Odoo 10 Hospital Management System solution

Globalteckz Hospital Management system module is one of the important software which helps you to manage your hospitals and clinics including Hospital billing, purchases, inventory, patient, Accounting, Diseases and many more . . Our team after extensive research on Healthcare industry tried covering most of the aspects in our hospital management module further all our modules are linked with one of the leading open source ERP Modules such as Sales, Purchase, Inventory, Human Resource, Accounting and so on creating it as one of the complete ERP software package for Hospital and Clinical Industries.

Since Odoo is a web based ERP one of the biggest advantage you get of using our module is to have a web based Hospital Information Management system. With a complete ERP suite of software module to computerize any large scale hospital and connect with its clinics and its branches. It is fully online web based software. The information is available anytime, anywhere. Our module is fully customizable or additional features which are not available as of now can be created easily making it User friendly, Highly versatile, Quick installable, Completely Database driven, Centralized Database, Hospital Information Management System ERP software available in the market today, Please take a look on the features described below in our Odoo Module.

This module provides you with following features

- Health Center Management
- Hospital Buildings Management
- Wards management
- Bed Management
- Operation Room
- Apothecary
- Domiciliary Units
- Patient - OutPatient Admissions
- Patient - InPatient Admissions
- Vaccines
- Call Logs
- Physicians & Appointments
- Physicians Management
- Appointments

Managing hospital buildings

Creating wards – you can add all the detailed information from building name number, and the facilities available in that particular ward.

Bed management – We have detailed every single aspects where you can management beds for the patient, including the status for the bed such as free, reserved, occupied or not available.

Operation Theater or Operation Room Management you can manage it easily with the status health center and the building name. You can also easily see the list of operation theater with their status and building name.

Operating Room / New

Buttons: Save, Discard

Status buttons: Mark as Reserved, Mark as Occupied, Mark as Not Available

Status dropdown: Free, Reserved, Occupied, Not Available

OT Name: **OT Category Name 1**

Health Center: Community Health Center

Building: B12

Extra Information: This is extra information tab

Operating Room

Buttons: Create, Import

Search: Search...

Page: 1-8 / 8

OT Name	Health Center	Building	State
OT Category Name 1	Community Health Center	B12	Free
OT Category Name 2	Community Health Center	B12	Free
OT Category Name 3	Community Health Center	B12	Free
OT Category Name 4	Community Health Center	B12	Occupied
OT Category Name 4	Community Health Center	B12	Free
OT Category Name 5	Walk in Clinic	B12	Not Available
OT Category Name 6	Medical Respite Care	B12	Occupied
OT Category Name 7	Polyclinic	B12	Reserved

Managing Apothecary or Pharmacies – where you can create new pharmacies as required with all the required information.

The screenshot shows the 'Apothecary / 24X7 GlobalPharm' form in the Odoo 10 Hospital Management System. The form is titled 'Apothecary / 24X7 GlobalPharm' and has a 'Save' button highlighted with a green box. The form fields are as follows:

- Pharmacy Name: 24X7 GlobalPharm
- Walk in Clinic: Walk in Clinic
- Address:
 - Street 1: Street 1
 - Street 1: Street 1
 - City: City
 - State: State
 - ZIP: ZIP
 - Country: American Samoa
- Phone: +2048032434
- Mobile: +2038402938
- Fax:
- Email:
- Website: e.g. www.odoo.com

At the bottom of the form, there are two tabs: 'Prescriptions' and 'Extra Information'. A red arrow points from the 'Apothecary' menu item in the left sidebar to the form.

The screenshot shows the 'Apothecary' list view in the Odoo 10 Hospital Management System. The list view has a 'Create' button and an 'Import' button. The list contains two entries:

Pharmacy Name	Health Center	Street	City	State	Country	Website
24X7 GlobalPharm	Walk in Clinic	Street 1	City		American Samoa	
GlobalPharm 2	Medical Respite Care	Street 1	City		American Samoa	

A green box highlights the two entries in the table. A green arrow points from the 'Apothecary' menu item in the left sidebar to the table.

Domiciliary Units management – You can manage your Domiciliary units including all the other information such as infrastructure address of the units, and so on . . .

