

LEARN ONE, KNOW THEM ALL

**Open, Flexible and Scalable
Video Surveillance Platform**

LEARN ONE,
KNOW THEM ALL

Are you looking for...

- **systems that are interoperable** with a wide range of surveillance cameras and encoders, allowing for an open platform?
- **a scalable solution** that offers entry level and enterprise solutions with the flexibility to add on as you go?
- **a hybrid solution**, allowing utilization of existing investments and an easy transition from analog to IP?
- **a software-only option**, allowing for the flexibility to source your own hardware?
- **a cloud-hosted service** that can be viewed anytime, anywhere?
- **a mobile app** for remote video viewing?
- **free software** for multi-site viewing?

Honeywell's expanded MAXPRO family of IP video surveillance solutions includes a powerful and dynamic video management system, a full line of network video recorders, including hybrid models, cloud-based Video Surveillance as a Service (VSaaS), and mobile apps.

It is the first complete and **flexible** portfolio of IP video management hardware and software with solutions

that are **scalable** for small to large

applications. The MAXPRO platform is fully **open**, incorporating PSIA and ONVIF standards, native integration for third-party cameras and encoders, and RTSP to ensure compatibility with most IP cameras on the market.

MAXPRO is not a single product, but rather a platform on which everything is built. The single interface is the same regardless if you choose a 4 channel software-only option, or if you require thousands of channels via a hardware option. *Learn One, Know Them All.*

...then choose MAXPRO®

Key Benefits

Open

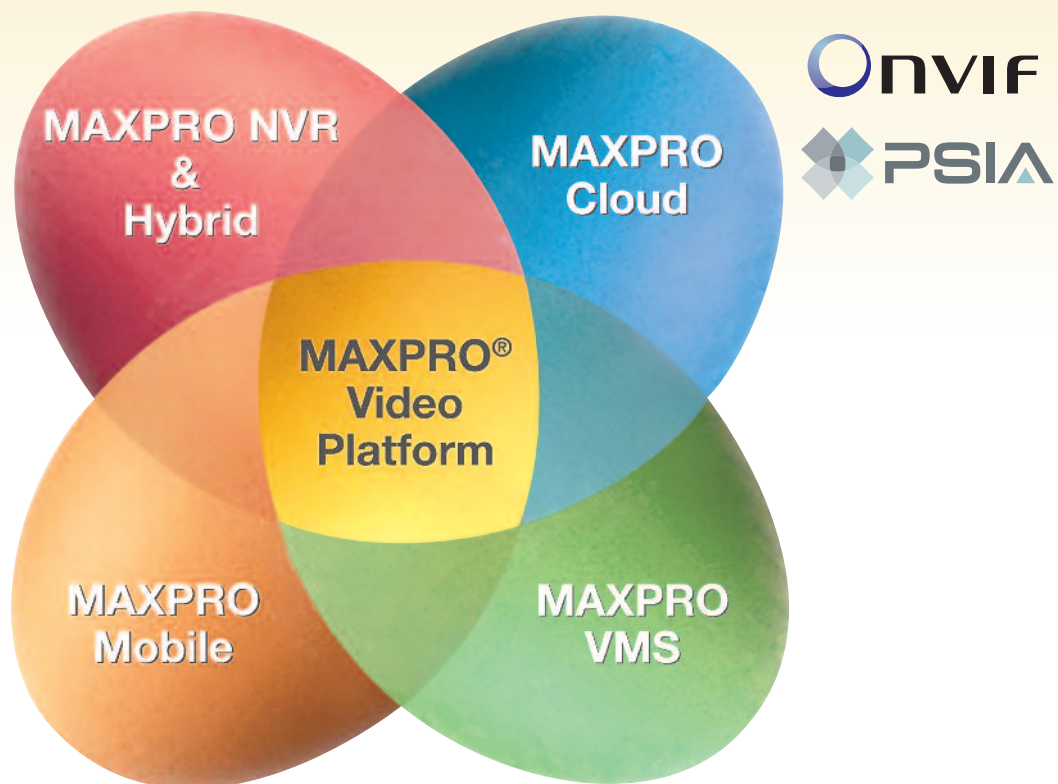

- PSIA and ONVIF standards support
- RTSP compatibility ensures most IP cameras are supported
- MAXPRO Mobile App for iPad®, iPhone®, iPod® Touch and Android™

Flexible

- *Learn One, Know Them All*
- Hardware and software options
- Cloud-hosted solutions
- Ease of use
- Hybrid solutions

