

OPERATIONAL BLUEPRINT FOR SCHOOL REENTRY 2020-21

Updated 6/30/2020

Under ODE's *Ready Schools, Safe Learners* guidance, each school¹ has been directed to submit a plan to the district² in order to provide on-site and/or hybrid instruction. Districts must submit each school's plan to the local school board and make the plans available to the public. This form is to be used to document a district's, school's or program's plan to ensure students can return for the 2020-21 school year, in some form, in accordance with Executive Order 20-25(10). Schools must use the *Ready Schools, Safe Learners* guidance document as they complete their Operational Blueprint for Reentry. ODE recommends plan development be inclusive of, but not limited to school-based administrators, teachers and school staff, health and nursing staff, association leadership, nutrition services, transportation services, tribal consultation,³ parents and others for purposes of providing expertise, developing broad understanding of the health protocols and carrying out plan implementation.

1. Please fill out information:

SCHOOL/DISTRICT/PROGRAM INFORMATION	
Name of School, District or Program	Cascade Virtual Academy
Key Contact Person for this Plan	Sonimar Villegas
Phone Number of this Person	541-460-8927
Email Address of this Person	svillegas@k12.com
Sectors and position titles of those who	
informed the plan	
Local public health office(s) or officers(s)	
Name of person Designated to Establish,	Sonimar Villegas
Implement and Enforce Physical Distancing	
Requirements	
Intended Effective Dates for this Plan	SY 2020-2021
ESD Region	

2. Please list efforts you have made to engage your community (public health information sharing, taking feedback on planning, etc.) in preparing for school in 2020-21. Include information on engagement with communities often underserved and marginalized and those communities disproportionately impacted by COVID-19.

Our program has_been much more intentional in the outreach we provide all students to include providing technical support in a more proactive manner. Additionally, we have supported families in obtaining the information that they need to enroll in our schools more efficiently.

3. Indicate which instructional model will be used.

¹ For the purposes of this guidance: "school" refers to all public schools, including public charter schools, public virtual charter schools, alternative education programs, private schools and the Oregon School for the Deaf. For ease of readability, "school" will be used inclusively to reference all of these settings.

² For the purposes of this guidance: "district" refers to a school district, education service district, public charter school sponsoring district, virtual public charter school sponsoring district, state sponsored public charter school, alternative education programs, private schools, and the Oregon School for the Deaf.

³ Tribal Consultation is a separate process from stakeholder engagement; consultation recognizes and affirms tribal rights of self-government and tribal sovereignty, and mandates state government to work with American Indian nations on a government-to-government basis.

Select One:		
☐ On-Site Learning	☐ Hybrid Learning	□ Comprehensive Distance Learning

- 4. If you selected Comprehensive Distance Learning, you only have to fill out the green portion of the Operational Blueprint for Reentry (i.e., page 2 in the initial template).
- 5. If you selected On-Site Learning or Hybrid Learning, you have to fill out the blue portion of the Operational Blueprint for Reentry (i.e., pages 3-15 in the initial template) and <u>submit online</u>. (https://app.smartsheet.com/b/form/a4dedb5185d94966b1dffc75e4874c8a) by August 15, 2020 or prior to the beginning of the 2020-21 school year.
- * Note: Private schools are required to comply with only sections 1-3 of the *Ready Schools, Safe Learners* guidance.

REQUIREMENTS FOR COMPREHENSIVE DISTANCE LEARNING OPERATIONAL BLUEPRINT

This section must be completed by any school that is seeking to provide instruction through Comprehensive Distance Learning.

Schools providing On-Site or Hybrid Instructional Models do not need to complete this section.

Describe why you are selecting Comprehensive Distance Learning as the school's Instructional Model for the effective dates of this plan.

Our model of instruction has always been the comprehensive distance learning model. We have had a few face-to-face opportunities such as planned outings, "Meet the Teacher" events, prom, and graduation. However, those will be assessed and changed to virtual as deemed necessary based on any COVID-19 related updates.

