operated by local industry professionals equipped with state-of-the-art mobile service centres. We understand downtime is money - that's why we provide on-site handpiece and equipment repairs without travel charges. There is no need to buy your way into discount programs and wait for your equipment from national dealers. We're committed to adding value to your practice with fast, competitive and reliable services for all your equipment needs. *-Dental Fix RX - "We're There When You Need Us."*

## Why Choose Us?

- Fastest service in the industry
- Locally owned and operated
- One call source for ALL equipment
- On-site equipment and handpiece repair
- Immediate emergency response
- Access to FREE loaner equipment
- Always connect via toll free number with no hold time
- All service performed by one dedicated business owner
- Most cost effective solution to your equipment needs
- No travel charges
- Free estimates and assessments
- Dental Fix® can now offer leasing and financing of your equipment

## ARE YOU IN COMPLIANCE WITH STERILIZATION REQUIREMENTS?

Let a Dental Fix Technician assist you with your sterilization needs!  
We offer a full range of sterilization equipment, parts and accessories!

**Service & Equipment**

**AUTOCLAVE PROMOTION\***  
**2 YEAR PARTS WARRANTY!**

## Clave 23

## SAFETY

- Double door protection system prevents the cycle from starting if the door is not correctly locked. This system also prevents the door from opening if the pressure inside the chamber is not equal to atmospheric pressure outside the chamber
- Pressure safety valve prevents over pressure in the chamber and steam generator
- The power is automatically cut if a short circuit or electrical fault occurs
- Able to detect and identify the exact cause of any problem and to issue a specific error code to the operator
- Water level main switch in the main tank controlling the min and max water level

Receive 2 free Cassettes of your Choice (5, 10, 15, 20 Instrument) Or A Free External Printer

## Clave 16

## DOCUMENTATION

### Printer:

An external printer is optional for all "Flight" autoclaves

### USB Port:

It is used for connecting a USB stick, all sterilization data is written automatically in the USB stick and can be read directly in any PC and stored electronically

### Internal Memory:

The last 20 cycles can be automatically stored in the autoclave system, which can be printed out at any time
