Six Steps to Optimal Health

Your Steps to Integration

Our **OPTAVIA** Community provides encouragement and real answers along the path to health, confidence, and vitality. It's all built on our innovative, six-step approach that will enable you to reach your personal goals and create your own foundation for lifelong optimal health.

The six steps are:

*No one can predict how long you are going to live, but research suggests that making an overall lifestyle change by taking an active role in your choices and behavior, including losing weight, eating healthier, moving more, and reducing stress, has the potential to help you live a longer, healthier life.

Step 1

Prepare for Your Journey

As you take your first step toward a healthier life, your **OPTAVIA** Coach will be there for you, to help you see what's possible and to work with you to set the right goals for yourself. For most people, learning the habits that lead to optimal health starts with achieving a healthy weight. Talk to your Coach about:

- Any questions you have about starting your journey.
- Learning the Habits of Health Transformational System.
- Helping you complete your Wellbeing Evaluation online.
- Guiding you to set goals for your health and wellness.

- Work with your **OPTAVIA** Coach to follow our proven
- Optimal Weight 5 & 1 Plan outlined in this guide.

Step 3

Transition to Healthy Eating

When you know what optimal nutrition looks like, healthy eating becomes second nature. Work with your **OPTAVIA** Coach to calculate a calorie intake level that maintains your new, healthy weight. Our Optimal Health 3 & 3 Plan includes three Optimal Health Fuelings and three balanced meals daily. Please continue to enjoy your favorite **OPTAVIA** Fuelings or mix it up, whatever works best with your lifestyle. Choose the right portion sizes and start increasing your total energy expenditure (calories burned daily) by moving more. Your transformation can become an inspiration to others as you move from being the coached to the Coach. You're building a growing, successful business while showing others the way. You can become a Leader in the **OPTAVIA** Community.

5 Fuelings for the Optimal Weight 5 & 1 Plan®

1 Lean & Green Meal

*you can have your
lean & green meal
any time of day*

Lean & Green

We make healthy eating second nature™

What is a Lean & Green Meal?

A Lean & Green meal includes 5 to 7 ounces of cooked lean protein plus three servings of non-starchy vegetables and up to two servings of healthy fats, depending on your lean protein choices.

Enjoy your Lean & Green meal any time of day – whatever works best for your schedule.

If you are dining out or tracking your intake, use the following Lean & Green Meal Nutritional Parameters to help guide your choices:

Lean & Green Meal Nutritional Parameters	
Calories	250 - 400
Carbohydrates	≤ 20g total carbohydrate (preferably < 15g)
Protein	≥ 25g
Fat	10 - 20g

Healthy Fats

Every day, incorporate up to two servings of healthy fats into your Lean & Green meal. Healthy fats are important because they help your body absorb vitamins like A, D, E and K. They also help your gallbladder work properly. A serving of healthy fat should have 5 grams of total fat and less than 5 grams of carbohydrate. You'll find a list of healthy fat choices on page 19.

Lean & Green Meal: The "Lean"

Lean Tips:

- Portion size recommendations are for cooked weight
- Choose meats that are grilled, baked, broiled, or poached – not fried.

- Feel free to choose meatless options like tofu and tempeh. For a complete list of meatless options, please refer to our [Vegetarian Information Sheet](#) or contact Nutrition Support at NutritionSupport@OPTAVIA.com.

Choose the appropriate serving size of any protein from the list on the following pages. We've sorted protein options into lean, leaner, and leanest. All options are appropriate for the Optimal Weight 5 & 1 Plan; this just helps you make informed food choices.

Use condiments to add flavor and zest to your meals, just remember that they contribute to overall carbohydrate intake. The calories you need after transition to maintain your weight varies according to your height, weight, gender, age, and activity level. This 6-week transition leads to an ultimate goal of fewer than 1,550 calories a day. [Transition Sample Meal Plans](#) are available online.

microHabit of Health 1:

Drink one extra glass of water a day.*

Start the Optimal Weight 5 & 1 Plan and eat six small meals per day. Then drink one more glass of water per day than you currently do. Whether in the morning, with a Fueling or in the evening, just one additional glass can be a big win. Staying hydrated is essential to health and helps fight food cravings.

Today and this week, focus on drinking one additional glass of water each day. **OPTAVIA** Purposeful Hydration also helps make hydration a delicious, easy habit and provides key functional benefits. Use the Habits of Health App to track your water and Fuelings from day 1.

Recommended readings: Part 2.5 in *Dr. A's Habits of Health, Second Edition* and Element 10 in *Your LifeBook*.

*We recommend drinking 64 ounces of water each day. Consult with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.

Week 2:

Be Mindful

Continue your week 1 microHabit of Health by incorporating an additional glass of water daily until you reach eight glasses (64 ounces)*. Note the amount of water you've had each day in your log or by using the Habits of Health App.

microHabit of Health 2:

Write one sentence in your OPTAVIA 30 log each day.

As your transformation begins with healthy Fuelings, you will begin to learn mindfulness. Each day, reflect on a moment when you felt a craving and how you handled it, or write about an accomplishment. One sentence is all it takes. Mindfulness helps you avoid choices that lead you away from success. Incorporating this habit into your daily routine will give you an important record of your thoughts and feelings during your **OPTAVIA** journey.

Recommended reading: Element 4 in *Your LifeBook*.

*We recommend drinking 64 ounces of water each day. Consult with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.

On occasion, take some extra time when preparing your Lean & Green meal to be mindful of what you're doing and how it's making you feel. While we lead busy lives, a new and different recipe can really spice things up.

