

ALL-NEW **OPTIMA**

The Power to Surprise

GT model shown

## Technologically Progressive

The All-New Optima has undergone an evolution. The good looks that we all know still remain, however it is now available with a potent turbocharged engine. That's not all, as now you'll also find more progressive driving dynamics, improved innovative safety technologies and a higher-class interior than before.

Si model shown

## Optima Si

Instantly, you'll notice the heritage of award-winning design throughout the All-New Optima Si. A bolder, wider interpretation of Kia's signature Tigernose grille can be found leading its design. A sharp, modern roofline follows suit across the top of the car, resulting in a sporty, yet stylish profile.

Subtle details lend the All-New Optima's design to its athletic nature. You'll find dual exhaust tips, LED daytime running lights and a metallic-finished grille on the Optima Si.

GT model shown

## Optima GT Turbo

The All-New Optima GT Turbo brings sportiness and performance to the Optima range for the first time in Australia. It's not just mechanical changes, either. On the outside, you'll find a deeply scalloped rear diffuser, LED lighting at the rear and a sportier front bumper to complement its powerful 180kW engine.

Highlights such as 18 inch alloy wheels with Michelin Pilot Sport 3 tyres and red brake calipers convey a sense of sportiness.

## Premium finish

Only the finest materials and have been used throughout the cabin of the All-New Optima Range. Inside the GT model, you'll see genuine Aluminium gracing the centre console area. You can even tailor the cabin of your Optima GT to your individual taste, with both black and sporty red leather trim\* options available.

\*Leather trim includes some leather like material on selected high impact areas. Red Leather Trim option available only on GT model in selected exterior colours.

## Technologically Advanced

Alongside a high-quality fit and finish, you'll also find high-quality technologies as standard. Let Advanced Smart Cruise Control assist in monitoring and maintaining a safe distance from the car in-front. And a first for Kia, Autonomous Emergency Braking applies the brakes when a static object is fast approaching the front of the vehicle. The All-New Optima range is just as advanced as it is good looking.

Entertainment is provided by harman/kardon®, with a 10-speaker audio system filling the cabin with your favourite music. (harman/kardon premium audio available on GT model only)

# Intuitive Features

## Advanced Smart Cruise Control

Advanced Smart Cruise Control assists with monitoring and maintaining a safe distance from the car in-front when cruise control is activated.

## harman/kardon® Premium Audio

Enjoy your favourite music more with a 10-speaker harman/kardon® featuring an amplifier and subwoofer. (GT model only)

® harman/kardon is a registered trade mark of Harman industries.

## Wireless Phone Charging (Qi\*)

Simply place your phone with wireless charging capabilities in the centre console storage tray for it to charge wirelessly. (GT model only)

\*Phone device must be wireless charging compatible.

## Smart Boot (Auto Release)

Walk in front of the rear tailgate while holding the vehicle's smart key for it to automatically open – perfect for when your hands are full (GT model only).

## 8-inch Touch Screen With Satellite Navigation

Enjoy the clarity of a large 8-inch touch screen infotainment system with satellite navigation and reverse camera display (GT only. Optima Si features 7-inch Navigation screen).

## Panoramic Sunroof

Enjoy the light and added space that only a full-panoramic glass sunroof can provide (GT model only).

# Efficient Engines

## 2.4L GDI Engine

The Optima Si features an efficient 2.4L engine with Gasoline Direct Injection (GDI), producing 138 kW of power with 241 Nm of torque.

## 2.0L Turbocharged Engine

The Optima GT features our latest 2.0L turbocharged engine, producing a sporty 180 kW of power with 350 Nm of torque.

# Advanced Safety

## Autonomous Emergency Braking (AEB)

Autonomous Emergency Braking (AEB) continuously scans the road ahead, and will apply the brakes if it detects an object fast approaching the front of the vehicle.

## Blind Spot Detection (BSD)

This system uses sensors to identify vehicles approaching from behind, and then alerts the driver through visual alerts on the side mirror. (GT model only)

## Lane Departure Warning (LDWS)

Lane Departure Warning alerts the driver when they begin to exit their lane without the use of a turn signal.

## Rear Cross Traffic Alert (RCTA)

The Rear Cross Traffic Alert System alerts the driver of any cars crossing the path behind the vehicle during reversing situations. (GT model only)
