## **OIL AND GAS INDUSTRY: JOBS AND INFORMATION**

**\*\*PLEASE NOTE: IF A COMPANY DOES NOT HAVE ANY JOBS/ CAREERS LISTED GO TO [WWW.OHIOMEANSJOBS.COM](http://WWW.OHIOMEANSJOBS.COM) AND DO A KEYWORD SEARCH BY COMPANY NAME\*\***

### **RESUME TIPS**

1. Use a skills focused resume style as opposed to a chronological style resume. Oil and gas companies are interested in skills, not primarily work history or education. That information can always be shared at an interview if it's important.
2. Make sure to use the term "Ohio Oil and Gas" or "OOGI" somewhere in your resume, maybe even in the objective. Many companies these days use UCR scanners to complete initial resume review; these scanners look for certain words in the resume. If the words aren't found, the resume is discarded.
3. Do not make corrections on your resume with pen or pencil. Stop in to Connections and we'll update your resume (within 24 hours in most cases) on professional resume paper. Hand-corrected resumes frequently don't get a second look.
4. Upload your resume into [www.ohiomeansjobs.com](http://www.ohiomeansjobs.com). We are working with the oil and gas companies to encourage them to search the website for jobseekers. Putting your resume on [www.ohiomeansjobs.com](http://www.ohiomeansjobs.com) makes it available to any employer who looks for new employees there. Remember, though, to use the key words so that it will get pulled for oil and gas jobs. Also, Ohio Means Jobs has created a special code for the oil and gas companies; put the letter OOGI on your resume before you upload it into [www.ohiomeansjobs.com](http://www.ohiomeansjobs.com) - it is a code that was created for the companies to be able to search resumes easily.

Visit Jefferson County Connections often for updated information. Also, you can access much of the same information at our Facebook page under Jefferson County Connections.

Good luck!