Describe how your school's model aligns to the Comprehensive Distance Learning Guidance. In completing this part of the Blueprint you are attesting that you have reviewed the Comprehensive Distance Learning Guidance. Please name any requirements you need ODE to review for any possible accommodations.

Section 1: Framing Values and Understanding Distance Learning

We provide a full academic learning experience as part of our standard program. We use a combination of synchronous and asynchronous opportunities for students to engage in learning. We require students to attend synchronous sessions daily as well as completing asynchronous activities. We have a STeam (Student Support Team) that are devoted to the learning experience of both the students and the parents who serve as learning coaches. We provide materials (both online and offline), offer computers, and offer a stipend of internet cost to all students to ensure equity of access to the academic programs. We have a school social worker and counselors. We will utilize 7 Mindsets as the SEL tool. All students have been provided with a credit assurance plan and we will continue to work with students in order to ensure that students can earn credits that they started during the Spring 2020 semester. We have a comprehensive Special Education Department that provides SDI. This next school year, we will begin implementing a co-teaching model in order to continue to support students. We have staff dedicated to both the Section 504 and EL qualified students. We have hired a teacher that is certified as a TAG teacher to support any students that qualify.

Section 2: Academic Conditions for Comprehensive Distance Learning

We provide the full array of academic opportunities including electives, clubs, and other opportunities for students to engage in coursework. Our STeam provides a strong onboarding program called "Strong Start". The team provides parents and students with orientations and one-to-one sessions to familiarize our families with our platforms, programs, and requirements. All students are required to attend synchronous sessions daily with teachers. Our systems automatically track attendance for staff to follow up on through reports and trackers. We schedule our synchronous sessions to be whole-group and small-group based on academic need. Students are placed in homerooms at every grade level for the purpose of establishing "learning communities" where students can interact with their peers and their teacher on a regular basis. Our teachers are required to build lessons that include standards, learning objectives, and formative assessments for each synchronous lesson they provide. Administration regularly conducts "walkthroughs" and provide teachers with feedback. Teachers are required to develop curriculum maps in advance and identify priority standards that align with Oregon Standards and to utilize the curriculum mapping along with continued DDI practices to plan and develop lessons. All lessons are recorded, and teachers collect artifacts of learning as part of their evaluations. As an additional support to monitoring student progress, the NWEA will be administered 3 times in the school

Describe how your school's model aligns to the Comprehensive Distance Learning Guidance. In completing this part of the Blueprint you are attesting that you have reviewed the Comprehensive Distance Learning Guidance. Please name any requirements you need ODE to review for any possible accommodations.

year. The assessment will be given in a small group, proctored setting. The results will be evaluated and used to develop intervention support for students.

Section 3: Operational Conditions for Comprehensive Distance Learning

We monitor attendance daily. Our system automatically tracks attendance for both synchronous and asynchronous engagement. Our homeroom teachers, special education teachers (where applicable), administration, and other support staff (student attendance specialist) monitor attendance through reports and take action where applicable. We have established procedures on how and when this will be monitored via weekly meetings among teaching staff and daily procedures to be followed by the student attendance specialist.

As a part of our program, we offer both national and local club opportunities for students to participate in.

Section 4: Student and Family Support for Comprehensive Distance Learning

Equity and access has been our critical part of our programming since the inception of our programs. We have a Student Resource Coordinator (LCSW) and 2 school counselors who support students in obtaining the resources necessary to eliminate barriers for students and family so that they can engage in their educational experience. We have a Special Programs Academic Administrator, Special Education team, MTSS team, TAG teacher, EL teacher/coordinator, 504 Coordinator, and a student support team (STeam) to support the diverse nature of our student body and to ensure that all student needs are identified and addressed in accordance with federal law, state law, and best practices. Our motto for the school year will be "Relationships First" and will be focused on supporting families from a human-based perspective as well as utilize a strengths-based approach. We will be continuing to implement the 7 Mindsets curriculum with our students.

At the start of the school year and as part of our "Strong Start" programming, we meet with families and provide orientations through both our advisors and homeroom teachers along with special programs personnel, when appropriate. We have established communication guidelines and multiple methods to communicate with families while ensuring that we follow FERPA and privacy guidelines. Our administrators will remain present within the school and offer open office hours via synchronous sessions. We will continue to conduct Family and Teacher Pulse Checks to gather feedback from our stakeholders.

