LETTER FROM THE PRESIDENT & CEO

Welcome to Las Vegas and to MJBizCon!

As co-founder and CEO of Marijuana Business Daily, it is my honor to once again welcome you and the entire global cannabis business community to MJBizCon, now in its 7th year.

Once again, the team at MJBizDaily has surpassed themselves in putting together an all-new conference program, chock full of the actual operators in the industry who are innovating, creating new best practices, and tackling the emerging business challenges. Once again, the Expo Hall has exceeded all expectations, showcasing 1,025 exhibiting companies who are at the heart of the products, services and expertise the industry needs now to continue thriving. And once again, the entirety of the cannabis industry has chosen to gather here, in Las Vegas, during MJBizCon: this year totaling 25,000+ dedicated cannabis industry professionals from all 50 states and over 60 countries, who are invested in their own careers, the businesses they are building, and the industry we are all building together.

What's new this year? From an Institutional Investor Conference to kick off the event, to a hosted MJBizCon party, to the size and scope of the Expo Floor, to a special highlight of the Industry Giveback program and its recipients, there is so much to discover, learn and connect with this week.

While we continue to innovate and reimagine this show year over year, some things have not changed. And over the years, what continues to strike me is the stories I hear, all of them unique yet so many sharing the same theme: highlighting the role that MJBizCon played in developing their cannabis industry careers, and of their business interests, and even philanthropic missions in this space.

It's truly been the thrill of my own career to be playing such a fundamental part in the development of the cannabis industry. My sincere thanks goes to each and every one of you for the opportunity to serve you in this role.

What role has this event played in the development of your own cannabis career, and your own business interests in this space? Catch me at the conference and let me know!

See you on the Expo Floor,

MJBIZDAILY INDUSTRY GIVEBACK

WHAT IT IS

In the growing cannabis industry, we need to support the expanding sector that has grown far beyond the legalization advocacy work being done across the nation. While legalization is still a key pillar of the types of organizations we wish to support, we've also expanded our discussion to provide a balanced and supportive program that benefits the industry overall.

The best way to further the conversation of cannabis as an industry in the United States is to further develop and sustain the act of commerce which helps build the economy and overall quality of life of those regions and individuals which the industry serves.

MJBizDaily is proud to support professionals, organizations, and companies working to develop a strong and responsible cannabis industry in the United States and other key global markets. Our primary categories of support are:

SUSTAINABILITY AND COMMUNITY DEVELOPMENT

From green initiatives to responsible use and behavior, the evolving cannabis industry has a critical opportunity to set positive guidelines that will impact decades of business standards.

LEGAL ADVOCACY

Legal advocacy is a key pillar in this developing industry. MJBizDaily supports a variety of efforts and provides fact-based discussions around legalization to avoid confusion that risks the slow development of the industry's growth.

PROFESSIONAL DEVELOPMENT AND INCLUSION

The MJBizDaily philosophy is that the more inclusive the industry becomes, the stronger it will be today and in the future.

***Together, we'll make a better industry,
not just another industry.***

- SHANITA PENNY, President, Minority Cannabis Business Association

OUR VOICE

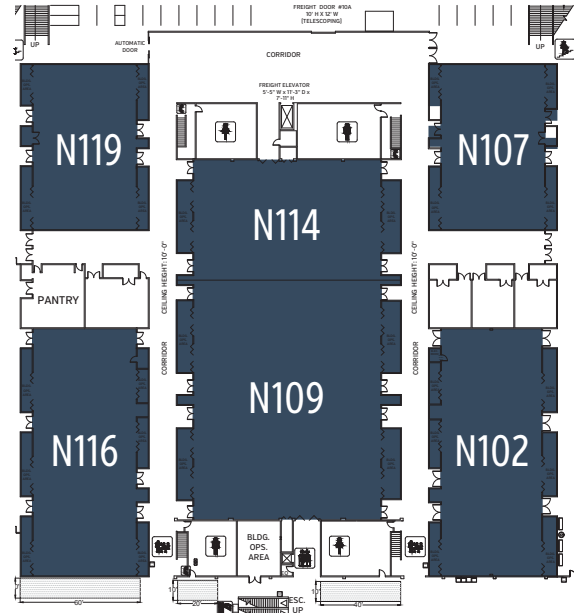

Many organizations benefit most from being able to reach and speak to the industry as a whole. Through a variety of partnerships and sponsorships, MJBizDaily has some of the broadest and deepest ties to the cannabis industry on the North American continent. We amplify the voice of select organizations through our magazine, our social media channels, and the MJBizDaily advertising network. Partnership proposals can be submitted online via our partner portal.

OUR DONATIONS

Each year, MJBizDaily selects organizations to support through monetary donations programs. The Giveback Program and recipients are featured at MJBizCon showcasing our three pillars. We are pleased to be able to support a number of organizations across the country while also encouraging others to do the same.

HOW ONE CHICAGO COMPANY IS BECOMING A HOUSEHOLD NAME FOR CANNABIS

In 2015, Cresco Labs co-founders Charles Bachtell and Joe Caltabiano filed a 4,300-page application for one of 21 marijuana grower licenses in Illinois. Months later, winning three of the 21 licenses with the top three scores, they officially entered the booming, nationwide cannabis industry. Then came the hard part — fulfilling the mission to **normalize** and **professionalize** cannabis.

They didn't want to just grow and package the medicinally popular plant, they had a much bigger vision; they wanted to be a household name. Like Johnson & Johnson. Or Anheuser-Busch. They had long-term goals of becoming titans of industry.

Three years later, with six states in its footprint, five brands, and over 200 products, Cresco Labs now has the largest consumer footprint in the country, poised to cater to every level of cannabis user and to make that vision a reality.

THE DREAM TEAM

With a vision of long-term growth, Cresco Labs recruited top talent from other industries. Agricultural scientists, pharmacy executives, engineers, chemists, operations specialists, and sales executives came together to create a business structure that was both nimble and scalable. Together, this team has set new standards for professionalism in cannabis.

IDENTIFIABLE PRODUCTS

Having a clear understanding of the spectrum of cannabis consumers, from the medically-minded to the sophisticated, traditional consumer, drove the creation of a distinct suite of brands for Cresco Labs.

Each brand targets a unique audience. **Remedi** provides relief to consumers looking for discreet cannabis forms that are reminiscent of traditional medicine; like pills, tinctures, and transdermal patches. **Cresco** serves consumers who are more familiar with traditional means of consuming cannabis but want a quality, dependable product they can afford to enjoy every day. **Reserve** combines unrivaled quality and hand-selected genetics for delicately-balanced terpene profiles and an exclusive experience. **Mindy's Edibles**, a partnership with James Beard Award-Winning Chef Mindy Segal, showcases decadent chocolate-forward products infused with flavorless oil. **Mindy's Kitchen** offers a fun, approachable line with multiple flavors of fruit chews, gummies, and hard candies.

BUILT TO GROW

In addition to their success winning merit-based licenses, Cresco Labs is expanding nationwide through strategic acquisitions and partnerships. They aim to be vertically-integrated state-by-state, touching every element of the seed-to-sale process and making them one of the fastest-growing cannabis companies in the country.