Scalable

- Entry level to enterprise solutions

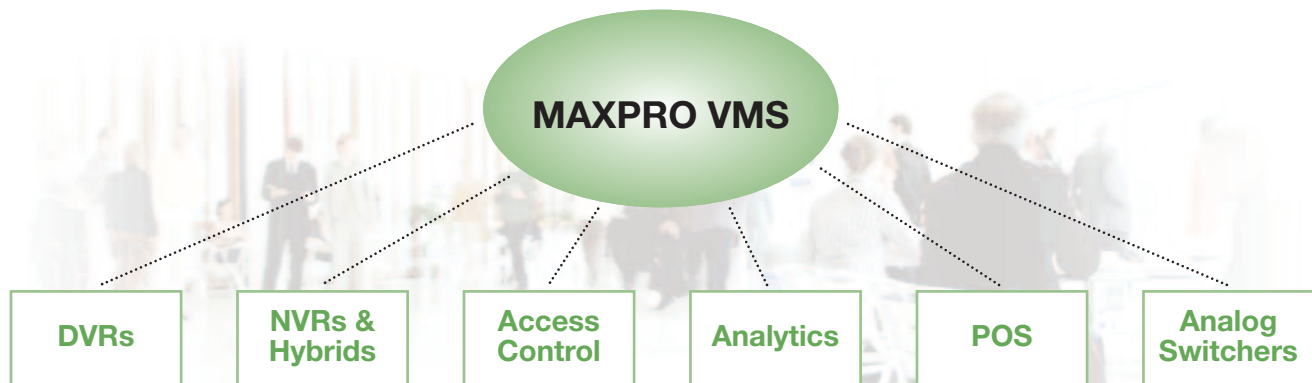

MAXPRO VMS is a best-in-class video management software system that seamlessly manages video across multiple platforms from a central location. It is the integration gateway to video, access control and third party systems. Depending on your requirements, there are three options which range in functionality—from a free solution that allows you to view Honeywell recorders, to our high end, full-featured video management system that enables seamless integration with access control, and third party systems.

	MAXPRO VMS	MAXPRO VMS Lite	MAXPRO Viewer
Multi-System Viewing	✓	✓	✓
Access Control Integration	✓	✓	✓
Third Party Recorder Integration	✓	✓	
Programmable Macros	✓	✓	
Free of Charge			✓
Maximum Number of Clients	Unlimited	3	5
Maximum Number of Channels	Unlimited	128 (upgradable)	1,600
Analog Matrix Support	Yes	No	No
Multi Tier Server Support	Yes	No	No

Maximize Your Investment

MAXPRO VMS brings analog video, network video, access control and third party systems together into one command and control interface for maximum flexibility, customization and integration.

Honeywell's MAXPRO NVR line includes turnkey solutions—NVR (XE,SE,PE) with 8 to 32 channels and NVR Hybrid (XE,SE) with 16 to 32 channels; and software solutions that range from 4 to 32 channels. It supports ONVIF (including Profile S devices) and PSIA interoperability standards, RTSP, native integration for third-party cameras—including 360° camera support—and encoders from Honeywell, Axis and other manufacturers, making it a truly open system. MAXPRO NVR provides easy to use desktop clients, web clients and mobile apps.

	 MAXPRO NVR Hybrid XE (Xpress Edition)	 MAXPRO NVR Hybrid SE (Standard Edition)	 MAXPRO NVR XE (Xpress Edition)	 MAXPRO NVR SE (Standard Edition)	 MAXPRO NVR PE (Professional Edition)	 MAXPRO NVR Software
Description	Simple, affordable NVR Hybrid	Flexible, scalable NVR Hybrid	Simple, affordable NVR	Flexible, scalable NVR	Enterprise class NVR	Flexible, software only NVR
Channels	16 Analog or 16 IP	16 Analog and 16 IP or 32 IP	8 or 16	up to 32	up to 32	4,8,16 or 32

Complement with Honeywell IP Cameras

For cost-effective solutions, choose **Performance Series** IP cameras that feature:

- VGA or 720p resolution
- Indoor and outdoor minidomes

Choose **equip® Series** cameras for a more extensive feature set and functionality:

- VGA, 720p, 720p Wide Dynamic and 1080p resolution
- Indoor and outdoor minidomes, box and PTZ cameras (in-ceiling, indoor, outdoor and rugged)

For a full list of compatible cameras from Honeywell and other third parties, visit www.honeywell.com/security/hota.

Cloud hosted video services are ideal for anyone who manages a single or multiple locations and doesn't want to be tied down to an office. MAXPRO Cloud lets you watch your video anytime, anywhere there is an Internet connection using any PC, Mac, smartphone or tablet. MAXPRO Cloud can monitor your alarms and events while keeping an eye on the performance of your video systems—with no software or advanced IT infrastructure required. And with local and cloud video storage, you'll never miss another video event. Have peace of mind knowing your business is safe and your video will be there when you need it most.

Feature Highlights:

- Hybrid solution compatible with both analog and IP cameras
- Video on the go with MAXPRO Mobile
- Intuitive user interface with easy-to-use click and drag cameras
- Manage and view video from multiple locations through a single user login
- Alarm and event notification via email
- Automatic feature and service updates
- System health monitoring for cameras or lost communications
- Fast playback of video alarms and events
- Real-time alarm and event notification with clip links
- Scalable storage using off-the-shelf devices
- Single click selection for multiple viewing options
- Simple search for the most current events
- Advanced search functionality for longer term events

How Does It Work?

MAXPRO Cloud provides secure access to your video through the cloud. Live and recorded video is accessed through a user login from the Honeywell Cloud Hosting Center.

The free MAXPRO Mobile app for iPad®, iPhone®, iPod® touch and Android™ allows you to connect to MAXPRO NVR and Hybrid, or MAXPRO Cloud from a remote location when you need security on the go. This allows you to check in on your business when you are away.

Use the app to perform common daily tasks such as:

- Live video viewing
- Zooming in for full screen viewing
- Playback or searching for video by date and time
- Taking a snapshot of a video frame

To download the FREE app, visit the Apple® iTunes® App StoreSM or Google Play for Android™ and search for MAXPRO Mobile.