Progress vs. Perfection. Most of us try to succeed by being perfect. So when we just need a minor course adjustment, we may feel we've failed. Your **OPTAVIA** Coach can help you move past these feelings and give you fresh perspective along the way, as they have been in your shoes and can help steer you to success. Quick Tips

Day 8

Practice mindfulness as you eat your Fuelings this week, consuming food slowly and thoughtfully. Spend at least 15 minutes eating each meal. Cut bars into small pieces, and eat one bite at a time. Reflect on changes you're experiencing. What does an optimal life look like to you?

Day 9

As you practice mindfulness, you will become more connected to what matters most, and begin seeing your biggest opportunities. Connect with your **OPTAVIA** Coach for suggestions and support.

Day 10

Hydration alert! As you learned last week, hydration is vital for your health and for reaching your goals. So keep building on this Habit of Health. For a new twist, try a Purposeful Hydration in your water this week.

Week 3:

Transform with Habits of Healthy Sleep

Congratulations! You are two weeks in! You're drinking water and journaling daily, well on your way to integrating new Habits of Health into your daily life. This week's theme is healthy sleep. Sleep is a crucial part of optimal health, but is often overlooked. Getting seven to eight hours of restful sleep nightly can reduce stress, reduce food cravings, prevent overeating, and prevent overeating. Those are some big rewards!

microHabit of Health 3:

Drink one less cup of coffee, soda, or other caffeine source after 12 noon each day.

To build Habits of Healthy Sleep and Energy Management that support reaching a healthy weight, your new microHabit of Health is to drink one less cup of coffee, soda, or other caffeine source after noon each day. According to the FDA, the average American drinks about 300 milligrams (mg) of caffeine per day, equivalent to three cups of coffee or eight cans of soda. If you eliminate caffeine after noon, you're more likely to get a restful night's sleep!

Additionally, following a reduced-calorie meal plan might make you more sensitive to caffeine and keep you even more awake at night.

Recommended readings: Part 2.13 in *Dr. A's Habits of Health, Second Edition* and Element 19 in *Your LifeBook*.

Week 4:

Share the Habits of Healthy Motion

Intense workouts, especially if you're not ready, may do more harm than good. The Habits of Health you've already integrated—eating healthy Fuelings every two to three hours, drinking more water, journaling, sleeping better by consuming less caffeine, and being mindful – are making a difference in your life. Now, we recommend you start being more active with this microHabit of Health.

microHabit of Health 4:
Stand for an extra 2 minutes a day.

Your new microHabit of Health for the week is to stand up during your favorite TV show or while reading a book. Standing activates almost every muscle in your body as you stabilize your posture. It sounds small, but one of the biggest health recommendations in years is to sit down less, so 2 minutes extra of standing a day is a good start! Share this practice with your family and friends to introduce more motion into their lives.*

Recommended readings: Parts 2.9-2.12 in *Dr. A's Habits of Health, Second Edition* and Elements 17-18 in *Your LifeBook*.

*When on the Optimal Weight 5 & 1 Plan, we recommend 30 minutes of moderate exercise while limiting exercise to 45 minutes of light to moderate physical activity each day.

Day 25

Note how your clothes fit as your body changes, which doesn't always show up instantly on the scale. Remember, it's about a healthier you, living your best life. Journal how you feel physically, mentally, and emotionally. Who in your life might benefit from what you're doing? Tag them in a post with your **OPTAVIA** Coach on social media, or connect them directly. You can even pay it forward and decide to coach them yourself!

Day 26

Tried one of our Lean & Green recipes? Awaken your taste buds by mixing things up a bit! Visit our **OPTAVIA** Pinterest page, share your favorite recipe and include friends who may be ready for optimal health. Tag your **OPTAVIA** Coach as they may have recipes to share.

Day 27

You've been journaling for several days now. Today, reread your daily entries and reflect on your next health goals. Your **OPTAVIA** Coach and *Your LifeBook* will help you continue to successfully integrate the Habits of Health and create a plan of action to ensure your continued success for Lifelong Transformation, One Healthy Habit at a Time.

Day 28

One of the best ways to make physical activity even more enjoyable is to share the experience. What group activity can you arrange for family or friends? Share with your social networks and when local connections comment, invite them to join you! Be sure to tag **#OPTAVIA** and **#LifelongTransformation**

Quick Tips

Day 22

You now know sitting for long periods can be unhealthy. As you integrate standing more as a microHabit of Health, think about friends and family who could benefit from a bit more activity. How can you share the Habits of Healthy Motion?

Day 23

Sometimes when we start our journey, our goals center on the scale. But we believe optimal health is about what's added to your life, not what's subtracted. Reflect on your larger health goals. List reasons why you joined the **OPTAVIA** Community and share them with your **OPTAVIA** Coach. This will give you positive reinforcement when you need it.

Day 24

Two more minutes of standing will build a foundation for more activity. Spread the benefits to people you care about most. By walking with your family to the store, strolling after dinner, or hiking with the kids, you're building Habits of Healthy Motion for those you love!

*embrace this day and

Week 5:

Celebrate and Continue

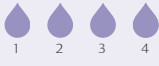

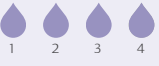

You are about to finish your first 30 days! The steps you've taken are remarkable. You may have had challenges at times, but the obstacle is the way. You made it this far, and that momentum is powerful as you continue on your transformational journey.

microHabit of Health 5:
Celebrate Your Victories.

Your **OPTAVIA** Coach and *Your LifeBook* will help you reflect on and celebrate the integration of each new habit along your journey, giving you the opportunity to step back and say, "Wow, I really did that!" Share your excitement on Facebook and other social media channels, and tag your **OPTAVIA** Coach using **#OPTAVIA**

Call your **OPTAVIA** Coach to celebrate and discuss your next 30 days!