Section 5: Digital Learning Needs for Comprehensive Distance Learning

As a fully online education provider, our systems are secure and comply with FERPA and other laws related to student privacy. Students are provided with a stipend for internet access. All teachers have high-speed internet. Every student is offered a computer when they enroll in our schools. Our computers are already installed with filters to assist with student safety while on the web.

We utilize a proprietary learning management system (LMS) for K-5 students and a customized LMS through Desire to Learn (D2L) for our 6-12 program. The LMS incorporate the curriculum, grading, and communication system for our students and teachers. Our students and teachers will meet in virtual classrooms through Blackboard Collaborate and NewRow. Both allow for students to present the lessons, video and audio components, and utilize tools to support engagement between students and teachers. Our educational content and materials are made especially for virtual learning. Our teachers are trained on presenting lessons virtually that meet state-standards, provide formative assessment, and meet the needs of diverse learning. We have designed a comprehensive professional development plan which will be informed by ongoing walk-throughs through an ongoing observation and feedback cycle as well as through our continued data review sessions at a micro and macro level.

Section 6: Preparing Comprehensive Distance Learning

As part of our continuous school improvement planning, we evaluate our program regularly utilizing the feedback obtained from our stakeholders, classroom data, student demographic data, and student assessment data. We have comprehensive supports through our partnership with our curriculum and support provider K12, inc., our collaboration with our partner district, Mitchell School District #55, and through Board oversight.

		ning to Hybrid Learning or On-Site Learning consistent with the Ready
	hools, Safe Learners guidance.	and a selected as the religious form the Chate of Occasion was all
	We will continue to be a fully-online education provider. Once it is safe to do so based on the guidance from the State of Oregon, we will commence our face to face activities to include an in-person graduation and face-to-face outings.	
7	the remainder of this operational blueprint is not applicable to	schools operating a Comprehensive Distance Learning Model.

with others.

☐ Protocol for communicating potential COVID-19 cases to the school community and other stakeholders (see section 1e of the

Ready Schools, Safe Learners guidance).

011	A CODE Describe	Holod Monda Plan
	A/ODE Requirements	Hybrid/Onsite Plan
	Create a system for maintaining daily logs for each student/cohort	
	for the purposes of contact tracing. This system needs to be made	
	in consultation with a school/district nurse or an LPHA official.	
	If a student(s) is part of a stable cohort (a group of students	
	that are consistently in contact with each other or in	
	multiple cohort groups) that conform to the requirements of	
	cohorting (see section 1d of the <i>Ready Schools, Safe</i>	
	Learners guidance), the daily log may be maintained for the cohort.	
	 If a student(s) is not part of a stable cohort, then an 	
	individual student log must be maintained.	
	Required components of individual daily student/cohort logs	
	include:	
	Child's name	
	Drop off/pick up time	
	 Parent/guardian name and emergency contact information 	
	 All staff (including itinerant staff, substitutes, and guest 	
	teachers) names and phone numbers who interact with a	
	stable cohort or individual student	
	Protocol to record/keep daily logs to be used for contact tracing	
	for a minimum of four weeks to assist the LPHA as needed.	
	Process to ensure that the school reports to and consults with the	
	LPHA regarding cleaning and possible classroom or program	
	closure if anyone who has entered school is diagnosed with COVID-	
	19.	
	Protocol to respond to potential outbreaks (see section 3 of the	
	Ready Schools, Safe Learners guidance).	
	1b. HIGH-RISK	POPULATIONS

OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Serve students in high-risk population(s) whether learning is	
happening through On-Site, Hybrid (partially On-Site and partially	
Comprehensive Distance Learning models), or Comprehensive	
Distance Learning models.	
Medically Fragile, Complex and Nursing-Dependent Student	
Requirements	
☐ All districts must account for students who have health conditions	
that require additional nursing services. Oregon law (ORS 336.201)	
defines three levels of severity related to required nursing	
services:	
1. Medically Complex: Are students who may have an unstable	
health condition and who may require daily professional	
nursing services.	
2. Medically Fragile: Are students who may have a life-	
threatening health condition and who may require	
immediate professional nursing services.	
3. Nursing-Dependent: Are students who have an unstable or	
life-threatening health condition and who require daily,	
direct, and continuous professional nursing services.	
☐ Staff and school administrators, in partnership with school nurses,	
or other school health providers, should work with	
interdisciplinary teams to address individual student needs. The	
school registered nurse (RN) is responsible for nursing care	
provided to individual students as outlined in ODE guidance and	
state law:	
 Communicate with parents and health care providers to 	
determine return to school status and current needs of the	
student.	
Coordinate and update other health services the student	
may be receiving in addition to nursing services. This may	
include speech language pathology, occupational therapy,	
Daniel	of 16

HA/ODE	Requirements	Hybrid/Onsite Plan
	physical therapy, as well as behavioral and mental health	
	services.	
•	Modify Health Management Plans, Care Plans, IEPs, or 504	
	or other student-level medical plans, as indicated, to address	
	current health care considerations.	
	The RN practicing in the school setting should be supported	
	to remain up to date on current guidelines and access	
	professional support such as evidence-based resources from	
	the Oregon School Nurses Association.	
•	Service provision should consider health and safety as well as	
	legal standards.	
	Work with an interdisciplinary team to meet requirements of	
	ADA and FAPE.	
•	High-risk individuals may meet criteria for exclusion during a	
	local health crisis.	
	Refer to updated state and national guidance and resources	
	such as:	
	U.S. Department of Education Supplemental Fact Shoots Addressing the Right of COVID 10 in Preschool	
	Sheet: Addressing the Risk of COVID-19 in Preschool,	
	Elementary and Secondary Schools While Serving	
	Children with Disabilities from March 21, 2020. ODE guidance updates for Special Education. Example	
	from March 11, 2020.	
	o OAR 581-015-2000 Special Education, requires districts	
	to provide 'school health services and school nurse	
	services' as part of the 'related services' in order 'to	
	assist a child with a disability to benefit from special	
	education.'	
	OAR 333-019-0010 Public Health: Investigation and	
	Control of Diseases: General Powers and	
	Responsibilities, outlines authority and responsibilities	
	for school exclusion.	
	1c. PHYSICAL	DISTANCING

OH	A/ODE Requirements	Hybrid/Onsite Plan
	Establish a minimum of 35 square feet per person when	
	determining room capacity. Calculate only with usable classroom	
	space, understanding that desks and room set-up will require use	
	of all space in the calculation.	
	Support physical distancing in all daily activities and instruction,	
	maintaining at least six feet between individuals to the maximum	
	extent possible.	
	Minimize time standing in lines and take steps to ensure that six	
	feet of distance between students is maintained, including marking	
	spacing on floor, one-way traffic flow in constrained spaces, etc.	
	Schedule modifications to limit the number of students in the	
	building (e.g., rotating groups by days or location, staggered	
	schedules to avoid hallway crowding and gathering).	
	Plan for students who will need additional support in learning how	
	to maintain physical distancing requirements. Provide instruction;	
	don't employ punitive discipline.	

1d. COHORTING

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	Where feasible, establish stable cohorts: groups should be no	
	larger than can be accommodated by the space available to	
	provide 35 square feet per person, including staff.	
	 The smaller the cohort, the less risk of spreading disease. As 	
	cohort groups increase in size, the risk of spreading disease	
	increases.	