Surgery #	Patient	Surgery Start date & time	Urgency	Surgeon	Anesthetist	Health Center	State
<input type="checkbox"/> SR/2017-06-20/00001	Patient		Optional	Gilles Gravie	Pieter Parker	Healthcare Center 1	Draft
<input type="checkbox"/> SR/2017-06-20/00002	Patient		Required	Pieter Parker	Gilles Gravie	Healthcare Center 2	Confirmed
<input type="checkbox"/> SR/2017-06-20/00003	Patient		Optional	Gilles Gravie	Pieter Parker	Healthcare Center 3	Draft
<input type="checkbox"/> SR/2017-06-20/00004	Patient		Urgent	Pieter Parker	Gilles Gravie	Healthcare Center 1	In Progress
<input type="checkbox"/> SR/2017-06-20/00005	Patient		Emergency	Gilles Gravie	Pieter Parker	Healthcare Center 3	Done

You can check the surgeries with the states including the patient name, center name, building name, operation theater etc.

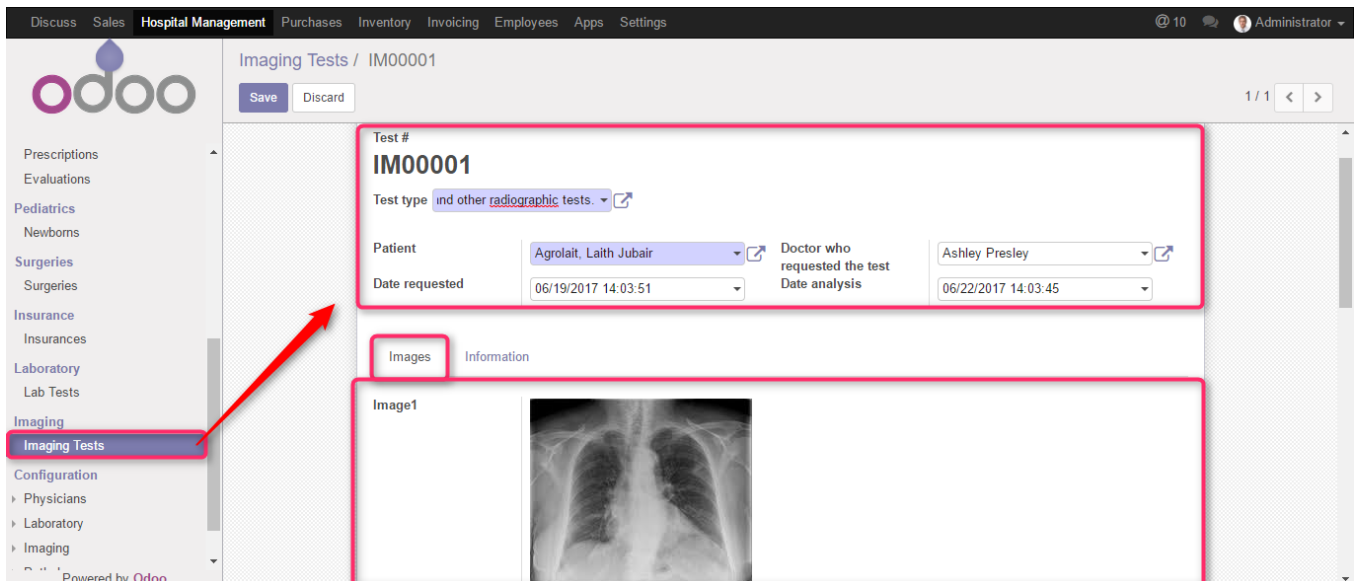

The screenshot displays the Odoo Hospital Management System interface. The top navigation bar includes 'Discuss', 'Sales', 'Hospital Management', 'Purchases', 'Inventory', 'Invoicing', 'Employees', 'Apps', and 'Settings'. The user is logged in as 'Administrator'. The main header shows 'Surgery / SR/2017-06-20/00004' with 'Edit' and 'Create' buttons. A status bar at the top right shows 'Draft', 'Confirmed', 'In Progress' (selected), 'Done', 'Signed', and 'Cancelled'. A sidebar on the left lists various medical categories, with 'Surgeries' highlighted. The main content area shows the surgery ID 'SR/2017-06-20/00004' and a 'Patient' field that is redacted. Below this, the surgery details are displayed in a table format:

Urgency	Urgent	Health Center	Healthcare Center 1
Surgeon	Pieter Parker	Building	Building 1
Anesthetist	Gilles Gravie	Operation Theater	Operating Room 1
Signed by	Administrator		

Lab Tests with stages, Test Number, Patient name, Sequences of the test, Test Results etc.

Imaging test – Where you can also add the images with the test
