

Oregon's Historic Senate Floor Desks

Since the first session in Oregon's current Capitol in 1939, every Oregon State Senator has had their service commemorated with a small brass plaque on the Senate floor desk occupied by the Senator.

Until the Capitol Wings were opened in 1977, Oregon State Senators used their Senate floor desks as their main office space. Now, Senators each have an office in the Senate Wing and the historic Senate floor desks are used by members during the daily Senate floor sessions.

The interactive diagram on the following page shows the Senate floor desks with a link to a list of members who have occupied each respective desk since 1939.