OHA	A/ODE Requirements	Hybrid/Onsite Plan
	Each school must have a system for daily logs to ensure contract	
	tracing among the cohort (see section 1a of the <i>Ready Schools</i> ,	
	Safe Learners guidance).	
	Minimize interaction between students in different stable cohorts	
	(e.g., access to restrooms, activities, common areas). Provide	
	access to All Gender/Gender Neutral restrooms. Cleaning and wiping surfaces (e.g., desks, door handles, etc.) must	
	be maintained between multiple student uses, even in the same	
	cohort.	
	Design cohorts such that all students (including those protected	
_	under ADA and IDEA) maintain access to general education, grade	
	level learning standards, and peers.	
	Staff who interact with multiple stable cohorts must wash/sanitize	
	their hands between interactions with different stable cohorts.	
	1e. PUBLIC HEALTH	
OHA	A/ODE Requirements	Hybrid/Onsite Plan
	Develop a letter or communication to staff to be shared at the	
	start of on-site instruction and at periodic intervals explaining	
	infection control measures that are being implemented to prevent	
	spread of disease.	
	Consider sharing school protocols themselves. Parallel protocols themselves.	
	Develop protocols for communicating with students, families and	
	staff who have come into close contact with a confirmed case.	
	 Consult with your LPHA on what meets the definition of "close contact." 	
	Develop protocols for communicating immediately with staff,	
	families, and the community when a new case(s) of COVID-19 is	
	diagnosed in students or staff members, including a description of	
	how the school or district is responding.	
	Provide all information in languages and formats accessible to the	
	school community.	
	1f. ENTRY AN	
OHA	A/ODE Requirements	Hybrid/Onsite Plan
	Direct students and staff to stay home if they, or anyone in their	
	homes or community living spaces, have COVID-19 symptoms, or if	
	anyone in their home or community living spaces has COVID-19.	
	COVID-19 symptoms are as follows: • Primary symptoms of concern: cough, fever or chills,	
	shortness of breath, or difficulty breathing.	
	Note that muscle pain, headache, sore throat, new loss of	
	taste or smell, diarrhea, nausea, vomiting, nasal congestion,	
	and runny nose are also symptoms often associated with	
	COVID-19. More information about COVID-19 symptoms is	
	available from CDC.	
	In addition to COVID-19 symptoms, students should be	
	excluded from school for signs of other infectious diseases,	
	per existing school policy and protocols. See pages 9-12 of	
	OHA/ODE Communicable Disease Guidance.	
	Emergency signs that require immediate medical attention:	
	Trouble breathing	
	Persistent pain or pressure in the chest	
	New confusion or inability to awaken Rhyich line or foce.	
	Bluish lips or faceOther severe symptoms	
	Screen all students and staff for symptoms on entry to bus/school	
	every day. This can be done visually and/or with confirmation from	
	a parent/caregiver/guardian.	
	- 1	

OH.	A/ODE Requirements	Hybrid/Onsite Plan
	 Anyone displaying or reporting the primary symptoms of 	
	concern must be isolated (see section 1i of the <i>Ready</i>	
	Schools, Safe Learners guidance) and sent home as soon as	
	possible.They must remain home until 72 hours after fever is gone	
	(without use of fever reducing medicine) and other	
	symptoms are improving.	
	Follow LPHA advice on restricting from school any student or staff	
	known to have been exposed (e.g., by a household member) to	
	COVID-19 within the preceding 14 calendar days.	
	Staff or students with a chronic or baseline cough that has	
	worsened or is not well-controlled with medication should be	
	excluded from school. Do not exclude staff or students who have	
	other symptoms that are chronic or baseline symptoms (e.g.,	
	asthma, allergies, etc.) from school. Hand hygiene on entry to school every day: wash with soap and	
	water for 20 seconds or use an alcohol-based hand sanitizer with	
	60-95% alcohol.	
	1g. VISITORS/	
	A/ODE Requirements	Hybrid/Onsite Plan
	Restrict non-essential visitors. Only allow visitors if six feet of physical distance between all people can be maintained.	
	Visitors must wash or sanitize their hands upon entry and exit.	
	Visitors must wear face coverings in accordance with OHA and CDC	
	guidelines.	
	Screen all visitors for symptoms upon every entry. Restrict from	
	school property any visitor known to have been exposed to COVID-	
	19 within the preceding 14 calendar days.	
	1b. FACE COVERINGS, FACE SHIFT	DS, AND CLEAR PLASTIC BARRIERS
OH.	A/ODE Requirements	Hybrid/Onsite Plan
	Face coverings or face shields for:	
	 Staff who are regularly within six feet of students and/or 	
	staff	
	 This can include staff who support personal care, 	
	feeding, or instruction requiring direct physical contact.	
	 Staff who will sustain close contact and interactions 	
	with students.	
	Bus drivers.	
	 Staff preparing and/or serving meals. 	
	Face shields, face coverings or clear plastic barriers for:	
	Speech Language Pathologists, Speech Language Pathology	
	Assistants, or other adults providing articulation therapy.	
	 Front office staff. Face masks for school RNs or other medical personnel when 	
	providing direct contact care and monitoring of staff/students	
	displaying symptoms. School nurses should also wear appropriate	
	Personal Protective Equipment (PPE) for their role.	
	Students who choose not to wear face coverings must be	
_	provided access to instruction.	
	ADA accommodations: If a staff member requires an	
	accommodation for the face covering or face shield requirements, districts and schools should work to limit the staff member's	
	proximity to students and staff to the extent possible to minimize	
	the possibility of exposure.	

1i. ISOLATION MEASURES

OH/	A/ODE Requirements	Hybrid/Onsite Plan
П	Protocols for surveillance COVID-19 testing of students and staff,	
	as well as exclusion and isolation protocols for sick students and	
	staff whether identified at the time of bus pick-up, arrival to	
	school, or at any time during the school day.	
	Protocols for assessment of students, as well as exclusion and	
	isolation protocols for sick students and staff identified at the time	
	of arrival or during the school day.	
	Work with school nurses, health care providers, or other	
	staff with expertise to determine necessary modifications to	
	areas where staff/students will be isolated.	
	Consider required physical arrangements to reduce risk of	
	disease transmission.	
	Plan for the needs of generally well students who need	
	medication or routine treatment, as well as students who	
	may show signs of illness.	
	Students and staff who report or develop symptoms must be	
Ш	isolated in a designated isolation area in the school, with adequate	
	space and staff supervision and symptom monitoring by a school	
	nurse, other school-based health care provider or school staff until	
	they are able to go home. Anyone providing supervision and	
	symptom monitoring must wear appropriate face covering or face	
	shields.	
	School nurse and health staff in close contact with	
	symptomatic individuals (less than six feet) should wear a	
	medical-grade face mask. Other Personal Protective	
	Equipment (PPE) may be needed depending on symptoms	
	and care provided. Consult a nurse or health care	
	professional regarding appropriate use of PPE. Any PPE used	
	during care of a symptomatic individual should be properly	
	removed and disposed of prior to exiting the care space, and	
	hands washed after removing PPE.	
	If able to do so safely, a symptomatic individual should wear	
	a face covering.	
	To reduce fear, anxiety, or shame related to isolation,	
	provide a clear explanation of procedures, including use of	
	PPE and handwashing.	
	Establish procedures for safely transporting anyone who is sick to	
	their home or to a health care facility.	
	Staff and students who are ill must stay home from school and	
	must be sent home if they become ill at school, particularly if they	
	have COVID-19 symptoms.	
	 Symptomatic staff or students should seek COVID-19 testing 	
	from their regular physician or through the local public	
	health authority.	
	If they have a positive COVID-19 viral (PCR) test result, the	
	person should remain home for at least 10 days after illness	
	onset and 72 hours after fever is gone, without use of fever	
	reducing medicine, and other symptoms are improving.	
	 Alternatively, a person who had a positive viral test 	
	may return to school when they have received two	
	subsequent negative COVID-19 viral tests at least 24	
	hours apart and 72 hours have passed since fever is	
	gone, without use of fever reducing medicine, and	
	other symptoms are improving.	
	 If they have a negative COVID-19 viral test (and if they have 	
	multiple tests, all tests are negative), they should remain	
	home until 72 hours after fever is gone, without use of fever	
	reducing medicine, and other symptoms are improving.	
	If they do not undergo COVID-19 testing, the person should	
	remain home until 72 hours after fever is gone, without use	

OHA/ODE Requirements	Hybrid/Onsite Plan
of fever reducing medicine, and other symptoms are improving. Involve school nurses, School Based Health Centers, or staff with related experience (Occupational or Physical Therapists) in development of protocols and assessment of symptoms (where staffing exists).	
☐ Record and monitor the students and staff being isolated or sent home for the LPHA review.	

2. Facilities and School Operations

Some activities and areas will have a higher risk for spread (e.g., band, choir, science labs, locker rooms). When engaging in these activities within the school setting, schools will need to consider additional physical distancing or conduct the activities outside (where feasible). Additionally, schools should consider sharing explicit risk statements for higher risk activities (see section 5f of the *Ready Schools, Safe Learners* guidance).

2a. ENROLLMENT

(Note: Section 2a does not apply to private schools.)

OH/	A/ODE Requirements	Hybrid/Onsite Plan
	Enroll all students (includes foreign exchange students) following	
	the standard Oregon Department of Education guidelines.	
	Do not disenroll students for non-attendance if they meet the	
	following conditions:	
	 Are identified as high-risk, or otherwise considered to be 	
	part of a population vulnerable to infection with COVID-19,	
	or	
	 Have COVID-19 symptoms for 10 consecutive school days or 	
	longer.	
	Design attendance policies to account for students who do not	
	attend in-person due to student or family health and safety	
	concerns.	

2b. ATTENDANCE

(Note: Section 2b does not apply to private schools.)

UH,	A/ODE Requirements	Hybrid/Onsite Plan
	On-Site school students: Full-time and part-time students follow	
	normal reporting policy and procedures.	
	Full-Time Online and/or Hybrid school students: Full-time	
	students who are enrolled in school and taking online and/or	
	hybrid courses only are reported on an FTE basis using a standard	
	record (ADMProgTypCd = 01) as identified in the Oregon	
	Cumulative Average Daily Membership (ADM) Manual. This is an	
	existing policy previously used in the online setting. As such, there	
	should not be any need to reprogram student information systems	
	to accommodate for this change and the addition of the hybrid	
	setting.	
	 Note: Because the students in the online and/or hybrid 	
	setting do not regularly attend classes at the district	
	facilities, the standard procedures for recording student days	
	present and days absent cannot be effectively applied to	
	those students. This will reduce accuracy of attendance data	
	for the state while this is in effect.	
	 For the purposes of this section, please use the following 	
	definition and clarification: Online and/or Hybrid Check-in:	
	The responsibility of taking attendance must be performed	
	by the teacher of record, "Check-ins" with appropriately	

between the student and the teacher. A check-in does not	
include a student leaving a message on an answering	
machine or sending an email that does not receive a	
response from the appropriately licensed instructional staff	
by the end of the next school day.	
The student must check-in at least twice a week with their	
teacher(s) of record on at least two separate weekdays in	
order to be counted as present for all five days of that week.	
 If the student only checks in once during the week, the 	
student must be counted as absent for half of the scheduled	
week (2.5 days, if there are five days scheduled in the week).	
The student must be counted as absent for the entire week	
(five days, if there are five days scheduled in the week) if	
they do not report in at all during the week.	
Note: If a district schedule is based on a four-day school	
week, the student would still need to check in twice a week	
as described above in order to be counted as present for the	
entire week (four days) and once a week to be counted as	
present for half of the week (two days).	
Days in attendance may not be claimed for days in which the	
student did not have access to appropriately licensed	
instructional staff. The purpose of the rule regarding	
checking in with the teacher of record is to assure that the	
teacher can evaluate whether the student is making	
adequate progress in the course and the student has	
additional guaranteed opportunities to engage with a	
teacher. The responsibility of taking attendance must be	
performed by the teacher of record, not another staff	
member (e.g., the registrar or school secretary).	
☐ Part-time students receiving online and/or hybrid instruction	
(not college courses): Students who are not enrolled full-time and	
are taking online and/or hybrid courses offered by the school	
district or charter school are reported as large group instruction	
(program type 4), unless they are an ESD-registered homeschooled	
or private school student receiving supplemental coursework in	
public school, which are reported as shared time (program type 9).	
The district may count up to one hour per day per course taken,	
provided appropriately licensed teachers for the coursework	
taken, are available and accessible to the student during regular	
business hours on each school day to be claimed. Because this is	
online and/or hybrid instruction, attendance is based on check-ins	
with the student's appropriately licensed teacher(s) of record at	
least two times (on different days) during the school week.	
2	NOLOCY
2c. TECH OHA/ODE Requirements	NOLOGY Hybrid/Onsite Plan
☐ Update procedures for district-owned or school-owned devices to	Trybha/Onsite Plan
match cleaning requirements (see section 2d of the <i>Ready Schools</i> ,	
Safe Learners guidance).	
Procedures for return, inventory, updating, and redistributing	
district-owned devices must meet physical distancing	
requirements.	
- gan accessor	
2d. SCHOOL SPECIFIC FUNC	TIONS/FACILITY FEATURES
OHA/ODE Requirements	Hybrid/Onsite Plan
☐ Handwashing: All people on campus should be advised and	Handwashing:
encouraged to wash their hands frequently.	
☐ Equipment: Develop and use sanitizing protocols for all equipment	Equipment:
used by more than one individual or purchase equipment for	
individual use.

	physical distancing.	Personal Property:
	Transitions/Hallways: Limit transitions to the extent possible.	Fersonal Property.
	Create hallway procedures to promote physical distancing and	
_	minimize gatherings.	
	Personal Property: Establish policies for personal property being	
	brought to school (e.g., refillable water bottles, school supplies,	
	headphones/earbuds, cell phones, books, instruments, etc.). If	
	personal items are brought to school, they must be labeled prior to	
	entering school and use should be limited to the item owner.	
		ND DISMISSAL
OHA	A/ODE Requirements	Hybrid/Onsite Plan
Ш	Physical distancing, stable cohorts, square footage, and cleaning	
	requirements must be maintained during arrival and dismissal	
	procedures.	
	Create schedule(s) and communicate staggered arrival and/or	
	dismissal times.	
	Assign students or cohorts to an entrance; assign staff member(s)	
	to conduct visual screenings (see section 1f of the <i>Ready Schools</i> ,	
	Safe Learners guidance).	
	Develop sign-in/sign-out protocol to help facilitate contact tracing:	
	 Eliminate shared pen and paper sign-in/sign-out sheets. 	
	 Ensure hand sanitizer is available if signing children in or out 	
	on an electronic device.	
	Install hand sanitizer dispensers near all entry doors and other	
	high-traffic areas.	
	Establish and clearly communicate procedures for keeping	
	caregiver drop-off/pick-up as brief as possible.

OHA	/ODE Requirements	Hybrid/Onsite Plan
	Maintain clean and disinfected (<u>CDC guidance</u>) environments,	
	including classrooms, cafeteria settings, restrooms, and	
	playgrounds.	
	Apply disinfectants safely and correctly following labeling direction	
	as specified by the manufacturer. Keep these products away from	
	students.	
	To reduce the risk of asthma, choose disinfectant products on the	
	EPA List N with asthma-safer ingredients (e.g. hydrogen peroxide,	
	citric acid, or lactic acid) and avoid products that mix these with asthma-causing ingredients like peroxyacetic acid, sodium	
	hypochlorite (bleach), or quaternary ammonium compounds.	
	Operate ventilation systems properly and/or increase circulation of	
	outdoor air as much as possible by opening windows and doors,	
	using fans, and through other methods. Do <u>not</u> use fans if they	
	pose a safety or health risk, such as increasing exposure to	
	pollen/allergies or exacerbating asthma symptoms. For example,	
	do not use fans if doors and windows are closed and the fans are	
	recirculating the classroom air.	
	Consider the need for increased ventilation in areas where	
	students with special health care needs receive medication or	
	treatments.	
	Facilities should be cleaned and disinfected at least daily to	
	prevent transmission of the virus from surfaces (see CDC's	
_	guidance on disinfecting public spaces).	
	Air circulation and filtration are helpful factors in reducing airborne	
	viruses. Consider modification or enhancement of building	
	ventilation where feasible (see <u>CDC's guidance on ventilation and filtration</u> and <u>American Society of Heating, Refrigerating, and Air-</u>	
	Conditioning Engineers' guidance).
